Title: UNSUB(S);
SAMANTHA TESSLA KOENIG - VICTIM;
ALLEGED ROBBERY AND/OR KIDNAPPING,
ANCHORAGE, ALASKA
02/01/2012
DOMESTIC POLICE COOPERATION - VIOLENT CRIMINAL THREAT

Synopsis: Open and assign captioned matter.

Details: On 02/03/2012, at approximately 10:15am, the Anchorage Police Department (APD) requested assistance in the investigation of the suspected robbery and/or kidnapping of Samantha Koenig, date of birth (DOB) 08/30/1993, which was believed to have occurred at approximately 8:00pm, on 02/01/2012. Koenig was working alone at the Common Grounds coffee stand, which is located near the intersection of Tudor Road and Fairbanks Street in Anchorage, at the time of this incident. According to APD, surveillance video footage and information received from Koenig's boss and boyfriend (different individuals) appears to support that she was robbed and/or kidnapped during the aforementioned incident.

APD has been and continues to aggressively pursue all available leads, but has not yet been able to locate Koenig or conclusively determine if she was robbed and/or kidnapped. In particular, APD requested assistance in the location of Koenig's cellular telephone bearing number (907) 884-8370, which she appears to have been using immediately prior to, and possibly after said robbery and/or kidnapping. Consequently, it is recommended that captioned matter be opened and assigned.

Title: UNSUB;
SAMANTHA KOENIG - VICTIM;
LOCAL ASSIST

Synopsis: To request the assistance of the Human Scent Evidence Team in the investigation of the disappearance of Samantha Koenig.

Details: On 02/07/2012, the Anchorage Police Department (APD) requested the assistance of the Anchorage Division in the investigation of the disappearance of Samantha Koenig. APD was contacted by Samantha's father on 2/1/2012 who advised Samantha did not return home from her job at a local coffee stand.

Samantha is an eighteen year old female who was last seen on the evening of 2/1/2012. She worked at a drive up coffee stand in Anchorage. Video surveillance from the coffee stand shows a male entering the coffee stand and abducting Samantha at gun point. APD and FBI continue to follow up on leads but there are no solid leads at this point.

Writer is requesting the assistance of the ERTU Human Scent Evidence Team.

SUMMARY

Synopsis of Complaint:
Anchorage Private Investigator claiming to have information regarding the disappearance of Samantha Koenig. Specifically, information regarding possible suspect in Koenig's disappearance.

SENSITIVE INVESTIGATIVE MATTER

A "Sensitive Investigative Matter" (SIM) relates to investigative activities where the nature of the person or group being assessed should be brought to the attention of FBI Headquarters and other DOJ officials. CDC review and SAC approval is required for all SIMs. Use the checkbox below to signify that this assessment is a SIM. Once the box is checked, follow the prompts on the form to provide additional details regarding the SIM.

Complainant called stating that [redacted] is a possible suspect in the disappearance of Samantha Koenig.

b6
b7C

Complainant stated that he is a licensed private investigator in the state of Alaska, and had worked briefly for the Koenig family on instant matter. Complainant wishes to have instant information passed to Anchorage Police Department, but is frustrated by the lack of return calls. Complainant believes the FBI is working the investigation due to a recent story in the Anchorage Daily News stating same.

Complainant provided that [redacted] is aged approximately [redacted] and is the son of [redacted] Alaska, telephone number [redacted] Complainant has spoken with [redacted] regarding [redacted] who may be associated with Koenig, has not called in several days, and this is outside of [redacted] normal pattern of life.

Complainant further provided that [redacted]

Complainant desires this information to be passed to APD, and is available for further contact.

SUMMARY

Synopsis of Complaint:
Complainant provided information about kidnap victim Samantha Koenig.

SENSITIVE INVESTIGATIVE MATTER

A "Sensitive Investigative Matter" (SIM) relates to investigative activities where the nature of the person or group being assessed should be brought to the attention of FBI Headquarters and other DOJ officials. CDC review and SAC approval is required for all SIMs. Use the checkbox below to signify that this assessment is a SIM. Once the box is checked, follow the prompts on the form to provide additional details regarding the SIM.

[ ] Sensitive Investigative Matter

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 23 / 431

Details of the Complaint:
Complainant contacted FBI Anchorage on 2/12/2012 at approximately 6:45pm and advised that he was in the APD parking lot and wanted to provide information about Samantha Koenig ("Samantha") to law enforcement, however, did not entirely trust APD. Complainant stated that he believed his GCI cell phone was cloned and wanted to talk in person. Complainant agreed to meet at the FBI office with writer. Writer met with complainant at the FBI office between approximately 730pm and 930pm.

****

The above information was provided to SSA [redacted] Writer then contacted APD Lt. [redacted] and told her the highlights of the above information. Lt. [redacted] advised that some of this information was not known by APD and she would have Det. [redacted] come to the FBI to interview complainant in one hour. About five minutes later, writer received call from Det. [redacted] advised that [redacted] had contacted her earlier in the day with the information told to him by complainant. [redacted] advised that [redacted] had already provided a sworn statement to APD [redacted] was dismissive of the information provided by writer and described it as "drug drama" and advised writer to encourage complainant to contact [redacted] the following morning to meet and be interviewed at APD.

****

After talking with Lt. [redacted] writer told complainant that Det. [redacted] would be coming over to interview him. However, after writer heard from Det. [redacted] and she advised that she wasn't going to interview complainant tonight and that he would have to meet her at APD in the morning, complainant became frustrated that his information wasn't being taken seriously. Complainant then advised that he had made calls to individuals (NFI) earlier in the day that worked towards finding and [redacted] (NFI). Complainant explained that there was a plan [redacted] and coordinate an exchange for Samantha. Writer does not know to what extent complainant was involved in this plan. Complainant advised that he would not likely be able to meet with [redacted] the following morning, but would call her to discuss. Writer advised complainant to lay low and not take any proactive action against or for any of the individuals involved in this case. Complainant agreed that he would lay low and not take proactive actions.

After terminating the interview with complainant, writer advised SSA [redacted] of the above information.

SAMANTHA KOENIG - VICTIM;
LOCAL ASSIST

Synopsis: To request BAU-2 assistance in captioned case.

Details: On 2/16/2012, the Anchorage Police Department (APD) contacted SA [redacted] and requested assistance in preparing investigative strategies and profile of unknown offender for captioned adult kidnaping/missing person case. Anchorage is requesting BAU-2 assistance in these matters. Koenig is an 18 year old female who was abducted on 2/1/2012 from the Common Grounds coffee shack where she worked. Anchorage has numerous small drive up coffee shacks located in parking lots throughout the city. Video surveillance from Common Grounds shows a single offender approach the coffee shack, jump through the window, and leave with Koenig. Anchorage will provide additional reports, videos, and photos.

SUMMARY

Synopsis of Complaint:
[redacted] called with info given to her from individuals (friends and/or family members of Samantha) re the Samantha Koenig disappearance case.

SENSITIVE INVESTIGATIVE MATTER

A "Sensitive Investigative Matter" (SIM) relates to investigative activities where the nature of the person or group being assessed should be brought to the attention of FBI Headquarters and other DOJ officials. CDC review and SAC approval is required for all SIMs. Use the checkbox below to signify that this assessment is a SIM. Once the box is checked, follow the prompts on the form to provide additional details regarding the SIM.

☐ Sensitive Investigative Matter

Details of the Complaint:
[redacted] advised she has had several individuals (could provide no names for the individuals) [redacted] who are friends and/or family members of missing teenager Samantha Koenig. They all advised info to the affect that Samantha is extremely heavy into meth and they feared that she might OD on meth if she is not found soon. It was stated by these individuals that a week before Samantha went missing she stole $5,000 from her dad, that two or three days before her disappearance she deleted her facebook and my space accounts, and that the day she disappeared she shut off her cell phone. It was also stated by the individuals that Samantha always wanted her dad to pay attention to her and would do things to get his attention.
The above information was given to [redacted] who was in the office working on the case.

FBI Records: The Vault — Israel Keyes LastKnownContact.com

To: Criminal Investigative From: Anchorage
Re: 7A-AN-15642, 02/27/2012

On the evening of 02/24/2012, [redacted] received a text message from her telephone. The message gave [redacted] instructions on how to find the location of a note placed in a local Anchorage park. [redacted] notified APD and led investigators to this note along with what appeared to be a photograph [redacted] Koenig. Also displayed in this photograph is the front page of the Anchorage Daily News from 02/13/2012. Whoever wrote the note demanded $30,000.00 be placed on a VISA debit card, issued by a local Credit Union. The author provided no deadline for when this deposit was to be made nor outline any consequences for failure to do so. b6 b7C

The surveillance video, recent activity on Koenig's cellular telephone, along with the demand note and photograph, indicate Koenig may have been kidnaped. However, the note's placement in a local park, the use of a local Credit Union debit card, along with no apparent use of her cellular telephone outside of the coverage area, suggest Koenig may still be in Alaska.

APD investigation to date yields no conclusive evidence regarding Koenig's location or possible transport in interstate or foreign commerce. Furthermore, due to its need of technical and analytical resources, the APD has requested assistance from the FBI.

In view of the above, the Anchorage Division is converting this matter from a 343G (Domestic Police Cooperation) classification to a 7A (Kidnaping). Investigative efforts during [redacted] will focus on establishing whether or not Koenig has left the state of Alaska. b7E

SA [redacted] will remain the case agent. b6 b7C

ALLEGED ROBBERY AND/OR KIDNAPING
ANCHORAGE, ALASKA

Date specimen received: February 27, 2012

The item listed below was received in the Questioned Documents Unit on February 29, 2012:

Q1 Page beginning "30k to be deposited..." (1B2, E4588971)

This report contains the results of the questioned document examinations.

Results of Examinations:

The Q1 typewriting most closely corresponds to the Laboratory standards for a Courier pica type of type having a horizontal spacing of ten characters to the inch. This style of type is available on numerous foreign and domestic typewriters.

The Q1 typewriting was produced utilizing a carbon ribbon. Carbon ribbons contain readable text which can be associated with questioned typewriting. Should a suspect ribbon be located, it should be submitted to the Laboratory along with resubmitted Q1.

The back of specimen Q1 was produced from a color ink jet printing process.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 40 / 431

No watermarks, indented writing, or other physical characteristics were observed during the examination of Q1 which might indicate its immediate source.

Specimen Q1 was searched in the Anonymous Letter File with negative results. An appropriate entry has been added to the file for future reference.

Remarks:

The submitted item will be returned at a later date. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

Your No.:

Title: KOENIG, SAMANTHA, TESSLA
ALLEGED ROBBERY AND/OR KIDNAPING
ANCHORAGE, ALASKA

Date specimens received: February 27, 2012

The specimen listed below was examined in the Latent Print Operations Unit:

Q1 Page beginning "30k to be deposited..." (1B2, E4588971)

This report contains the results of the examination of friction ridge prints.

Results of Examinations:

The requested latent print examinations were conducted, but no latent prints were detected.

Methods:

Items of evidence submitted to the Latent Print Operations Unit for examination may be examined visually, examined with various light sources, and/or processed with chemicals and powders to detect the presence of latent friction ridge prints. The specific sequence of examinations and processes depends upon the nature of the evidence.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 43 / 431

Friction ridge print examinations are conducted using the Analysis, Comparison, Evaluation, and Verification methodology (ACE-V), which includes an assessment of the quantity and quality of the information present. The steps of ACE-V are applied to each examination as appropriate.

Analysis is the assessment of a friction ridge print to determine if sufficient reliable details are present to conduct a comparison with another print and to reach an identification conclusion. If these conditions are met, the print is determined to be of value.

Comparison is the direct side-by-side observation of friction ridge prints of value to determine whether or not the information in two prints is in agreement.

Evaluation is the formulation of a conclusion based on the information gathered during the analysis and comparison of the friction ridge prints.

Conclusions that can be reached are as follows:

- Identification - the determination that there is sufficient quality and quantity of detail in agreement to conclude that two friction ridge prints originated from the same source.
- Exclusion - the determination that there is sufficient quality and quantity of detail in disagreement to conclude that two friction ridge prints did not originate from the same source.
- Inconclusive - the determination that corresponding areas of friction ridge prints are absent and/or unreliable and therefore cannot be identified or excluded.

Verification is the independent application of the analysis, comparison, and evaluation phases of the ACE-V methodology to a friction ridge print by another examiner.

Interpretations:

Due to the many factors involved in the deposition of a friction ridge print, neither the absence of a friction ridge print on evidence nor the exclusion of a friction ridge print with a given source disassociate that source from having touched the evidence.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 44 / 431

Remarks:

For questions about the content of this report, please contact Physical Scientist/Forensic Examiner [redacted] b6 b7C

For questions about the status of your submission, including any remaining forensic examinations, please contact Request Coordinator [redacted]

The specimen is being returned under separate cover. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

SUMMARY

Synopsis of Complaint:
Complaint by [redacted] kidnap victim Samantha Koenig, regarding lack of communication with APD.

SENSITIVE INVESTIGATIVE MATTER

A "Sensitive Investigative Matter" (SIM) relates to investigative activities where the nature of the person or group being assessed should be brought to the attention of FBI Headquarters and other DOJ officials. CDC review and SAC approval is required for all SIMs. Use the checkbox below to signify that this assessment is a SIM. Once the box is checked, follow the prompts on the form to provide additional details regarding the SIM.

☐ Sensitive Investigative Matter

Details of the Complaint:
[redacted] of kidnap victim Samantha Koenig, called to complain that APD is not communicating with him regarding the kidnapping of [redacted] His numerous calls to APD have not been returned (specifically calls to [redacted] APD previously promised to contact him once per day, but he has not heard from them in several days. He would like to know the status of any FBI investigation regarding the kidnapping, and he offered to help in any way. [redacted] expressed frustration that he has "hit a brick wall." He would like someone from the FBI to call him at [redacted] (Cell) or [redacted] (Home).

INVESTIGATIVE METHODS

If an Investigator has been assigned to conduct an assessment, all investigative methods used during this assessment must be reported on the form. The Add Method button can be used to create additional Method sections as needed. The Method Explanation field should be used to describe the results of each individual method employed. Once the assessment has been completed, the Findings section can be used to report overall results and recommendations to the Supervisor.

IN THE DISTRICT/SUPERIOR COURT FOR THE STATE OF ALASKA
AT Anchorage

SEARCH WARRANT
NO. 12-305 SW

Relates to case number(s):

TO: Any Peace Officer

☐ Sworn testimony having been given by _____,

☒ An affidavit having been sworn to before me by Detective [redacted] DSN 1488, b6 b7C

☐ Following my finding on the record that there is probable cause to believe that 1) the presentation of the applicant's affidavit or testimony personally before a judicial officer would result in a delay in obtaining or executing a search warrant; and 2) the delay might result in loss or destruction of the evidence subject to seizure or might interfere with an ongoing investigation, recorded sworn testimony was given by telephone by _____

I find probable cause to believe that

☐ on the person of _____

☒ on the premises known as AT&T at Dallas, TX, Alaska, there is now being concealed property, namely:
See Attachment #A

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 53 / 431

SEARCH WARRANT NO. _____SW

and that such property (see AS 12.35.020)

☒ 1. is evidence of the particular crime(s) of Kidnapping in any degree, AS 11.41.300 et. seq.

☐ 2. tends to show that _____

committed the particular crime(s) of _____.

☐ 3. is stolen or embezzled property.

☐ 4. was used as a means of committing a crime.

☐ 5. is in the possession of a person who intends to use it as a means of committing a crime.

☐ 6. is one of the above types of property and is in the possession of _____, to whom _____ delivered it to conceal it.

☐ 7. is evidence of health and safety violations.

YOU ARE HEREBY COMMANDED to search the person or premises named for the property specified, serving this warrant, and if the property be found there, to seize it, holding it secure pending further order of the court, leaving a copy of this warrant, and all supporting affidavits, and a receipt of property taken. You shall also prepare a written inventory of any property seized as a result of the search pursuant to or in conjunction with the warrant. You shall make the inventory in the presence of the applicant for the warrant and the person from whose possession or premises the property is taken, if they are present, or in the presence of at least one credible person other than the warrant applicant or person from whose possession or premises said property is taken. You shall sign the inventory and return it and the warrant within 10 days after this date to this court as required by law.

YOU SHALL SERVE THIS WARRANT:

☑ ☐ between the hours of 7:00 a.m. and 10:00 p.m.

☐ between the hours of _____ ☐ a.m. ☐ p.m.

and _____ ☐ a.m. ☐ p.m.

☒ at any time of the day or night.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 54 / 431

SEARCH WARRANT NO. _____SW

YOU SHALL MAKE THE SEARCH:

☒ immediately. Expires within

within 60 ☑ days after installation

☐ within 10 days.

☐ contingent upon the happening of the events expected to occur as set forth in the supporting testimony, specifically _____

From the information provided in the application for the warrant, I find compelling reasons to postpone delivery of this notice beyond the time set in Criminal Rule 37(b).[1] Therefore, this notice must be given:

☐ immediately upon seizure of the property.
☐ within a reasonable period, not to exceed 90 days from this date.
☒ within 90 days, which I have determined to be a reasonable time in this case.

If you cannot deliver the notice within this time limit, you must apply to the court for an extension of the time limit. Your sworn application must show good cause for the extension.

Search Warrant #3AN-12-_____sw

ATTACHMENT #A

1. The installation of a pen register (a device to identify/register telephone numbers dialed or pulsed from a specified telephone number), and calling line identifiers (a device to identify incoming telephone numbers from which calls are made into a specified telephone number, statutorily referenced as a "trap and trace device") on the **TARGET TELEPHONE NUMBER,** [redacted] which is a cellular telephone issued by AT&T for a period of 60 (sixty) days from the date of installation. b6 b7C

2. Further, the installation, service, and monitoring of this device will be conducted by members of the Anchorage Police Department or other qualified law enforcement personnel to included technical assistance in implementing this order, warrant, etc., provided by the Federal Bureau of Investigation (FBI). This application also provides authorization to receive subscriber information including the subscriber names, addresses, and billing information related to the outgoing and incoming telephone numbers identified by the pen register and calling line identifier and to record or decode dialing, routing, addressing,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 57 / 431

cellular telephone towers, or signaling information transmitted from the **TARGET TELEPHONE NUMBER.**

3. This order further directs that upon service of the order upon it, the local, long distance, and wireless carriers, and any other person or entity providing wire communication service in the United States whose assistance may facilitate execution of the order, furnish the information, facilities, and technical assistance necessary to accomplish unobtrusively the installation and use of the pen register and trap and trace device with compensation to be paid by the investigative agencies for reasonable expenses directly incurred in providing such facilities and assistance.

4. It is further ordered that the local, long distance, and wireless carriers, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the order, furnish the results of the pen register and trap and trace installation to the investigative agencies, as soon as practicable, twenty-four (24) hours a day, for the duration of the order.

5. It is further ordered that any other communications common carriers to furnish forthwith, related

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 58 / 431

subscriber information, including subscriber names, addresses and related billing information related to such numbers identified per the pen registers and calling line identifiers.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 59 / 431

VRA CERTIFICATION

I certify that this document and its attachments do not contain (1) the name of a victim of a sexual offense listed in AS 12.61.140 or (2) a residence or business address or telephone number of a victim of or witness to any offense unless it is an address used to identify the place of the crime or it is an address or telephone number in a transcript of a court proceeding and disclosure of the information was ordered by the court.

AFFIDAVIT OF [redacted] b6 b7C

I, [redacted] being first duly sworn on oath, hereby depose and state:

1. That since December 1997 I have been employed as a police officer with the Municipality of Anchorage. Upon graduation of a twenty-one week police academy, I completed fourteen weeks of field training and was assigned to patrol until May 2001. At this time I was promoted to the Special Assignment Unit, which specialized in conducting investigations into street level drugs, gambling, and prostitution.

2. In March 2002 I was promoted to Detective and assigned to the Burglary Unit at APD. In June 2002 I became a part of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com

Metro Drug Unit until July 2007, when I was assigned to the Drug Enforcement Administration as a Task Force Officer until January 2012, when I was assigned to the Anchorage Police Department Homicide Unit and am currently assigned there.

3. Prior to being hired at the Anchorage Police Department, I graduated from Northern Michigan University with a Bachelor's Degree in Science. The focus of the degree was a major in Criminal Justice and a minor in Psychology. In December 2003 I obtained a Master's Degree in Criminal Justice from Boston University.

4. I have also completed an additional forty- hour advanced course in Crime Scene Processing and a forty- hour advanced course in Accident Investigation, as well as a forty- hour Detective Academy taught by the Anchorage Police Department. Additionally, I have completed a forty- hour course in clandestine drug laboratories from the Drug Enforcement Administration.

5. I have also completed an eighty-hour course of instruction in Basic Drug Investigations conducted by the Drug Enforcement Administration's training staff. This school trained me in state and federal drug laws, development of probable cause, search and seizure law, drug identification and field testing, informant handling, marijuana eradication, surveillance techniques, street lingo, packaging and pricing, transportation and distribution of drugs. I also received

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 61 / 431

formal and supervised hands-on training in the field testing of cocaine, heroin, Methamphetamine and marijuana.

6. In July of 2005, I conceptualized, wrote, and instituted the drug field testing class at the Anchorage Police Department Police academy, and am currently the lead instructor for that course.

7. On September 7th, 2006 I was qualified as an expert witness in drug paraphernalia in front of the honorable Judge Wolverton in Alaska Superior Court. In July 2007, I was qualified as an expert drug witness in front of the honorable Judge McKay in Alaska Superior Court. I have been qualified and testified as an expert witness in narcotics distribution in Alaska State grand jury proceedings approximately fifty (50) times in the past three years.

8. During my tenure as a police officer, I have conducted and/or participated in numerous investigations relating to the use, possession, manufacture, and trafficking of controlled substances, and I have become familiar with devices, paraphernalia, techniques, and practices used by people engaged in the use, possession, manufacture, and trafficking of controlled substances. I have conducted and/or participated in investigations which have resulted in the seizure of marijuana, marijuana grow operations, cocaine hydrochloride, cocaine base (crack), opium, PCP, heroin, ketamine, methylenedioxymethamphetamine (MDMA/ecstasy),

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 62 / 431

methamphetamine, methamphetamine laboratories, prescription medications, firearms, pagers, cellular telephones, surveillance systems, cameras, memory cards, computers, documents, money, and precious metals. I have also conducted numerous interviews of people involved in the use, possession, manufacture, and trafficking of controlled substances, adding to my knowledge of the illegal drug culture in the Anchorage area. In addition to my formal training and experience, I have gained knowledge and insight by working and speaking with many experienced law enforcement agents from local, state, and federal agencies, and I consider this knowledge and insight to be an integral part of my experience and training.

9. I have worked as an undercover officer for prostitution and controlled substance cases and have assisted other Detectives with controlled substance cases as photographer, surveillance officer, evidence custodian, and entry/search team member. I have been the case officer on drug cases, assigning and directing other officers in the investigations. I have also acted as a Control Officer for handling Cooperating Sources in controlled substance cases.

INVESTIGATION

10. I am currently assisting in the investigation of APD case 12-5307, a kidnapping investigation. The following information is based upon either my own observations or the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 63 / 431

observations of other Anchorage Police Officers conveyed to me orally or via their written reports prepared under Anchorage Police Case 12-5307.

11. On 2-2-12 at about 12:39 [redacted] b6 b7C Common Ground Coffee stand at 630 E. Tudor, contacted APD dispatch. [redacted] was calling from Oregon, where he was vacationing. He reported that while viewing his internet based security system he saw one of his employees, Samantha Koenig, appear to be abducted. [redacted] said he was contacted by [redacted] who had been unable to locate her. This contact prompted [redacted] to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 on 2-1-12 while Koenig was working. The video shows Koenig giving the man the money from the register and leaving with him.

12. During a taped Mirandized interview on 02-02-2012 by Detective [redacted] and I, [redacted] said he went to the coffee stand on 2-1-12 at about 20:33 to give her a ride home but the stand appeared to be closed and she was not there. [redacted] was asked to describe in detail exactly what he did when he arrived at Common Grounds to pick S. Koenig up from work on 02-01-2012. [redacted] stated he drove around the coffee stand and noticed the interior lights were off. He then parked the truck, got out, and looked through one of the windows.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 64 / 431

He stated that "everything was closed", that the wooden slides used to block the windows from sliding were in place. He added that there were napkins on the floor and the towels used to clean still sitting on the countertop- which he thought was unusual as S. Koenig was very conscientious about being neat. [redacted] stated that after looking in the windows and noticing the wooden blocks were in place, he did not attempt to see if the door was locked as he did not want to "trigger an alarm and be accused of breaking in." [redacted] provided a cellular telephone number of [redacted] (the **TARGET TELEPHONE NUMBER.**) b6 b7C

13. APD Detectives have obtained both interior and exterior surveillance tape from Common Grounds. On 02-01-2012 at approximately 2023 hours, multiple surveillance cameras show a vehicle matching [redacted] truck) drive up to Common Grounds, briefly pause at one of the windows (as if the driver is looking in the window) and then drive away. As indicated by the surveillance videos, the vehicle was in the vicinity of the coffee stand for approximately 8 seconds.

14. Throughout the interview, [redacted] consulted text messages and telephone call logs on his cell phone to provided Detective [redacted] and I with the exact times of events that occurred on 02-01-2012 and 02-02-2012. [redacted] initially told Detectives that he and Koenig's

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 65 / 431

relationship had been "bumpy" at one point, but had been going well recently, including the day Koenig disappeared. When asked to describe why the relationship was "bumpy", [redacted] stated he had been talking to other girls on Facebook- which Koenig did not like. During the time [redacted] was speaking about the day Koenig disappeared, he referenced several texts between him and Koenig and moved his cell phone across the table in the interview room so I could read them as well. After reading several of the texts from 02-01-2012 between [redacted] and Koenig (with [redacted] scrolling through them without prompting so I could read them), I indicated several texts that implied S. Koenig and [redacted] were arguing. [redacted] then admitted that at one point he had called Koenig to talk to her, and she told him she couldn't talk because she was busy with a customer. [redacted] stated he said, "Whatever," and ended the call. [redacted] vehemently denied any further disagreements between he and S. Koenig.

b6
b7C

15. [redacted] said he tried to contact S. Koenig at her cell phone by calling and texting but he did not get an immediate reply. Samantha Koenig's cellular telephone number is (907)884-8370. [redacted] said he continued attempting to contact Koenig and got a reply at about 2324 hours on 2-1-12. [redacted] showed me the text, which read, "F U asshole i know what u did i am going to spend a couple of days with friends need time to think plan actig weird

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 66 / 431

let my dad know." [redacted] said from the word usage and texting style he does not believe Koenig authored the text. Koenig's cell phone provider is GCI, her number is (907) 884-8370. At 2353 hours, [redacted] cell phone showed a second text message received from S. Koenig's phone. The second text message read, "F U". b6 b7C

16. [redacted] also reported that at about 0300 on 2-2-12 he saw a man wearing a mask going through Koenig's vehicle which was parked at their residence, [redacted] in Anchorage, Alaska. [redacted] told me during an initial interview on 02-02-2012 at approximately 1400 hours that he subsequently went through the vehicle and found nothing missing but Samantha Koenig's Alaska Driver's License- which was kept in a zippered pocket on a visor organizer on the driver's side of the vehicle. [redacted] told Detective [redacted] and I he was positive nothing else was missing from the vehicle.

17. [redacted] said he and Koenig share the vehicle, a [redacted] [redacted] AK plate [redacted] each of them have keys to the vehicle [redacted] said the last time Koenig used the vehicle was when she drove it to work the morning of 2-1-12. [redacted] told me that he remained at his residence of [redacted] in Anchorage where he fell asleep at approximately 0430 hours until approximately 0920 hours. When I asked him why he had not at some point contacted the police department to report the suspicious circumstances

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 67 / 431

and S. Koenig missing, he replied that he did not think the police would "do anything about it until they were missing for 24 hours." This was the same answer [redacted] provided during his interview, which immediately preceded [redacted]

b6
b7C

18. The [redacted] AK plate [redacted] was impounded to APD secure storage on 02-02-2012 at approximately 1400 hours. A search warrant was subsequently obtained and executed on the vehicle by the Anchorage Police Department. In the visor organizer, in the same pocket as [redacted] described Koenig's missing id was kept, was a Visa credit card and a Credit Union 1 debit card.

19. On 02-02-2012 at approximately 0330 hours, an individual dressed in a black hooded sweatshirt, sunglasses, jacket and black gloves utilized an ATM at the Denali Alaskan FCU located 3020 Minnesota Drive in Anchorage, Alaska. The individual utilized an ATM card issued to [redacted]

20. On 02-02-2012 at approximately 2000 hours and at my request, APD Officers [redacted] responded to [redacted] I requested a brief follow up with [redacted] in reference to why he had called Common Grounds the morning of 02-02-2012 demanding to see the video surveillance from the night before. Officer [redacted] told me he knocked on the door to [redacted] and [redacted] answered the door. Immediately after opening

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 68 / 431

the door, [redacted] opened it enough to allow himself through, and left the door only slightly ajar while he spoke with Officer [redacted] Upon requesting to talk to [redacted] re-entered the apartment via the same method, and closed it firmly behind him. When [redacted] came to the door, he too opened it only enough he could fit through, and then closed it behind him while he spoke to Officer [redacted]

b6
b7C

21. On 02-05-2012, at approximately 0900 hours, APD Detective [redacted] and I went to [redacted] in an effort to contact [redacted] reference the ATM card usage. No one answered the knock on the door to the residence. The occupant of [redacted] a white male who identified himself as [redacted] stated that neither [redacted] was home. I called [redacted] and asked him to come to APD Headquarters. [redacted] who stated he was with [redacted] distributing missing person fliers. He refused my request to come to APD Headquarters, and then the phone was taken by [redacted] [redacted] angrily demanded to know why "we were at his house looking for him." I told [redacted] we were in fact looking for [redacted] because we had further questions for him. [redacted] expressed suspicion at this and stated he and [redacted] would meet us at a separate location, but not at the residence.

22. At approximately 1200 hours, Detective [redacted] and I contacted [redacted] behind the Spenard

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 69 / 431

Builder's Supply located at Tudor Road and Minnesota Blvd. They arrived with [redacted] operating a [redacted] [redacted] Alaska license plate [redacted] Detective [redacted] contacted [redacted] while I spoke with [redacted] During the contact, which was tape recorded, I asked [redacted] what his knowledge of S. Koenig's finances were. He stated she had an account at Credit Union One for a long while, and approximately a week and a half prior, he had been added to the account. He stated two debit cards were issued for the account- which had a balance of approximately $5.00 United States Currency. He stated the cards bore different numbers even though they were for the same account, but they had obtained the same PIN number for both of the cards. [redacted] knew "for a fact" that the last activity on the account was on January 31st when he used the account to cash a check for $30.00. When asked what his debit card was, [redacted] stated it was in his wallet- which he described as brown in color- which was in the [redacted] stated the wallet was either in the same visor organizer S. Koenig's identification had been taken from, or in the center console of the vehicle. When a State of Alaska search warrant was executed on the vehicle on 02-03-2012, no wallet was found.

b6
b7C

23. During his initial contact with APD Officer [redacted] on 02-02-2012 at approximately 1200 hours, [redacted] denied any knowledge that Samantha Koenig had ever used drugs. He

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 70 / 431

provided his cellular telephone number of [redacted] b6 b7C During the taped, Mirandized interview of [redacted] conducted on 02-02-2012, [redacted] told me that S. Koenig used marijuana, and had used cocaine a year prior but had been "clean" since that time. [redacted] provided a cellular phone number of [redacted] the **TARGET TELEPHONE NUMBER.** During a recorded interview with S. Koenig's [redacted] stated Samantha Koenig was a recovering cocaine addict. During interviews with several other friends and acquaintances of Samantha Koenig, the fact that she was recovering from a substance abuse problem and that she occasionally relapsed seemed to be a common theme.

24. On 02-05-2012, Detectives [redacted] drove to a residence located at [redacted] in Anchorage, Alaska in an attempt to contact [redacted] was not there, but they spoke with [redacted] who identified himself as S. Koenig's [redacted] During the interview, [redacted] stated that [redacted] behavior changed dramatically about a week and a half prior as he was moving out of the [redacted] address. Specifically, [redacted] stated [redacted] was "doing licks" (street lingo for robbing drug dealers). Furthermore, [redacted] observed what he described as a black and grey smith and Wesson .40 semi auto pistol tucked in the front of [redacted] pants and stated [redacted] boasted of "pulling

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 71 / 431

a lick" at that time.

b6
b7C

25. On 02-05-2012 Detectives [redacted] conducted an interview with [redacted] Samantha Koenig's [redacted] During interviews with multiple friends and family members of Samantha Koenig, [redacted] is considered S. Koenig's [redacted] During the interview, [redacted] stated he knew S. Koenig, but did not have much of a relationship with her. He indicated his girlfriend- [redacted] knew her much better, and Detectives should talk to [redacted] for more information. [redacted] told Detectives that he knew from relatives that S. Koenig was missing, but did not believe it was a legitimate abduction. [redacted] stated he had been talking with his father- [redacted] regarding S. Koenig, and stated he told his father that S. Koenig had relapsed and was on a "cocaine binge." [redacted] stated his cell phone number was [redacted]

26. On 02-08-2012, pursuant to Alaska Search warrant #3AN-12-206sw, members of the Anchorage Police Department searched [redacted] in Anchorage, Alaska. Per Detective [redacted] present in the crawl space of the apartment appeared to be a marijuana grow operation that was recently dismantled. In addition to two 1000 watt halogen bulbs, there was growing medium, several pots, black plastic, and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 72 / 431

marijuana "shake"- or small pieces of discarded marijuana plant material.

27. On 02-09-2012, Detectives [redacted] conducted a recorded, Mirandized interview with [redacted] date of birth [redacted] During the interview, [redacted] told Detectives that his friend [redacted] whom he later identified as [redacted] from [redacted] Alaska Driver's License Photo- told him of a recent conversation [redacted] had with [redacted] best friend - [redacted] whom he identified from [redacted] Alaska Driver's License photo. [redacted] stated [redacted] told him that [redacted] had been receiving packages containing marijuana from out-of-state, and [redacted] was being paid $500 per package to "catch" (receive) them at his house.

b6
b7C

28. [redacted] stated [redacted] told him that approximately a month prior, [redacted] had come up with a ruse. Per [redacted] the ruse was to keep one of the packages containing marijuana, and lie to the senders- saying it had been seized by police and that was the reason for his imprisonment. Per [redacted] the person/people who sent the package discovered the ruse, and had kidnapped S. Koenig and were holding her as collateral for repayment on the drug debt. [redacted] stated he did not know how much the debt was that [redacted] owed, but thought there might have been 32 pounds of marijuana in the package.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 73 / 431

29. On 02-09-2012, Detectives [redacted] conducted a taped, Mirandized interview of [redacted] date of birth [redacted] During the interview, [redacted] stated he had recently had a telephone conversation with [redacted] whom he identified from [redacted] Alaska Driver's License photo. [redacted] related the CS had told him that [redacted] had gone through with the ruse outlined in paragraph 15, and S. Koenig had been kidnapped and was being held until the debt was repaid. [redacted] did not know how much marijuana was in the package, but estimated the debt to be approximately $60,000. b6 b7C

30. On 02-10-2012, Detectives [redacted] conducted a taped, Mirandized interview with [redacted] after he was contacted by Anchorage Police. [redacted] stated he had met S. Koenig a couple of times, most recently 6 months ago. [redacted] stated he had heard of S. Koenig's disappearance, but did not know where S. Koenig might be. [redacted] stated there was no conversation regarding Koenig's disappearance at that time. [redacted] was shown an Alaska Driver's license photo of [redacted] recognized [redacted] as being [redacted] and added that [redacted] was S. Koenig's [redacted]

31. During the interview, [redacted] stated that approximately 3 months prior, [redacted] picked up two boxes that contained approximately 15 pounds of marijuana. [redacted] thought the incident happened after New Year's Eve in 2012. [redacted] did

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 74 / 431

not know how the boxes were sent, however [redacted] thought [redacted] had picked the boxes up from an independent mailing center near Arctic Boulevard. Your Affiant is aware of a business called The Mail Cache- an independent packaging and shipping center- on Arctic Boulevard just south of 36th Avenue in Anchorage, Alaska. b6 b7C

32. [redacted] stated he assisted [redacted] in carrying one of the two boxes into [redacted] residence. [redacted] stated once opened, he/she observed marijuana in vacuum packed plastic bags secreted in backpacks and other carriers. [redacted] stated that it was high quality marijuana, and would probably have a street value of about $4,000 per pound.

33. [redacted] stated [redacted] contacted the people who were intended to receive the marijuana, and told them one of the boxes was there. [redacted] stated he thought [redacted] was paid $500 by the individual(s) who picked up the box, but he/she did not observe the box being picked up and therefore could not describe the individual(s). [redacted] stated [redacted] kept the other box and gave the contents to a man [redacted] knew as [redacted] who [redacted] described as a [redacted] year old male who drove a [redacted] When asked, [redacted] estimated the worth of the marijuana in both boxes to be $66,000.00.

34. [redacted] stated [redacted] knew he had an outstanding warrant. Upon keeping the second box, [redacted] turned

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 75 / 431

himself into the police, knowing he would be remanded to jail. Per [redacted] then explained to the intended recipient(s) of the second box that it had been seized by police, thereby resulting in his incarceration. b6 b7C

35. A check of Anchorage Police databases revealed that per APD Police Report #11-90558, on 12-29-2012 at approximately 2132 hours, [redacted] contacted APD Dispatch and stated that he was in the lobby of the Ramada and knew that he had a warrant outstanding for his arrest for failing to appear for community work service. Per [redacted] the intended recipient(s) of the box found out [redacted] ruse, and demanded either payment for the marijuana or the marijuana returned. [redacted] stated that he/she believed a possible motivation for S. Koenig's kidnapping was that the intended recipient(s) of the aforementioned package had abducted her and were holding her as "collateral" for payment of the marijuana.

36. When asked, [redacted] initially stated the last time he/she had contacted [redacted] was several weeks prior. Upon being questioned further, including being told APD intended to apply for search warrants on both [redacted] cell phone records, [redacted] stated he spoke with [redacted] on either 02-04-2012 or 02-06-2012. On 02-10-2012, Detective [redacted] applied for and was granted glass warrant 3AN-12-223-sw, which authorized the monitoring and recording of conversations between [redacted] Pursuant to

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 76 / 431

that glass warrant, several monitored attempts were made on 02-11-2012 to contact [redacted] at [redacted] All of the calls were routed to voicemail. b6 b7C

37. On 02-11-2012 at approximately 1430 hours, Detectives [redacted] spoke to [redacted] Detectives [redacted] had previously interviewed [redacted] on 02-10-2012. [redacted] stated that at approximately 0100 hours on 02-11-2012 he had been at a residence located at [redacted] in Anchorage, Alaska when [redacted] arrived at the apartment. Per [redacted] stated he had just been to an APD substation being questioned for 6 hours. [redacted] stated [redacted] then proceeded to utilize heroin to "get high."

38. Furthermore, [redacted] stated that 3-4 days prior to the 11th, [redacted] arrived at [redacted] carrying a makeup case and a white winter jacket with odd stains on the back. [redacted] indicated to Detective [redacted] that he thought the stains looked like bloodstains. [redacted] agreed to bring the makeup and jacket, which had been kept by the owner of [redacted] since they had been brought to the residence. [redacted] provided Detective [redacted] with a white plastic bag which contained a white jacket and a small satchel which contained makeup, as well as two hairbrushes. [redacted] stated the owner of the residence at [redacted] had initially taken the makeup out of the container and co-mingled it with her own. At his request, she placed

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 77 / 431

it back inside the makeup kit before turning it over to APD. APD Officer [redacted] conducted a presumptive test on some of the stain on the white jacket. The stain tested presumptively positive for blood. b6 b7C

39. A Chase debit card found in the pocket of the jacket bore the name of [redacted] On 02-09-2012, Detectives [redacted] had contact with [redacted] after she walked out of [redacted] residence. [redacted] was obviously under the influence of controlled substances. [redacted] also had multiple obvious track marks- indicative of drug injections- on her inner elbows.

40. [redacted] said [redacted] then told him he was leaving to go out to Wasilla. [redacted] questioned [redacted] telling him he did not understand why [redacted] was going to drive out to Wasilla because he did not live out there nor did he have any contacts out there. [redacted] stated [redacted] was insistent that he was going to Wasilla, then going to Kenai. Per [redacted] left the residence on [redacted] [redacted] at approximately 0200 hours.

41. On 02-10-2012 at approximately 1830 hours, Detectives [redacted] contacted [redacted] At their direction, [redacted] attempted to place several recorded telephone calls to [redacted] All of the attempted calls went through to voicemail. Detective [redacted] then asked [redacted] if he had told anyone he had been contacted by police the evening

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 78 / 431

before. [redacted] vehemently denied telling [redacted] he had been held at an APD substation for 6 hours on 02-10-2012, as [redacted] indicated. Detectives [redacted] questioned [redacted] repeatedly about his drug use. Contrary to what [redacted] stated, [redacted] stated he was not high and did not use drugs. At no time did [redacted] mention bringing the white jacket or makeup kit to [redacted] Detective [redacted] described [redacted] unique physical descriptors [redacted] has [redacted] to [redacted] who told Detective [redacted] he had never met anyone by that description.

b6
b7C

42. On 02-11-2012, Detectives [redacted] conducted a taped Mirandized interview with [redacted] At the same time but at a different location, Detectives [redacted] [redacted] interviewed [redacted] girlfriend, [redacted] [redacted] During the interview, [redacted] initially denied any knowledge regarding receiving the boxes of marijuana. He later amended he may have done so, but stated he firmly believed it did not have anything to do with S. Koenig's kidnapping, as he and S. Koenig weren't actual relatives.

43. Detective [redacted] relayed to Detective [redacted] that during his interview with [redacted] she stated that at the end of December, [redacted] had received two boxes. The first box had been given to [redacted] received $500 for "catching" (receiving) the package. [redacted] kept the second package for himself, and executed a ruse to go

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 79 / 431

to jail and tell the intended recipients that the police had seized the package just prior to his being remanded to jail. Per [redacted] then sold the second package to [redacted] for $5,000.00. [redacted] stated that [redacted] came over several times in the subsequent weeks and inquired about the box and having it returned to the intended recipient. At one point, [redacted] told [redacted] "Hey you don't know what these people are capable of; it's out of my hands." Per [redacted] stated he had heard about S. Koenig's abduction. [redacted] reassured [redacted] that this did not have anything to do with the debt, as it "had been taken care of." b6 b7C

44. When confronted with the information provided by [redacted] acknowledged that it was correct. He identified [redacted] as [redacted] from his Alaska driver's license photograph. [redacted] stated he did not have any information about who sent the box or where it came from. He stated only that we needed to speak to [redacted] to obtain information regarding the intended recipient of the box. He stated that the debt he owed for the second box was inconsequential, and reiterated it had nothing to do with S. Koenig's disappearance.

45. On 02-12-2012, Detective [redacted] and I conducted a taped Mirandized interview with [redacted] He supplied his cell phone number of [redacted] During the interview, [redacted] stated that he had seen S. Koenig on a couple of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 80 / 431

occasions, but had no contact with her recently. [redacted] b6 b7C stated that he was good friends with [redacted] and had only met S. Koenig through being at [redacted] residence. When we asked [redacted] who he gave the box of marijuana to after paying [redacted] $500 for "catching" it, [redacted] became very upset. He placed his hand on the missing person flyer for S. Koenig and stated, "I had nothing to do with this!" I assured [redacted] that we did not believe he was responsible for S. Koenig's kidnapping or that we believed [redacted] knew where she was. Instead, we were keenly in need of the identity of the individual who was the ultimate recipient of the first box of marijuana, as that would likely be the person who wanted to collect on the debt [redacted] owed for stealing the second box. [redacted] stated again, "I had nothing to do with this. I want to leave." The interview was terminated and [redacted] was allowed to leave and provided a ride to his residence.

46. On 02-13-2012 and at the request of Detective [redacted] United States Postal Inspector Service (USPIS) Investigator [redacted] contacted the Mail Cache located at [redacted] in Anchorage, Alaska. USPIS [redacted] discovered that [redacted] received three parcels at that location, where he rented box [redacted] Per USPIS [redacted] paid cash for the Post Office Box rental, which he rented for only a month. All the parcels had been shipped via Fed Ex, and all were signed for by [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 81 / 431

a. The first parcel had tracking number 951376972815 and was mailed from Anderson, CA on 12/15/2011. It was picked up in Anchorage on 12/16/2011.

b. The second parcel had tracking number 951376972881 and was mailed from Anderson, CA on 12/21/2011. It was picked up on 12/27/2011.

c. The third parcel had tracking number 490395927259 and was mailed from Red Bluff, CA on 12/22/2011. It was picked up on 12/27/2011.

47. On 02-13-2012, Detectives [redacted] spoke with [redacted] stated that 3-4 days prior, [redacted] had given her a ride to her mother's house to pick up some clothing. [redacted] stated she did not have a chance to get her white jacket and makeup kit out of [redacted] vehicle prior to his leaving to [redacted] stated it was her understanding [redacted] gave the white jacket and makeup kit to [redacted] at [redacted] b6 b7C

48. On 02-15-2012, [redacted] made several calls to APD Dispatch reporting that he was "being followed". [redacted] initially contacted APD on 02-15-2012 while at his residence and wanted to report a dark colored Mazda Navajo had been following him. APD Officer [redacted] responded and found the Mazda Navajo in question was visiting a house down the street from [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 82 / 431

49. Per the call log, [redacted] stated a male wearing a bullet proof vest was following him in a white Cadillac Escalade. A few minutes after making the 911 call to report someone following him, [redacted] called back and stated he observed an elderly male exiting the vehicle suspected of following him and no police response was necessary. b6 b7C

50. It should be noted that surveillance was indeed initiated on [redacted] but none of the "suspect vehicles" [redacted] described were the undercover vehicles operated by law enforcement conducting the surveillance. Furthermore, none of the officers on surveillance were wearing bullet proof vests. Per APD Officer [redacted] even after placing the second call to APD to indicate he was mistaken, [redacted] continued to drive very erratically- speeding, making multiple lane changes without using his turn signals, and running two red lights.

51. On 02-04-2012, [redacted] posted the following on his Facebook page: … IF YOU WOULD LIKE TO DONATE TO THE REWARD FUND FOR THE RECUE OF SAMANTHA TESSLA KOENIG YOU CAN DO SO BY GOING TO ANY DENALI ALASKAN FEDERAL CREDIT UNION AND USE ACCOUNT #135006, OR I HAVE ALSO SET UP A PAYPAL ACCOUNT GOTO PAYPAL.COM AND ENTER MY EMAIL ADDRESS, ALL LOWER CASE, [redacted] ALL PROCEEDS GO TO THE RESCUE EFFORTS AND REWARD TO ANYONE THAT CAN RETURN HER HOME TO ME SAFELY AND UNHARMED… . . .

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 83 / 431

52. Investigators have confirmed the existence of a living trust account with the same account number as above (135006) exists at Denali Alaskan Federal Credit Union. Furthermore, it is belived that other than Samantha Koenig, [redacted] is the only other person who has the ability to withdraw funds from the account. b6 b7C

53. During the week of February 5th, 2012 Detective [redacted] and I spoke with [redacted] stated that an unusual amount of emphasis was being placed on raising reward funds, and expressed concern that raising money seemed to be the foremost goal of both [redacted]

54. On 02-08-2012 [redacted] posted the following information on his Facebook page: ...WHOEVER HAS MY DAUGHTER JUST BRING HER ANYWHERE, TO A HOSPITAL, HOMES, SEND HER IN A CAB HOME ANONYMOUSLY, AND I WILL LEAVE ALL THE MONEY WE HAVE COLLECTED IN A CERTAIN PLACE OF YOUR CHOOSING WITHIN MINUTES OF YOUR INSTRUCTIONS, JUST RETURN HER TO ME.

55. On 02-14-2012, I received a call from [redacted] who wished to report that [redacted] had made a death threat to her earlier in the day. [redacted] explained that her daughter had printed t-shirts with Samantha Koenig's photograph on them and was selling the t-shirts for $10 each. $5 of the proceeds was to remain with [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 84 / 431

daughter, while $5 was to be donated to the reward fund. Per [redacted] her daughter sold $200 worth of t-shirts and earlier that day, [redacted] had contacted [redacted] in an attempt to collect the $100 owed to her daughter. [redacted] stated [redacted] became very angry, and refused to give her the money. [redacted] stated [redacted] told her, "If you make one more t-shirt with [redacted] face on it, I will kill you." [redacted] maintained that [redacted] actions during the last two weeks- when she often assisted in search efforts- was highly unusual. [redacted] stated [redacted] was almost obsessive about collecting money for the reward fund, at times checking the same donation jar several times a day. [redacted] asked me to "check on it, because something about this just isn't right. He [redacted] cares more about the money than he does about [redacted] also told me she had observed [redacted] carrying a shotgun in a soft-sided case on multiple occasions since the abduction. [redacted] indicated she thought this was highly unusual behavior for [redacted] concerned over the loss of [redacted]

b6
b7C

56. On 02-16-2012, [redacted] posted the following information on his Facebook page: …PLEASE FIND IT IN YOUR HEART TO HELP SAMANTHA, EVEN IF YOU COME TO ME, I WILL GUARANTEE YOUR SAFETY, AND SET YOU UP WITH ENOUGH MONEY TO LEAVE STATE AND START ANEW SOMEWHERE OF YOUR CHOOSING. AS LONG AS THE RESULT IS HER RETURNING TO ME SAFE AND

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 85 / 431

UNHARMED, ANYTHING LESS I WILL DEVOTE MY LIVE, AND RESOURCES TO HUNTING DOWN THE INDIVIDUALS RESPONSIBLE FOR STEALING MY LIFE FROM ME…

57. Based on the above information, I believe probable cause exists that [redacted] may attempt to enter into an agreement with S. Koenig's abductors and pay out the money in the reward fund in return for S. Koenig. Furthermore, the above information indicates [redacted] may not be forthcoming with the details of S. Koenig's abduction; including the identity of her abductors and the reasons behind her abduction. b6 b7C

58. Furthermore, evidence sought that may show a relationship between the victim and person(s) that may have crucial knowledge of or participation in the crime of kidnapping. Further, that such a search may identify unknown witness who has vital information to this investigation.

ADDITIONAL INFORMATION

59. On 02-24-2012, at 1956 hours [redacted] received the following text on his cell phone [redacted] the **TARGET TELEPHONE NUMBER** from Samantha Koenig's cell phone- 907-884-8370: "Conner park sign under pic of albert aint she purty". [redacted] contacted me and relayed the information to me. At my request, APD Patrol Officers arrived at Conner Park- located on the southeast corner of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 86 / 431

Jewel Lake Road and International Airport Road in Anchorage, Alaska- at approximately 2018 hours. [redacted] were already present. Attached to the park sign, below a flyer for a lost dog named "Albert", was a Ziploc bag which contained a folded piece of paper. b6 b7C

60. Anchorage Police Officer [redacted] photographed the item and the surrounding area. The Anchorage Police Crime Scene team also responded to process the scene. Officer [redacted] then seized the Ziploc bag and the item inside and transported it to APD Headquarters prior to turning it over to me.

61. Once unfolded, the piece of paper was shown to contain a photograph [redacted] A persons arm with a latex-gloved hand was in the lower left screen of the photo. The hand was holding onto the hair of the female; which had been braided. In the upper part of the screen was an Anchorage Daily Newspaper. I was able to find the front page of the Anchorage Daily News which corresponded with the one shown in the photograph. It was the issue released on Monday, February 13th, 2012. On 02-25-2012, [redacted] positively identified the female in the photograph as [redacted] Samantha Koenig.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 87 / 431

62. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note indicated that in exchange for the money, between 6 months and a year from receipt of the money, the author would text the location of a packet of information which would provide law enforcement with all the information they needed to find her (S. Koenig.) The note indicated an account to which the money should be deposited. Investigators believe that the "account" numbers provided are not actually a bank account. Instead they are a 16 digit debit card number- the debit card belonging to [redacted] b6 b7C

63. At my direction, [redacted] attempted to make multiple telephone calls to S. Koenig's telephone from 2330 hours on 02-24-2012 through 0135 hours on 02-25-2012. During all of the calls, there was one short ring followed by 4 long rings then an automated voicemail. Based on my training and experience, this is the type of cadence that occurs when a cellular telephone is forwarded to another telephonic device.

CRIMINAL HISTORY

64. Per the Alaska Public Safety Information Network (APSIN), [redacted] date of birth [redacted] has the following known criminal history: [redacted] [redacted] He has no known pending charges. Per the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 88 / 431

Interstate Information Index (III), he has no known criminal convictions or pending charges.

65. Per APSIN, [redacted] date of birth [redacted] b6 b7C

[redacted] has the following known criminal history: [redacted]

[redacted]

2. Per the Interstate Information Index (III), he has no know criminal convictions or pending charges.

66. [redacted] date of birth [redacted] has the following convictions per APSIN: [redacted]

[redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 89 / 431

[redacted] He has no known pending charges. Per the Interstate Information Index (III), he has no know criminal convictions or pending charges.

67. [redacted] date of birth [redacted] has no known criminal convictions per APSIN. [redacted] Per the Interstate Information Index (III), he has no know criminal convictions or pending charges.

68. Per APSIN, [redacted] date of birth [redacted] has the following known criminal history: [redacted] Per III, the CS has the following known convictions in the state of Washington: [redacted] III did not indicate any pending charges.

GENERAL INFORMATION AND PROCEDURAL REQUESTS

69. Based on the above information, I respectfully state that there is probable cause to believe that that the information likely to be obtained from the requested pen

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 90 / 431

register, calling line identifiers and related subscriber information would lead to evidence of kidnapping and/or the identification of the person or persons responsible for Samantha Koenig's abduction. I would like to request the installation of a pen register (a device to identify/register telephone numbers dialed or pulsed from a specified telephone number), and calling line identifiers (a device to identify incoming telephone numbers from which calls are made into a specified telephone number, statutorily referenced as a "trap and trace device") on the **TARGET TELEPHONE NUMBER,** [redacted] which is a cellular telephone issued by AT&T for a period of 60 (sixty) days from the date of installation. I request the Court authorize the installation, service, and monitoring of this device to be conducted by members of the Anchorage Police Department or other qualified law enforcement personnel to included technical assistance in implementing this order, warrant, etc., provided by the Federal Bureau of Investigation (FBI). This application also seeks authorization to receive subscriber information including the subscriber names, addresses, and billing information related to the outgoing and incoming telephone numbers identified by the pen register and calling line identifier and to record or decode dialing, routing, addressing, cellular telephone towers, or signaling information transmitted from the **TARGET TELEPHONE NUMBER.**

b6
b7C

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 91 / 431

70. I further request that the Court direct that upon service of the order upon it, the local, long distance, and wireless carriers, and any other person or entity providing wire communication service in the United States whose assistance may facilitate execution of the order, furnish the information, facilities, and technical assistance necessary to accomplish unobtrusively the installation and use of the pen register and trap and trace device with compensation to be paid by the investigative agencies for reasonable expenses directly incurred in providing such facilities and assistance.

71. I further request that the order direct the local, long distance, and wireless carriers, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the order, furnish the results of the pen register and trap and trace installation to the investigative agencies, as soon as practicable, twenty-four (24) hours a day, for the duration of the order.

72. I further request that the order direct any other communications common carriers to furnish forthwith, related subscriber information, including subscriber names, addresses and related billing information related to such numbers identified per the pen registers and calling line identifiers.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 92 / 431

73. The Affiant also requests that The Court orders authorization to notice the provision of Criminal Rule 37 be relaxed pursuant to Criminal Rule 53, so that we do not have to leave a copy of the affidavit and or authorizations with the person(s) and or premise(s). This is a continuing investigation and the Affiant feels that it would hamper the ability of the Affiant to gather other evidence. Additionally, and for the same reasons, the Affiant asks that the authorizations, and the affidavit in support of them be sealed by The Court in order to prevent unauthorized persons from seeing this affidavit and authorization as the safety of the CS and associated law enforcement officers would be compromised.

74. I respectfully request that this authorization be sealed by the Court in order to prevent unauthorized people from seeing this affidavit and authorization.

IN THE DISTRICT/SUPERIOR COURT FOR THE STATE OF ALASKA
AT Anchorage

SEARCH WARRANT
NO. 300 AMENDED
SW

Relates to case number(s):

b6
b7C

TO: Any Peace Officer

☐ Sworn testimony having been given by _____,

☒ An affidavit having been sworn to before me by Detective [redacted] DSN 1488,

☐ Following my finding on the record that there is probable cause to believe that 1) the presentation of the applicant's affidavit or testimony personally before a judicial officer would result in a delay in obtaining or executing a search warrant; and 2) the delay might result in loss or destruction of the evidence subject to seizure or might interfere with an ongoing investigation, recorded sworn testimony was given by telephone by _____

I find probable cause to believe that

☐ on the person of _____

☒ on the premises known as ACS Wireless at Anchorage, Alaska, there is now being concealed property, namely:
See Attachment #A

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 96 / 431

and that such property (see AS 12.35.020)

☒ 1. is evidence of the particular crime(s) of Kidnapping in any degree, AS 11.41.300 et. seq.

☐ 2. tends to show that _____
committed the particular crime(s) of _____.

☐ 3. is stolen or embezzled property.

☐ 4. was used as a means of committing a crime.

☐ 5. is in the possession of a person who intends to use it as a means of committing a crime.

☐ 6. is one of the above types of property and is in the possession of _____, to whom _____ delivered it to conceal it.

☐ 7. is evidence of health and safety violations.

YOU ARE HEREBY COMMANDED to search the person or premises named for the property specified, serving this warrant, and if the property be found there, to seize it, holding it secure pending further order of the court, leaving a copy of this warrant, and all supporting affidavits, and a receipt of property taken. You shall also prepare a written inventory of any property seized as a result of the search pursuant to or in conjunction with the warrant. You shall make the inventory in the presence of the applicant for the warrant and the person from whose possession or premises the property is taken, if they are present, or in the presence of at least one credible person other than the warrant applicant or person from whose possession or premises said property is taken. You shall sign the inventory and return it and the warrant within 10 days after this date to this court as required by law.

YOU SHALL SERVE THIS WARRANT:

☐ between the hours of 7:00 a.m. and 10:00 p.m.

☐ between the hours of _____ ☐ a.m. ☐ p.m.
and _____ ☐ a.m. ☐ p.m.

☒ at any time of the day or night.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 97 / 431

SEARCH WARRANT NO. _____SW

YOU SHALL MAKE THE SEARCH:

☒ immediately. to expire

within 60 ☒ days of installation

☐ within 10 days.

☐ contingent upon the happening of the events expected to occur as set forth in the supporting testimony, specifically _____

From the information provided in the application for the warrant, I find compelling reasons to postpone delivery of this notice beyond the time set in Criminal Rule 37(b).[1] Therefore, this notice must be given:

☐ immediately upon seizure of the property.
☐ within a reasonable period, not to exceed 90 days from this date.
☒ within 90 days, which I have determined to be a reasonable time in this case.

If you cannot deliver the notice within this time limit, you must apply to the court for an extension of the time limit. Your sworn application must show good cause for the extension.

Search Warrant #3AN-12-300sw **AMENDED***

ATTACHMENT #A

1. The installation of a pen register (a device to identify/register telephone numbers dialed or pulsed from a specified telephone number), and calling line identifiers (a device to identify incoming telephone numbers from which calls are made into a specified telephone number, statutorily referenced as a "trap and trace device") on the **TARGET TELEPHONE NUMBER,** [redacted] which is a cellular telephone issued by Alaska Communications Systems (ACS) for a period of 60 (sixty) days from the date of installation. b6 b7C

2. Further, the installation, service, and monitoring of this device will be conducted by members of the Anchorage Police Department or other qualified law enforcement personnel to included technical assistance in implementing this order, warrant, etc., provided by the Federal Bureau of Investigation (FBI). This application also provides authorization to receive subscriber information including the subscriber names, addresses, and billing information related to the outgoing and incoming telephone numbers identified by the pen register and calling line identifier and to record or decode dialing, routing, addressing,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 100 / 431

cellular telephone towers, or signaling information transmitted from the **TARGET TELEPHONE NUMBER.**

3. This order further directs that upon service of the order upon it, the local, long distance, and wireless carriers, and any other person or entity providing wire communication service in the United States whose assistance may facilitate execution of the order, furnish the information, facilities, and technical assistance necessary to accomplish unobtrusively the installation and use of the pen register and trap and trace device with compensation to be paid by the investigative agencies for reasonable expenses directly incurred in providing such facilities and assistance.

4. It is further ordered that the local, long distance, and wireless carriers, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the order, furnish the results of the pen register and trap and trace installation to the investigative agencies, as soon as practicable, twenty-four (24) hours a day, for the duration of the order.

5. It is further ordered that any other communications common carriers to furnish forthwith, related

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 101 / 431

subscriber information, including subscriber names, addresses and related billing information related to such numbers identified per the pen registers and calling line identifiers.

VRA CERTIFICATION

I certify that this document and its attachments do not contain (1) the name of a victim of a sexual offense listed in AS 12.61.140 or (2) a residence or business address or telephone number of a victim of or witness to any offense unless it is an address used to identify the place of the crime or it is an address or telephone number in a transcript of a court proceeding and disclosure of the information was ordered by the court.

AFFIDAVIT OF [redacted]

b6
b7C

I, [redacted] being first duly sworn on oath, hereby depose and state:

1. That since December 1997 I have been employed as a police officer with the Municipality of Anchorage. Upon graduation of a twenty-one week police academy, I completed fourteen weeks of field training and was assigned to patrol until May 2001. At this time I was promoted to the Special Assignment Unit, which specialized in conducting investigations into street level drugs, gambling, and prostitution.

2. In March 2002 I was promoted to Detective and assigned to the Burglary Unit at APD. In June 2002 I became a part of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com

Metro Drug Unit until July 2007, when I was assigned to the Drug Enforcement Administration as a Task Force Officer until January 2012, when I was assigned to the Anchorage Police Department Homicide Unit and am currently assigned there.

3. Prior to being hired at the Anchorage Police Department, I graduated from Northern Michigan University with a Bachelor's Degree in Science. The focus of the degree was a major in Criminal Justice and a minor in Psychology. In December 2003 I obtained a Master's Degree in Criminal Justice from Boston University.

4. I have also completed an additional forty- hour advanced course in Crime Scene Processing and a forty- hour advanced course in Accident Investigation, as well as a forty- hour Detective Academy taught by the Anchorage Police Department. Additionally, I have completed a forty- hour course in clandestine drug laboratories from the Drug Enforcement Administration.

5. I have also completed an eighty-hour course of instruction in Basic Drug Investigations conducted by the Drug Enforcement Administration's training staff. This school trained me in state and federal drug laws, development of probable cause, search and seizure law, drug identification and field testing, informant handling, marijuana eradication, surveillance techniques, street lingo, packaging and pricing, transportation and distribution of drugs. I also received

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 104 / 431

formal and supervised hands-on training in the field testing of cocaine, heroin, Methamphetamine and marijuana.

6. In July of 2005, I conceptualized, wrote, and instituted the drug field testing class at the Anchorage Police Department Police academy, and am currently the lead instructor for that course.

7. On September 7th, 2006 I was qualified as an expert witness in drug paraphernalia in front of the honorable Judge Wolverton in Alaska Superior Court. In July 2007, I was qualified as an expert drug witness in front of the honorable Judge McKay in Alaska Superior Court. I have been qualified and testified as an expert witness in narcotics distribution in Alaska State grand jury proceedings approximately fifty (50) times in the past three years.

8. During my tenure as a police officer, I have conducted and/or participated in numerous investigations relating to the use, possession, manufacture, and trafficking of controlled substances, and I have become familiar with devices, paraphernalia, techniques, and practices used by people engaged in the use, possession, manufacture, and trafficking of controlled substances. I have conducted and/or participated in investigations which have resulted in the seizure of marijuana, marijuana grow operations, cocaine hydrochloride, cocaine base (crack), opium, PCP, heroin, ketamine, methylenedioxymethamphetamine (MDMA/ecstasy),

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 105 / 431

methamphetamine, methamphetamine laboratories, prescription medications, firearms, pagers, cellular telephones, surveillance systems, cameras, memory cards, computers, documents, money, and precious metals. I have also conducted numerous interviews of people involved in the use, possession, manufacture, and trafficking of controlled substances, adding to my knowledge of the illegal drug culture in the Anchorage area. In addition to my formal training and experience, I have gained knowledge and insight by working and speaking with many experienced law enforcement agents from local, state, and federal agencies, and I consider this knowledge and insight to be an integral part of my experience and training.

9. I have worked as an undercover officer for prostitution and controlled substance cases and have assisted other Detectives with controlled substance cases as photographer, surveillance officer, evidence custodian, and entry/search team member. I have been the case officer on drug cases, assigning and directing other officers in the investigations. I have also acted as a Control Officer for handling Cooperating Sources in controlled substance cases.

INVESTIGATION

10. I am currently assisting in the investigation of APD case 12-5307, a kidnapping investigation. The following information is based upon either my own observations or the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 106 / 431

observations of other Anchorage Police Officers conveyed to me orally or via their written reports prepared under Anchorage Police Case 12-5307.

11. On 2-2-12 at about 12:39 [redacted] b6 b7C Common Ground Coffee stand at 630 E. Tudor, contacted APD dispatch. [redacted] was calling from Oregon, where he was vacationing. He reported that while viewing his internet based security system he saw one of his employees, Samantha Koenig, appear to be abducted. [redacted] said he was contacted by [redacted] who had been unable to locate her. This contact prompted [redacted] to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 on 2-1-12 while Koenig was working. The video shows Koenig giving the man the money from the register and leaving with him.

12. During a taped Mirandized interview on 02-02-2012 by Detective [redacted] and I, [redacted] said he went to the coffee stand on 2-1-12 at about 20:33 to give her a ride home but the stand appeared to be closed and she was not there. [redacted] was asked to describe in detail exactly what he did when he arrived at Common Grounds to pick S. Koenig up from work on 02-01-2012. [redacted] stated he drove around the coffee stand and noticed the interior lights were off.. He then parked the truck, got out, and looked through one of the windows.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 107 / 431

He stated that "everything was closed", that the wooden slides used to block the windows from sliding were in place. He added that there were napkins on the floor and the towels used to clean still sitting on the countertop- which he thought was unusual as S. Koenig was very conscientious about being neat. [redacted] stated that after looking in the windows and noticing the wooden blocks were in place, he did not attempt to see if the door was locked as he did not want to "trigger an alarm and be accused of breaking in." b6 b7C

13. APD Detectives have obtained both interior and exterior surveillance tape from Common Grounds. On 02-01-2012 at approximately 2023 hours, multiple surveillance cameras show a vehicle matching [redacted] truck) drive up to Common Grounds, briefly pause at one of the windows (as if the driver is looking in the window) and then drive away. As indicated by the surveillance videos, the vehicle was in the vicinity of the coffee stand for approximately 8 seconds.

14. Throughout the interview, [redacted] consulted text messages and telephone call logs on his cell phone to provided Detective [redacted] and I with the exact times of events that occurred on 02-01-2012 and 02-02-2012. [redacted] initially told Detectives that he and Koenig's relationship had been "bumpy" at one point, but had been going well recently, including the day Koenig disappeared.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 108 / 431

When asked to describe why the relationship was "bumpy", [redacted] stated he had been talking to other girls on Facebook- which Koenig did not like. During the time [redacted] was speaking about the day Koenig disappeared, he referenced several texts between him and Koenig and moved his cell phone across the table in the interview room so I could read them as well. After reading several of the texts from 02-01-2012 between [redacted] and Koenig (with [redacted] scrolling through them without prompting so I could read them), I indicated several texts that implied S. Koenig and [redacted] were arguing. [redacted] then admitted that at one point he had called Koenig to talk to her, and she told him she couldn't talk because she was busy with a customer. [redacted] stated he said, "Whatever," and ended the call. [redacted] vehemently denied any further disagreements between he and S. Koenig.

b6
b7C

15. [redacted] said he tried to contact S. Koenig at her cell phone by calling and texting but he did not get an immediate reply. [redacted] said he continued attempting to contact Koenig and got a reply at about 2324 hours on 2-1-12. [redacted] showed me the text, which read, "F U asshole i know what u did i am going to spend a couple of days with friends need time to think plan actig weird let my dad know." [redacted] said from the word usage and texting style he does not believe Koenig authored the text. Koenig's cell phone provider is GCI, her number is (907) 884-8370. At

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 109 / 431

2353 hours, [redacted] cell phone showed a second text message received from S. Koenig's phone. The second text message read, "F U". b6 b7C

16. [redacted] also reported that at about 0300 on 2-2-12 he saw a man wearing a mask going through Koenig's vehicle which was parked at their residence, [redacted] in Anchorage, Alaska. [redacted] told me during an initial interview on 02-02-2012 at approximately 1400 hours that he subsequently went through the vehicle and found nothing missing but Samantha Koenig's Alaska Driver's License- which was kept in a zippered pocket on a visor organizer on the driver's side of the vehicle. [redacted] told Detective [redacted] and I he was positive nothing else was missing from the vehicle.

17. [redacted] said he and Koenig share the vehicle, a [redacted] AK plate [redacted] and each of them have keys to the vehicle [redacted] said the last time Koenig used the vehicle was when she drove it to work the morning of 2-1-12. [redacted] told me that he remained at his residence of [redacted] in Anchorage where he fell asleep at approximately 0430 hours until approximately 0920 hours. When I asked him why he had not at some point contacted the police department to report the suspicious circumstances and S. Koenig missing, he replied that he did not think the police would "do anything about it until they were missing for 24 hours." This was the same answer [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 110 / 431

provided during his interview, which immediately preceded [redacted]

b6
b7C

18. The [redacted] AK plate [redacted] was impounded to APD secure storage on 02-02-2012 at approximately 1400 hours. A search warrant was subsequently obtained and executed on the vehicle by the Anchorage Police Department. In the visor organizer, in the same pocket as [redacted] described Koenig's missing id was kept, was a Visa credit card and a Credit Union 1 debit card.

19. On 02-02-2012 at approximately 0330 hours, an individual dressed in a black hooded sweatshirt, sunglasses, jacket and black gloves utilized an ATM at the Denali Alaskan FCU located 3020 Minnesota Drive in Anchorage, Alaska. The individual utilized an ATM card issued to [redacted]

20. On 02-02-2012 at approximately 2000 hours and at my request, APD Officers [redacted] responded to [redacted] I requested a brief follow up with [redacted] in reference to why he had called Common Grounds the morning of 02-02-2012 demanding to see the video surveillance from the night before. Officer [redacted] told me he knocked on the door to [redacted] and [redacted] answered the door. Immediately after opening the door, [redacted] opened it enough to allow himself through, and left the door only slightly ajar while he spoke with Officer [redacted] Upon requesting to talk to [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 111 / 431

re-entered the apartment via the same method, and closed it firmly behind him. When [redacted] came to the door, he too opened it only enough he could fit through, and then closed it behind him while he spoke to Officer [redacted]

b6
b7C

21. On 02-05-2012, at approximately 0900 hours, APD Detective [redacted] and I went to [redacted] in an effort to contact [redacted] reference the ATM card usage. No one answered the knock on the door to the residence. The occupant of [redacted] a white male who identified himself as [redacted] stated that neither [redacted] was home. I called [redacted] and asked him to come to APD Headquarters. [redacted] who stated he was with [redacted] distributing missing person fliers. He refused my request to come to APD Headquarters, and then the phone was taken by [redacted] angrily demanded to know why "we were at his house looking for him." I told [redacted] we were in fact looking for [redacted] because we had further questions for him. [redacted] expressed suspicion at this and stated he and [redacted] would meet us at a separate location, but not at the residence.

22. At approximately 1200 hours, Detective [redacted] and I contacted [redacted] behind the Spenard Builder's Supply located at Tudor Road and Minnesota Blvd. They arrived with [redacted] operating a [redacted] Alaska license plate [redacted] Detective

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 112 / 431

[redacted] contacted [redacted] while I spoke with [redacted] b6 b7C During the contact, which was tape recorded, I asked [redacted] what his knowledge of S. Koenig's finances were. He stated she had an account at Credit Union One for a long while, and approximately a week and a half prior, he had been added to the account. He stated two debit cards were issued for the account- which had a balance of approximately $5.00 United States Currency. He stated the cards bore different numbers even though they were for the same account, but they had obtained the same PIN number for both of the cards. [redacted] knew "for a fact" that the last activity on the account was on January 31st when he used the account to cash a check for $30.00. When asked what his debit card was, [redacted] stated it was in his wallet- which he described as brown in color- which was in the [redacted] stated the wallet was either in the same visor organizer S. Koenig's identification had been taken from, or in the center console of the vehicle. When a State of Alaska search warrant was executed on the vehicle on 02-03-2012, no wallet was found.

23. During his initial contact with APD Officer [redacted] on 02-02-2012 at approximately 1200 hours, [redacted] denied any knowledge that Samantha Koenig had ever used drugs. He provided his cellular telephone number of [redacted] the **TARGET TELEPHONE NUMBER.**) During the taped, Mirandized interview of [redacted] conducted on 02-02-2012, [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 113 / 431

told me that S. Koenig used marijuana, and had used cocaine a year prior but had been "clean" since that time. [redacted] provided a cellular phone number of [redacted] b6 b7C During a recorded interview with S. Koenig's [redacted] stated Samantha Koenig was a recovering cocaine addict. During interviews with several other friends and acquaintances of Samantha Koenig, the fact that she was recovering from a substance abuse problem and that she occasionally relapsed seemed to be a common theme.

24. On 02-05-2012, Detectives [redacted] drove to a residence located at [redacted] in Anchorage, Alaska in an attempt to contact [redacted] was not there, but they spoke with [redacted] who identified himself as S. Koenig's [redacted] During the interview, [redacted] stated that [redacted] behavior changed dramatically about a week and a half prior as he was moving out of the [redacted] address. Specifically, [redacted] stated [redacted] was "doing licks" (street lingo for robbing drug dealers). Furthermore, [redacted] observed what he described as a black and grey smith and Wesson .40 semi auto pistol tucked in the front of [redacted] pants and stated [redacted] boasted of "pulling a lick" at that time.

25. On 02-05-2012 Detectives [redacted] conducted an interview with [redacted] Samantha Koenig's

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 114 / 431

b6
b7C

[redacted] During interviews with multiple friends and family members of Samantha Koenig, [redacted] is considered S. Koenig's [redacted] During the interview, [redacted] stated he knew S. Koenig, but did not have much of a relationship with her. He indicated his girlfriend- [redacted] knew her much better, and Detectives should talk to [redacted] for more information. [redacted] told Detectives that he knew from relatives that S. Koenig was missing, but did not believe it was a legitimate abduction. [redacted] stated he had been talking with his father- [redacted] regarding S. Koenig, and stated he told his father that S. Koenig had relapsed and was on a "cocaine binge." [redacted] stated his cell phone number was [redacted]

26. On 02-08-2012, pursuant to Alaska Search warrant #3AN-12-206sw, members of the Anchorage Police Department searched [redacted] in Anchorage, Alaska. Per Detective [redacted] present in the crawl space of the apartment appeared to be a marijuana grow operation that was recently dismantled. In addition to two 1000 watt halogen bulbs, there was growing medium, several pots, black plastic, and marijuana "shake"- or small pieces of discarded marijuana plant material.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 115 / 431

27. On 02-09-2012, Detectives [redacted] conducted a recorded, Mirandized interview with [redacted] date of birth [redacted] During the interview, [redacted] told Detectives that his friend [redacted] whom he later identified as [redacted] from [redacted] Alaska Driver's License Photo- told him of a recent conversation [redacted] had with [redacted] best friend - [redacted] whom he identified from [redacted] Alaska Driver's License photo. [redacted] stated [redacted] told him that [redacted] had been receiving packages containing marijuana from out-of-state, and [redacted] was being paid $500 per package to "catch" (receive) them at his house.

b6
b7C

28. [redacted] stated [redacted] told him that approximately a month prior, [redacted] had come up with a ruse. Per [redacted] the ruse was to keep one of the packages containing marijuana, and lie to the senders- saying it had been seized by police and that was the reason for his imprisonment. Per [redacted] the person/people who sent the package discovered the ruse, and had kidnapped S. Koenig and were holding her as collateral for repayment on the drug debt. [redacted] stated he did not know how much the debt was that [redacted] owed, but thought there might have been 32 pounds of marijuana in the package.

29. On 02-09-2012, Detectives [redacted] conducted a taped, Mirandized interview of [redacted] date of birth [redacted] During the interview, [redacted] stated he

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 116 / 431

had recently had a telephone conversation with [redacted] whom he identified from [redacted] Alaska Driver's License photo. [redacted] related the CS had told him that [redacted] had gone through with the ruse outlined in paragraph 15, and S. Koenig had been kidnapped and was being held until the debt was repaid. [redacted] did not know how much marijuana was in the package, but estimated the debt to be approximately $60,000.

b6
b7C

30. On 02-10-2012, Detectives [redacted] conducted a taped, Mirandized interview with [redacted] after he was contacted by Anchorage Police. [redacted] stated he had met S. Koenig a couple of times, most recently 6 months ago. [redacted] stated he had heard of S. Koenig's disappearance, but did not know where S. Koenig might be. [redacted] stated there was no conversation regarding Koenig's disappearance at that time. [redacted] was shown an Alaska Driver's license photo of [redacted] recognized [redacted] as being [redacted] and added that [redacted] was S. Koenig's [redacted]

31. During the interview, [redacted] stated that approximately 3 months prior, [redacted] picked up two boxes that contained approximately 15 pounds of marijuana. [redacted] thought the incident happened after New Year's Eve in 2012. [redacted] did not know how the boxes were sent, however [redacted] thought [redacted] had picked the boxes up from an independent mailing center near Arctic Boulevard. Your Affiant is

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 117 / 431

aware of a business called The Mail Cache- an independent packaging and shipping center- on Arctic Boulevard just south of 36th Avenue in Anchorage, Alaska.

32. [redacted] stated he assisted [redacted] in carrying one of the two boxes into [redacted] residence. [redacted] stated once opened, he/she observed marijuana in vacuum packed plastic bags secreted in backpacks and other carriers. [redacted] stated that it was high quality marijuana, and would probably have a street value of about $4,000 per pound. b6 b7C

33. [redacted] stated [redacted] contacted the people who were intended to receive the marijuana, and told them one of the boxes was there. [redacted] stated he thought [redacted] was paid $500 by the individual(s) who picked up the box, but he/she did not observe the box being picked up and therefore could not describe the individual(s). [redacted] stated [redacted] kept the other box and gave the contents to a man [redacted] knew as [redacted] who [redacted] described as a [redacted] year old male who drove a [redacted] When asked [redacted] estimated the worth of the marijuana in both boxes to be $66,000.00.

34. [redacted] stated [redacted] knew he had an outstanding warrant. Upon keeping the second box, [redacted] turned himself into the police, knowing he would be remanded to jail. Per [redacted] then explained to the intended

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 118 / 431

recipient(s) of the second box that it had been seized by police, thereby resulting in his incarceration.

35. A check of Anchorage Police databases revealed that per APD Police Report #11-90558, on 12-29-2012 at approximately 2132 hours, [redacted] contacted APD Dispatch and stated that he was in the lobby of the Ramada and knew that he had a warrant outstanding for his arrest for failing to appear for community work service. Per [redacted] the intended recipient(s) of the box found out [redacted] ruse, and demanded either payment for the marijuana or the marijuana returned. [redacted] stated that he/she believed a possible motivation for S. Koenig's kidnapping was that the intended recipient(s) of the aforementioned package had abducted her and were holding her as "collateral" for payment of the marijuana.

b6
b7C

36. When asked, [redacted] initially stated the last time he/she had contacted [redacted] was several weeks prior. Upon being questioned further, including being told APD intended to apply for search warrants on both [redacted] cell phone records, [redacted] stated he spoke with [redacted] on either 02-04-2012 or 02-06-2012. On 02-10-2012, Detective [redacted] applied for and was granted glass warrant 3AN-12-223-sw, which authorized the monitoring and recording of conversations between [redacted] Pursuant to that glass warrant, several monitored attempts were made on

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 119 / 431

02-11-2012 to contact [redacted] at [redacted] All of the calls were routed to voicemail. b6 b7C

37. On 02-11-2012 at approximately 1430 hours, Detectives [redacted] spoke to [redacted] Detectives [redacted] had previously interviewed [redacted] on 02-10-2012. [redacted] stated that at approximately 0100 hours on 02-11-2012 he had been at a residence located at [redacted] in Anchorage, Alaska when [redacted] arrived at the apartment. Per [redacted] stated he had just been to an APD substation being questioned for 6 hours. [redacted] stated [redacted] then proceeded to utilize heroin to "get high."

38. Furthermore, [redacted] stated that 3-4 days prior to the 11th, [redacted] arrived at [redacted] carrying a makeup case and a white winter jacket with odd stains on the back. [redacted] indicated to Detective [redacted] that he thought the stains looked like bloodstains. [redacted] agreed to bring the makeup and jacket, which had been kept by the owner of [redacted] since they had been brought to the residence. [redacted] provided Detective [redacted] with a white plastic bag which contained a white jacket and a small satchel which contained makeup, as well as two hairbrushes. [redacted] stated the owner of the residence at [redacted] had initially taken the makeup out of the container and co-mingled it with her own. At his request, she placed it back inside the makeup kit before turning it over to

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 120 / 431

APD. APD Officer [redacted] conducted a presumptive test on some of the stain on the white jacket. The stain tested presumptively positive for blood. b6 b7C

39. A Chase debit card found in the pocket of the jacket bore the name of [redacted] On 02-09-2012, Detectives [redacted] had contact with [redacted] after she walked out of [redacted] residence. [redacted] was obviously under the influence of controlled substances. [redacted] also had multiple obvious track marks- indicative of drug injections- on her inner elbows.

40. [redacted] said [redacted] then told him he was leaving to go out to Wasilla. [redacted] questioned [redacted] telling him he did not understand why [redacted] was going to drive out to Wasilla because he did not live out there nor did he have any contacts out there. [redacted] stated [redacted] was insistent that he was going to Wasilla, then going to Kenai. Per [redacted] left the residence on [redacted] at approximately 0200 hours.

41. On 02-10-2012 at approximately 1830 hours, Detectives [redacted] contacted [redacted] At their direction, [redacted] attempted to place several recorded telephone calls to [redacted] All of the attempted calls went through to voicemail. Detective [redacted] then asked [redacted] if he had told anyone he had been contacted by police the evening before. [redacted] vehemently denied telling [redacted] he had

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 121 / 431

been held at an APD substation for 6 hours on 02-10-2012, as [redacted] indicated. Detectives [redacted] b6 b7C questioned [redacted] repeatedly about his drug use. Contrary to what [redacted] stated, [redacted] stated he was not high and did not use drugs. At no time did [redacted] mention bringing the white jacket or makeup kit to [redacted] Detective [redacted] described [redacted] unique physical descriptors [redacted] has [redacted] to [redacted] who told Detective [redacted] he had never met anyone by that description.

42. On 02-11-2012, Detectives [redacted] conducted a taped Mirandized interview with [redacted] At the same time but at a different location, Detectives [redacted] [redacted] interviewed [redacted] girlfriend, [redacted] [redacted] During the interview, [redacted] initially denied any knowledge regarding receiving the boxes of marijuana. He later amended he may have done so, but stated he firmly believed it did not have anything to do with S. Koenig's kidnapping, as he and S. Koenig weren't actual relatives.

43. Detective [redacted] relayed to Detective [redacted] that during his interview with [redacted] she stated that at the end of December, [redacted] had received two boxes. The first box had been given to [redacted] received $500 for "catching" (receiving) the package. [redacted] kept the second package for himself, and executed a ruse to go to jail and tell the intended recipients that the police

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 122 / 431

had seized the package just prior to his being remanded to jail. Per [redacted] then sold the second package to [redacted] for $5,000.00. [redacted] stated that [redacted] came over several times in the subsequent weeks and inquired about the box and having it returned to the intended recipient. At one point, [redacted] told [redacted] "Hey you don't know what these people are capable of; it's out of my hands." Per [redacted] stated he had heard about S. Koenig's abduction. [redacted] reassured [redacted] that this did not have anything to do with the debt, as it "had been taken care of."

b6
b7C

44. When confronted with the information provided by [redacted] acknowledged that it was correct. He identified [redacted] as [redacted] from his Alaska driver's license photograph. [redacted] stated he did not have any information about who sent the box or where it came from. He stated only that we needed to speak to [redacted] to obtain information regarding the intended recipient of the box. He stated that the debt he owed for the second box was inconsequential, and reiterated it had nothing to do with S. Koenig's disappearance.

45. On 02-12-2012, Detective [redacted] and I conducted a taped Mirandized interview with [redacted] He supplied his cell phone number of [redacted] During the interview, [redacted] stated that he had seen S. Koenig on a couple of occasions, but had no contact with her recently. [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 123 / 431

stated that he was good friends with [redacted] and had only met S. Koenig through being at [redacted] residence. When we asked [redacted] who he gave the box of marijuana to after paying [redacted] $500 for "catching" it, [redacted] became very upset. He placed his hand on the missing person flyer for S. Koenig and stated, "I had nothing to do with this!" I assured [redacted] that we did not believe he was responsible for S. Koenig's kidnapping or that we believed [redacted] knew where she was. Instead, we were keenly in need of the identity of the individual who was the ultimate recipient of the first box of marijuana, as that would likely be the person who wanted to collect on the debt [redacted] owed for stealing the second box. [redacted] stated again, "I had nothing to do with this. I want to leave." The interview was terminated and [redacted] was allowed to leave and provided a ride to his residence.

b6
b7C

46. On 02-13-2012 and at the request of Detective [redacted] United States Postal Inspector Service (USPIS) Investigator [redacted] contacted the Mail Cache located at [redacted] in Anchorage, Alaska. USPIS [redacted] discovered that [redacted] received three parcels at that location, where he rented box [redacted] Per USPIS [redacted] paid cash for the Post Office Box rental, which he rented for only a month. All the parcels had been shipped via Fed Ex, and all were signed for by [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 124 / 431

a. The first parcel had tracking number 951376972815 and was mailed from Anderson, CA on 12/15/2011. It was picked up in Anchorage on 12/16/2011.

b. The second parcel had tracking number 951376972881 and was mailed from Anderson, CA on 12/21/2011. It was picked up on 12/27/2011.

c. The third parcel had tracking number 490395927259 and was mailed from Red Bluff, CA on 12/22/2011. It was picked up on 12/27/2011.

47. On 02-13-2012, Detectives [redacted] spoke with [redacted] stated that 3-4 days prior, [redacted] had given her a ride to her mother's house to pick up some clothing. [redacted] stated she did not have a chance to get her white jacket and makeup kit out of [redacted] vehicle prior to his leaving to [redacted] stated it was her understanding [redacted] gave the white jacket and makeup kit to [redacted] at [redacted] b6 b7C

48. On 02-15-2012, [redacted] made several calls to APD Dispatch reporting that he was "being followed". [redacted] initially contacted APD on 02-15-2012 while at his residence and wanted to report a dark colored Mazda Navajo had been following him. APD Officer [redacted] responded and found the Mazda Navajo in question was visiting a house down the street from [redacted].

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 125 / 431

49. Per the call log, [redacted] stated a male wearing a bullet proof vest was following him in a white Cadillac Escalade. A few minutes after making the 911 call to report someone following him, [redacted] called back and stated he observed an elderly male exiting the vehicle suspected of following him and no police response was necessary. b6 b7C

50. It should be noted that surveillance was indeed initiated on [redacted] but none of the "suspect vehicles" [redacted] described were the undercover vehicles operated by law enforcement conducting the surveillance. Furthermore, none of the officers on surveillance were wearing bullet proof vests. Per APD Officer [redacted] even after placing the second call to APD to indicate he was mistaken, [redacted] continued to drive very erratically- speeding, making multiple lane changes without using his turn signals, and running two red lights.

51. On 02-04-2012, [redacted] posted the following on his Facebook page: … IF YOU WOULD LIKE TO DONATE TO THE REWARD FUND FOR THE RECUE OF SAMANTHA TESSLA KOENIG YOU CAN DO SO BY GOING TO ANY DENALI ALASKAN FEDERAL CREDIT UNION AND USE ACCOUNT #135006, OR I HAVE ALSO SET UP A PAYPAL ACCOUNT GOTO PAYPAL.COM AND ENTER MY EMAIL ADDRESS, ALL LOWER CASE, [redacted] ALL PROCEEDS GO TO THE RESCUE EFFORTS AND REWARD TO ANYONE THAT CAN RETURN HER HOME TO ME SAFELY AND UNHARMED… .

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 126 / 431

52. Investigators have confirmed the existence of a living trust account with the same account number as above (135006) exists at Denali Alaskan Federal Credit Union. Furthermore, it is belived that other than Samantha Koenig, [redacted] is the only other person who has the ability to withdraw funds from the account. b6 b7C

53. During the week of February 5th, 2012 Detective [redacted] and I spoke with [redacted] stated that an unusual amount of emphasis was being placed on raising reward funds, and expressed concern that raising money seemed to be the foremost goal of both [redacted]

54. On 02-08-2012 [redacted] posted the following information on his Facebook page: ...WHOEVER HAS MY DAUGHTER JUST BRING HER ANYWHERE, TO A HOSPITAL, HOMES, SEND HER IN A CAB HOME ANONYMOUSLY, AND I WILL LEAVE ALL THE MONEY WE HAVE COLLECTED IN A CERTAIN PLACE OF YOUR CHOOSING WITHIN MINUTES OF YOUR INSTRUCTIONS, JUST RETURN HER TO ME.

55. On 02-14-2012, I received a call from [redacted] who wished to report that [redacted] had made a death threat to her earlier in the day. [redacted] explained that her daughter had printed t-shirts with Samantha Koenig's photograph on them and was selling the t-shirts for $10 each. $5 of the proceeds was to remain with [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 127 / 431

daughter, while $5 was to be donated to the reward fund. Per [redacted] her daughter sold $200 worth of t-shirts and earlier that day, [redacted] had contacted [redacted] in an attempt to collect the $100 owed to her daughter. [redacted] stated [redacted] became very angry, and refused to give her the money. [redacted] stated [redacted] told her, "If you make one more t-shirt with [redacted] face on it, I will kill you." [redacted] maintained that [redacted] actions during the last two weeks- when she often assisted in search efforts- was highly unusual. [redacted] stated [redacted] was almost obsessive about collecting money for the reward fund, at times checking the same donation jar several times a day. [redacted] asked me to "check on it, because something about this just isn't right. He [redacted] cares more about the money than he does about [redacted] also told me she had observed [redacted] smoking marijuana and carrying a shotgun in a soft-sided case on multiple occasions since the abduction. [redacted] indicated she thought this was highly unusual behavior for a [redacted] concerned over the loss of [redacted]

b6
b7C

56. On 02-16-2012, [redacted] posted the following information on his Facebook page: …PLEASE FIND IT IN YOUR HEART TO HELP SAMANTHA, EVEN IF YOU COME TO ME, I WILL GUARANTEE YOUR SAFETY, AND SET YOU UP WITH ENOUGH MONEY TO LEAVE STATE AND START ANEW SOMEWHERE OF YOUR CHOOSING. AS LONG AS THE RESULT IS HER RETURNING TO ME SAFE AND

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 128 / 431

UNHARMED, ANYTHING LESS I WILL DEVOTE MY LIVE, AND RESOURCES TO HUNTING DOWN THE INDIVIDUALS RESPONSIBLE FOR STEALING MY LIFE FROM ME…

57. Based on the above information, I believe probable cause exists that [redacted] may attempt to enter into an agreement with S. Koenig's abductors and pay out the money in the reward fund in return for S. Koenig. Furthermore, the above information indicates [redacted] may not be forthcoming with the details of S. Koenig's abduction; including the identity of her abductors and the reasons behind her abduction. b6 b7C

58. Furthermore, evidence sought that may show a relationship between the victim and person(s) that may have crucial knowledge of or participation in the crime of kidnapping. Further, that such a search may identify unknown witness who has vital information to this investigation.

ADDITIONAL INFORMATION

59. On 02-24-2012, at 1956 hours, [redacted] received the following text on his cell phone [redacted] from Samantha Koenig's cell phone (907-884-8370): "Conner park sign under pic of albert aint she purty". [redacted] contacted me and relayed the information to me. At my request, APD Patrol Officers arrived at Conner Park- located on the southeast corner of Jewel Lake Road and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 129 / 431

International Airport Road in Anchorage, Alaska- at approximately 2018 hours. [redacted] were already present. Attached to the park sign, below a flyer for a lost dog named "Albert", was a Ziploc bag which contained a folded piece of paper. b6 b7C

60. Anchorage Police Officer [redacted] photographed the item and the surrounding area. The Anchorage Police Crime Scene team also responded to process the scene. Officer [redacted] then seized the Ziploc bag and the item inside and transported it to APD Headquarters prior to turning it over to me.

61. Once unfolded, the piece of paper was shown to contain a photograph [redacted] A persons arm with a latex-gloved hand was in the lower left screen of the photo. The hand was holding onto the hair of the female; which had been braided. In the upper part of the screen was an Anchorage Daily Newspaper. I was able to find the front page of the Anchorage Daily News which corresponded with the one shown in the photograph. It was the issue released on Monday, February 13th, 2012. On 02-25-2012, [redacted] positively identified the female in the photograph as [redacted] Samantha Koenig.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 130 / 431

62. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note indicated that in exchange for the money, between 6 months and a year from receipt of the money, the author would text the location of a packet of information which would provide law enforcement with all the information they needed to find her (S. Koenig.) The note indicated an account to which the money should be deposited. Investigators believe that the "account" numbers provided are not actually a bank account. Instead they are a 16 digit debit card number- the debit card belonging to [redacted] b6 b7C

63. At my direction, [redacted] attempted to make multiple telephone calls to S. Koenig's telephone from 2330 hours on 02-24-2012 through 0135 hours on 02-25-2012. During all of the calls, there was one short ring followed by 4 long rings then an automated voicemail. Based on my training and experience, this is the type of cadence that occurs when a cellular telephone is forwarded to another telephonic device.

CRIMINAL HISTORY

64. Per the Alaska Public Safety Information Network (APSIN), [redacted] date of birth [redacted] has the following known criminal history: [redacted] [redacted] He has no known pending charges. Per the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 131 / 431

Interstate Information Index (III), he has no known criminal convictions or pending charges.

65. Per APSIN, [redacted] date of birth [redacted] b6 b7C [redacted] has the following known criminal history: [redacted]

[redacted]

2. Per the Interstate Information Index (III), he has no know criminal convictions or pending charges.

66. [redacted] date of birth [redacted] has the following convictions per APSIN: [redacted]

[redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 132 / 431

[redacted] He has no known pending charges. Per the Interstate Information Index (III), he has no know criminal convictions or pending charges. b6 b7C

67. [redacted] date of birth [redacted] has no known criminal convictions per APSIN. [redacted] Per the Interstate Information Index (III), he has no know criminal convictions or pending charges.

68. Per APSIN, [redacted] date of birth [redacted] has the following known criminal history: [redacted] Per III, the CS has the following known convictions in the state of Washington: [redacted] III did not indicate any pending charges.

GENERAL INFORMATION AND PROCEDURAL REQUESTS

69. Based on the above information, I respectfully state that there is probable cause to believe that that the information likely to be obtained from the requested pen

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 133 / 431

register, calling line identifiers and related subscriber information would lead to evidence of kidnapping and/or the identification of the person or persons responsible for Samantha Koenig's abduction. I would like to request the installation of a pen register (a device to identify/register telephone numbers dialed or pulsed from a specified telephone number), and calling line identifiers (a device to identify incoming telephone numbers from which calls are made into a specified telephone number, statutorily referenced as a "trap and trace device") on the **TARGET TELEPHONE NUMBER,** [redacted], which is a cellular telephone issued by Alaska Communications Systems (ACS) for a period of 60 (sixty) days from the date of installation. I request the Court authorize the installation, service, and monitoring of this device to be conducted by members of the Anchorage Police Department or other qualified law enforcement personnel to included technical assistance in implementing this order, warrant, etc., provided by the Federal Bureau of Investigation (FBI). This application also seeks authorization to receive subscriber information including the subscriber names, addresses, and billing information related to the outgoing and incoming telephone numbers identified by the pen register and calling line identifier and to record or decode dialing, routing, addressing, cellular telephone towers, or signaling information transmitted from the **TARGET TELEPHONE NUMBER.**

b6
b7C

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 134 / 431

70. I further request that the Court direct that upon service of the order upon it, the local, long distance, and wireless carriers, and any other person or entity providing wire communication service in the United States whose assistance may facilitate execution of the order, furnish the information, facilities, and technical assistance necessary to accomplish unobtrusively the installation and use of the pen register and trap and trace device with compensation to be paid by the investigative agencies for reasonable expenses directly incurred in providing such facilities and assistance.

71. I further request that the order direct the local, long distance, and wireless carriers, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the order, furnish the results of the pen register and trap and trace installation to the investigative agencies, as soon as practicable, twenty-four (24) hours a day, for the duration of the order.

72. I further request that the order direct any other communications common carriers to furnish forthwith, related subscriber information, including subscriber names, addresses and related billing information related to such numbers identified per the pen registers and calling line identifiers.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 135 / 431

73. The Affiant also requests that The Court orders authorization to notice the provision of Criminal Rule 37 be relaxed pursuant to Criminal Rule 53, so that we do not have to leave a copy of the affidavit and or authorizations with the person(s) and or premise(s). This is a continuing investigation and the Affiant feels that it would hamper the ability of the Affiant to gather other evidence. Additionally, and for the same reasons, the Affiant asks that the authorizations, and the affidavit in support of them be sealed by The Court in order to prevent unauthorized persons from seeing this affidavit and authorization as the safety of the CS and associated law enforcement officers would be compromised.

74. I respectfully request that this authorization be sealed by the Court in order to prevent unauthorized people from seeing this affidavit and authorization.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 136 / 431

IN THE DISTRICT/SUPERIOR COURT FOR THE STATE OF ALASKA
AT Anchorage

SEARCH WARRANT
NO. 12-204 SW

Relates to case number(s):

b6
b7C

TO: Any Peace Officer

☐ Sworn testimony having been given by _____,

☒ An affidavit having been sworn to before me by Detective [redacted] DSN 1488,

☐ Following my finding on the record that there is probable cause to believe that 1) the presentation of the applicant's affidavit or testimony personally before a judicial officer would result in a delay in obtaining or executing a search warrant; and 2) the delay might result in loss or destruction of the evidence subject to seizure or might interfere with an ongoing investigation, recorded sworn testimony was given by telephone by _____

I find probable cause to believe that

☐ on the person of _____

☒ on the premises known as General Communications Incorporated (GCI) at Anchorage, Alaska, there is now being concealed property, namely:
See Attachment #A

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 139 / 431

and that such property (see AS 12.35.020)

- ☒ 1. is evidence of the particular crime(s) of Kidnapping in any degree, AS 11.41.300 et. seq.
- ☐ 2. tends to show that _____ committed the particular crime(s) of _____.
- ☐ 3. is stolen or embezzled property.
- ☐ 4. was used as a means of committing a crime.
- ☐ 5. is in the possession of a person who intends to use it as a means of committing a crime.
- ☐ 6. is one of the above types of property and is in the possession of _____, to whom _____ delivered it to conceal it.
- ☐ 7. is evidence of health and safety violations.

YOU ARE HEREBY COMMANDED to search the person or premises named for the property specified, serving this warrant, and if the property be found there, to seize it, holding it secure pending further order of the court, leaving a copy of this warrant, and all supporting affidavits, and a receipt of property taken. You shall also prepare a written inventory of any property seized as a result of the search pursuant to or in conjunction with the warrant. You shall make the inventory in the presence of the applicant for the warrant and the person from whose possession or premises the property is taken, if they are present, or in the presence of at least one credible person other than the warrant applicant or person from whose possession or premises said property is taken. You shall sign the inventory and return it and the warrant within 10 days after this date to this court as required by law.

YOU SHALL SERVE THIS WARRANT:

- ☑ ☐ between the hours of 7:00 a.m. and 10:00 p.m.
- ☐ between the hours of _____ ☐ a.m. ☐ p.m. and _____ ☐ a.m. ☐ p.m.
- ☒ at any time of the day or night.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 140 / 431

SEARCH WARRANT NO. _____SW

YOU SHALL MAKE THE SEARCH:

☒ immediately. To expire

within 60 ☒ days of installation

☐ within 10 days.

☐ contingent upon the happening of the events expected to occur as set forth in the supporting testimony, specifically _____

From the information provided in the application for the warrant, I find compelling reasons to postpone delivery of this notice beyond the time set in Criminal Rule 37(b).[1] Therefore, this notice must be given:

☐ immediately upon seizure of the property.
☐ within a reasonable period, not to exceed 90 days from this date.
☒ within 90 days, which I have determined to be a reasonable time in this case.

If you cannot deliver the notice within this time limit, you must apply to the court for an extension of the time limit. Your sworn application must show good cause for the extension.

Search Warrant #3AN-12-_____sw

ATTACHMENT #A

1. The installation of a pen register (a device to identify/register telephone numbers dialed or pulsed from a specified telephone number), and calling line identifiers (a device to identify incoming telephone numbers from which calls are made into a specified telephone number, statutorily referenced as a "trap and trace device") on the **TARGET TELEPHONE NUMBER**, (907)884-8370, which is a cellular telephone issued by General Communications Incorporated (GCI) for a period of 60 (sixty) days from the date of installation.

2. Further, the installation, service, and monitoring of this device will be conducted by members of the Anchorage Police Department or other qualified law enforcement personnel to included technical assistance in implementing this order, warrant, etc., provided by the Federal Bureau of Investigation (FBI). This application also provides authorization to receive subscriber information including the subscriber names, addresses, and billing information related to the outgoing and incoming telephone numbers identified by the pen register and calling line identifier and to record or decode dialing, routing, addressing,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 143 / 431

cellular telephone towers, or signaling information transmitted from the **TARGET TELEPHONE NUMBER.**

3. This order further directs that upon service of the order upon it, the local, long distance, and wireless carriers, and any other person or entity providing wire communication service in the United States whose assistance may facilitate execution of the order, furnish the information, facilities, and technical assistance necessary to accomplish unobtrusively the installation and use of the pen register and trap and trace device with compensation to be paid by the investigative agencies for reasonable expenses directly incurred in providing such facilities and assistance.

4. It is further ordered that the local, long distance, and wireless carriers, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the order, furnish the results of the pen register and trap and trace installation to the investigative agencies, as soon as practicable, twenty-four (24) hours a day, for the duration of the order.

5. It is further ordered that any other communications common carriers to furnish forthwith, related

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 144 / 431

subscriber information, including subscriber names, addresses and related billing information related to such numbers identified per the pen registers and calling line identifiers.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 145 / 431

IN THE TRIAL COURT FOR THE STATE OF ALASKA

THIRD JUDICIAL DISTRICT AT ANCHORAGE

IN THE MATTER OF)
THE APPLICATION FOR)
SEARCH WARRANT)

3ANS 12-_____SW ***AMENDED***

VRA CERTIFICATION

I certify that this document and its attachments do not contain (1) the name of a victim of a sexual offense listed in AS 12.61.140 or (2) a residence or business address or telephone number of a victim of or witness to any offense unless it is an address used to identify the place of the crime or it is an address or telephone number in a transcript of a court proceeding and disclosure of the information was ordered by the court.

AFFIDAVIT OF [redacted] b6 b7C

I, [redacted] being first duly sworn on oath, hereby depose and state:

1. That since December 1997 I have been employed as a police officer with the Municipality of Anchorage. Upon graduation of a twenty-one week police academy, I completed fourteen weeks of field training and was assigned to patrol until May 2001. At this time I was promoted to the Special Assignment Unit, which specialized in conducting investigations into street level drugs, gambling, and prostitution.

2. In March 2002 I was promoted to Detective and assigned to the Burglary Unit at APD. In June 2002 I became a part of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 146 / 431

Metro Drug Unit until July 2007, when I was assigned to the Drug Enforcement Administration as a Task Force Officer until January 2012, when I was assigned to the Anchorage Police Department Homicide Unit and am currently assigned there.

3. Prior to being hired at the Anchorage Police Department, I graduated from Northern Michigan University with a Bachelor's Degree in Science. The focus of the degree was a major in Criminal Justice and a minor in Psychology. In December 2003 I obtained a Master's Degree in Criminal Justice from Boston University.

4. I have also completed an additional forty- hour advanced course in Crime Scene Processing and a forty- hour advanced course in Accident Investigation, as well as a forty- hour Detective Academy taught by the Anchorage Police Department. Additionally, I have completed a forty- hour course in clandestine drug laboratories from the Drug Enforcement Administration.

5. I have also completed an eighty-hour course of instruction in Basic Drug Investigations conducted by the Drug Enforcement Administration's training staff. This school trained me in state and federal drug laws, development of probable cause, search and seizure law, drug identification and field testing, informant handling, marijuana eradication, surveillance techniques, street lingo, packaging and pricing, transportation and distribution of drugs. I also received

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 147 / 431

formal and supervised hands-on training in the field testing of cocaine, heroin, Methamphetamine and marijuana.

6. In July of 2005, I conceptualized, wrote, and instituted the drug field testing class at the Anchorage Police Department Police academy, and am currently the lead instructor for that course.

7. On September 7th, 2006 I was qualified as an expert witness in drug paraphernalia in front of the honorable Judge Wolverton in Alaska Superior Court. In July 2007, I was qualified as an expert drug witness in front of the honorable Judge McKay in Alaska Superior Court. I have been qualified and testified as an expert witness in narcotics distribution in Alaska State grand jury proceedings approximately fifty (50) times in the past three years.

8. During my tenure as a police officer, I have conducted and/or participated in numerous investigations relating to the use, possession, manufacture, and trafficking of controlled substances, and I have become familiar with devices, paraphernalia, techniques, and practices used by people engaged in the use, possession, manufacture, and trafficking of controlled substances. I have conducted and/or participated in investigations which have resulted in the seizure of marijuana, marijuana grow operations, cocaine hydrochloride, cocaine base (crack), opium, PCP, heroin, ketamine, methylenedioxymethamphetamine (MDMA/ecstasy),

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 148 / 431

methamphetamine, methamphetamine laboratories, prescription medications, firearms, pagers, cellular telephones, surveillance systems, cameras, memory cards, computers, documents, money, and precious metals. I have also conducted numerous interviews of people involved in the use, possession, manufacture, and trafficking of controlled substances, adding to my knowledge of the illegal drug culture in the Anchorage area. In addition to my formal training and experience, I have gained knowledge and insight by working and speaking with many experienced law enforcement agents from local, state, and federal agencies, and I consider this knowledge and insight to be an integral part of my experience and training.

9. I have worked as an undercover officer for prostitution and controlled substance cases and have assisted other Detectives with controlled substance cases as photographer, surveillance officer, evidence custodian, and entry/search team member. I have been the case officer on drug cases, assigning and directing other officers in the investigations. I have also acted as a Control Officer for handling Cooperating Sources in controlled substance cases.

INVESTIGATION

10. I am currently assisting in the investigation of APD case 12-5307, a kidnapping investigation. The following information is based upon either my own observations or the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 149 / 431

observations of other Anchorage Police Officers conveyed to me orally or via their written reports prepared under Anchorage Police Case 12-5307.

11. On 2-2-12 at about 12:39 [redacted] b6 b7C Common Ground Coffee stand at 630 E. Tudor, contacted APD dispatch. [redacted] was calling from Oregon, where he was vacationing. He reported that while viewing his internet based security system he saw one of his employees, Samantha Koenig, appear to be abducted. [redacted] said he was contacted by [redacted] who had been unable to locate her. This contact prompted [redacted] to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 on 2-1-12 while Koenig was working. The video shows Koenig giving the man the money from the register and leaving with him.

12. During a taped Mirandized interview on 02-02-2012 by Detective [redacted] and I, [redacted] said he went to the coffee stand on 2-1-12 at about 20:33 to give her a ride home but the stand appeared to be closed and she was not there. [redacted] was asked to describe in detail exactly what he did when he arrived at Common Grounds to pick S. Koenig up from work on 02-01-2012. [redacted] stated he drove around the coffee stand and noticed the interior lights were off. He then parked the truck, got out, and looked through one of the windows.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 150 / 431

He stated that "everything was closed", that the wooden slides used to block the windows from sliding were in place. He added that there were napkins on the floor and the towels used to clean still sitting on the countertop- which he thought was unusual as S. Koenig was very conscientious about being neat. [redacted] stated that after looking in the windows and noticing the wooden blocks were in place, he did not attempt to see if the door was locked as he did not want to "trigger an alarm and be accused of breaking in." b6 b7C

13. APD Detectives have obtained both interior and exterior surveillance tape from Common Grounds. On 02-01-2012 at approximately 2023 hours, multiple surveillance cameras show a vehicle matching [redacted] truck) drive up to Common Grounds, briefly pause at one of the windows (as if the driver is looking in the window) and then drive away. As indicated by the surveillance videos, the vehicle was in the vicinity of the coffee stand for approximately 8 seconds.

14. Throughout the interview, [redacted] consulted text messages and telephone call logs on his cell phone to provided Detective [redacted] and I with the exact times of events that occurred on 02-01-2012 and 02-02-2012. [redacted] initially told Detectives that he and Koenig's relationship had been "bumpy" at one point, but had been going well recently, including the day Koenig disappeared.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 151 / 431

When asked to describe why the relationship was "bumpy", [redacted] stated he had been talking to other girls on Facebook- which Koenig did not like. During the time [redacted] was speaking about the day Koenig disappeared, he referenced several texts between him and Koenig and moved his cell phone across the table in the interview room so I could read them as well. After reading several of the texts from 02-01-2012 between [redacted] and Koenig (with [redacted] scrolling through them without prompting so I could read them), I indicated several texts that implied S. Koenig and [redacted] were arguing. [redacted] then admitted that at one point he had called Koenig to talk to her, and she told him she couldn't talk because she was busy with a customer. [redacted] stated he said, "Whatever," and ended the call. [redacted] vehemently denied any further disagreements between he and S. Koenig.

b6
b7C

15. [redacted] said he tried to contact S. Koenig at her cell phone by calling and texting but he did not get an immediate reply. Samantha Koenig's cellular telephone number is (907)884-8370 (the **TARGET TELEPHONE NUMBER.**) [redacted] said he continued attempting to contact Koenig and got a reply at about 2324 hours on 2-1-12. [redacted] showed me the text, which read, "F U asshole i know what u did i am going to spend a couple of days with friends need time to think plan actig weird let my dad know." [redacted] said from the word usage and texting style he does not

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 152 / 431

believe Koenig authored the text. Koenig's cell phone provider is GCI, her number is (907) 884-8370. At 2353 hours, [redacted] cell phone showed a second text message received from S. Koenig's phone. The second text message read, "F U". b6 b7C

16. [redacted] also reported that at about 0300 on 2-2-12 he saw a man wearing a mask going through Koenig's vehicle which was parked at their residence, [redacted] in Anchorage, Alaska. [redacted] told me during an initial interview on 02-02-2012 at approximately 1400 hours that he subsequently went through the vehicle and found nothing missing but Samantha Koenig's Alaska Driver's License- which was kept in a zippered pocket on a visor organizer on the driver's side of the vehicle. [redacted] told Detective [redacted] and I he was positive nothing else was missing from the vehicle.

17. [redacted] said he and Koenig share the vehicle, a [redacted] [redacted] AK plate [redacted] and each of them have keys to the vehicle [redacted] said the last time Koenig used the vehicle was when she drove it to work the morning of 2-1-12. [redacted] told me that he remained at his residence of [redacted] in Anchorage where he fell asleep at approximately 0430 hours until approximately 0920 hours. When I asked him why he had not at some point contacted the police department to report the suspicious circumstances and S. Koenig missing, he replied that he did not think the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 153 / 431

police would "do anything about it until they were missing for 24 hours." This was the same answer [redacted] provided during his interview, which immediately preceded [redacted]

b6
b7C

18. The [redacted] AK plate [redacted] was impounded to APD secure storage on 02-02-2012 at approximately 1400 hours. A search warrant was subsequently obtained and executed on the vehicle by the Anchorage Police Department. In the visor organizer, in the same pocket as [redacted] described Koenig's missing id was kept, was a Visa credit card and a Credit Union 1 debit card.

19. On 02-02-2012 at approximately 0330 hours, an individual dressed in a black hooded sweatshirt, sunglasses, jacket and black gloves utilized an ATM at the Denali Alaskan FCU located 3020 Minnesota Drive in Anchorage, Alaska. The individual utilized an ATM card issued to Duanne Tortolani.

20. On 02-02-2012 at approximately 2000 hours and at my request, APD Officers [redacted] responded to [redacted] I requested a brief follow up with [redacted] in reference to why he had called Common Grounds the morning of 02-02-2012 demanding to see the video surveillance from the night before. Officer [redacted] told me he knocked on the door to [redacted] and [redacted] answered the door. Immediately after opening the door, [redacted] opened it enough to allow himself through,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 154 / 431

and left the door only slightly ajar while he spoke with Officer [redacted] Upon requesting to talk to [redacted] b6 b7C re-entered the apartment via the same method, and closed it firmly behind him. When [redacted] came to the door, he too opened it only enough he could fit through, and then closed it behind him while he spoke to Officer [redacted]

21. On 02-05-2012, at approximately 0900 hours, APD Detective [redacted] and I went to [redacted] in an effort to contact [redacted] reference the ATM card usage. No one answered the knock on the door to the residence. The occupant of [redacted] a white male who identified himself as [redacted] stated that neither [redacted] was home. I called [redacted] and asked him to come to APD Headquarters. [redacted] who stated he was with [redacted] distributing missing person fliers. He refused my request to come to APD Headquarters, and then the phone was taken by [redacted] angrily demanded to know why "we were at his house looking for him." I told [redacted] we were in fact looking for [redacted] because we had further questions for him. [redacted] expressed suspicion at this and stated he and [redacted] would meet us at a separate location, but not at the residence.

22. At approximately 1200 hours, Detective [redacted] and I contacted [redacted] behind the Spenard Builder's Supply located at Tudor Road and Minnesota Blvd.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 155 / 431

They arrived with [redacted] operating a [redacted] Alaska license plate [redacted] Detective [redacted] contacted [redacted] while I spoke with [redacted] During the contact, which was tape recorded, I asked [redacted] what his knowledge of S. Koenig's finances were. He stated she had an account at Credit Union One for a long while, and approximately a week and a half prior, he had been added to the account. He stated two debit cards were issued for the account- which had a balance of approximately $5.00 United States Currency. He stated the cards bore different numbers even though they were for the same account, but they had obtained the same PIN number for both of the cards. [redacted] knew "for a fact" that the last activity on the account was on January 31st when he used the account to cash a check for $30.00. When asked what his debit card was, [redacted] stated it was in his wallet- which he described as brown in color- which was in the [redacted] stated the wallet was either in the same visor organizer S. Koenig's identification had been taken from, or in the center console of the vehicle. When a State of Alaska search warrant was executed on the vehicle on 02-03-2012, no wallet was found.

b6
b7C

23. During his initial contact with APD Officer [redacted] on 02-02-2012 at approximately 1200 hours, [redacted] denied any knowledge that Samantha Koenig had ever used drugs. He provided his cellular telephone number of [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 156 / 431

During the taped, Mirandized interview of [redacted] b6 b7C conducted on 02-02-2012, [redacted] told me that S. Koenig used marijuana, and had used cocaine a year prior but had been "clean" since that time. [redacted] provided a cellular phone number of [redacted] During a recorded interview with S. Koenig's [redacted] stated Samantha Koenig was a recovering cocaine addict. During interviews with several other friends and acquaintances of Samantha Koenig, the fact that she was recovering from a substance abuse problem and that she occasionally relapsed seemed to be a common theme.

24. On 02-05-2012, Detectives [redacted] drove to a residence located at [redacted] in Anchorage, Alaska in an attempt to contact [redacted] was not there, but they spoke with [redacted] who identified himself as S. Koenig's [redacted] During the interview, [redacted] stated that [redacted] behavior changed dramatically about a week and a half prior as he was moving out of the [redacted] address. Specifically, [redacted] stated [redacted] was "doing licks" (street lingo for robbing drug dealers). Furthermore, [redacted] observed what he described as a black and grey smith and Wesson .40 semi auto pistol tucked in the front of [redacted] pants and stated [redacted] boasted of "pulling a lick" at that time.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 157 / 431

25. On 02-05-2012 Detectives [redacted] conducted an interview with [redacted] Samantha Koenig's [redacted] During interviews with multiple friends and family members of Samantha Koenig, [redacted] is considered S. Koenig's [redacted] During the interview, [redacted] stated he knew S. Koenig, but did not have much of a relationship with her. He indicated his girlfriend- [redacted] knew her much better, and Detectives should talk to [redacted] for more information. [redacted] told Detectives that he knew from relatives that S. Koenig was missing, but did not believe it was a legitimate abduction. [redacted] stated he had been talking with his father- [redacted] regarding S. Koenig, and stated he told his father that S. Koenig had relapsed and was on a "cocaine binge." [redacted] stated his cell phone number was [redacted]

b6
b7C

26. On 02-08-2012, pursuant to Alaska Search warrant #3AN-12-206sw, members of the Anchorage Police Department searched [redacted] in Anchorage, Alaska. Per Detective [redacted] present in the crawl space of the apartment appeared to be a marijuana grow operation that was recently dismantled. In addition to two 1000 watt halogen bulbs, there was growing medium, several pots, black plastic, and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 158 / 431

marijuana "shake"- or small pieces of discarded marijuana plant material.

27. On 02-09-2012, Detectives [redacted] conducted a recorded, Mirandized interview with [redacted] date of birth [redacted] During the interview, [redacted] told Detectives that his friend [redacted] whom he later identified as [redacted] from [redacted] Alaska Driver's License Photo- told him of a recent conversation [redacted] had with [redacted] best friend - [redacted] whom he identified from [redacted] Alaska Driver's License photo. [redacted] stated [redacted] told him that [redacted] had been receiving packages containing marijuana from out-of-state, and [redacted] was being paid $500 per package to "catch" (receive) them at his house. b6 b7C

28. [redacted] stated [redacted] told him that approximately a month prior, [redacted] had come up with a ruse. Per [redacted] the ruse was to keep one of the packages containing marijuana, and lie to the senders- saying it had been seized by police and that was the reason for his imprisonment. Per [redacted] the person/people who sent the package discovered the ruse, and had kidnapped S. Koenig and were holding her as collateral for repayment on the drug debt. [redacted] stated he did not know how much the debt was that [redacted] owed, but thought there might have been 32 pounds of marijuana in the package.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 159 / 431

29. On 02-09-2012, Detectives [redacted] conducted a taped, Mirandized interview of [redacted] date of birth [redacted] During the interview, [redacted] stated he had recently had a telephone conversation with [redacted] whom he identified from [redacted] Alaska Driver's License photo. [redacted] related the CS had told him that [redacted] had gone through with the ruse outlined in paragraph 15, and S. Koenig had been kidnapped and was being held until the debt was repaid. [redacted] did not know how much marijuana was in the package, but estimated the debt to be approximately $60,000. b6 b7C

30. On 02-10-2012, Detectives [redacted] conducted a taped, Mirandized interview with [redacted] after he was contacted by Anchorage Police. [redacted] stated he had met S. Koenig a couple of times, most recently 6 months ago. [redacted] stated he had heard of S. Koenig's disappearance, but did not know where S. Koenig might be. [redacted] stated there was no conversation regarding Koenig's disappearance at that time. [redacted] was shown an Alaska Driver's license photo of [redacted] recognized [redacted] as being [redacted] and added that [redacted] was S. Koenig's [redacted]

31. During the interview, [redacted] stated that approximately 3 months prior, [redacted] picked up two boxes that contained approximately 15 pounds of marijuana. [redacted] thought the incident happened after New Year's Eve in 2012. [redacted] did

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 160 / 431

not know how the boxes were sent, however [redacted] thought [redacted] had picked the boxes up from an independent mailing center near Arctic Boulevard. Your Affiant is aware of a business called The Mail Cache- an independent packaging and shipping center- on Arctic Boulevard just south of 36th Avenue in Anchorage, Alaska.

b6
b7C

32. [redacted] stated he assisted [redacted] in carrying one of the two boxes into [redacted] residence. [redacted] stated once opened, he/she observed marijuana in vacuum packed plastic bags secreted in backpacks and other carriers. [redacted] stated that it was high quality marijuana, and would probably have a street value of about $4,000 per pound.

33. [redacted] stated [redacted] contacted the people who were intended to receive the marijuana, and told them one of the boxes was there. [redacted] stated he thought [redacted] was paid $500 by the individual(s) who picked up the box, but he/she did not observe the box being picked up and therefore could not describe the individual(s). [redacted] stated [redacted] kept the other box and gave the contents to a man [redacted] knew as [redacted] who [redacted] described as a [redacted] year old male who drove a [redacted] When asked, [redacted] estimated the worth of the marijuana in both boxes to be $66,000.00.

34. [redacted] stated [redacted] knew [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 161 / 431

[redacted] Per [redacted] then explained to [redacted]

b6
b7C

35. A check of Anchorage Police databases revealed that per APD Police Report [redacted] on [redacted] at approximately 2132 hours, [redacted] contacted APD Dispatch and stated that [redacted] Per [redacted] the intended recipient(s) of the box found out [redacted] ruse, and demanded either payment for the marijuana or the marijuana returned. [redacted] stated that he/she believed a possible motivation for S. Koenig's kidnapping was that the intended recipient(s) of the aforementioned package had abducted her and were holding her as "collateral" for payment of the marijuana.

36. When asked, [redacted] initially stated the last time he/she had contacted [redacted] was several weeks prior. Upon being questioned further, including being told APD intended to apply for search warrants on [redacted] cell phone records, [redacted] stated he spoke with [redacted] on either 02-04-2012 or 02-06-2012. On 02-10-2012, Detective [redacted] applied for and was granted glass warrant 3AN-12-223-sw, which authorized the monitoring and recording of conversations between [redacted] Pursuant to

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 162 / 431

that glass warrant, several monitored attempts were made on 02-11-2012 to contact [redacted] at [redacted] All of the calls were routed to voicemail. b6 b7C

37. On 02-11-2012 at approximately 1430 hours, Detectives [redacted] spoke to [redacted] Detectives [redacted] had previously interviewed [redacted] on 02-10-2012. [redacted] stated that at approximately 0100 hours on 02-11-2012 he had been at a residence located at [redacted] in Anchorage, Alaska when [redacted] arrived at the apartment. Per [redacted] stated he had just been to an APD substation being questioned for 6 hours. [redacted] stated [redacted] then proceeded to utilize heroin to "get high."

38. Furthermore, [redacted] stated that 3-4 days prior to the 11th, [redacted] arrived at [redacted] carrying a makeup case and a white winter jacket with odd stains on the back. [redacted] indicated to Detective [redacted] that he thought the stains looked like bloodstains. [redacted] agreed to bring the makeup and jacket, which had been kept by the owner of [redacted] since they had been brought to the residence. [redacted] provided Detective [redacted] with a white plastic bag which contained a white jacket and a small satchel which contained makeup, as well as two hairbrushes. [redacted] stated the owner of the residence at [redacted] [redacted] had initially taken the makeup out of the container and co-mingled it with her own. At his request, she placed

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 163 / 431

it back inside the makeup kit before turning it over to APD. APD Officer [redacted] conducted a presumptive test on some of the stain on the white jacket. The stain tested presumptively positive for blood. b6 b7C

39. A Chase debit card found in the pocket of the jacket bore the name of [redacted] On 02-09-2012, Detectives [redacted] had contact with [redacted] after she walked out of [redacted] residence. [redacted] was obviously under the influence of controlled substances. [redacted] also had multiple obvious track marks- indicative of drug injections- on her inner elbows.

40. [redacted] said [redacted] then told him he was leaving to go out to Wasilla. [redacted] questioned [redacted] telling him he did not understand why [redacted] was going to drive out to Wasilla because he did not live out there nor did he have any contacts out there. [redacted] stated [redacted] was insistent that he was going to Wasilla, then going to Kenai. Per [redacted] left the residence on [redacted] at approximately 0200 hours.

41. On 02-10-2012 at approximately 1830 hours, Detectives [redacted] contacted [redacted] At their direction, [redacted] attempted to place several recorded telephone calls to [redacted] All of the attempted calls went through to voicemail. Detective [redacted] then asked [redacted] if he had told anyone he had been contacted by police the evening

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 164 / 431

before. [redacted] vehemently denied telling [redacted] he had been held at an APD substation for 6 hours on 02-10-2012, as [redacted] indicated. Detectives [redacted] questioned [redacted] repeatedly about his drug use. Contrary to what [redacted] stated, [redacted] stated he was not high and did not use drugs. At no time did [redacted] mention bringing the white jacket or makeup kit to [redacted] Detective [redacted] described [redacted] unique physical descriptors [redacted] has [redacted] to [redacted] who told Detective [redacted] he had never met anyone by that description.

b6
b7C

42. On 02-11-2012, Detectives [redacted] conducted a taped Mirandized interview with [redacted] At the same time but at a different location, Detectives [redacted] interviewed [redacted] girlfriend, [redacted] During the interview, [redacted] initially denied any knowledge regarding receiving the boxes of marijuana. He later amended he may have done so, but stated he firmly believed it did not have anything to do with S. Koenig's kidnapping, as he and S. Koenig weren't actual relatives.

43. Detective [redacted] relayed to Detective [redacted] that during his interview with [redacted] she stated that at the end of December, [redacted] had received two boxes. The first box had been given to [redacted] received $500 for "catching" (receiving) the package. [redacted] kept the second package for himself, and executed a ruse to go

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 165 / 431

to jail and tell the intended recipients that the police had seized the package just prior to his being remanded to jail. Per [redacted] then sold the second package to [redacted] for $5,000.00. [redacted] stated that [redacted] came over several times in the subsequent weeks and inquired about the box and having it returned to the intended recipient. At one point, [redacted] told [redacted] "Hey you don't know what these people are capable of; it's out of my hands." Per [redacted] stated he had heard about S. Koenig's abduction. [redacted] reassured [redacted] that this did not have anything to do with the debt, as it "had been taken care of." b6 b7C

44. When confronted with the information provided by [redacted] acknowledged that it was correct. He identified [redacted] as [redacted] from his Alaska driver's license photograph. [redacted] stated he did not have any information about who sent the box or where it came from. He stated only that we needed to speak to [redacted] to obtain information regarding the intended recipient of the box. He stated that the debt he owed for the second box was inconsequential, and reiterated it had nothing to do with S. Koenig's disappearance.

45. On 02-12-2012, Detective [redacted] and I conducted a taped Mirandized interview with [redacted] He supplied his cell phone number of [redacted] During the interview, [redacted] stated that he had seen S. Koenig on a couple of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 166 / 431

occasions, but had no contact with her recently. [redacted] b6 b7C stated that he was good friends with [redacted] and had only met S. Koenig through being at [redacted] residence. When we asked [redacted] who he gave the box of marijuana to after paying [redacted] $500 for "catching" it, [redacted] became very upset. He placed his hand on the missing person flyer for S. Koenig and stated, "I had nothing to do with this!" I assured [redacted] that we did not believe he was responsible for S. Koenig's kidnapping or that we believed [redacted] knew where she was. Instead, we were keenly in need of the identity of the individual who was the ultimate recipient of the first box of marijuana, as that would likely be the person who wanted to collect on the debt [redacted] owed for stealing the second box. [redacted] stated again, "I had nothing to do with this. I want to leave." The interview was terminated and [redacted] was allowed to leave and provided a ride to his residence.

46. On 02-13-2012 and at the request of Detective [redacted] United States Postal Inspector Service (USPIS) Investigator [redacted] contacted the Mail Cache located at [redacted] in Anchorage, Alaska. USPIS [redacted] discovered that [redacted] received three parcels at that location, where he rented box [redacted] Per USPIS [redacted] paid cash for the Post Office Box rental, which he rented for only a month. All the parcels had been shipped via Fed Ex, and all were signed for by [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 167 / 431

a. The first parcel had tracking number 951376972815 and was mailed from Anderson, CA on 12/15/2011. It was picked up in Anchorage on 12/16/2011.

b. The second parcel had tracking number 951376972881 and was mailed from Anderson, CA on 12/21/2011. It was picked up on 12/27/2011.

c. The third parcel had tracking number 490395927259 and was mailed from Red Bluff, CA on 12/22/2011. It was picked up on 12/27/2011.

47. On 02-13-2012, Detectives [redacted] spoke with [redacted] stated that 3-4 days prior, [redacted] had given her a ride to her mother's house to pick up some clothing. [redacted] stated she did not have a chance to get her white jacket and makeup kit out of [redacted] vehicle prior to his leaving to [redacted] stated it was her understanding [redacted] gave the white jacket and makeup kit to [redacted] at [redacted] b6 b7C

48. On 02-15-2012, [redacted] made several calls to APD Dispatch reporting that he was "being followed". [redacted] initially contacted APD on 02-15-2012 while at his residence and wanted to report a dark colored Mazda Navajo had been following him. APD Officer [redacted] responded and found the Mazda Navajo in question was visiting a house down the street from [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 168 / 431

49. Per the call log, [redacted] stated a male wearing a bullet proof vest was following him in a white Cadillac Escalade. A few minutes after making the 911 call to report someone following him, [redacted] called back and stated he observed an elderly male exiting the vehicle suspected of following him and no police response was necessary. b6 b7C

50. It should be noted that surveillance was indeed initiated on [redacted] but none of the "suspect vehicles" [redacted] described were the undercover vehicles operated by law enforcement conducting the surveillance. Furthermore, none of the officers on surveillance were wearing bullet proof vests. Per APD Officer [redacted] even after placing the second call to APD to indicate he was mistaken, [redacted] continued to drive very erratically- speeding, making multiple lane changes without using his turn signals, and running two red lights.

51. On 02-04-2012, [redacted] posted the following on his Facebook page: … IF YOU WOULD LIKE TO DONATE TO THE REWARD FUND FOR THE RECUE OF SAMANTHA TESSLA KOENIG YOU CAN DO SO BY GOING TO ANY DENALI ALASKAN FEDERAL CREDIT UNION AND USE ACCOUNT #135006, OR I HAVE ALSO SET UP A PAYPAL ACCOUNT GOTO PAYPAL.COM AND ENTER MY EMAIL ADDRESS, ALL LOWER CASE, [redacted] ALL PROCEEDS GO TO THE RESCUE EFFORTS AND REWARD TO ANYONE THAT CAN RETURN HER HOME TO ME SAFELY AND UNHARMED…

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 169 / 431

52. Investigators have confirmed the existence of a living trust account with the same account number as above (135006) exists at Denali Alaskan Federal Credit Union. Furthermore, it is belived that other than Samantha Koenig, [redacted] is the only other person who has the ability to withdraw funds from the account. b6 b7C

53. During the week of February 5th, 2012 Detective [redacted] and I spoke with [redacted] stated that an unusual amount of emphasis was being placed on raising reward funds, and expressed concern that raising money seemed to be the foremost goal of both [redacted]

54. On 02-08-2012 [redacted] posted the following information on his Facebook page: ...WHOEVER HAS MY DAUGHTER JUST BRING HER ANYWHERE, TO A HOSPITAL, HOMES, SEND HER IN A CAB HOME ANONYMOUSLY, AND I WILL LEAVE ALL THE MONEY WE HAVE COLLECTED IN A CERTAIN PLACE OF YOUR CHOOSING WITHIN MINUTES OF YOUR INSTRUCTIONS, JUST RETURN HER TO ME.

55. On 02-14-2012, I received a call from [redacted] who wished to report that [redacted] had made a death threat to her earlier in the day. [redacted] explained that her daughter had printed t-shirts with Samantha Koenig's photograph on them and was selling the t-shirts for $10 each. $5 of the proceeds was to remain with [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 170 / 431

daughter, while $5 was to be donated to the reward fund. Per [redacted] her daughter sold $200 worth of t-shirts and earlier that day, [redacted] had contacted [redacted] in an attempt to collect the $100 owed to her daughter. [redacted] stated [redacted] became very angry, and refused to give her the money. [redacted] stated [redacted] told her, "If you make one more t-shirt with [redacted] face on it, I will kill you." [redacted] maintained that [redacted] actions during the last two weeks- when she often assisted in search efforts- was highly unusual. [redacted] stated [redacted] was almost obsessive about collecting money for the reward fund, at times checking the same donation jar several times a day. [redacted] asked me to "check on it, because something about this just isn't right. He [redacted] cares more about the money than he does about [redacted] also told me she had observed [redacted] smoking marijuana and carrying a shotgun in a soft-sided case on multiple occasions since the abduction. [redacted] indicated she thought this was highly unusual behavior for [redacted] concerned over the loss of [redacted]

b6
b7C

56. On 02-16-2012, [redacted] posted the following information on his Facebook page: …PLEASE FIND IT IN YOUR HEART TO HELP SAMANTHA, EVEN IF YOU COME TO ME, I WILL GUARANTEE YOUR SAFETY, AND SET YOU UP WITH ENOUGH MONEY TO LEAVE STATE AND START ANEW SOMEWHERE OF YOUR CHOOSING. AS LONG AS THE RESULT IS HER RETURNING TO ME SAFE AND

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 171 / 431

UNHARMED, ANYTHING LESS I WILL DEVOTE MY LIVE, AND RESOURCES TO HUNTING DOWN THE INDIVIDUALS RESPONSIBLE FOR STEALING MY LIFE FROM ME...

57. Based on the above information, I believe probable cause exists that [redacted] may attempt to enter into an agreement with S. Koenig's abductors and pay out the money in the reward fund in return for S. Koenig. Furthermore, the above information indicates [redacted] may not be forthcoming with the details of S. Koenig's abduction; including the identity of her abductors and the reasons behind her abduction. b6 b7C

58. Furthermore, evidence sought that may show a relationship between the victim and person(s) that may have crucial knowledge of or participation in the crime of kidnapping. Further, that such a search may identify unknown witness who has vital information to this investigation.

ADDITIONAL INFORMATION

59. On 02-24-2012, at 1956 hours, [redacted] received the following text on his cell phone [redacted] from Samantha Koenig's cell phone- 907-884-8370- the **TARGET TELEPHONE NUMBER**: "Conner park sign under pic of albert aint she purty". [redacted] contacted me and relayed the information to me. At my request, APD Patrol Officers arrived at Conner Park- located on the southeast corner of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 172 / 431

Jewel Lake Road and International Airport Road in Anchorage, Alaska- at approximately 2018 hours. [redacted] were already present. Attached to the park sign, below a flyer for a lost dog named "Albert", was a Ziploc bag which contained a folded piece of paper. b6 b7C

60. Anchorage Police Officer [redacted] photographed the item and the surrounding area. The Anchorage Police Crime Scene team also responded to process the scene. Officer [redacted] then seized the Ziploc bag and the item inside and transported it to APD Headquarters prior to turning it over to me.

61. Once unfolded, the piece of paper was shown to contain a photograph [redacted] A persons arm with a latex-gloved hand was in the lower left screen of the photo. The hand was holding onto the hair of the female; which had been braided. In the upper part of the screen was an Anchorage Daily Newspaper. I was able to find the front page of the Anchorage Daily News which corresponded with the one shown in the photograph. It was the issue released on Monday, February 13th, 2012. On 02-25-2012, [redacted] positively identified the female in the photograph as [redacted] Samantha Koenig.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 173 / 431

62. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note indicated that in exchange for the money, between 6 months and a year from receipt of the money, the author would text the location of a packet of information which would provide law enforcement with all the information they needed to find her (S. Koenig.) The note indicated an account to which the money should be deposited. Investigators believe that the "account" numbers provided are not actually a bank account. Instead they are a 16 digit debit card number- the debit card belonging to [redacted] b6 b7C

63. At my direction, [redacted] attempted to make multiple telephone calls to S. Koenig's telephone from 2330 hours on 02-24-2012 through 0135 hours on 02-25-2012. During all of the calls, there was one short ring followed by 4 long rings then an automated voicemail. Based on my training and experience, this is the type of cadence that occurs when a cellular telephone is forwarded to another telephonic device.

CRIMINAL HISTORY

64. Per the Alaska Public Safety Information Network (APSIN), [redacted] date of birth [redacted] has the following known criminal history: [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 174 / 431

Interstate Information Index (III), he has no known criminal convictions or pending charges.

65. Per APSIN, [redacted] date of birth [redacted] b6 b7C
[redacted] has the following known criminal history: [redacted]

[redacted]

2. Per the Interstate Information Index (III), he has no know criminal convictions or pending charges.

66. [redacted] date of birth [redacted] has the following convictions per APSIN: [redacted]

[redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 175 / 431

[redacted] He has no known pending charges. Per the Interstate Information Index (III), he has no know criminal convictions or pending charges. b6 b7C

67. [redacted] date of birth [redacted] has no known criminal convictions per APSIN. [redacted] Per the Interstate Information Index (III), he has no know criminal convictions or pending charges.

68. Per APSIN, [redacted] date of birth [redacted] has the following known criminal history: [redacted] Per III, the CS has the following known convictions in the state of Washington: [redacted] III did not indicate any pending charges.

GENERAL INFORMATION AND PROCEDURAL REQUESTS

69. Based on the above information, I respectfully state that there is probable cause to believe that that the information likely to be obtained from the requested pen

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 176 / 431

register, calling line identifiers and related subscriber information would lead to evidence of kidnapping and/or the identification of the person or persons responsible for Samantha Koenig's abduction. I would like to request the installation of a pen register (a device to identify/register telephone numbers dialed or pulsed from a specified telephone number), and calling line identifiers (a device to identify incoming telephone numbers from which calls are made into a specified telephone number, statutorily referenced as a "trap and trace device") on the **TARGET TELEPHONE NUMBER**, (907)884-8370, which is a cellular telephone issued by General Communications Incorportated (GCI) for a period of 60 (sixty) days from the date of installation. I request the Court authorize the installation, service, and monitoring of this device to be conducted by members of the Anchorage Police Department or other qualified law enforcement personnel to included technical assistance in implementing this order, warrant, etc., provided by the Federal Bureau of Investigation (FBI). This application also seeks authorization to receive subscriber information including the subscriber names, addresses, and billing information related to the outgoing and incoming telephone numbers identified by the pen register and calling line identifier and to record or decode dialing, routing, addressing, cellular telephone towers, or signaling information transmitted from the **TARGET TELEPHONE NUMBER.**

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 177 / 431

70. I further request that the Court direct that upon service of the order upon it, the local, long distance, and wireless carriers, and any other person or entity providing wire communication service in the United States whose assistance may facilitate execution of the order, furnish the information, facilities, and technical assistance necessary to accomplish unobtrusively the installation and use of the pen register and trap and trace device with compensation to be paid by the investigative agencies for reasonable expenses directly incurred in providing such facilities and assistance.

71. I further request that the order direct the local, long distance, and wireless carriers, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the order, furnish the results of the pen register and trap and trace installation to the investigative agencies, as soon as practicable, twenty-four (24) hours a day, for the duration of the order.

72. I further request that the order direct any other communications common carriers to furnish forthwith, related subscriber information, including subscriber names, addresses and related billing information related to such numbers identified per the pen registers and calling line identifiers.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 178 / 431

73. The Affiant also requests that The Court orders authorization to notice the provision of Criminal Rule 37 be relaxed pursuant to Criminal Rule 53, so that we do not have to leave a copy of the affidavit and or authorizations with the person(s) and or premise(s). This is a continuing investigation and the Affiant feels that it would hamper the ability of the Affiant to gather other evidence. Additionally, and for the same reasons, the Affiant asks that the authorizations, and the affidavit in support of them be sealed by The Court in order to prevent unauthorized persons from seeing this affidavit and authorization as the safety of the CS and associated law enforcement officers would be compromised.

74. I respectfully request that this authorization be sealed by the Court in order to prevent unauthorized people from seeing this affidavit and authorization.

Title: UNSUB(S);
SAMANTHA TESSLA KOENIG - VICTIM;
KIDNAPPING
ANCHORAGE, ALASKA
02/01/2012

Synopsis: Request FAVIAU conduct forensic audio and video analysis, comparison and enhancement of video images contained on bulky evidence items 1b3 (barcode E5123002) and 1b4 (barcode E5123006), as specified below, in captioned matter.

Package Copy: Being forwarded under separate cover is bulky evidence item 1b3 (barcode E5123002). Due to the precedence of captioned matter, the necessary contents of bulky evidence item 1b4 were transmitted to FAVIAU electronically on 03/02/2012.

Details: On 02/01/2012, at approximately 8:00pm, an unknown male robbed and subsequently abducted Samantha Koenig, date of birth (DOB) 08/30/1993, who was the sole employee working at the Common Grounds (CG) coffee stand in the parking lot of an Alaska Club located in midtown Anchorage near the intersection of Tudor Road and Fairbanks Street. The Anchorage Police Department (APD) requested assistance in the investigation of captioned matter. Surveillance video footage collected from the Home Depot store located across the street from the scene of the robbery/abduction (item 1b4) appears to show the subject and victim departing the scene in a white full-size extended cab pickup truck with an unknown box-like object in the bed. This vehicle appears to have arrived shortly before the incident occurred, and can be observed driving south (away from the camera) near the beginning of the video. On 02/24/2012, a ransom note demanding $30,000 was delivered. On 02/29/2012, $5,000 was deposited into the specified ransom account by the victim's father.

FBI Records: The Vault – Israel Keyes LastKnownContact.com Part 01: Pg 181 / 431

At approximately 10:13pm that night, the subject conducted a balance inquiry and attempted to withdraw $600 of the ransom money at a local automated teller machine (ATM). This withdrawal attempt exceeded the daily withdrawal limit, and thus, was unsuccessful. This ATM did not have a camera. However, the subject was captured arriving and departing the area in what appeared to be a light-colored mid-size sport utility vehicle, by the surveillance system covering the parking lot of the nearby Sea Galley restaurant (item 1b4). For reference, the subject SUV entered the parking lot from the west (right side of screen) near the beginning of the video and parked at the back of the lot. The subject sat in the vehicle for several minutes, then exited the vehicle and walked off the screen the same way he drove in, shortly after a truck drove through the lot. A few minutes later, the subject returned to the vehicle and departed the area.

At approximately 11:56pm that night, an unknown subject wearing a face mask, glasses and dark clothing withdrew $500 of the ransom money at the ATM located at the Denali Alaskan Federal Credit Union (DAFCU) at 3020 Minnesota Drive in Anchorage. It is strongly believed that this is the same individual who conducted the aforementioned balance inquiry and withdrawal attempt. Furthermore, surveillance video footage captured by the DAFCU ATM during this transaction (item 1b3) appears to show the subject wearing a dark jacket with a distinctive logo or design across the back shoulders, but image enhancement is necessary to obtain the best possible images to support further investigation.

On 03/02/2012, due to the precedence of captioned matter, Special Agent (SA) [redacted] transmitted electronic copies of the Home Depot and Sea Galley surveillance videos (item 1b3), as well as, electronic copies of four (4) still images obtained from the DAFCU ATM video during the aforementioned withdrawal from the ransom account, to Examiner [redacted] Forensic Audio Video & Image Analysis Unit (FAVIAU). Due to unknown technical difficulties, SA [redacted] was unable to transmit the entire DAFCU ATM video electronically. Therefore, an archived copy of the DAFCU ATM video is being forwarded to FAVIAU under separate cover.

b6
b7C

It is requested that FAVIAU review the aforementioned evidence to determine the make, model and related characteristics of the white pickup truck used during the abduction of the victim, and the light-colored SUV used by the subject during his withdrawal of ransom proceeds. It is also requested that the best image(s) of these vehicles be enhanced wherever possible and returned for further investigation. Finally, it is requested that the best images of the subject captured during the DAFCU ATM

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 182 / 431

withdrawal, especially those of the back of his jacket, be enhanced wherever possible and returned for further investigation.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 183 / 431

Case ID #: 7A-AN-15642 (Pending)

Title: UNSUB(S);
SAMANTHA TESSLA KOENIG - VICTIM;
KIDNAPPING,
ANCHORAGE, ALASKA
02/01/2012

Synopsis: Set leads for logical investigation regarding recent ATM transactions and associated travel, including suspected vehicle rental, by unsub(s) and/or victim in captioned matter.

Enclosure(s): Distributed via email (due to time-sensitive nature of situation) to recipient(s) was a color Be On Lookout (BOLO) flier (including photo of victim and copies of recent surveillance images of unsub(s) and his/their suspected rental car).

Details: On 02/01/2012, at approximately 8:00pm, an unknown male robbed and subsequently abducted Samantha Tessla Koenig, date of birth (DOB) 08/30/1993, who was the sole employee working at the Common Grounds (CG) coffee stand in the parking lot of an Alaska

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 185 / 431

Club located in midtown Anchorage near the intersection of Tudor Road and Fairbanks Street. The Anchorage Police Department (APD) requested assistance in the investigation of captioned matter. On 02/24/2012, a ransom note demanding $30,000 was delivered. On 02/28/2012, $5,000 was deposited into the specified ransom account by the victim's father. These funds can only be accessed using a VISA debit card bearing account number [redacted] expiration date [redacted] in the name of [redacted] and who does not currently appear to have participated in this abduction. b6 b7C

To date, the card has only been used at Automated Teller Machines (ATMs), rather than point of sale (POS) devices in stores. [redacted] reported that his identification was co-located with his debit card in his wallet at the time of it's loss/theft. However, it is unknown if the unsub(s) are in possession of [redacted] identification/other cards or bear sufficient resemblance to [redacted] to use his identification in conjunction with the aforementioned VISA debit card (if necessary).

From approximately 10:13pm on 02/28/2012, to about 12:28am on 02/29/2012, the unsub(s) conducted a balance inquiry, attempted withdrawal (which was denied because it exceeded the $500 daily withdrawal limit), and a series of two successful withdrawals in the amount of $500 each. These transactions were conducted at three separate ATMs, operated by two different financial institutions, scattered throughout midtown Anchorage. To date, no connection has been established between these institutions/ATMs and the unsub(s) in this matter.

Although substantial amounts of surveillance video have been collected throughout this matter, the unsub(s) have routinely demonstrated excellent preparation and patience in the selection of outdoor ATMs located in areas with sparse late-night traffic. He/they also sometimes park in adjacent lots, and appear to scan the area thoroughly before exiting the vehicle and approaching the ATM. Finally, the unsub(s) wear excessive amounts of clothing, including glasses, facemasks, hoods and gloves, presumably to limit exposure to surveillance cameras and/or latent prints. Consequently, to date, very limited descriptive data has been collected regarding the unsub(s), other than that at least one subject appears to be a male adult with light skin tone, muscular build and athletic physical movements. Unsub(s) have not yet been observed with a weapon.

Samantha Tessla Koenig, date of birth (DOB) 08/30/1993, Social Security Number (SSN) 574-13-6240, was described as a

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 186 / 431

white female adult, approximately 5'4" tall, 150 pounds, 18 years of age, with brown hair and eyes.

On 03/07/2012, at approximately 9:57pm Alaska Standard Time (AST), investigating personnel were notified that the aforementioned debit card was used to withdraw $400 from an ATM at the Western Bank (WB), 200 West Rex Allen Road, Willcox, Arizona. Special Agent (SA) [redacted] notified Supervisory Senior Resident Agent (SSRA) [redacted] Sierra Vista Resident Agency (SVRA), of the aforementioned information. SSRA [redacted] responded in concert with other personnel, and collected surveillance footage from this WB, conducted neighborhood canvasses, and other logical investigation in Willcox and the surrounding Interstate 10 corridor. The surveillance footage collected by SSRA [redacted] included images of unsub(s)' suspected rental vehicle, which was subsequently identified by the Forensic Audio Video & Image Analysis Unit (FAVIAU) as a late model white Ford Focus. In addition, unsub(s) appeared to be wearing light-colored hoodie (up), light-colored full facemask, light-colored gloves, blue jeans and light-colored shoes. It is requested that SVRA conduct all logical investigation to locate captioned victim and unsub(s) in this matter.

b6
b7C

On 03/07/2012, at approximately 11:24pm AST, investigating personnel were notified that the aforementioned debit card was used to attempt or conduct multiple transactions, including the withdrawal of $80 from an ATM at the WB, 711 Main Street, Lordsburg, New Mexico. Special Agent (SA) [redacted] notified Supervisory Senior Resident Agent (SSRA) [redacted] Las Cruces Resident Agency (LCRA), of the aforementioned information. SSRA [redacted] responded in concert with other personnel, and collected surveillance footage from this WB, conducted neighborhood canvasses, and other logical investigation in Lordsburg and the surrounding Interstate 10 corridor. The surveillance footage collected by SSRA [redacted] corroborated the unsub and vehicle images observed in the footage collected from Willcox earlier on this date. It is requested that SVRA conduct all logical investigation to locate captioned victim and unsub(s) in this matter.

To date, no evidence has been collected regarding the current location of Koenig or her potential presence with unsub(s) in Willcox and/or Lordsburg.

Due to unsub(s) easterly direction of travel along Interstate 10, the aforementioned information was disseminated to numerous agencies and departments along the Interstate 10 corridor and the Southwest Border, including Customs and Border

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 187 / 431

Protection (CBP). In addition, Supervisory Special Agent (SSA) [redacted] El Paso Division; SSA [redacted] San Antonio Division; and SSRA [redacted] Lubbock RA (LRA); were notified of the aforementioned information. It is requested that El Paso, San Antonio and the LRA conduct all logical investigation to locate captioned victim and unsub(s) in this matter. b6 b7C

Finally, due to unsub(s)' known presence in Anchorage on 02/29/2012, and the virtual impossibility associated with driving from Anchorage to Willcox, Arizona during the intervening seven days, it is strongly believed that unsub(s) (and possibly captioned victim) departed Alaska via commercial airlines sometime during this period. Anchorage Division is in the process of running checks with all major airlines, but the results are not yet available. Given the expense associated with such a trip and the fact that unsub(s) did not use the aforementioned debit card until they reached Willcox, it is believed that they (and possibly captioned victim) flew from Anchorage to Los Angeles, San Diego or Phoenix, where they rented their current vehicle.

It is highly unlikely that the vehicle was rented before 02/29/2012, and based on the aforementioned information, could not have been returned prior to 03/08/2012. Therefore, it is requested that Los Angeles International Airport (LAX) RA, San Diego Division and Phoenix Division conduct logical investigation with appropriate car rental companies operating at or near LAX; Lindbergh Field (SAN) in San Diego; and Sky Harbor International Airport (PHX) in Phoenix, respectively, to determine if anyone matching the aforementioned subject or victim descriptions was observed at or rented a vehicle, specifically a late model white Ford Focus, in these locations, during the period 02/29/2012 - 03/07/2012.

Title: UNSUB(S);
SAMANTHA TESSLA KOENIG - VICTIM;
KIDNAPPING,
ANCHORAGE, ALASKA
02/01/2012

Synopsis: Set leads for logical investigation regarding recent ATM transactions and associated travel, including suspected vehicle rental, by unsub(s) and/or victim in captioned matter.

Administrative: Ref 03/08/2012 telcalls from SA [redacted] to SSA [redacted] RVRA, and SSA [redacted] San Diego. Distributed via email (due to time-sensitive nature of situation) to recipient(s) was a color Be On Lookout (BOLO) flier (including photo of victim and copies of recent surveillance images of unsub(s) and his/their suspected rental car).

Details: On 02/01/2012, at approximately 8:00pm, an unknown male robbed and subsequently abducted Samantha Tessla Koenig, date of birth (DOB) 08/30/1993, who was the sole employee working at the Common Grounds (CG) coffee stand in the parking lot of an Alaska Club located in midtown Anchorage near the intersection of Tudor Road and Fairbanks Street. The Anchorage Police Department (APD) requested assistance in the investigation of captioned matter. On 02/24/2012, a ransom note demanding $30,000 was delivered. On 02/28/2012, $5,000 was deposited into the specified ransom account by the victim's father. These funds can only be accessed using a VISA debit card bearing account number [redacted] expiration date [redacted] in the name of [redacted] and who does not currently appear to have participated in this abduction.

To date, the card has only been used at Automated Teller Machines (ATMs), rather than point of sale (POS) devices

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01 of 1 Pg 192 / 431

in stores. [redacted] reported that his identification was co-located with his debit card in his wallet at the time of it's loss/theft. However, it is unknown if the unsub(s) are in possession of [redacted] identification/other cards or bear sufficient resemblance to [redacted] to use his identification in conjunction with the aforementioned VISA debit card (if necessary). b6 b7C

From approximately 10:13pm on 02/28/2012, to about 12:28am on 02/29/2012, the unsub(s) conducted a balance inquiry, attempted withdrawal (which was denied because it exceeded the $500 daily withdrawal limit), and a series of two successful withdrawals in the amount of $500 each. These transactions were conducted at three separate ATMs, operated by two different financial institutions, scattered throughout midtown Anchorage. To date, no connection has been established between these institutions/ATMs and the unsub(s) in this matter.

Although substantial amounts of surveillance video have been collected throughout this matter, the unsub(s) have routinely demonstrated excellent preparation and patience in the selection of outdoor ATMs located in areas with sparse late-night traffic. He/they also sometimes park in adjacent lots, and appear to scan the area thoroughly before exiting the vehicle and approaching the ATM. Finally, the unsub(s) wear excessive amounts of clothing, including glasses, facemasks, hoods and gloves, presumably to limit exposure to surveillance cameras and/or latent prints. Consequently, to date, very limited descriptive data has been collected regarding the unsub(s), other than that at least one subject appears to be a male adult with light skin tone, muscular build and athletic physical movements. Unsub(s) have not yet been observed with a weapon.

Samantha Tessla Koenig, date of birth (DOB) 08/30/1993, Social Security Number (SSN) 574-13-6240, was described as a white female adult, approximately 5'4" tall, 150 pounds, 18 years of age, with brown hair and eyes.

On 03/07/2012, at approximately 9:57pm Alaska Standard Time (AST), investigating personnel were notified that the aforementioned debit card was used to withdraw $400 from an ATM at the Western Bank (WB), 200 West Rex Allen Road, Willcox, Arizona. Special Agent (SA) [redacted] notified Supervisory Senior Resident Agent (SSRA) [redacted] Sierra Vista Resident Agency (SVRA), of the aforementioned information. SSRA [redacted] responded in concert with other personnel, and collected surveillance footage from this WB, conducted neighborhood canvasses, and other logical investigation in Willcox and the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 193 / 431

surrounding Interstate 10 corridor. The surveillance footage collected by SSRA [redacted] included images of unsub(s)' suspected rental vehicle, which was subsequently identified by the Forensic Audio Video & Image Analysis Unit (FAVIAU) as a late model white Ford Focus. In addition, unsub(s) appeared to be wearing light-colored hoodie (up), light-colored full facemask, light-colored gloves, blue jeans and light-colored shoes. b6 b7C

On 03/07/2012, at approximately 11:24pm AST, investigating personnel were notified that the aforementioned debit card was used to attempt or conduct multiple transactions, including the withdrawal of $80 from an ATM at the WB, 711 Main Street, Lordsburg, New Mexico. Special Agent (SA) [redacted] notified Supervisory Senior Resident Agent (SSRA) [redacted] Las Cruces Resident Agency (LCRA), of the aforementioned information. SSRA [redacted] responded in concert with other personnel, and collected surveillance footage from this WB, conducted neighborhood canvasses, and other logical investigation in Lordsburg and the surrounding Interstate 10 corridor. The surveillance footage collected by SSRA [redacted] corroborated the unsub and vehicle images observed in the footage collected from Willcox earlier on this date.

Shortly after the ATM withdrawal in Lordsburg, New Mexico, Drug Enforcement Agency cameras along the I-10 corridor in New Mexico captured two license plates from vehicles similar to that observed on the ATM surveillance footage. Both vehicles were determined to be registered to AVIS Budget Group, Inc. Contact was made with [redacted] Southwest Region for AVIS, 5740 Arbor Vitae Street, Los Angeles, CA 90045, who provided the rental information for the vehicles. California license plate [redacted] was rented on 03/06/2012, at an AVIS facility in Hemet, California, by [redacted] date of birth [redacted] residence address of [redacted] Beaumount, CA 92223, telephone number [redacted] California license plate [redacted] a 2011 Chevrolet Cruz, was rented on 03/07/2012 at an AVIS facility in the San Carlos Shopping Center, San Diego, California, by [redacted] date of birth [redacted] residence address of [redacted] La Mesa, CA 91941, telephone number [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 194 / 431

NCMEC Intake Report

The National Center for Missing & Exploited Children is a national clearinghouse that gathers information about missing and sexually exploited children for law enforcement use. NCMEC neither investigates nor vouches for the accuracy of the information reported to itself. NCMEC forwards all information unedited to law enforcement agencies for investigation and disposition pursuant to its congressional mandate to operate as a clearinghouse.

Case Number 1188783

CaseType: Section 5779 **Amber Alert:** ☐

b6
b7C

Narrative

Date: **02/08/2012 7:48:47 PM**

The 18 year-old child is listed in NCIC as a Missing Person Involuntary. The abductor cannot be checked in NCIC as his name and date of birth are unknown. The child was working at Common Grounds, a coffee truck, before she was abducted. The abductor appeared to have robbed the truck and kidnapped the child. The caller does not know where the child might go. Law enforcement has looked at surveillance tapes to try to identify the abductor. The child's family has issued a reward and distributed posters. Law enforcement has photos of the child. Law enforcement is treating the case critically, but they do not need emergency posters.

IN THE DISTRICT/SUPERIOR COURT FOR THE STATE OF ALASKA
AT Anchorage

SEARCH WARRANT
NO. 3AN-12-354 SW

Relates to case number(s):

TO: Any Peace Officer

☐ Sworn testimony having been given by _____,

☒ An affidavit having been sworn to before me by Detective [redacted] DSN 1488, b6 b7C

☐ Following my finding on the record that there is probable cause to believe that 1) the presentation of the applicant's affidavit or testimony personally before a judicial officer would result in a delay in obtaining or executing a search warrant; and 2) the delay might result in loss or destruction of the evidence subject to seizure or might interfere with an ongoing investigation, recorded sworn testimony was given by telephone by _____

I find probable cause to believe that

☐ on the person of _____

☒ on the premises known as Alaska Communications Systems at Anchorage, Alaska, there is now being concealed property, namely:
See Attachment #A

I respectfully request that pursuant to Criminal Rule 53, that Criminal Rule 37(b) be relaxed and that it not be required that a copy of this supporting affidavit be left with the parties served. If any information outlined inthis affidavit were made public knowledge, further investigation of this case would be seriously impaired. It is requested that those warrant(s) be sealed until a chargin document in this case is filed.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 206 / 431

and that such property (see AS 12.35.020)

☒ 1. is evidence of the particular crime(s) of Kidnapping in any degree, AS 11.41.300 et. seq.

☐ 2. tends to show that _____ committed the particular crime(s) of _____.

☐ 3. is stolen or embezzled property.

☐ 4. was used as a means of committing a crime.

☐ 5. is in the possession of a person who intends to use it as a means of committing a crime.

☐ 6. is one of the above types of property and is in the possession of _____, to whom _____ delivered it to conceal it.

☐ 7. is evidence of health and safety violations.

YOU ARE HEREBY COMMANDED to search the person or premises named for the property specified, serving this warrant, and if the property be found there, to seize it, holding it secure pending further order of the court, leaving a copy of this warrant, and all supporting affidavits, and a receipt of property taken. You shall also prepare a written inventory of any property seized as a result of the search pursuant to or in conjunction with the warrant. You shall make the inventory in the presence of the applicant for the warrant and the person from whose possession or premises the property is taken, if they are present, or in the presence of at least one credible person other than the warrant applicant or person from whose possession or premises said property is taken. You shall sign the inventory and return it and the warrant within 10 days after this date to this court as required by law.

YOU SHALL SERVE THIS WARRANT:

☒ between the hours of 7:00 a.m. and 10:00 p.m.

☐ between the hours of _____ ☐ a.m. ☐ p.m.

and _____ ☐ a.m. ☐ p.m.

☐ at any time of the day or night.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 207 / 431

SEARCH WARRANT NO. 3AN-12-354 SW

YOU SHALL MAKE THE SEARCH:

☐ immediately.

☐ within _____ ☐ days ☐ hours.

☒ within 10 days.

☐ contingent upon the happening of the events expected to occur as set forth in the supporting testimony, specifically _____

From the information provided in the application for the warrant, I find compelling reasons to postpone delivery of this notice beyond the time set in Criminal Rule 37(b).[1] Therefore, this notice must be given:

☐ immediately upon seizure of the property.
☐ within a reasonable period, not to exceed 90 days from this date.
☒ within 90 days, which I have determined to be a reasonable time in this case.

If you cannot deliver the notice within this time limit, you must apply to the court for an extension of the time limit. Your sworn application must show good cause for the extension.

ATTACHMENT #A

1. The installation of a pen register (a device to identify/register telephone numbers dialed or pulsed from a specified telephone number), and calling line identifiers (a device to identify incoming telephone numbers from which calls are made into a specified telephone number, statutorily referenced as a "trap and trace device") on the **TARGET TELEPHONE NUMBER**, (907)245-3574, which is a residential telephone issued by General Communications Incorporated (GCI) for a period of 60 (sixty) days from the date of installation.

2. Further, the installation, service, and monitoring of this device will be conducted by members of the Anchorage Police Department or other qualified law enforcement personnel to included technical assistance in implementing this order, warrant, etc., provided by the Federal Bureau of Investigation (FBI). This application also provides authorization to receive subscriber information including the subscriber names, addresses, and billing information related to the outgoing and incoming telephone numbers identified by the pen register and calling line identifier and to record or decode dialing, routing, addressing,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 210 / 431

cellular telephone towers, or signaling information transmitted from the **TARGET TELEPHONE NUMBER.**

3. This order further directs that upon service of the order upon it, the local, long distance, and wireless carriers, and any other person or entity providing wire communication service in the United States whose assistance may facilitate execution of the order, furnish the information, facilities, and technical assistance necessary to accomplish unobtrusively the installation and use of the pen register and trap and trace device with compensation to be paid by the investigative agencies for reasonable expenses directly incurred in providing such facilities and assistance.

4. It is further ordered that the local, long distance, and wireless carriers, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the order, furnish the results of the pen register and trap and trace installation to the investigative agencies, as soon as practicable, twenty-four (24) hours a day, for the duration of the order.

5. It is further ordered that any other communications common carriers to furnish forthwith, related

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 211 / 431

subscriber information, including subscriber names, addresses and related billing information related to such numbers identified per the pen registers and calling line identifiers.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 212 / 431

Howdy:

Per our conversation, Samantha Tessla Koenig, DOB 08/30/1993, SSN 574-13-6240, WFA, 5'4" tall, 150#, 18 years old w/ brown hair & eyes (photos attached), was kidnapped from her place of employment by an unknown male @ 8:00pm on 02/01/2012. Surveillance footage from several locations on different dates and a photo printed on the demand note have yielded very little descriptive data for subject. He was covered head to toe during the abduction & previous ATM w/ds, incl facemask, glasses & hood. He appears to be light skinned with muscular build. Subject has not been observed w/ weapon.

Last known suspect vehicles were white '98-'07 full-size Chevrolet extended cab pickup truck (unk plate) & light-colored '05-'12 Nissan Xterra SUV (unk plate). However, based on the last sighting of subject in Anchorage (8 days ago) & extreme distance to southern AZ/NM, it is believed to be unlikely that subject drove either of these vehicles out of Alaska.

Subject made $400 ATM w/d @ Western Bank @ 200 W Rex Allen Rd, Willcox, AZ @ approx 10:15pm AK std time (AST) on 03/07. He made $80 ATM w/d @ Western Bank @ 711 Main St, Lordsburg, NM @ approx 11:30pm AST.

Thx for your help. I'll follow-up w/ paper 2moro. Plz call me 24/7 @ [redacted] w/ any questions or concerns. Take care

Re: NMDOT videos from Lordsburg - Negative results

b6
b7C

Sent: Thursday, March 08, 2012 6:43 PM
To:
Cc:

Thank you [redacted] Though disappointing, that is consistent with a lack of video at the businesses canvassed in the area. I appreciate you closing the loop on this.

FYI, My team found no video between Benson, AZ and NM - not even the POE or the rest areas. Only one had external video recordings and it was negative. I'll coordinate with Western Bank on the video retrieval - both Lordsburg and Willcox videos are being delivered to the Willcox Branch. I'll ship to AN.

Thanks again. R, [redacted]

From:
To:
Cc:
Sent: Thu Mar 08 18:30:17 2012
Subject: NMDOT videos from Lordsburg - Negative results

[redacted]

I spoke with [redacted] (NM DOT) [redacted] at around 4:15 PM MST and she advised that her supervisor reviewed the overpass videos from the I-10 NM DOT cameras in Lordsburg for our subject vehicle (i.e. the white Chevy Cruz or Sonic looking car), and they saw no vehicle matching that description between midnight and 3:00 AM. The caveat is that that these cameras only pick up video from the off-ramps at the east and west ends of Lordsburg, so if the car stayed on I-10 and exited at Main Street (where the ATM is located) then the cameras would not have captured our subject vehicle. The only other NM DOT cameras on I-10 in Lordsburg are located off to the side of the highway at the NM DOT check station, where it is doubtful that our subject car would have traveled through. That is all.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/13/2012

On 03/12/2012, Special Agents [redacted] and [redacted] of the Federal Bureau of Investigation (FBI), Conroe Resident Agency (RA) conducted the following investigation in Shepherd, Texas, regarding the kidnapping of Samantha Tessla Koenig, date of birth (DOB) 08/30/1993, from Anchorage Alaska on 02/01/2012. b6 b7C

On 03/12/2012, at approximately 05:30 hours, SA [redacted] and SA [redacted] interviewed [redacted] of Peoples State Bank, 5850 Hwy. 59 South, Shepherd, Texas 77371. [redacted] was advised of the identity of the Agents and the nature of the interview. San Jacinto Sheriff's Office (SJSO) Sgt. [redacted] and Deputy [redacted] were also present. [redacted] provided the following information.

The Peoples State Bank's ATM is located outside near the front entrance and is monitored with surveillance video. [redacted] SA [redacted] SA [redacted] Sgt. [redacted] and Deputy [redacted] entered the bank. [redacted] accessed the bank's surveillance video and conducted a review of the bank's surveillance video for 03/12/2012. The bank's surveillance video [redacted] revealed an unknown vehicle entering the bank's parking lot area at approximately 02:39 hours and the vehicle continued through the parking lot out of video coverage. At approximately 03:04 hours, an unknown subject approached the Peoples State Bank's ATM and it appeared that the unknown subject conducted an ATM transaction. The unknown subject was wearing what appeared to be a gray colored hoodie with the hood covering the head, a full light-colored face mask which covered the nose, mouth, chin and neck region, and glasses. After the ATM transaction was completed, the unknown subject walked away from the ATM out of video coverage. b6 b7C b7E

SA [redacted] determined that the unknown subject's disguise was similar to the kidnapping subject's description provided in the El Paso Police Department Special Bulletin, Kidnapping, dated 03/08/2012, regarding the kidnapping of Samantha Tessla Koenig. The unknown subject's disguise was similar to the kidnapping subject's disguise used at ATM withdrawals in Willcox, Arizona on 03/07/2012, in Lordsburg, New Mexico on 03/08/2012, and in Humble, Texas on 03/10/2012. b6 b7C

Investigation on 03/12/2012 at Shepherd, Texas

File # 306 VA-AN-15642-41 Date dictated

by SA [redacted] S/ [redacted] 03132012 [redacted] 01

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

306-AN-15642:41 [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 227 / 431

 b6 b7C

SA [redacted] requested a copy of the Peoples State Bank's surveillance video for 03/12/2012 which captured the unknown subject's transaction at the ATM and a copy of the ATM transaction record. [redacted] advised that she would contact the Peoples State Bank's security personnel after 08:00 hours to retrieve the surveillance video.

SA [redacted] and SA [redacted] returned to the Peoples State Bank's at approximately 08:30 hours. [redacted] advised that she had contacted the bank's security company, [redacted] to assist in retrieving the security video for 03/12/2012. The ATM's transaction records for 03/12/2012 will be provided. b6 b7C b7E

[redacted], DOB [redacted] with telephone number [redacted] an employee of [redacted] arrived at Peoples State Bank to retrieve the bank's security video. [redacted] accessed the Peoples State Bank's security video, dated 03/12/2012 for [redacted] made copies of the security video for the approximate hours of 02:00-04:00 on two Memorex DVD-R's. The Memorex DVD-R's were provided to [redacted] printed two still photographs of the unknown subject captured on [redacted] on 2012/03/12 03:04:34. [redacted] advised that the time stamp on the video was approximately 17 minutes off the actual time.

[redacted] book keeper, [redacted] downloaded the 03/12/2012 ATM transaction. A review of the transactions revealed an ATM transaction, 03/12/2012 2:47:00 a.m.; withdrawal from checking; sequence #5710; account: 426936======2851; Auth #: 00020319; Surcharge Amt: $4.00; Requested Amt: $480.00; Dispensed Amt: $480.00. [redacted] made a copy of this transaction and provided it to [redacted] b6 b7C

At approximately 09:30 hours, [redacted] turned over custody of the two Memorex DVD-R's to SA [redacted] who labeled the two DVD-R copies with "Peoples State Bank, 03-12-12" and placed his initials on each copy. [redacted] turned over custody of two still photographs of the unknown subject [redacted] on 2012/03/12 03:04:34) and the ATM transactions record (03/12/2012 2:47:00 a.m. for $480.00) to SA [redacted] SA [redacted] labeled the ATM transaction record with "Peoples State Bank 3-12-12". b6 b7C b7E

The copies of the two Memorex DVD-R's will be entered into evidence. The two still photographs and ATM transaction record will be stored in a 1A Envelope (FD-340).

From: Houston
Conroe RA
Contact: SA [redacted]

Approved By: [redacted]

Drafted By: [redacted]

Case ID #: 306 ~~7~~A-AN-15642-42 (Pending)

Title: UNSUB(S);
SAMANTHA TESSLA KOENIG - VICTIM;
POSSIBLE KIDNAPING

Synopsis: Investigation conducted in Shepherd, Texas on 03/12/2012.

[redacted] b7E

Enclosure(s): One FD-340 envelope, dated 03/12/2012.

Details: Reference telephone calls and e-mail dated 03/12/2012 to conduct logical investigation in Shepherd, Texas to identify and/or locate unknown subject(s) involved in the kidnaping of SAMANTHA TESSLA KOENIG in Anchorage, Alaska on 02/01/2012.

SA [redacted] advised that KOENIG was kidnaped from her place of employment by an unknown male at 08:00pm on 02/01/2012. Surveillance footage from several locations on different dates and a photo printed on the demand note yielded very little descriptive data for the subject. Subject was covered head to toe during the abduction and previous ATM withdrawals, including facemask, glasses and hood. Subject appears to be light skinned with a muscular build. Subject has not been observed with a weapon. b6 b7C

The last known suspect vehicle was a late model white Ford Focus (4-door sedan), which was captured in surveillance footage during two separate ATM withdrawals, in Willcox, AZ

Re: 7A-AN-15642, 03/13/2012

(03/07/2012) and in Lordsburg, NM (03/08/2012). Subject was wearing a gray hoodie, full light-colored facemask, gray gloves, blue jeans and white shoes during both of the above ATM withdrawal transactions. Subject appeared to be wearing the same hoodie and mask during an ATM withdrawal on 03/10/2012 in Humble, Texas. On 02/12/2012, at approximately 02:47 hours Central Standard Time (CST), a kidnaping subject(s) withdrew $480.00 from an ATM at Peoples State Bank, 5850 Hwy. 59 South, Shepherd, Texas.

On 03/12/2012, at approximately 03:30 hours, Special Agents [redacted] of the FBI, Conroe Resident Agency (RA) responded and initiated an investigation in Shepherd, Texas at approximately 04:30 hours.

SAs [redacted] arrived at Peoples State Bank, 5850 Hwy. 59 South, Shepherd, Texas 77371 and coordinated with San Jacinto Sheriff's Office (SJSO) Sgt. [redacted] and Deputy [redacted] Sgt. [redacted] advised that he had made contact with [redacted] of Peoples State Bank and she was in route to the bank. b6 b7C

Sgt. [redacted] identified the Americas Best Value Inn and Suites, 4734 Hwy. 59 North, Shepherd, Texas 77371 as the only hotel in Shepherd. SAs [redacted] conducted surveillance of the Americas Best Value Inn and Suites, to locate the subject's vehicle with negative results. SAs [redacted] interviewed [redacted] of the Americas Best Value Inn and Suites and identified three recent guests not from the area and obtained identifying information. SA [redacted] interviewed an employee of a Subway/convenience store across from the hotel with negative results.

SAs [redacted] returned to Peoples State Bank and met with [redacted] of Peoples State Bank. [redacted] SA [redacted] SA [redacted] Sgt. [redacted] and Deputy [redacted] entered the bank. [redacted] accessed the bank's surveillance video and conducted a review of the bank's surveillance video for 03/12/2012. The bank's surveillance video [redacted] revealed an unknown vehicle entering the bank's parking lot area at approximately 02:39 hours and the vehicle continued through the parking lot out of video coverage. At approximately 03:04 hours, an unknown subject approached the Peoples State Bank's ATM and it appeared that the unknown subject conducted an ATM transaction. The unknown subject was wearing what appeared to be a gray colored hoodie with the hood covering the head, a full light- b6 b7C b7E

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 230 / 431

colored face mask which covered the nose, mouth, chin and neck region, and glasses. After the ATM transaction was completed, the unknown subject walked away from the ATM out of video coverage.

SA [redacted] determined that the unknown subject's disguise was similar to the kidnaping subject's description provided in the El Paso Police Department Special Bulletin, Kidnaping, dated 03/08/2012, regarding the kidnaping of Samantha Tessla Koenig. The unknown subject's disguise was similar to the kidnaping subject's disguise used at ATM withdrawals in Willcox, Arizona on 03/07/2012, in Lordsburg, New Mexico on 03/08/2012, and in Humble, Texas on 03/10/2012. b6 b7C

SA [redacted] took a digital photograph from a still image depicting the subject's face (covered with a face mask) in the Peoples State Bank's surveillance video during the ATM transaction. The photograph was significant because it identified the subject as a white male. This image was provided to Case Agent [redacted] (Anchorage).

SA [redacted] requested a copy of the Peoples State Bank's surveillance video for 03/12/2012 which captured the unknown subject's transaction at the ATM and a copy of the ATM transaction record. [redacted] advised that she would contact the Peoples State Bank's security personnel after 08:00 hours to retrieve the surveillance video. b6 b7C

SA [redacted] SA [redacted] Sgt. [redacted] and Deputy [redacted] returned to the Americas Best Value Inn and Suites and conducted follow up investigation of possible subject(s) with negative results. Agents and officers interviewed [redacted] of the Shell Timewise, 4700 Hwy. 59 North, Shepherd, TX 77371, the only 24-hour gas station in the vicinity, and reviewed the surveillance video to identify the subject's vehicle with negative results. SAs [redacted] conducted surveillance of all gas stations and hotels on Hwy. 59 North and Hwy. 59 South in Shepherd, including the hotels in Cleveland, Texas. Interviews were conducted and surveillance video was reviewed at establishments which may have captured video of the subject's vehicle. All vehicles matching the description of the subject's vehicle were investigated with negative results.

SA [redacted] and SA [redacted] returned to the Peoples State Bank's at approximately 08:30 hours. [redacted] advised that she had contacted the bank's security company [redacted] to assist b6 b7C b7E

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 231 / 431

in retrieving the security video for 03/12/2012. The ATM transaction records for 03/12/2012 will be provided.

[redacted] DOB [redacted] with telephone number [redacted] an employee of [redacted] arrived at Peoples State Bank to retrieve the bank's security video. [redacted] accessed the Peoples State Bank's security video, dated 03/12/2012 for [redacted] made copies of the security video for the approximate hours of 02:00-04:00 on two Memorex DVD-R's. The Memorex DVD-R's were provided to [redacted] printed two still photographs of the unknown subject captured on [redacted] on 2012/03/12 03:04:34. [redacted] advised that the time stamp on the video was approximately 17 minutes off the actual time. b6 b7C b7E

[redacted] book keeper, [redacted] downloaded the 03/12/2012 ATM transaction. A review of the transactions revealed an ATM transaction dated 03/12/2012 2:47:00 a.m.; withdrawal from checking; sequence #5710; account: 426936======2851; Auth #: 00020319; Surcharge Amt: $4.00; Requested Amt: $480.00; Dispensed Amt: $480.00. [redacted] made a copy of this transaction and provided it to [redacted] b6 b7C

At approximately 09:30 hours, [redacted] turned over custody of the two Memorex DVD-R's to SA [redacted] who labeled the two DVD-R copies with "Peoples State Bank, 03-12-12" and placed his initials on each copy. [redacted] turned over custody of two still photographs depicting the unknown subject (camera #9 on 2012/03/12 03:04:34) and the ATM transactions record(03/12/2012 2:47:00 a.m. for $480.00) to SA [redacted] SA [redacted] labeled the ATM transaction record with "Peoples State Bank 3-12-12".

The copies of the two Memorex DVD-R's will be entered into evidence. The two still photographs and ATM transaction record will be stored in a 1A Envelope (FD-340).

SAs [redacted] met with San Jacinto Constable, [redacted] Precinct 2, in Shepherd, Texas and advised him of the kidnaping investigation and requested assistance to locate the subject and/or vehicle. b6 b7C

At approximately 10:20 hours, SSRA [redacted] advised Lt. [redacted] Texas Department of Public Safety, Texas Ranger, of the investigation. [redacted] requested [redacted] assistance in notifying DPS personnel located in East Texas of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 232 / 431

investigation. [redacted] advised he would have a Ranger in the area of Shepard, Texas meet with SA [redacted] b6 b7C

At approximately 11:30 hours, SA [redacted] spoke with Texas Ranger [redacted] 2809 S. John Redditt Drive, Lufkin, Texas 75904, telephone number [redacted] regarding the kidnaping investigation in Shepherd, Texas. SA [redacted] provided Ranger [redacted] with all the information provided by Case Agent [redacted] which included a copy of the El Paso Police Department Special Bulletin Kidnaping dated 03/08/2012, SAMANTHA TESSLA KOENIG - victim; a copy of the subject's photo on 03/07/2012 at an ATM; and the most recent photo depicting the white male subject's face (covered with a face-mask) in the Peoples State Bank's surveillance video during the ATM transaction on 03/12/2012. Ranger [redacted] recommended to update the BOLO with one issued from Texas Department of Public Safety (DPS), Texas Ranger Division. Due to the subject's most recent north bound travel on Hwy. 59 North, from Humble to Shepherd, Texas, SA [redacted] requested that the DPS BOLO be coordinated with Texas Rangers, DPS State Troopers, and State Troopers in Louisiana and Arkansas in an effort to locate the subject's vehicle while traveling through those areas.

Ranger [redacted] advised that the BOLO will be disseminated to Highway Patrols in Texas, Louisiana and Arkansas and request that truck stops and motels be checked for the subject's vehicle. SA [redacted] provided the information regarding the stolen VISA debit card from [redacted] bearing xxxx[redacted] (last four digits) as a positive means of identifying the subject. SA [redacted] kept SA [redacted] apprised of all investigative activity and requested that the BOLO also have SA [redacted] as a point of contact.

On 03/13/2012, SA [redacted] coordinated with SA [redacted] Lufkin RA, and provided her with the same information provided to Texas Ranger [redacted] SA [redacted] was coordinating with Ranger [redacted] for the dissemination of the Texas Ranger Division/DPS BOLO for Texas, Louisiana and Arkansas. SA [redacted] would meet with Ranger [redacted] to coordinate efforts in Lufkin.

On 03/13/2012, SA [redacted] emailed a copy of the Texas Ranger Division/DPS BOLO to SA [redacted] SA [redacted] SA [redacted] and SSRA [redacted] SA [redacted] advised SA [redacted] that the point of contact in Lufkin was SA [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 233 / 431

To: Anchorage From: Houston
Re: 7A-AN-15642, 03/13/2012

At approximately 13:00 hours, SA [redacted] advised that Texas Highway Patrol located a vehicle matching the subject's vehicle in a hotel parking area in Lufkin. The subject was stopped by Texas Highway Patrol and an interview of the male subject determined that the subject was from Anchorage, Alaska. The VISA debit card from [redacted] bearing xxxx[redacted] (last four digits) was located in the subject's possession after the subject was detained. SA [redacted] advised that the subject [redacted] with him and clothing items matching the BOLO photographs were in the subject's possession. The subject was identified as Israel Keyes, DOB 01/07/1978, Alaska driver's license: 7268639, vehicle: Ford Focus with Texas license tag: DH4N930. Subject was to be transported to the Federal Detention Center, Beaumont, Texas for processing.

Re: 7A-AN-15642, 03/15/2012

Daily News from 02/13/2012. Whoever wrote the note demanded $30,000.00 be placed on a VISA debit card, issued by a local Credit Union. The author provided no deadline for when this deposit was to be made nor outline any consequences for failure to do so.

On 3/13/2012, Israel Keyes, date of birth 01/07/1978, was arrested in Lufkin, Texas. In his possession was the previously mentioned VISA debit card which had been used to access funds from Automated Teller Machines across the Southwest United States. As of 03/15/2012, Koenig's wherabouts were still unknown.

The Anchorage Division of the FBI is requesting CJIS activate a tip line with 24 hour coverage effective 03/15/2012 until 03/18/2012. After this time, the necessity of the tip line will be re-evaluated.

Primary point of contact (POC) is SA [redacted] b6 b7C telephone number [redacted] POC e-mail address for this initial stand up is [redacted]@ic.fbi.gov. The Anchorage Division phone number is [redacted] Fax call logs to [redacted]

Lordsburg, New Mexico 88045

Dear [redacted]

The FBI greatly appreciates your help with providing photographs from ATM transactions at the Western Bank's Wilcox, Arizona, branch at approximately 11:55 p.m. 03/07/2012 and from your Lordsburg, New Mexico, branch at approximately 1:24 a.m. on 03/08/2012. Those photographs have helped us locate and identify a subject in a kidnaping matter.

As per our telephone conversation on March 14, 2012, please provide the FBI copies of all exterior surveillance tape showing movement around the banks for thirty minutes prior to the above ATM transactions and the ATM transactions.

Your assistance in this matter is greatly appreciated.

Sincerely,

[redacted]

Re: 7A-AN-15642, 03/19/2012

711 Main Street, Lordsburg, New Mexico. SSA [redacted] also learned that an unknown subject also utilized the same debit card at a Western Bank ATM located in Wilcox, Arizona several hours prior. In response, Albuquerque Division, LCRA agents conducted the following logical investigation: b6 b7C

- On 03/08/2012 at approximately 6:00 AM, SA [redacted] made contact with Phoenix Division, Sierra Vista Resident Agency (SVRA) SSRA [redacted] at the Western Bank located at 711 Main Street, Lordsburg, New Mexico. SSRA [redacted] was already coordinating with bank employees to obtain photographs and/or video footage from the ATM located at this branch. SSRA [redacted] obtained several still photographs of the unknown subject and vehicle from the Wilcox, Arizona and Lordsburg, New Mexico ATM's and immediately disseminated the photographs via email. SA [redacted] and SSRA [redacted] subsequently made contact with Lordsburg Police Department (LPD) Officer [redacted] and initiated a canvass of local hotels and businesses for pertinent surveillance footage and/or other leads.

- Utilizing surveillance photographs of the subject and vehicle, a white colored sedan, obtained from the ATM's, SSA [redacted] coordinated with El Paso Division to initiate a BOLO in the Southern New Mexico and El Paso, Texas areas. A copy of the BOLO, which was generated by the El Paso Police Department at the request of El Paso Division, is attached and made a part hereto. SSA [redacted] SA [redacted] and SA [redacted] also coordinated with the Mesilla Valley Regional Dispatch Center to issue, update, and rescind BOLO's to state and local law enforcement and to the Border Intelligence Center throughout 03/08/2012 and 03/09/2012.

- SA [redacted] reviewed video surveillance footage at the Loves Travel Stop, 900 West Motel Drive, Lordsburg, New Mexico, from approximately midnight to 3:00 AM. During this time period, several individuals possibly matching the clothing description of the unknown subject that utilized the ATM at the Western Bank were observed. On 03/16/2012, SA [redacted] obtained requested video surveillance footage, which is being forwarded to Anchorage Division to review for investigative value. (reference enclosed FD-302)

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 243 / 431

- SSRA [redacted] and LPD Officer [redacted] reviewed video surveillance footage from the Pilot Flying J Travel Center, 1050 East Motel Drive, Lordsburg, New Mexico, and observed individual(s) possibly matching the clothing description of the unknown subject. SSRA [redacted] obtained this video footage and it is being reported to Anchorage Division under separate cover by Phoenix Division. b6 b7C

- Canvass of other gas stations, hotels, and businesses by SA [redacted] and SSRA [redacted] in Lordsburg, New Mexico yielded negative results.

- SA [redacted] coordinated with Las Cruces, New Mexico DEA SA [redacted] to review still photographs obtained from eastbound license plate readers (LPRs) [redacted] SA [redacted] identified two possible vehicles bearing license plate numbers [redacted] (CA) and [redacted] (CA), both of which were forwarded to Anchorage Division for follow-up investigation. Anchorage Division subsequently notified SSA [redacted] that neither vehicle appeared to be involved in captioned matter. b6 b7C b7E

- LPD Officer [redacted] advised SA [redacted] and SSRA [redacted] of New Mexico Department of Transportation (NMDOT) cameras [redacted] SSRA [redacted] made contact with [redacted] with the NMDOT, [redacted] to request review of the NMDOT cameras for the subject vehicle. Follow-up investigation by SA [redacted] determined that the NMDOT cameras did not capture any vehicles on 03/08/2012 between midnight and 3:00 AM matching the description of the subject vehicle. As such, it is believed that the subject vehicle did not exit Interstate 10 at the eastern-most or western-most exits, and likely only utilized the central exit (Main Street). b6 b7C b7E

- On 03/15/2012, SSA [redacted] obtained a CD-ROM containing the requested video surveillance footage from the Western Bank ATMs in Wilcox, Arizona and Lordsburg, New Mexico. (reference enclosed FD-302) b6 b7C

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/16/2012

[redacted] at KTVA Channel 11 News, 1007 W. 32nd Ave., Anchorage, Alaska was advised of the identity of the interviewing Agent and the nature of the interview. [redacted] provided the following information. b6 b7C

[redacted] stated that a person using the name "Israel" had posted to two of KTVA's news stories covering the Samantha Koenig abduction. [redacted] provided computer screen shots of the comments posted by "Israel" to the news stories. (The screen shots will be placed in a 1A envelope.)

The first screen shot submitted by "Israel" is dated March 3, 2012, 02:19 am, with IP Address 166.205.142.72. The comment was posted to a story captioned, "Internet Rumors and Speculation Cast Pall on Keonig Acquaintance." The posts reads:

"Nothing surprises me anymore. For every action there is a reaction, and playing with other people's emotions, male or female, is a very vile thing. Also, I have to say people who portayed (sic) an image or a personality trait up front and isn't that type of person that they really are, you are only hurting yourselves."

The second screen shot submitted by "Israel" is dated March 5, 2012, 06:45 am, with IP Address 166.205.142.40. The comment was posted to a story captioned, "New Reward in Koenig Disappearance Case." The posts reads:

"I really don't know what to say. This is beyond ridiculous and that's what happens why you have the public doing all work in making this more stupid or worse as they are already are. Besides who in the right mind would come forth like this if he was responsible, and handle the BS that comes with owning a disgusting place like a strip club."

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/19/2012

[redacted] date of birth [redacted] b6 b7C [redacted] Social Security Account Number [redacted] was interviewed at her residence [redacted] California. After being advised of the official identity of the interview Agent [redacted] and the nature of the interview, [redacted] provided the following:

[redacted] rented a white sedan from an Avis rent-a-car in Hemet approximately two days prior to the instant interview. [redacted] brought the car to his residence at [redacted] California to pack up for a trip to Texas. Specifically, [redacted] was traveling to Cisco, Texas, to visit his father for approximately two weeks. [redacted] was not traveling with any other person, but [redacted] advised he had a dog with him. At the time of the interview, [redacted] was not present as he was traveling to Cisco, Texas in the rental vehicle.

To her knowledge, [redacted] did not believe her son had ever been to Alaska. [redacted] is currently employed [redacted]

[redacted] was shown a photograph of Samanta Tessla Koenig (victim) and a photograph of the white car, as provided by FBI Anchorage, in the form of a law enforcement bulletin. [redacted] did not recognize the victim or the vehicle in the photograph.

SENSITIVE INVESTIGATIVE MATTER

A "Sensitive Investigative Matter" (SIM) relates to investigative activities where the nature of the person or group being assessed should be brought to the attention of FBI Headquarters and other DOJ officials. CDC review and SAC approval is required for all SIMs. Use the checkbox below to signify that this assessment is a SIM. Once the box is checked, follow the prompts on the form to provide additional details regarding the SIM.

Title: CHANGED
UNSUB(S),
ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;
KIDNAPING

Synopsis: Add subject Israel Keyes to title and change status of investigation [redacted] b7E

Previous Title: Title marked "Changed" to reflect the addition of Israel Keyes as a subject in this investigation.

[redacted]

Reference: 7A-AN-15642 Serial 11

Details: On 02/03/2012, the Anchorage Police Department (APD) contacted the FBI requesting technical assistance in its investigation of the robbery and disappearance of captioned victim. Surveillance video taken from Koenig's place of employment suggests she may have been robbed and taken against her will. Cellular telephone activity showed Koenig's phone was active up until and shortly after she disappeared. [redacted] b7E

[redacted]

On the evening of 02/24/2012, [redacted] b6 b7C received a text message from her telephone. The

UNCLASSIFIED

306
7A-AN-15642 60

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01 Pg 260 / 431

message gave [redacted] instructions on how to find the location of a note placed in a local Anchorage park. [redacted] notified APD and led investigators to this note along with what appeared to be a photograph of [redacted] Koenig. Also displayed in this photograph is the front page of the Anchorage Daily News from 02/13/2012. Whoever wrote the note demanded $30,000.00 be placed on a VISA debit card, issued by a local Credit Union. The author provided no deadline for when this deposit was to be made nor outline any consequences for failure to do so. b6 b7C

The surveillance video, activity on Koenig's cellular telephone, along with the demand note and photograph, indicate Koenig may have been kidnaped. However, the note's placement in a local park, the use of a local Credit Union debit card, along with no apparent use of her cellular telephone outside of the coverage area, suggest Koenig may still be in Alaska.

APD investigation to date yields no conclusive evidence regarding Koenig's location or possible transport in interstate or foreign commerce. Furthermore, due to its need of technical and analytical resources, the APD has requested assistance from the FBI.

In view of the above, the Anchorage Division converted this matter from a 343G (Domestic Police Cooperation) classification to a 7A (Kidnaping). Investigative efforts [redacted] focused on establishing whether or not Koenig has left the state of Alaska. b7E

On 03/13/2012, captioned subject was arrested in Lufkin, Texas by the Texas Rangers and Department of Public Safety. The above mentioned debit card was in his possession. Clothing items used to disguise Keyes during Automated Teller Machine (ATM) withdrawals were also found in Keyes' possession.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/19/2012

[redacted] at KTVA Channel 11 News, 1007 W. 32nd Ave., Anchorage, Alaska was advised of the identity of the interviewing Agent and the nature of the interview. [redacted] provided the following information: b6 b7C

[redacted] stated that a person using the name "Israel" attempted to post a comment to KTVA's news story titled, "Samantha Koenig Still Missing After a Month." However, the comment was not posted to the KTVA website because it was flagged for language. [redacted] provided a copy of the post. (The screen shot will be placed in a 1A envelope.)

The screen shot submitted by "Israel" is dated March 3, 2012, 03:45 am, with IP Address 166.205.140.90. The comment reads: [redacted]

"I hate to say this, at this point there is no hope. And I would also like to point out that innocent until proven guilty, stupid people like to blame others because he 'sounds' like a prime suspect without any proof that he actually did it. And she wasn't so innocent either, the dumb bitch played with others emotions and with this 'guy' and she had a boyfriend, so you have to wonder about the consequences. I really wish she is found, and perhaps learn he (sic) lessons from now on."

The following investigation was conducted by Special Agent [SA] on the dates and times indicated below:

03/10/2012 - SA was contacted by SA Anchorage Division at 2:45 a.m. regarding the abduction of SAMANTHA TESSLA KOENIG. SA advised an UNSUB had withdrawn $480 at 2:23 a.m. from an automated teller machine [ATM] at the Humble Community Bank, 1515 FM 1960 Bypass East, Humble, Texas. SA advised the withdrawal had been made utilizing a debit card belonging to SA further advised an UNSUB had made two previous withdrawals utilizing debit card; on 03/07/2012 in Wilcox, Arizona and on 03/08/2012 in Lordsburg, New Mexico. SA advised that investigation to date revealed the UNSUB had been operating a late model, white color Ford Focus. SA advised SA that he [SA had contacted the Humble Police Department [HPD] regarding the withdrawal, and HPD had located a white color Ford Focus at a hotel approximately 1/2 mile from the Humble Community Bank.

SA proceeded to the Super 8 Motel, 20118 Eastway Village Drive, Humble, Texas, arriving at approximately 3:15 a.m., and met with HPD Sergeant and several other HPD officers already on scene at the hotel. SA and Sergeant reviewed the security video at the hotel and determined the aforementioned vehicle had not departed the hotel since arriving at 11:00 p.m. on 03/09/2012. The video further revealed the sole occupant of the vehicle, a black male, had not departed his room since arriving at the hotel.

At approximately 3:45 a.m. SA met SA and SA in the parking lot of the Humble Community Bank. Sergeant advised that HPD dispatch had contacted, [white female, DOB the listed key holder for the bank and that she was en route to the bank from her residence. At approximately 4:30 a.m. Sergeant advised that had contacted HPD and advised she had returned to her residence and would not be coming to the bank. SA subsequently contacted by telephone. advised that she had been directed by [white female, DOB to not respond to the bank. SA subsequently telephonically contacted at approximately 4:45 a.m. to request her assistance. SA identified himself to and explained the Federal Bureau of Investigation was investigating

SA

the kidnaping of a 18-year-old female and explained the nexus of the investigation to the bank. [redacted] stated no bank personnel, who would have access to review bank security video, would be responding to the bank until 9:00 a.m. on 03/12/2010. SA [redacted] reiterated the nature of the investigation to [redacted] and stated the victim's life was believed to be in danger. [redacted] responded she was "sorry the girl's life is in danger" and reiterated that she would not respond, nor would she send any other bank employees to respond, to the bank until 03/12/2010. SA [redacted] pleaded with [redacted] to allow [redacted] to respond; [redacted] terminated the conversation by saying the FBI could review the security footage at 9:00 a.m. on 03/12/2012. b6 b7C

At 6:44 a.m., SA [redacted] received the following text message on his cellular telephone from [redacted]

"***I left a message for an employee to call you. She will be able to help you. This is the best I can do at this time.***"

At 7:00 a.m., SA [redacted] was telephonically contacted by [redacted] who advised that she would be arriving at the bank at approximately 8:45 a.m., just prior to the bank opening at 9:00 a.m., in order to allow SA [redacted] to review the bank's video surveillance system. [redacted] stated she was not authorized [by [redacted] to arrive at the bank prior to that time. A canvass of the businesses in the area adjacent to the bank, regarding security video on the exterior of the businesses, yielded negative results. b6 b7C

At approximately 8:50 a.m. [redacted] arrived at the bank. [redacted] allowed SA [redacted] SA [redacted] and SA [redacted] to review all the bank surveillance video for 03/10/2012. [redacted] showed the aforementioned agents the only camera covering any area outside of the bank was [redacted] The aforementioned agents observed that the running date/time stamp on the video system was six [6] minutes ahead of [fast] the actual time. A review of the video revealed that at 2:28 a.m. [2:22 a.m. actual time] an unidentified subject [UNSUB] approached the ATM on foot. The only portion of the UNSUB revealed on the video was the upper portion of the UNSUB's right arm, the right one-third of the UNSUB's torso, and the lower right portion of what appeared to be the hood of a hooded sweatshirt pulled over the UNSUB's head. The UNSUB appeared to be wearing a white or light gray color hooded sweatshirt. [redacted] attempted to download the video on to a compact disc but was unable to complete the download. SA [redacted] advised [redacted] that he would contact her on 03/12/2012 to coordinate having FBI personnel download the video. b6 b7C b7E

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 270 / 431

At approximately 4:10 p.m., SA [redacted] obtained video from HPD from three different traffic light cameras, for the time period 2:15 a.m. - 2:45 a.m., from the three traffic lights located closest to the bank. A review of the aforementioned video revealed the quality of the video was insufficient for determining the make or model of the vehicles captured in the video. b6 b7C

03/13/2012 - SA [redacted] telephonically contacted [redacted] regarding downloading the video from 03/10/2012. [redacted] activated the speaker phone function on her telephone and stated [redacted] was also present. [redacted] asked SA [redacted] why he needed the video since she did not understand how it would assist the FBI in locating KOENIG. SA [redacted] advised [redacted] that the video was evidence and he would obtain a subpoena for the video if [redacted] requested. [redacted] stated she would allow FBI personnel to download the aforementioned video.

03/14/2012 - At 3:00 p.m., SA [redacted] who is assigned to the Greater Houston Regional Computer Forensic Laboratory of the FBI Houston Division, downloaded the video from 03/10/2012 from Humble Community Bank on to a digital video disc [DVD]. SA [redacted] provided the aforementioned DVD to SA [redacted] at 4:46 p.m. that same day [see FD-302 by SA [redacted] dated 03/14/2012, under file 7A-AN-15642 re: downloaded video from Humble Community Bank].

FBI/USAO Coordination of Victim Services Checklist

The 2011 AG Guidelines on Victim and Witness Assistance encourages Department personnel to coordinate with each other when providing victims with the services required by federal law and the AG Guidelines. When victims require or request services from other agencies, each component should appropriately coordinate and communicate with the other components' victim assistance personnel. Department personnel should support each other as members of a team, coordinating services with their counterparts to the greatest extent possible, with a goal of providing continuous services to meet victims' needs.

This form is intended to assist with communication and coordination between the FBI Victim Specialist (VS) and the USAO Victim Witness Coordinator (VWC). The ultimate goal is to provide high quality, consistent, timely, and valuable services to victims.

The services identified in this form are ones that could impact victim recovery and/or create potential discovery issues. Once a case has been indicted, this form should be completed, forwarded to the VWC and uploaded to the FBI investigative case file. After that time, the VS and VWC should work collaboratively to keep each other updated in regard to services requested/provided.

If the services listed on the checklist have not been provided by the VS, the VS does not need to complete the checklist. If a VS has provided any of the services listed on the checklist, the form is to be completed by the VS. If the victim declines services, the VS is to denote that on the bottom of the checklist, include the date a declination of services form was signed by the victim, and forward the checklist to the VWC. If the victim rescinds their declination of services after indictment, the VS and VWC are to work collaboratively to keep each other updated in regard to any/all services provided to the victim from that point forward. VSs are also required to keep the Special Agent aware of any services provided to the victim. In multiple victim cases, the VS may consider developing a spreadsheet, and/or revising this form to be used to convey information on multiple victims at one time.

If a victim is requesting assistance from the VWC, the VWC is encouraged to reach out to the VS to discuss what services may have already been offered.

Upon completion of the checklist, VS is to ensure copies are disseminated to the following:

- ☒ Investigative case file/Special Agent
- ☒ VWC/AUSA

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 283 / 431

FBI/USAO Coordination of Victim Services Checklist

[redacted] born [redacted] social security account number [redacted] was interviewed at her place of employment, 1405 West Northern Lights Boulevard, Anchorage, AK by SA [redacted] After being provided with the identity of the interviewing agent and the nature of the interview, [redacted] provided the following information: b6 b7C

[redacted] at Burger King at 1405 West Northern Lights Boulevard, Anchorage, AK. [redacted] contacted the FBI about [redacted] began working at Burger King in early January 2012 and quit on 2/2/2012. [redacted] had worked at the Burger King for approximate three or four weeks. On 2/1/2012 or 2/2/2012, [redacted] found [redacted] sleeping in the play area of the Burger King restaurant. [redacted] found this to be very odd and she questioned [redacted] about why he was sleeping in the restaurant. [redacted] stated that FNU LNU, his roommate, friend and boss, was acting really strange and that he [redacted] was going to be moving back to Texas. [redacted] had moved to Alaska from Texas to work with LNU, who was in the construction business. [redacted] moved in with LNU and began working with him. There was not enough work for [redacted] LNU brought him to Burger King for a job interview. [redacted] recalled that LNU had a pick-up truck but could not recall the make, model or color. [redacted] was a good cook and he knew his way around the kitchen. [redacted] could tell that [redacted] had been in the restaurant business prior to working at Burger King. [redacted] told [redacted] that he was leaving Alaska on 2/3/2012 to return to Texas. [redacted] had a plane ticket that was purchased by his brother to make the return trip to Texas. [redacted] was taken to the airport by his roommate. [redacted] provided Burger King with a forwarding address where they could send his last check. That address was provided as follows: [redacted] Fort Hood, TX, 76544.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/16/2012

[redacted] born [redacted] social security account number [redacted] was interviewed at her place of employment, 1405 West Northern Lights Boulevard, Anchorage, AK by SA [redacted] After being provided with the identity of the interviewing agent and the nature of the interview, [redacted] provided the following information:

[redacted] Burger King located at 1405 West Northern Lights Boulevard, Anchorage, AK. [redacted] contacted the FBI in regards to a previous employee, [redacted] had applied for a job at Burger King in early January, 2012 as a cook. [redacted] applied for the job at Burger King because he had moved to Anchorage to work with his friend in the construction business and there was not a lot of work. According to [redacted] was dropped off to apply for this job by his roommate, who was also his employer at the construction job. [redacted] had moved up to Alaska from Texas to work and live with this friend. [redacted] did not know the name of the individual [redacted] was living with while in Alaska, but he didn't live far from the Burger King location because [redacted] could walk to work.

[redacted] stated that [redacted] was a good worker, but he was only employed at the Burger King for about three to four weeks. On or about 2/1/2012, [redacted] told [redacted] that he had to quit his job. [redacted] told [redacted] that he had to leave Alaska and move back to Texas. [redacted] was having problems with his roommate. This individual was acting weird which was causing [redacted] to want to leave the state. [redacted] was going to get a plane ticket from his brother to return to Texas. On 2/2/2012 [redacted] was found sleeping in the Burger King restaurant after the dinning area had closed. The night manager was doing the security checks of the building when they found a pair of shoes outside the play area. One of the cooks was pulled from the kitchen to investigate who might be in the play structure. [redacted] was found sleeping inside that area. [redacted] told the night manager that he was given permission to sleep there and that [redacted] didn't want to return home. [redacted] told [redacted] that he had a plane ticket to leave Alaska. [redacted] gave [redacted] the following forwarding address to send his last check: [redacted] Fort Hood, TX, 76544.

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;
KIDNAPPING/HOMICIDE

Synopsis: To request VICAP assistance in developing a timeline, crime mapping, and crime analysis.

Details: Captioned case was opened in February 2012. Samantha Koenig was an 18 year old female who was abducted on 2/1/2012 from a drive up coffee stand in Anchorage. Keyes sent a ransom note requesting money be put into Samantha [redacted] account. Keyes then used her debit card to make withdrawals in Alaska, Arizona, and Texas. Evidence obtained from these withdrawals led to a vehicle description. The Texas Rangers stopped Keyes on 3/12/2012 and he was arrested. To date, investigators have been unable to fine any connection between Keyes and Samantha. Keyes agreed to speak with agents and indicated it was a random act and he intended to abduct any female that was working that night at the coffee stand.

Keyes admitted to committing other homicides during the past fourteen years but has yet to give specific details such as the location, victim, and manner of death. He has lived in Alaska since 2006 but resided in several other areas prior to this, including but not limited to Washington, Texas, and Maine.

Anchorage has obtained numerous historical records related to Keyes and would be willing to send these to VICAP if it is deemed appropriate. The documents include military

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES since October 1, 2011, including:

1. Evidence of who used, owned, or controlled the Target Device, including logs, registry entries, configuration files, saved usernames and passwords, documents – including but not limited to travel records, banking or other financial records, records indicating connection or interactions between KEYES and S.K. or surveillance of S.K, by KEYES, maps, driving or other geographic directions, Internet browser history and cache, user profiles, email, email contacts, chat logs, instant messages, photographs, and correspondence.

2. Evidence of software that would allow others to control the Target Device, such as viruses, Trojan horses, and other forms of malicious software, as well as evidence of the presence or absence of security software designed to detect malicious software.

3. Evidence of the lack of such malicious software.

4. Evidence of the attachment to the Target Device electronic storage devices, such as thumb drives, digital cameras, cellular telephones, or similar containers for electronic evidence.

5. Evidence of counter-forensic programs (and associated data) that are designed to eliminate data from the Target Device .

6. Evidence of the times the Target Device was used.

7. Passwords, encryption keys, and other access devices that may be necessary to access the Target Device .

8. Evidence indicating the use of photoshop software or similar photography computer programs.

9. contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.

In the Matter of the Search of
(Briefly describe the property to be searched or identify the person by name and address)

Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639

Case No. 3:12-MJ-135-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF LENOVO B570 LAPTOP, BLACK IN COLOR, Model #1068 S/N WB03686639, CURRENTLY LOCATED AT FBI ANCHORAGE NON-DRUG EVIDENCE LOCKER	Case No. 3:12-MJ-135-JDR ~~Filed under seal~~

AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnaping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639, further identified in Attachment A (Target Device), for the information identified in Attachment B.

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 313 / 431

possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

> Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward.

IDENTIFICATION OF THE DEVICE TO BE EXAMINED

5. The property to be searched is identified in Attachment A as a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639, currently located at the FBI'sAnchorage

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 314 / 431

District Office, Anchorage, Alaska, in a non-drug evidence vault.

6. The applied for warrant would authorize the forensic examination of the device for the purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639, I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on 2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 315 / 431

climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K. was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 316 / 431

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these items do not appear on the truck in the Home Depot video.

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 317 / 431

coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling to/from Alaska by ferry, commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 318 / 431

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 319 / 431

must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 320 / 431

pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who attempted to withdraw the money.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 321 / 431

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas. Initial review of the surveillance video from the ATM appeared to show that the individual using

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 322 / 431

the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, while in the company of your Affiant, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn and your Affiant responded to the QIS, at which time your Affiant conducted a walk-by and visual inspection of the white Ford Focus. Your Affiant noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. Your Affiant also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 323 / 431

surveillance on the Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, who was in the company of your Affiant, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. Your Affiant had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on Affiant's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Upon your Affiant's arrival at the car stop location, Corporal Henry provided to your Affiant Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry prior to your Affiant's arrival at the scene. Corporal Henry told your Affiant that KEYES informed him he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to your Affiant a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to your Affiant the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told your Affiant he "probably" paid for fuel

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 324 / 431

throughout his travels from Nevada to Texas with cash. Ranger Rayburn reported to your Affiant that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by your Affiant and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow your Affiant and/or Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed to your Affiant that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Your Affiant suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 325 / 431

observed in the videos of the above-described ATM, as well as other observations, your Affiant instructed Corporal Henry to place KEYES under arrest. Ranger Rayburn, in your Affiant's presence, searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 326 / 431

above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 327 / 431

reservation. The notes section of the travel records indicated the email address provided was israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant on Ford Focus and Discovery of Laptop Computer

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant, which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a cellular phone believed to belong to S.K. and a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and conduct other personal business related to traveling. I also know that computers and cellular phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

39. The Device is currently in the lawful possession of the FBI. The Device came into the FBI's possession as outlined above. Although the FBI might already have the lawful

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 328 / 431

authority to examine the Device, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Device will comply with the Fourth Amendment and other applicable laws.

40. The Device is currently in storage at FBI Anchorage District, Anchorage, Alaska. In my training and experience, I know that the Device has been stored in a manner in which its contents are, to the extent material to this investigation, in substantially the same state as they were when the Device first came into the possession of the FBI.

TECHNICAL TERMS

41. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which computer data can be stored. Examples include a laptop computer's internal hard disk drive.

b. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

c. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255, separated by periods (e.g., 121.56.97.178). Every computer attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 329 / 431

service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic – that is, frequently changed – IP addresses.

d. Internet: The Internet is a global network of computers and other electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

COMPUTERS, ELECTRONIC STORAGE, AND FORENSIC ANALYSIS

42. The applied-for warrant would authorize the forensic imaging and examination of the Target Device for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

43. *Probable Cause*: Based on my training, experience, and information related to me by agents and others involved in the forensic examination of computers, I submit there is probable cause to believe that information that was once stored on the Target Device may still be stored there, for at least the following reasons:

a. Based on my knowledge, training, and experience, I know that computer files or remnants of such files can be recovered days, months or even years after they have been stored on a storage medium (e.g., laptop computer's hard drive). Even when files have been deleted, they can be recovered using forensic tools. This is so because when a person "deletes" a file on a computer, the data contained in the file does not actually disappear; rather, that data remains on the storage medium until it is overwritten by new data.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 330 / 431

b. Therefore, deleted files, or remnants of deleted files, may reside in free space or slack space -- that is, in space on the storage medium that is not currently being used by an active file -- for long periods of time before they are overwritten. In addition, a computer's operating system may also keep a record of deleted data in a "swap" or "recovery" file.

c. Wholly apart from user-generated files, computer storage media -- in particular, a laptop computer's internal hard drive -- contain electronic evidence of how a computer has been used, what it has been used for, and who has used it. To give a few examples, this forensic evidence can take the form of operating system configurations, artifacts from operating system or application operation, file system data structures, and virtual memory "swap" or paging files. Computer users typically do not erase or delete this evidence, because special software is typically required for that task. However, it is technically possible to delete this information.

d. Similarly, files that have been viewed via the Internet are sometimes automatically downloaded into a temporary Internet directory or "cache". Things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

e. Based on my knowledge, training, and experience, I know that computer files or remnants of such files can be recovered months or even years after they have been downloaded onto a storage medium, deleted, or viewed via the Internet. Electronic files downloaded to a storage medium can be stored for years at little or no cost. Even when files have been deleted, they can be recovered months or years later using forensic tools. This is so because when a person "deletes" a file on a computer, the data contained in the file does not actually disappear; rather, that data remains on the storage medium until it is overwritten by new data.

f. Therefore, deleted files, or remnants of deleted files, may reside in free space or slack space—that is, in space on the storage medium that is not currently being used by an active file—for long periods of time before they are overwritten. In addition, a computer's operating system may also keep a record of deleted data in a

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 331 / 431

"swap" or "recovery" file.

g. Wholly apart from user-generated files, computer storage media—in particular, computers' internal hard drives—contain electronic evidence of how a computer has been used, what it has been used for, and who has used it. To give a few examples, this forensic evidence can take the form of operating system configurations, artifacts from operating system or application operation, file system data structures, and virtual memory "swap" or paging files. Computer users typically do not erase or delete this evidence, because special software is typically required for that task. However, it is technically possible to delete this information.

44. Based on my training, experience, and research, I know that the Device has capabilities that allow it to serve as a portable media player, internet browser, and digital camera and photoshop, amongst other capabilities.

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Device was used, the purpose of its use, who used it, and when. There is probable cause to believe that this forensic electronic evidence more likely than not is stored in the Target Device because:

a. Data on a storage medium can provide evidence of a file that was once on the storage medium but has since been deleted or edited, or of a deleted portion of a file (such as a paragraph that has been deleted from a word processing file). Virtual memory paging systems can leave traces of information on the storage medium that show what tasks and processes were recently active. Web browser, chat and email programs store configuration information on the storage medium that can reveal information such as online passwords and aliases. Operating systems can record additional information, such as the attachment of peripherals, the attachment of USB flash storage devices or other external storage media, and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 332 / 431

the times the computer was in use. Computer file systems can record information about the dates files were created and the sequence in which they were created.

b. Forensic evidence stored within the Target Device can also indicate who has used or controlled the Target Device. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Device works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a computer is evidence may depend on other information stored on the computer and the application of knowledge about how a computer behaves. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Device was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a storage medium.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Device consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Device's entire storage medium, that might expose many parts of the device to human inspection in order to determine whether it is evidence described by the warrant.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 333 / 431

47. *Manner of execution*: Because this warrant seeks only permission to examine a laptop computer already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full image copies of seized storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use may forever change the data it contains, alter system access times, or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of a complete image assures that it will be available to all parties, including those known now and those later identified.

d. The act of destroying or returning a storage medium could create an opportunity for a defendant to claim, falsely, that the destroyed or returned storage medium contained evidence favorable to him. Maintaining a copy of the storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 334 / 431

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639 there exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

REQUEST FOR SEALING

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 335 / 431

I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

Further your Affiant sayeth naught.

Case No. 3:12-mj-134-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

UNITED STATES DISTRICT COURT
THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF SAMSUNG CELLULAR TELEPHONE, BLACK IN COLOR, SLIDER TYPE, Model# SCH-R631. Possible S/N 80015743, CURRENTLY LOCATED AT FBI ANCHORAGE NON-DRUG EVIDENCE LOCKER	Case No. 3:12-MJ-134-JDR **filed under seal**

AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnapping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search a Samsung cellphone, black in color, slider type. Model# SCH-R63 1. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), further identified in Attachment A (Target Device), for the information identified in Attachment B.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 345 / 431

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

> Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward.

IDENTIFICATION OF THE DEVICE TO BE EXAMINED

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 346 / 431

5. The property to be searched is identified in Attachment A as a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N) currently located at the FBI Anchorage District Office, Anchorage, Alaska, in a non-drug evidence vault.

6. The applied for warrant would authorize the forensic examination of the device for the purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 347 / 431

abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on 2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 348 / 431

the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K. was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 349 / 431

truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these items do not appear on the truck in the Home Depot video.

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 350 / 431

case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling to/from Alaska by ferry, commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 351 / 431

$30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 352 / 431

ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 353 / 431

parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who attempted to withdraw the money.

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 354 / 431

debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas. Initial review of the surveillance video from the ATM appeared to show that the individual using the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, while in the company of your Affiant, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn and your Affiant responded to the QIS, at which time your Affiant conducted a walk-by and visual inspection of the white Ford Focus. Your Affiant noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. Your Affiant also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 355 / 431

appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, who was in the company of your Affiant, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. Your Affiant had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on Affiant's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Upon your Affiant's arrival at the car stop location, Corporal Henry provided to your Affiant Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry prior to your Affiant's arrival at the scene. Corporal Henry told your Affiant that KEYES informed him he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to your

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 356 / 431

Affiant a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to your Affiant the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told your Affiant he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger Rayburn reported to your Affiant that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by your Affiant and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow your Affiant and/or Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed to your Affiant that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Your Affiant suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 357 / 431

described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, your Affiant instructed Corporal Henry to place KEYES under arrest. Ranger Rayburn, in your Affiant's presence, searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 358 / 431

truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 359 / 431

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the reservation. The notes section of the travel records indicated the email address provided was israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant and Discovery of Cellular Telephone Matching Description of Phone Belonging to S.K.

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), which matched the description of S.K.'s cellular phone provided by S.K.'s boyfriend (per paragraph 9, S.K. is believed to have been carrying the phone when the kidnapping took place), and a laptop computer.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and conduct other personal business related to traveling. I also know that computers and cellular phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 360 / 431

devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

Interview of KEYES

39. In an interview with defense counsel present on March 17, 2012, KEYES admitted to using S.K.'s debit card at locations throughout the southwest United States. He also claimed that he received the debit card and the cellular telephone matching the description of S.K.'s telephone together in a plastic bag from an anonymous person, who left the plastic bag in his vehicle. Based on my training and experience, it appears very likely that the specifics of KEYES' account of the origin of his possession of the phone and debit card is not truthful; however, his admission that the phone and debit card are associated with each other associates both items with S.K., and confirms the identification of the phone as belonging to S.K.

40. The Device is currently in the lawful possession of the FBI. The Device came into the FBI possession as outlined above. Although the FBI might already have the lawful authority to examine the Device, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Device will comply with the Fourth Amendment and other applicable laws.

41. The Device is currently in storage at FBI Anchorage Station, Anchorage, Alaska. In my training and experience, I know that the Device has been stored in a manner in which its contents are, to the extent material to this investigation, in substantially the same state as they were when the Device first came into the possession of the government.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 361 / 431

TECHNICAL TERMS

42. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which data can be stored, including a cellular telephone's flash memory or other data storage components, such as a SIM card.

b. "Wireless telephone": A wireless telephone (or mobile telephone, or cellular telephone) is a handheld wireless device used for voice and data communication through radio signals. These telephones send signals through networks of transmitter/receivers, enabling communication with other wireless telephones or traditional "land line" telephones. A wireless telephone usually contains a "call log," which records the telephone number, date, and time of calls made to and from the phone. In addition to enabling voice communications, wireless telephones offer a broad range of capabilities. These capabilities include: storing names and phone numbers in electronic "address books"; sending, receiving, and storing text messages and e-mail; taking, sending, receiving, and storing still photographs and moving video; storing and playing back audio files; storing dates, appointments, and other information on personal calendars; and accessing and downloading information from the Internet. Wireless telephones may also include global positioning system ("GPS") technology for determining the location of the device.

c. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

d. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255, separated by periods (e.g., 121.56.97.178). Every computer

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 362 / 431

attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic – that is, frequently changed – IP addresses.

e. Internet: The Internet is a global network of computers and othe electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

43 Based on my training, experience, and research, I know that the Target Device has capabilities that allow it to serve as a wireless telephone and digital camera, and may also function as a computer and internet browser. In my training and experience, examining data stored on devices of this type can uncover, among other things, evidence that reveals or suggests who possessed or used the device.

ELECTRONIC STORAGE AND FORENSIC ANALYSIS

44. The applied-for warrant would authorize the forensic examination of the Target Device for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Device was used, the purpose of its use, who used it, and when. There is probable cause to believe that this forensic electronic evidence more likely than not is stored in the Target Device because:

a. Data on a storage medium can provide evidence of information that was once on the storage medium but has since been deleted or edited, or of a deleted portion of the information.

b. Forensic evidence stored within the Target Device can also indicate who has used or controlled the Target Device. This "user

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 363 / 431

attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Device works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a cellular telephone is evidence may depend on other information stored on the cellular telephone and the application of knowledge about how a cellular telephone operates. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Device was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a storage medium.

f. Based on my knowledge, training and experience, I know that electronic devices can store information for long periods of time. Similarly, things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Device consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Device's entire storage medium, that might expose many parts of the device to human inspection in order to determine whether it is evidence described by the warrant.

47. *Manner of execution*: Because this warrant seeks only permission to examine a cellular telephone already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 364 / 431

reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full copy of the cellular telephone's storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use of a cellular telephone may forever change the data it contains or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of the entire content of the storage medium assures that it will be available to all parties, including those known now and those later identified.

d. The act of destroying or returning a cellular telephone could create an opportunity for a defendant to claim, falsely, that the destroyed or returned cellular telephone contained evidence favorable to him. Maintaining a copy of the cellular telephone's storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 365 / 431

investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the Lenovo B570 laptop, black in color, Model #1068, S/N WB036866 there exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnaping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal, I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

Honorable John D. Roberts

United States Magistrate Judge

IN THE MATTER OF THE SEARCH OF Samsung cellphone, black in color, slider type. Model# SCH-R63 1. Possible S/N 80015743, CURRENTLY LOCATED AT FBI ANCHORAGE NON-DRUG EVIDENCE LOCKER

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 367 / 431

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/02/2012

On Friday, March 30, 2012, [redacted] date of birth [redacted] cellular telephone number [redacted] was interviewed at the Neah Bay Tribal Center Administration Building. After being advised of the identity of the interviewing Agent and the purpose for the interview, [redacted] provided the following information:

[redacted] advised that he has been in his position since 2001. In 2002 Israel Keyes interviewed for a position with the Tribe's Parks and Recreation Department. [redacted] recalled that during the interview, Keyes had brought in photos of some of his carpentry work, noting that Keyes had been brought up in an Amish home. In addition to carpentry work, Keyes was also a good mechanic. The Tribe hired Keyes, who worked under [redacted]

[redacted] and Keyes began hanging out together because of a mutual love for NFL football. [redacted] and Keyes liked to barbeque and drink beer together.

Keyes was a quiet guy who was not religiously active. Keyes later split up with his ex-wife [redacted] Keyes then began dating [redacted] who worked in [redacted] at the time. Keyes later followed [redacted] up to Anchorage, Alaska.

[redacted]

[redacted] did not know Keyes to have any tattoos but did recall and incident where Keyes branded an Anarchist "A" on his chest using a coat hanger and a propane torch. This occurred at Keyes house. [redacted] thought that Keyes may have been trying to correct a prior attempt at branding this symbol on his chest. [redacted] recalled that there had been a lot of "goading" of Keyes during this incident. [redacted] identified [redacted] as another friend of Keyes. [redacted] currently works as a [redacted] in Lynnwood, Washington.

[redacted] was shown several photographs of additional brands from Keyes' body. [redacted] had no information regarding the brands of

b7C

the up-side-down cross or the pentagram. [redacted] did not know Keyes to be involved in the occult.

[redacted] advised that Keyes had been disowned by his father and was not allowed to see his mother for a long time. [redacted] knew Keyes to have a brother who was going to move to Alaska to help him with work. [redacted] also recalled that Keyes had a sister who lived in Texas.

[redacted] last spoke with Keyes in September or October 2011. During that conversation they talked about Neah Bay news.

[redacted] recalled that Keyes owned a handgun, shotgun, and an assault style rifle. [redacted] stated that he held onto Keyes' handgun for him when Keyes moved to Alaska. Later, after a trip to California, Keyes stopped on his way back to Alaska, and picked up the handgun from [redacted] could not recall what type or color the handgun was, only remembering that the pistol case was black in color.

[redacted] did not know if anything had happened to Keyes in December 2011. Lucas understood that Keyes and [redacted] had "split" but were still living together. [redacted] recalled that he had sent Keyes a text message, asking about [redacted] but never got a reply back. [redacted] thought this was a little odd.

[redacted] stated that Keyes was very protective of [redacted] and recalled that Keyes trusted him to transport [redacted] to the airport once. This demonstrated to [redacted] that Keyes really trusted him.

[redacted] advised that Keyes did not follow his parents religious practices and at one point declared himself an atheist. Keyes was "neutral" in pushing religion [redacted]

[redacted] advised that despite their differences, Keyes has a "good" relationship with his father, who unexpectedly passed away in 2002 or 2003.

[redacted]

[redacted]

and in May of 2004, Keyes moved out of their house and got his own house in Neah Bay, Washington. Keyes continued to work in Neah Bay and worked for the Tribe's Parks and Recreation Department in addition to side jobs. In addition to work, Keyes also did all the house work [redacted]

[redacted] stated that Keyes did not have any close friends until after their break-up. Later, Keyes became close to [redacted] [redacted] one of his co-workers.

Keyes had a few different girlfriends after they broke up and then met [redacted] in approximately 2005. [redacted] advised that even though they were broken up, Keyes and [redacted] were still "messing around" when Keyes was in his relationship with [redacted] knew [redacted] to be a [redacted]

In approximately 2007, [redacted] moved up to Anchorage, Alaska. Keyes followed her up, moving approximately six months later. [redacted]

[redacted]

[redacted] described Keyes and [redacted] relationship as "rocky", noting that Keyes always tried to make the relationship work. [redacted] advised that Keyes wanted a co-parent and had hoped that [redacted] would have been more "maternal". During the Summer of 2011, Keyes confided in [redacted] that he was thinking about leaving [redacted] and talked about moving down to Texas.

[redacted] stated that Keyes and [redacted] were still living together but that Keyes was sleeping on the couch at their residence. [redacted] worked for the [redacted] in Alaska and was gone for weeks at a time. More recently, [redacted] worked at a [redacted]

[redacted] stated that Keyes did not have a hard line telephone, but had a cellular phone. [redacted] provided the following cellular phone numbers for Keyes [redacted]

- Keyes - 907-301-3412
- [redacted]

[redacted] advised that in December 2011, Keyes had commented that getting work had been harder and he seemed depressed. [redacted] speculated that it his apparent depression may have been from the lack of sunlight in Alaska.

Keyes called [redacted] on Christmas Day and it sounded to [redacted] and Keyes had had a good day. They were suppose to have a Christmas party but [redacted] got sick, so the party never happened. Keyes told [redacted] that [redacted] was hung over and did not come home.

In January 2012, [redacted] received several calls from [redacted] On February 2, 2012, Keyes, [redacted] took a cruise down in Mexico. This trip was not unexpected and Keyes had mentioned it to [redacted] a couple months prior. [redacted] did not know the details of the trip but believed that in-addition to the cruise in Mexico, they had also spent time in New Orleans at a "Kids Mardi Gras." [redacted] believed that this was a seven day cruise. [redacted] recalled that [redacted] called her the night before the trip (from her cellular phone) and had mentioned that they were home packing for the trip. [redacted] also talked with [redacted] during the trip. [redacted] advised that she would usually call [redacted] cellular phone and if she could not get through, then she would call Keyes' cellular phone. [redacted] identified her cellular telephone number at the time as [redacted] stated that

b6
b7C

during the trip, [redacted] received a few email messages from Keyes, further identifying Keyes' email address as israelkeyes@yahoo.com.

[redacted] recalled that one morning, in mid-to-late January 2012, [redacted] received some text messages from [redacted] who was "freaked out." [redacted] had reported that there were cuts in the curtains and couch and a hole had been punched in the wall. [redacted] told [redacted] that she had heard Keyes on the phone at 3:00 AM, asking [redacted] when she was going to be home. [redacted] told [redacted] to tell Keyes to call her. Keyes did not return the call that morning, but talked to [redacted] that evening. Keys told [redacted] that everything was "fine" and "don't worry." [redacted] believed that this occurred the day after [redacted] also placed the phone call the morning that [redacted] was suppose to go to [redacted] advising that Keyes had [redacted] stated that [redacted] may still have the text messages from that evening on her cellular phone.

[redacted] first heard about Keyes' arrest from her son, [redacted] advised that her sister [redacted] tried calling her first, but that [redacted] had missed the phone call. [redacted] told [redacted] that Keyes had been arrested in Texas and that it was in connection with the abduction in Anchorage.

[redacted] stated that after the cruise, Keyes and [redacted] had traveled to Texas for [redacted] told [redacted] that they had driven to Texas but [redacted] does not know if that meant they drove the entire way or if they flew part way and drove the remaining distance. [redacted] recalled that Keyes had talked about a Texas road trip in the past but had cancelled it due to money issues. [redacted] commented that Keyes was very "tight" with his money.

[redacted] stated that she called Keyes the night that he arrived in Texas. [redacted] recalled that Keyes was is in a good mood and was driving through a thunderstorm at the time. [redacted] was not on the trip as far as [redacted] was aware.

[redacted] was asked about Keyes' "brands." [redacted] stated that the brand of the pentagram happened when Keyes was in the Army and while in Egypt. [redacted] stated that Keyes would get teased about his Amish background and that the branding had occurred when he was drunk, further advising that his army buddies did it to him.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 373 / 431

b6
b7C

[redacted] stated that the brands of the upside down cross and the anarchist "A" were ones that Keyes did himself. [redacted] stated that Keyes was not into the occult, but chose those brands as a anti-religion statement, which "pissed" [redacted] off.

[redacted] stated that Keyes had no history of aggression. [redacted] stated that she would try to "push his buttons" but that Keyes would not react. [redacted] stated that Keyes was not the jealous type and that this would also bother her.

[redacted] was asked about a domestic violence incident which occurred between her and Keyes while they lived in Neah Bay. [redacted] stated that the incident was entirely her fault. [redacted] stated that Keyes was playing games on-line and was instant messaging some girl. Later [redacted] got on the internet and used Keyes' password to talk to the girl. [redacted] confronted Keyes about this and pulled out the phone jack from the wall. [redacted] stated that she was trying to get "a rise" out of Keyes, who was drunk at the time. [redacted] stated that this was the worse fight that they had ever had.

[redacted] stated that Keyes was not into any "fetishes" or bondage, as far as she knew. Keyes viewed pornography, but nothing unusual or anything that she was ever concerned about. [redacted] did not know Keyes to have any sexually transmitted diseases (STDs) but noted that he was "worried" about them.

[redacted] recalled that Keyes had a few guns, recalling a shotgun and a rifle. Keyes also believed that Keyes may have had a handgun, but she was not sure. [redacted] stated that Keyes had taught her to shoot and described him as the "Typical American guy."

[redacted] stated that she did not believe that Keyes had anything to do with the abduction of the barista in Anchorage, noting that Keyes was into older women. [redacted] noted that she was approximately [redacted] years older than Keyes and that [redacted] was approximately [redacted] years older.

Keyes did braid [redacted] hair, recalling that he would braid her hair in pig tails and french braids. [redacted] stated that Keyes learned braiding hair from growing up with his sisters.

[redacted] described Keyes as a "workaholic" and a very good father.

[redacted] provided information on a recent incident whereas [redacted] reported to [redacted] that she woke up to find cuts in the drapes, the couch, and a hole in the wall. In addition, [redacted] reported hearing Keyes' on the telephone earlier that same morning, (~ 3:00 AM) asking [redacted] when she was going to be home. [redacted] reported that [redacted] was "freaked-out" over the incident. [redacted] talked with Keyes later that evening and was told that everything was fine. The date of this incident is unknown but reportedly happened the day after [redacted] received [redacted]

b6
b7C

[redacted] both provided information on Keyes' brands (the pentagram, the upside-down-cross, and the Anarchist "A"). [redacted] advised that the pentagram was burned onto Keyes while he was in the Army, during a tour in Egypt. The other brands were self inflicted by Keyes' himself, allegedly as a statement in protest of his religious upbringing. No persons interviewed had any information connecting Keyes to the occult.

[redacted] all described Keyes as a excellent worker, a good husband, and a great father, who showed no signs of aggressive or criminal behavior.

Seattle considers this lead covered.

[redacted] Quality Inn & Suites (QIS), 306 South First Street, Lufkin, Texas, 75901, telephone (936) 639-3333, was contacted at the QIS. [redacted] was advised of the identities of Special Agent (SA) [redacted] Federal Bureau of Investigation (FBI), Dallas Division - Lufkin Resident Agency, and Texas Ranger [redacted] Texas Department of Public Safety, Lufkin, Texas. [redacted] thereafter provided the following information:

b6
b7C

[redacted] provided a 3-page print-out of QIS' "In House List" which depicted all registered guests of QIS for the night of March 12, 2012. [redacted] also provided a document depicting the property layout. QIS was sold out of rooms on the night of March 12, 2012; therefore, no guests checked in after 11:00 p.m. that night. QIS guests are not required to provide a description of any vehicles that they may have parked at the hotel; therefore [redacted] could not provide any information relating to a white Ford Focus parked on the north side of the property.

A review of the "In House List" reflected guest [redacted] was the registered guest in room 215 of QIS, and [redacted] began occupancy of the room on or about March 9, 2012, with a check-out date of March 13, 2012. To [redacted] knowledge, all guests in QIS on the night of March 12, 2012, with the exception of [redacted] (and anyone traveling with [redacted], were associated with the same meeting or conference being held in the Lufkin, Texas, area.

Copies of the "In House List" and the property layout document are maintained in the 1A section of this file.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/20/2012

On March 13, 2012, at approximately 10:55 a.m. Central Time (CT), Corporal [redacted] of the Texas Department of Public Safety (TXDPS), Lufkin, Texas, notified Texas Ranger [redacted] Texas Department of Public Safety (TXDPS), Lufkin, Texas, that he had located a white Ford Focus which matched the vehicle described in a "Be On The Lookout" (BOLO) issued in the State of Texas regarding the disappearance of SAMANTHA TESSLA KOENIG of Anchorage, Alaska. Special Agent (SA) [redacted] Federal Bureau of Investigation (FBI), Dallas Division - Lufkin, Texas, Resident Agency, and Ranger [redacted] immediately went to the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, where the white Ford Focus was located. SA [redacted] conducted a walk-by and visual inspection of the white Ford Focus and noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. SA [redacted] and Ranger [redacted] thereafter contacted the Manager of the QIS (documented in a separate communication), and Lieutenant [redacted] TXDPS Criminal Investigative Division, maintained surveillance on the white Ford Focus.

b6
b7C

At approximately 11:40 a.m. CT, Lieutenant [redacted] reported to Ranger [redacted] that a white male adult exited Room 215 of the QIS, placed some items into the trunk of the white Ford Focus, and thereafter departed the area of the QIS, driving the white Ford Focus.

At approximately 11:45 a.m. CT, Corporal [redacted] conducted a traffic stop in the parking lot of the Cotton Patch Cafe, Lufkin, Texas, of the driver of the white Ford Focus bearing Texas license plate DH4N930, based on information contained within the BOLO. SA [redacted] and Ranger [redacted] went to the location of the car stop, at which time Corporal [redacted] provided to SA [redacted] and Ranger [redacted] Alaska driver license number 7268639, in the name of ISRAEL KEYES, along with a copy of a car rental agreement, which KEYES had previously provided to Corporal [redacted]

Investigation on 3/13/2012 at Lufkin, Texas

File # 7A-AN-15642; 91A-DL-111234-14 (102) Date dictated 3/20/2012

by SA [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

306-AN-15642; 102

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 385 / 431

SA [redacted] and Ranger [redacted] interviewed KEYES in the parking lot of the Cotton Patch Cafe. KEYES indicated he had rented the vehicle in Las Vegas, Nevada, on or about March 7, 2012, and had driven from Nevada to Lufkin, Texas. KEYES was unable to describe the route he drove from Nevada to Texas and indicated he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger [redacted] reported to SA [redacted] that he could plainly see a pair of light-colored tennis shoes partially pushed under the driver's seat of the vehicle. KEYES became increasingly agitated and uncooperative and refused to allow a search of his vehicle and wallet. Based on information obtained and observed by SA [redacted] and Ranger [redacted] during the interview, as well as items viewed in plain sight within the vehicle, SA [redacted] and Ranger [redacted] conducted a cursory search of the vehicle. Within the vehicle SA [redacted] and Ranger [redacted] located a pair of men's white and gray tennis shoes (partially pushed under the driver's seat) and a gray hooded sweatshirt, the pocket of which contained a pair of amber shooting glasses and a piece of gray fabric which appeared to be a short-sleeve cut from a gray tee-shirt (in the trunk of the vehicle). The items located within the vehicle matched the description of the clothing/disguise worn by the individual described in the aforementioned BOLO. In addition, three large rolls of U.S. currency were located in the driver's door panel pocket of the vehicle, and KEYES refused to provide an explanation for his possession of the cash.

b6
b7C

The search of the vehicle was discontinued at that time, and at approximately 12:46 p.m. on March 13, 2012, KEYES was arrested and transported to the Lufkin, Texas, Police Department and placed into an interview room. Ranger [redacted] examined the contents of KEYES' wallet and located a Credit Union 1 Visa debit card issued to [redacted] which SA [redacted] knew to match the description of a debit card allegedly stolen from [redacted] in conjunction with the abduction of SAMANTHA TESSLA KOENIG. SA [redacted] and Ranger [redacted] attempted to interview KEYES. Ranger [redacted] read KEYES his Miranda Warnings, and at approximately 3:41 p.m., KEYES invoked his right to silence. The interview was discontinued at that time.

SA [redacted] provided the above information to SA [redacted] FBI, Anchorage, Alaska, who subsequently filed a Complaint in the District of Alaska, and United States Magistrate Judge John D. Roberts, District of Alaska, issued an Arrest Warrant for KEYES, Case No. 3:12-MJ-00126, charging KEYES with Access Device Fraud, in violation of Title 18, United States Code, Section 1029(a)(5).

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 386 / 431

At approximately 6:00 p.m. CT, SA [redacted] and Ranger [redacted] departed Lufkin, Texas, and transported KEYES in Ranger [redacted] TXDPS vehicle (beginning mileage 35,193) to the LaSalle Correctional Facility (LCF), 1001 Pearl Street, Beaumont, Texas, 77701, arriving at the LCF at approximately 7:47 p.m. (ending mileage 35,299). SA [redacted] and Ranger [redacted] released KEYES into the custody of personnel at the LCF. b6 b7C

Video-taped recordings were made of KEYES' traffic stop and transport to the Lufkin, Texas, Police Department, and for the duration of his presence in the interview room at the Lufkin, Texas, Police Department (including the attempted interview by SA [redacted] and Ranger [redacted]. In addition, audio-taped recordings were made of the interview of KEYES, as well as the transport of KEYES to the LCF. Ranger [redacted] provided SA [redacted] with the original recordings (details documented in a separate communication).

An FD-395 (Advice of Rights) signed by SA [redacted] and Ranger [redacted] a copy of KEYES' Arrest Warrant, and the above-described BOLO, are maintained in the 1A section of 7A-AN-15642, with copies to 91A-DL-111234.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/19/2012

An employee of the Quality Inn & Suites (QIS), 306 South First Street, Lufkin, Texas, telephone (936) 639-3333, provided to Agent [redacted] Texas Department of Public Safety (TDPS), Criminal Investigative Division (CID), Lufkin, Texas, a copy of the March 13, 2012, lodging receipt for Room 215 of QIS, which reflected guest [redacted] checked into QIS on March 9, 2012, and checked out on March 13, 2012. b7C

outside. Israel left a note on his bed that said something to the effect of "Gone to fix the windshield and find a place to hide my guns". The following text was sent to Israel' phone from [redacted] family phone:

"8:05am, Izy, we can take your guns to [redacted] if you want, no problem."

No one heard from Israel until the night of the 13th when he sent a text that said he was stuck in the mud in the middle of nowhere. The following text messages were sent from [redacted] family phone to Israel's phone in response:

"8:34pm--Can we wanne get you if you have any idea where you are"

"8:52pm--We have 4 w drive if you give us an idea where you are we'll come get you"

[redacted] stated that she did not hear from Israel again until the evening of the 14th. The following text messages were sent from [redacted] phone to Israel's phone in response:

"5:41pm--Do you know which mall you are at?"

"8:02pm--We are at mall were are you?"

[redacted] went to a mall in Cleburne, Texas to pick up Israel. They could not find him. They slept in their van the night of the 14th and then got a call from Israel on the 15th telling them that he was on the other side of the mall and had run out of gas. When they found him he told them that his credit cards had been frozen and that he had not eaten or slept in two days. He said he ran out of gas, and [redacted] saw that there was mud all over the car. He told them that he had gotten the car stuck out in the middle of nowhere but gave no good explanation of where. Israel [redacted] stayed with [redacted] a couple of more days and went back to Alaska on the 18th.

[redacted] has never heard the name Samantha Koenig and has never heard Israel mention that name. She did not notice anything strange going on with either Israel [redacted] while they were in for the wedding.

b6
b7C

[redacted] produced a journal kept by her daughter, [redacted] which contained entries about Israel [redacted] arrival in Dallas on February 11, 2012 and about the night Israel was picked up in Cleburne, Texas. [redacted] also provided the LG cell phone containing the text messages sent to Israel Keyes during the time he was gone on February 13-15, 2012. [redacted] signed a Texas Department of Public Safety Property Receipt form for both items. The journal was returned to [redacted] on March 14,2012. An FD-597 Property Receipt form was completed and signed by SA [redacted] was given a copy. A copy of the journal entries, the FD-26 Consent to Search Form for the LG cell phone signed by [redacted] and the property receipt forms will be placed in a 1A and attached to this FD-302. .

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/14/2012

[redacted] white male, date of birth [redacted] b6 b7C
[redacted] driver's license number [redacted] telephone number [redacted] was contacted at [redacted] Texas. Also present during the interview was DPS Narcotics Agent [redacted] After being advised of the identity of the interviewing agents and the nature of the interview, [redacted] provided the following information:

[redacted] works as [redacted] in [redacted] He is the brother of Israel Keyes and [redacted] other siblings. [redacted] came to Texas for the wedding of [redacted] sister [redacted] The wedding was on [redacted] in [redacted] Texas. [redacted] and his family flew out of [redacted] on 03/08/2012. Their flight connected in [redacted] and then landed in Dallas. There he rented a car from Enterprise, and they drove to Terrell, Texas where they spent the night of 03/08/2012. On 03/09/2012 [redacted] drove his family on to [redacted] where he saw his mother, [redacted] and four of his sisters at [redacted] where they are residing. [redacted] and his family visited for a while but spent the nights, 03/09/2012-03/12/2012, in Lufkin, Texas at the Quality Inn. [redacted] were the only ones who stayed in the room, with the exception of the night of 03/10/2012 and the night of 03/12/2012. Israel Keyes [redacted] stayed with them those nights.

Israel Keyes [redacted] had gotten to [redacted] on 03/08/2012 and spent the night at his mother's house. Israel told [redacted] that he [redacted] had flown from Anchorage, Alaska where they live, to Las Vegas, Nevada. Israel had then rented a car, and they had driven from there to [redacted] Israel does construction work in Alaska. He and [redacted] don't see each other much because they live so far apart. Israel did come to see [redacted] in September, 2011.

Israel seemed to be fine and did not give any indication that anything was wrong while [redacted] was around him. [redacted] has never heard of Samantha Koenig and has no knowledge of Israel having anything to do with her.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/21/2012

On March 17, 2012, Special Agent (SA) [redacted] Federal Bureau of Investigation (FBI), Dallas Division - Lufkin, Texas, Resident Agency (Lufkin RA), [redacted] On March 17, 2012, at approximately 4:00 p.m., SA [redacted] released to [redacted] the property collected but not seized. Included within the items released to [redacted] was a CD/DVD case containing numerous DVD movies.

On March 17-18, 2012, during an interview of ISRAEL KEYES at the LaSalle Correctional Facility, Beaumont, Texas (complete details of interview documented in a separate communication), KEYES indicated that on or about March 4, 2012, an unknown person(s) placed a plastic bag containing a cellular telephone and a debit card in his pick-up which was parked in his driveway in Anchorage, Alaska. At some point after that KEYES removed a small SD card (or chip) from the cellular telephone and hid it in a CD/DVD case [redacted]

OTHER Pursuant to Court Order

At approximately 9:45 p.m. on March 18, 2012, SA [redacted] and Texas Ranger [redacted] obtained verbal consent from [redacted] to retrieve a CD/DVD case and its contents from the box of items previously released to her on March 17, 2012. SA [redacted] signed an FD-597 (Receipt for Property Received), and SA [redacted] provided a copy of the receipt to [redacted] The original FD-597 is maintained in the 1A section of this file.

In addition to the above, SA [redacted] released to [redacted] a bag containing $.47 in change, an opened and partially used can of Copenhagen, and a bottle of moisture drops. SA [redacted] and [redacted] signed an FD-597 (Receipt for Property Released), and SA [redacted] provided a copy of the receipt to [redacted] The original FD-597 is maintained in the 1A section of this file.

t. Credit Union 1 Visa debit card issued to [redacted] expires [redacted] no signature on back, with the numbers [redacted] scratched into the front of the card; and
u. Alaska driver license #7268639 issued to ISRAEL KEYES, expires 01/07/2017, listing address of 3705 Arctic, #2891, Anchorage, AK, 99503, showing KEYES to be 6'2", 190 pounds.

2. Blue and silver AT&T Pantech flip cellular telephone, Model No. P2000, FCC ID #JYCP2000, Serial Number 110301023456, IMEI: 012577000176894, assigned telephone number (907) 301-3412, with SIM card;

3. Avis Rental Agreement #283321916, in the name of ISRAEL KEYES, for a white Ford Focus 4-door passenger vehicle bearing Texas license plate DH4N930, odometer reading 6,017 miles, picked up on March 7, 2012, at 11:33 a.m., in Las Vegas, Nevada, to be returned to the same location on March 21, 2012, no later than 9:00 a.m.;

4. Leatherman Wave tool, stainless steel;

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 396 / 431

b6
b7C

5. Cold Steel folding lock-blade knife with a black plastic handle; and

6. One pair of Asics Model JY302, size 12, black "wrestling" shoes.

In addition to the above, Ranger [redacted] relinquished to SA [redacted] the following items:

1. Original DVD containing a recording of ISRAEL KEYES' post-arrest interview by Ranger [redacted] and SA [redacted] on March 13, 2012, at the Lufkin, Texas, Police Department;

2. Original DVD containing a recording of ISRAEL KEYES sitting in the Lufkin, Texas, Police Department interview room, awaiting post-arrest interview;

3. Original DVD containing digital photographs of the search of a 2012 white Ford Focus on March 13, 2012, and March 17, 2012;

4. Original DVD containing audio interview of ISRAEL KEYES at the LaSalle Corrections Facility, 1001 Pearl Street, Beaumont, Texas, 77701, on March 17-18, 2012; and

5. Original DVD containing audio recordings of interview and transport of ISRAEL KEYES on March 13, 2012.

SA [redacted] and Ranger [redacted] signed an FD-597 (Receipt for Property Released) documenting the transfer of the above items to SA [redacted] A copy of the signed FD-597 is maintained in the 1A section of 7A-AN-15642, with copies to 91A-DL-111234. Ranger [redacted] thereafter accompanied SA [redacted] to the offices of the Lufkin, Texas, Federal Bureau of Investigation (FBI) where the above items were secured within the FBI space.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 397 / 431

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/27/2012

On March 13, 2012, ISRAEL KEYES was arrested in Lufkin, Texas, based on an Arrest Warrant issued out of the District of Alaska, for Access Device Fraud. At the time of his arrest, arresting officers removed from KEYES a brown leather wallet which contained $359.00 in US Currency (seizure documented in a separate communication). The US Currency was counted on March 18, 2012, by Special Agent (SA) [redacted] Federal Bureau of Investigation (FBI), Dallas Division - Lufkin, Texas, Resident Agency (Lufkin RA), and Texas Ranger [redacted] Texas Department of Public Safety (TXDPS), Lufkin, Texas, after which Ranger [redacted] sealed the wallet, US currency, and the wallet's other contents in a bag. Ranger [redacted] thereafter released the bag to SA [redacted] and Ranger [redacted] and SA [redacted] transported the bag and other items to the Lufkin RA, where the items were secured.

b6
b7C

On March 19, 2012, at approximately 1:30 p.m., SA [redacted] opened the bag containing the wallet, US Currency, and other items and separated from the bag the following items, which were considered valuable evidence:

1. Wal-Mart money card issued to ISRAEL KEYES, #4736905220828431, expires 02/14, signed on back;
2. Alaska USA Federal Credit Union business check card issued to KEYES CONSTRUCTION, in the name of ISRAEL KEYES, #4474281325858020, expires 02/13, signed on back;
3. Bank of America Visa Gold card issued to ISRAEL KEYES, #480011306422158, expires 08/13, signed on back;
4. Chase Business Visa card "Ink" issued to ISRAEL KEYES, KEYES CONSTRUCTION, #4185813145732405, expires 02/14, signed on back;
5. Alaska USA Federal Credit Union Platinum Visa card issued to ISRAEL KEYES, 3421793000815976, expires 03/13, signed on back;
6. US Currency ($359.00):
   1. 17 twenty-dollar bills ($340.00)
   2. 1 ten-dollar bill ($10.00)
   3. 1 five-dollar bill ($5.00)
   4. 4 one-dollar bills ($4.00); and

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 03/23/2012

[redacted] was contacted at her residence [redacted] b6 b7C
[redacted] was aware of the identity of Special Agent (SA) [redacted] Federal Bureau of Investigation (FBI), Dallas Division - Lufkin, Texas, Resident Agency, and Texas Ranger [redacted] Texas Department of Public Safety, Lufkin, Texas.

On Sunday, March 18, 2012, SA [redacted] had relinquished to [redacted] a box of items retrieved from a 2012 white Ford Focus driven by ISRAEL KEYES. On this date, [redacted] signed an FD-26, Consent to Search, providing consent to SA [redacted] and Ranger [redacted] to search and collect items from the box previously relinquished to [redacted] indicated she had not looked or touched the items in the box since the time they had been relinquished to her, and she was not aware of anyone else doing so. In addition, [redacted] did not recall a green or dark-colored duffel bag being returned to her by SA [redacted]

SA [redacted] and Ranger [redacted] retrieved from the box seven (7) unopened DVD movies; one (1) opened and empty DVD box; one (1) partial bag of Backwoods cigars; and one set of Tasco brand 10 x 25 binoculars. SA [redacted] signed an FD-597 (Receipt for Property Released) for the items, and SA [redacted] provided a copy of the FD-597 to [redacted]

[redacted] also provided the following information, to the best of her recollection:

In February, 2012, ISRAEL KEYES, [redacted] visited her in the Dallas, Texas, area, where [redacted] lived at that time. The visit was a long-planned visit in conjunction with a cruise ISRAEL KEYES took with [redacted] immediately prior to visiting her in Dallas, Texas.

305-AN-15642-119

b6
b7C

On or about the morning of February 13, 2012, her son, ISRAEL KEYES, left a note at her house which indicated he had left her house to go and bury guns. ISRAEL KEYES did not return to her house on February 13, 2012, or February 14, 2012, and although [redacted] attempted on numerous occasions to contact ISRAEL KEYES by telephone, he did not answer or return her telephone calls, and she did not know where he was. ISRAEL KEYES [redacted] had been scheduled to return to Alaska via airlines on February 14, 2012; however, they missed their flight due to ISRAEL KEYES' absence.

On February 15, 2012, ISRAEL KEYES contacted [redacted] via telephone and requested that she pick him up in Cleburne, Texas. ISRAEL KEYES allegedly had not eaten or slept for two days and had gotten his rental car stuck in the mud. ISRAEL KEYES indicated he had no money and no credit cards as all his credit cards had been "frozen."

On the morning of February 16, 2012, [redacted] purchased new airline tickets for ISRAEL [redacted] to return to Alaska on February 18, 2012. [redacted] put the cost of the airline tickets on her own credit card. After purchasing the tickets, ISRAEL KEYES left her house, and he did not return until approximately 2:00 p.m. - 3:00 p.m. that afternoon. That evening several men from [redacted] church had a meeting with ISRAEL KEYES, and [redacted] did not participate in the meeting.

On February 17, 2012, ISRAEL KEYES gave to [redacted] $900.00 in cash as repayment for the airline tickets she had purchased for him [redacted] the day before. ISRAEL KEYES was gone from [redacted] house off and on all that day.

On February 18, 2012, ISRAEL [redacted] returned to Alaska.

SA [redacted] showed [redacted] a color photograph depicting a small sports utility vehicle (SUV) on a roadway. [redacted] did not believe the SUV in the photograph was identical to the rental vehicle ISRAEL KEYES was driving during the time period February 13-18, 2012. [redacted] indicated the SUV in the picture was "boxy," a and ISRAEL KEYES' rental car was more "rounded." [redacted] described the vehicle as being a dark color, low to the ground, with two seats in the front, a back seat, and a small luggage area/possible trunk in the back (not a hatchback).

7A-AN-15642; 91A-DL-111234

[redacted] WALMART, 2500 Daniel McCall Drive, Lufkin, Texas, 75904, work telephone [redacted] cellular telephone [redacted] was advised of the identities of Special Agent (SA) [redacted] Federal Bureau of Investigation (FBI), Dallas Division - Lufkin, Texas, Resident Agency, and Texas Ranger [redacted] Texas Department of Public Safety, Lufkin, Texas. SA [redacted] provided to [redacted] a copy of WALMART receipt #8978-2169-6998-7483-937, reflecting a March 12, 2012, 04:01:19 a.m. Central Time (CT), purchase of a sandwich and a Takis Nitro drink, total purchase price $8.21, and a copy of WALMART receipt #5986-5021-3533-9480-8395, reflecting a March 12, 2012, 9:36:31 p.m. CT, purchase of alcoholic beverages, total purchase price $42.86. (SA [redacted] which vehicle ISRAEL KEYES was driving immediately prior to his arrest on March 13, 2012.) [redacted] conducted a query of WALMART's video recording database and provided the following information:

[redacted] located video footage associated with both receipts which depicted a lone white adult male (known by SA [redacted] to be ISRAEL KEYS) at WALMART registers purchasing the above-described items. KEYES paid with cash. KEYES thereafter departed the WALMART store and walked to a small white- or light-colored sedan. KEYES got into the vehicle and drove out of the WALMART parking lot. [redacted] located video footage of the same vehicle's entrance into the WALMART parking lot, KEYES' exit from the vehicle, and his subsequent entry on foot into the WALMART store.

[redacted] burned the above-described videos onto a CD-R, which she provided to SA [redacted] The original CD-R provided by [redacted] is maintained in the 1A section of 7A-AN-15642, with a copy to 91A-DL-111234. Included in the 1As is a copy of the search warrant photos associated with the above-described WALMART receipts.

TEXAS DEPARTMENT OF PUBLIC SAFETY
TEXAS RANGER DIVISION

VOLUNTARY STATEMENT
(NOT UNDER ARREST)

THE STATE OF TEXAS
COUNTY OF ANGELINA

DATE: 03-23-2012
LOCATION: 2809 South John Redditt Drive, Lufkin, Texas 75904

BEFORE ME, the undersigned authority, on this day personally appeared Texas Department of Public Safety Corporal [redacted] who being duly sworn on oath states: b6 b7C

My date of birth is [redacted] I am of sound mind and am 18 years-of-age or older. I am a Texas Peace Officer and was so on 03-12-2012, and 03-13-2012.

I am voluntarily submitting this statement to Texas Ranger [redacted] I am giving this statement without any threats or promises and on my own free will. This statement may be used for whatever purpose deemed necessary. **(INITIALS:** [redacted]

On the morning of 3-12-2012, I, Texas Highway Patrol (THP) Corporal [redacted] was at the Texas Department of Public Safety (DPS) office in Lufkin, Texas. I met with Texas Ranger [redacted] who gave me a bulletin he had prepared, and asked that I attempt to locate the vehicle on the bulletin and identify any occupants. The bulletin gave the following details:

"02-01-2012, at approx. 2:00 AM, the victim was kidnapped in the State of Alaska at her place of employment. Her family and boyfriend have since been cleared as suspects. On 03-07-2012, at Debit Card [redacted] was used at an ATM in Wilcox, AZ at approx 10:15 AM. The card was again used in Lordsburg, NM at approx 11:30 AM. The card was last used in Shepherd, TX on 03-12-2012, at approximately 2:47 AM."

The bulletin included a photograph of Anchorage, Alaska Kidnapping Victim Samantha Koenig and photographs from ATM surveillance of the unknown actor with his face and head partially covered. Photographs indicated to me the unknown male was a tall white male with a thin or average build. Included also was a photograph of what, according to Ranger [redacted] was a white late model Ford Focus four-door passenger car. The car did not appear to have tinted windows or anything remarkable such as decals or body damage.

Ranger [redacted] asked me to check motels, rest stops, and truck stops. He said he believed the white Ford Focus likely continued northbound on US 59 from Humble, through Shepherd, and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 414 / 431

VOLUNTARY STATEMENT
(NOT UNDER ARREST)

likely entered or passed through Lufkin. I knew Shepherd to be approximately an hour South of Lufkin.

I left the DPS office and drove to the local Ford dealership. I observed a Ford Focus and agreed the photograph in the bulletin was most likely a late model Ford Focus. I searched for a car matching the vehicle in the bulletin at local motels, truck stops, businesses, and on the roadway until my shift ended at approximately 5:00 PM. I did not find a single white late model Ford Focus.

On 03-13-2012, my shift began at approximately 6:00 AM. At approximately 10:50 AM, I glanced into the parking lot of the Quality Inn located on US 59 South in Lufkin. The Quality Inn is included in a cluster of four motels sharing the same driveway, and would have been one of the first motels northbound travelers entering Lufkin on US 59 would have encountered. Parked in front of one of the rooms, on the north side of the motel, was a late model white Ford Focus four-door passenger car that matched the description on Ranger [redacted] bulletin. I drove past the car and noted the license plate was Texas DH4-N930. At approximately 10:55 AM, I notified Ranger [redacted] Ranger [redacted] said he and Federal Bureau of Investigations (FBI) Special Agent (SA) [redacted] were in his office and would respond to the Quality Inn to investigate. I checked the vehicle registration by "in car computer" and it came back to PV Holding out of San Antonio, Texas. I recognized through my training and experience that the car was likely a rental. THP Trooper [redacted] responded to the motel and also observed the Ford Focus. Trooper [redacted] agreed it perfectly matched the description in Ranger [redacted] bulletin. Trooper [redacted] and I waited for Ranger [redacted] and SA [redacted] at the motel's entrance, and out of view of the white Ford Focus. Ranger [redacted] and SA [redacted] soon arrived on scene. Ranger [redacted] advised that they would have a DPS Criminal Investigation Division (CID) Agent keep eyes on the vehicle while SA [redacted] interviewed the motel staff. Trooper [redacted] and I left the area.

b6
b7C

At approximately 11:30 AM, Ranger [redacted] advised the vehicle and driver were preparing to leave the motel, and to "set up" on US 59. Ranger [redacted] told me to contact CID Lieutenant [redacted] for more information. Lieutenant [redacted] advised the vehicle was leaving and requested I conduct a traffic stop of the vehicle. I understood Ranger [redacted] SA [redacted] and Lieutenant [redacted] wanted to determine if the vehicle or occupant was associated with the ATM transaction in Shepherd, or the kidnapping in Anchorage, Alaska.

I responded to the area and observed the white Ford Focus turn left (north) from the motel's driveway onto US 59. I observed the vehicle being followed by Lieutenant [redacted] unmarked

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 415 / 431

VOLUNTARY STATEMENT
(NOT UNDER ARREST)

vehicle. I sat in a center median, north of the motel, and as the car passed, I observed the driver was a thin to average framed white male with dark hair. He appeared to be alone in the vehicle. I further observed the driver wore dark sunglasses. I turned and drove northbound behind the Ford Focus.

The driver of the Ford Focus stopped for a red light at the US 59 and FM 819 intersection. I was two vehicles behind him at the light. As the red light turned green the white Ford Focus excelled much faster than other vehicles. I am trained and tested in visually estimating the speed of moving vehicles to within five miles per hour accuracy, and believed the vehicle was traveling greater than the posted 55 mile per hour limit. I commented to Lieutenant [redacted] b6 b7C over the telephone that I thought the vehicle was speeding. I used my radar to measure the speed of the Focus. I'm trained and tested in the use of my radar. I checked the calibration of my radar at the beginning of my shift and knew it was working properly. I used the radar in the same lane mode and measured the Focus' speed at 58 miles per hour in a 55 mile per hour zone. I activated emergency lights to stop the Focus. This also activated my mobile video recorder. Approximately two minutes prior to emergency light activation was also captured on video because of the pre-event function of the camera. The camera system also captured the time, date, and radar unit's display. There was a slight delay with the data from the radar being captured by the camera, and the speed recorded on the camera showed to be 57 miles-per-hour. The white Ford Focus drove into and stopped in the Cotton Patch Cafe' parking lot. I made the traffic stop because the driver was speeding three miles over the posted 55 mile-per-hour speed limit, and because the vehicle and driver matched the description of the vehicle and actor in Ranger [redacted] bulletin. Speeding over the posted 55 mile-per-hour speed limit was a traffic violation. This occurred at approximately 11:40 AM.

I stepped up to the vehicle and identified myself as being with the Highway Patrol. I told the driver we were looking around the hotel areas and asked him where he was from. The driver advised that he was from Alaska. I then asked the driver for his driver's license and asked him to step out of the vehicle. The driver advised he was in the area for a family wedding. He advised the wedding was in [redacted] Texas; fifteen minutes north of Lufkin. The driver handed me his Alaska driver license indentifying him as Israel Keyes of Anchorage. He was white male born on 01-07-1978. His Alaska driver license number was #7268639. I asked Keyes to place the knife I could see clipped inside his front blue jean's pocket on the trunk of the white Ford Focus. Keyes also had a Leatherman tool in his rear pocket. I asked him to place it with the knife. I stepped to my patrol car and ran his Alaska driver license through DPS Lufkin Communications. I also made a hand gesture to Lieutenant [redacted] who was observing the traffic stop from inside his unmarked patrol car. Lieutenant [redacted] was parked across the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 416 / 431

VOLUNTARY STATEMENT
(NOT UNDER ARREST)

parking lot. Lieutenant [redacted] drove over to my location and I showed him the Anchorage, Alaska driver license. I thought it more than a coincidence that the driver was from Anchorage, Alaska, the same city from where Samantha Koenig's kidnapping occurred. I've been with the THP for more than 22 years and could not ever recall stopping anyone from Anchorage, Alaska. I also thought it more than a coincidence Keyes and his vehicle matched the description on Ranger [redacted] bulletin, and was observed leaving a Lufkin motel, only a day after the fraudulent ATM withdrawal in Shepherd. I believed I may have stopped the person and vehicle photographed at the ATM, and associated with the kidnapping of Samantha Koenig. b6 b7C

Lieutenant [redacted] notified Ranger [redacted] Ranger [redacted] and SA [redacted] advised that they would immediately respond to our location from the motel south of our location. Other THP and CID personnel arrived on scene. I spoke with Keyes while I waited on Ranger [redacted] and SA [redacted] arrival. Keyes asked what the investigation was about. I told him that we were looking into a kidnapping from Alaska. I observed Keys appeared unusually nervous. I observed he was sweating. He wore a thin gray sleeveless undershirt. There were sweat marks under his arms. Keyes advised that he had been staying in [redacted] but had stayed the night at the Quality Inn with his brother. Keyes advised that both his brothers were in town for the wedding and both of them where from the State of [redacted] I asked Keyes how long he had been in Texas, and there was an unusual pause before he answered. Keyes said he arrived in Texas the previous Thursday, on the same day as a big rain. I asked Keyes if he flew down to Texas or drove and he advised that the only ticket he could get was to Vegas; so he flew to Vegas and drove to Texas. He then said he flew into Vegas so he could take [redacted] [redacted] to see the Grand Canyon. Keyes advised [redacted] was in town, but with his brother in [redacted] Keyes advised [redacted] I asked Keyes if he was married and he advised "No." At around 11:48 AM, Ranger [redacted] and SA [redacted] arrived. I briefly spoke with them and shared with them some of my observations.

Ranger [redacted] took my cordless in-car video microphone and placed it in his shirt pocket, so that his contact with Keyes would be recorded. Ranger [redacted] and SA [redacted] stepped up to speak with Keyes and I observed from a distance.

After several minutes I observed Ranger [redacted] and SA [redacted] searching the white Ford Focus. I observed Sergeant [redacted] taking digital photographs throughout the search. During the search I observed Ranger [redacted] and SA [redacted] find rolls of money inside the pocket of the driver's door. I observed thin rubber bands around the rolls of money. There where at least three money rolls. I heard Ranger [redacted] ask Keyes to open the truck

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 01: Pg 417 / 431

TEXAS DEPARTMENT OF PUBLIC SAFETY
TEXAS RANGER DIVISION

VOLUNTARY STATEMENT
(NOT UNDER ARREST)

and I again observed as they searched through the trunk area. Ranger [redacted] pulled out several articles of clothing including a gray hooded sweatshirt. From within the sweatshirt, Ranger [redacted] located what I believed was a gray colored cloth or mask and safety glasses, all consistent with items worn by the person depicted in Ranger [redacted] bulletin. I looked at Keyes to see if he might try to run away, but two officers were standing beside him. b6 b7C

At approximately 12:46 PM, Ranger [redacted] consulted with SA [redacted] and instructed me to place Keyes under arrest for Kidnapping out of Alaska. After I advised Keyes he was under arrest, Ranger [redacted] provided me with a brown evidence bag. Trooper [redacted] and I placed into Ranger [redacted] evidence bag all Keys' personal property, including his shoes and leather wallet. Keyes was then placed in my patrol car and I read aloud to him a Miranda Warning. This was done at approximately 12:50 PM. Keyes said he understood his rights. I transported Keyes to the Lufkin Police Department (LPD) to be held in the video interview room. We arrived at LPD at approximately 1:04 PM. Trooper [redacted] followed me to LPD to assist with Keyes. On the way to LPD I noticed scars or brands of something on both of Keys upper arms. He said he received the brands while serving in the Army. I also noticed a brand on the back of his neck. The brand on his upper right arm looked like a smiley face and the brand on his upper left arm appeared to be the letters "IZ." The brand on his neck looked like a star with a circle around it. Keyes later told me "IZ" was for his nickname, "Izey." I placed Keyes in the video interview room and activated the recorder. We remained there for a couple of hours until Ranger [redacted] and SA [redacted] arrived to question Keyes. Ranger [redacted] and SA [redacted] spoke with Keyes in the interview room while we remained outside in the hallway. After Ranger [redacted] and SA [redacted] spoke with Keyes, they advised Keyes would be transported and held at a federal facility. I left Keyes with Ranger [redacted] and SA [redacted] and ended my shift.

END OF STATEMENT

Las Cruces, New Mexico 88001

RE: Abduction of Samantha Koenig

Dear [redacted]

This letter is to thank the Mesilla Valley Regional Dispatch Center (MVRDC) personnel, especially those personnel who called back to advise whether or not suspect vehicle photographs had been received and coordinated getting those photographs to patrol units, for their help during the early morning hours of March 8, 2012. The Las Cruces FBI office called MVRDC at approximately 4 a.m. to request patrol units watch ATMs near Interstate 10 and Interstate 10 itself for the possible suspect vehicle. Due to the very fluid nature of the situation and the very vague description of the suspect vehicle, a white sedan, their continued assistance and attention to this matter is greatly appreciated. Once ATM surveillance photographs of the suspect vehicle later were obtained that morning, the MVRDC ensured those photographs were received at the MVRDC and distributed to area agencies to helped locate and identify the suspect vehicle. These actions helped eliminate several potential matches and contributed to the Be On the Look Out (BOLO) that led to the suspect's apprehension in Humble, Texas, several days later.

The Las Cruces Office of the Federal Bureau of Investigation greatly appreciates the MVRDC's commitment and service in this matter.

Sincerely,

[redacted]
Supervisory Special Agent

RE: Abduction of Samantha Koenig

Dear Captain [redacted]

This letter is to thank the New Mexico State Police (NMSP) for it's officers' assistance in the early morning hours of March 8, 2012 and for their continued vigilance for several days. Upon being advised by the Anchorage FBI office that a possible suspect in the abduction of Samantha Koenig was using bank ATMs near Interstate 10 and moving eastward from Arizona in the early morning hours of March 8, 2012, the Mesilla Valley Regional Dispatch Center was requested to ask for officers to watch ATMs near Interstate 10 and Interstate 10 itself for a possible suspect vehicle. Even though the vehicle description was vague, a white sedan based off the ATM photos, and the situation was fluid, NMSP officers watched requested locations and checked numerous area hotels for several days for potential matching vehicles as at one point Anchorage believed the suspect traveled at night only.

NMSP continued to be vigilant until the Be On the Look Out (BOLO) was cancelled when a suspect was apprehended near Humble, Texas, several days later.

The Las Cruces Office of the Federal Bureau of Investigation greatly appreciates NMSP's commitment and service in this matter.

Sincerely,

[redacted]
Supervisory Special Agent

RE: Abduction of Samantha Koenig

Dear Sheriff Garrison:

This letter is to thank the Doña Ana County Sheriff's Office (DASO) for it's deputies' assistance in the early morning hours of March 8, 2012 and for their continued vigilance for several days. Upon being advised by the Anchorage FBI office that a possible suspect in the abduction of Samantha Koenig was using bank ATMs near Interstate 10 and moving eastward from Arizona in the early morning hours of March 8, 2012, the Mesilla Valley Regional Dispatch Center was requested to ask for officers/deputies to watch ATMs near Interstate 10 and Interstate 10 itself for a possible suspect vehicle. Even though the vehicle description was vague, a white sedan based off the ATM photos, and the situation was fluid, many deputies responded and watched area ATMs and Interstate 10 and checked numerous area hotels for several days for potential matching vehicles as at one point Anchorage believed the suspect traveled at night only.

DASO continued to be vigilant until the Be On the Look Out (BOLO) was cancelled when a suspect was apprehended near Humble, Texas, several days later.

The Las Cruces Office of the Federal Bureau of Investigation greatly appreciates DASO's commitment and service in this matter.

Sincerely,

RE: Abduction of Samantha Koenig

Dear Chief Williams:

This letter is to thank the Las Cruces Police Department (LCPD) for it's officers' assistance in the early morning hours of March 8, 2012 and for their continued vigilance for several days. Upon being advised by the Anchorage FBI office that a possible suspect in the abduction of Samantha Koenig was using bank ATMs near Interstate 10 and moving eastward from Arizona in the early morning hours of March 8, 2012, the Mesilla Valley Regional Dispatch Center was requested to ask for officers to watch ATMs near Interstate 10 and Interstate 10 itself for a possible suspect vehicle. Even though the vehicle description was vague, a white sedan based off the ATM photos, and the situation was fluid, LCPD officers watched requested locations and checked numerous area hotels for several days for potential matching vehicles as at one point Anchorage believed the suspect traveled at night only.

LCPD continued to be vigilant until the Be On the Look Out (BOLO) was cancelled when a suspect was apprehended near Humble, Texas, several days later.

The Las Cruces Office of the Federal Bureau of Investigation greatly appreciates LCPD's commitment and service in this matter.

Resident Agent In Charge Angelica Gurrola
Drug Enforcement Administration
2290 East Griggs
Las Cruces, New Mexico 88004

RE: Abduction of Samantha Koenig

Dear RAC Gurrola:

This letter is to thank the Drug Enforcement Administration, especially Special Agent (SA) [redacted] for his assistance in the early morning hours of March 8, 2012. SA [redacted] was called at approximately 4 a.m. to provide technical assistance in an Anchorage abduction case. He spent several hours researching possible vehicles that matched several bank ATM surveillance camera photographs of the suspect's car. His work helped identify and eliminate several potential matches and contributed to the Be On the Look Out (BOLO) that led to the suspect's apprehension in Humble, Texas, several days later.

b6
b7C

The Las Cruces Office of the Federal Bureau of Investigation greatly appreciates SA [redacted] commitment and service in this matter.

Sincerely,

[redacted]
Supervisory Special Agent

Dear [redacted]

Data Mechanix has been asked to perform Media Preservation, Clean Room Diagnosis, Recovery and Image Services on a Western Digital Hard Drive S/N WMASY5815297.

Per your conversation with CART Coordinator SA [redacted] the hard drive contained in this package was not able to be processed by our office. We would like Data Mechanix to perform the necessary repairs to the hard drive in order to image the data contained on the hard drive and return a cloned duplicate along with the original back to FBI Anchorage.

Please contact if you have any further questions or concerns about processing this request.

Sincerely,

Mary Frances Rook

SAMANTHA TESSLA KOENIG, VICTIM;
KIDNAPPING

Date specimen received: March 14, 2012

Specimens:

One (1) unknown brand and model desktop computer connected to remote video server.

Request:

A request was made by SA [redacted] via a service request dated March 14, 2012 for Greater Houston Regional Computer Forensics Lab (GHRCFL) to assist in downloading security video footage, 3/10/2012 from 0100 to 0300, from Humble Community bank ATM machine, located at 1515 FM 1960 East, Humble, Texas 77338.

Opinions and Conclusions:

None

An ASCLD/LAB-*International*
Accredited Laboratory
Since June 10, 2009

For Official Use Only

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 17 / 567

Summary of Examination:

The evidence digital video footages were downloaded using bank's security software, HRDV RAS version 4.10. The footage were downloaded in two (2) one-hour segments due to software's limitation. These two (2) footages were copied onto one (1) DVD-R, with serial number GH8001011, labeled as "Extracted video footages from ATM Camera (3/10/12 0100-0300) [HRDV RAS Software Ver. 4.10]". Any question should be directed to the examiner.

Details of Examination:

The following Derivative Evidence were produced as a result of the examination:

- One (1) 4.7 GB Adams DVD-R with serial number GH8001011, labeled as "Extracted video footages from ATM Camera (3/10/12 0100-0300) [HRDV RAS Software Ver. 4.10]".

The following processes were conducted:

- One (1) unknown brand and model desktop computer connected to remote video server.

The unknown brand and model desktop computer located inside Assistant Cashier and Operations Officer [redacted] office was utilized to remote connect to the video server. Native viewing/connecting software, HRDV RAS version 4.10 was used to retrieve the video footage, 03/10/12 from 0100 to 0300, and downloaded in two (2) one-hour segments: 03/10/12 from 0100 to 0200, and 03/10/12 from 0200 to 0300. b6 b7C

The retrieved video footages were copied onto one (1) 4.7 GB Adams DVD-R diskette, serial number GH8001011, labeled as "Extracted video footages from ATM Camera (3/10/12 0100-0300) [HRDV RAS Software Ver. 4.10]".

Disposition of Evidence:

The original evidence item was returned to its owner on-site. The 4.7 GB DVD-R diskette with serial number GH8001011 was released to FBI evidence storage.

4/26/2012 title and classification has been changed [redacted]

Title: CHANGED
ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM,
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Synopsis: Change title and classification of captioned matter.

Previous Title: Title marked "Changed" to reflect re-classification of captioned matter as serial killing case. Title previously carried as "ISRAEL KEYES; SAMANTHA TESSLA KOENIG - VICTIM; KIDNAPPING, ANCHORAGE, ALASKA, 02/01/2012."

Administrative: Reference numerous telephonic contacts between Anchorage Division, representatives of Violent Criminal Threat Section (VCTS) and Behavioral Analysis Unit 2 (BAU-2), National Center for Analysis of Violent Crime (NCAVC) since initiation of captioned matter.

Details: On 02/03/2012, the Anchorage Police Department (APD) requested technical assistance from the FBI in the investigation of the robbery and disappearance of Samantha Koenig, who was an 18-year old female resident of Anchorage, Alaska. Surveillance video taken from Koenig's place of employment and surrounding locations appeared to indicate that Koenig was robbed and abducted from the Anchorage coffee stand where she was working on

1[redacted]01.EC 306-AN-15642:142

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02 of 20 / 567

the evening of 02/01/2012. APD led extensive efforts to locate Koenig and pursued numerous leads over the next several weeks, but Koenig was not located nor were her abductor(s) identified.

On the evening of 02/24/2012, Koenig's boyfriend received a text message from her cellular telephone, which provided the location of a demand note in a local Anchorage park. APD seized this note along with what appeared to be a photograph [redacted] Koenig. Also displayed in this photograph was the front page of the Anchorage Daily News from 02/13/2012. The note demanded $30,000.00 be placed on a VISA debit card, issued by a local Credit Union. The FBI began providing additional assistance with this matter following the receipt of the demand note. b6 b7C

On 02/28/2012, [redacted] deposited $5,000 into the bank account indicated in the ransom note. Over the next two weeks, approximately six withdrawals were made from the ransom account, using the aforementioned VISA debit card in Alaska, Arizona, New Mexico and Texas. APD and FBI investigators tracked these withdrawals, which were well planned and executed, and the Anchorage Division coordinated near real-time responses to these incidents, which led to the identification of the subject's vehicle, physical description, clothing and direction of travel along the Interstate 10 corridor. Continued close coordination between Anchorage and Southwest Border divisions and local law enforcement led to the issuance of a BOLO, which resulted in the apprehension of Israel Keyes in Lufkin, Texas on 03/13/2012.

Keyes was subsequently charged and transported back to Alaska, where confessed to the armed kidnapping, assault and murder of Samantha Koenig. Keyes provided extremely detailed information regarding the Koenig kidnapping, including the location [redacted] which was recovered by an FBI forensic dive team from below the ice on Matanuska Lake on 04/02/2012. Several subsequent interviews of Keyes resulted in his confession to the armed kidnapping, carjacking and murder of William and Lorraine Currier of Essex, Vermont, as well as, the commission of a residential arson and an armed takeover bank robbery (separate incidents) in Texas, between June 2011 and February 2012. Investigators have confirmed numerous elements of Keyes' information, including the disappearance of the Curriers and the armed bank robbery. Keyes also provided locations for the Currier's bodies and the murder weapon, which were disposed of at separate sites in Vermont and upstate New York. The search for this evidence, some of which appears to have been excavated to a regional landfill in rural Vermont, is ongoing. However, due to the accuracy of Keyes' information and initial

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 21 / 567

investigative follow-up, it is strongly believed that most, if not all of this evidence, including the Currier's bodies, will be recovered.

Furthermore, Keyes has repeatedly alluded to numerous other crimes he has committed throughout the United States and other international locations, including additional murders and violent acts, which cover at least the past 14 years. However, he has been negotiating with the local U.S. Attorney's Office (USAO) to receive the death penalty, and Keyes has been unwilling to reveal the full extent of his crimes, until he has some assurance that he will be executed. Based on the aforementioned information and the high degree of corroboration achieved during follow-up investigation, the investigative team and prosecutors all strongly believe Keyes assertions, including his reported serial kidnappings and murders. Keyes has repeatedly asserted that he did not have any accomplices or co-conspirators, and to date, the evidence appears to support that.

Anchorage Division has been in contact with the Violent Criminal Threat Section (VCTS) and the Behavioral Analysis Unit 2 (BAU-2), National Center for the Analysis of Violent Crime (NCAVC), throughout this investigation. Based on these contacts and the aforementioned information, both units/sections concur with the pursuit of this matter as a serial killing case.

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG-VICTIM;
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Synopsis: To request laboratory examinations.

Package Copy: Being forwarded under separate cover are items 1B24 (bar code E5123093), 1B25 (bar code E5123094) and 1B183 (bar code E5123461).

Details: On 02/01/2012, the victim, Samantha Koenig, was abducted from her place of employment, Common Grounds coffee stand in Anchorage, Alaska. On 03/13/2012, the subject, Israel Keyes, was arrested in Lufkin, Texas. Keyes had two weapons in his vehicle (items 1B24 and 1B25) at the time of his arrest. Keyes has been interviewed on multiple occasions and has admitted to killing Koenig and provided details about the abduction and homicide. In addition, Keyes admitted to killing two other individuals in Vermont and eluded to his involvement in other homicides over the past fourteen years. It is unknown at this point if evidence from other unsolved homicides has been recovered and possibly entered into CODIS or NIBIN. Keyes provided agents with information about firearms caches in New York and agents have recovered these weapons. Keyes also advised he has weapons caches in other parts of the United States.

To: Laboratory From: Anchorage
Re: 306-AN-15642, 04/27/2012

Investigators believe these weapons were likely used in homicides.

The following items of evidence are being sent to the FBI Laboratory for analysis:

1B24 (bar code E5123093) Taurus .22 long rifle 9 shot revolver, blued, unloaded, serial number CY51304;

1B25 (bar code E5123094) Smith and Wesson, Model SW40V, .40 caliber semi-automatic handgun, serial number PBA6901, no magazine, unloaded;

1B183 (bar code E5123461)Known DNA sample from Israel Keyes

It is requested that the DNA sample from Keyes be entered into the CODIS database.

It is requested that items 1B24 and 1B25 be test-fired to obtain known specimens for comparison and entered into NIBIN for comparison against evidence from other shooting incidents.

Questions regarding captioned case and request and/or results from the requested exams can be sent to SA [redacted] b6 b7C

Particular Things to be Seized

I. Information to be disclosed by Yahoo! Inc.

Yahoo! Inc. is required to disclose the following to the government for the Yahoo! account **israelkeyes@yahoo.com** to the extent that the materials are within Yahoo! Inc. possession, custody, or control:

1. The contents of any communication (including drafts, deleted communications, and communication attachments) and file stored by or for the account and any associated accounts and any information associated with those communications or files, such as the source and destination email addresses or IP addresses.

2. All records and other information relating to the account and any associated accounts including, the following:

   a. Subscriber names, user names, screen names, or other identities;

   b. Mailing addresses, residential addresses, business addresses, email addresses, and other contact information;

   c. Length of service (including start date) and types of services utilized;

   d. Records of user activity for any connections made to or from the account, including the date, time, length, and method of connections, data transfer volume, user name, and source and destination Internet Protocol address(es);

   e. Telephone or instrument number or other subscriber number or identity, including temporarily assigned network address;

   f. Means and source of payment for the account (including any credit card or bank account numbers) and billing records;

   g. Correspondence and other records of contact by any person or entity about the account;

   h. any other records or evidence relating to the account.

II. Information to be seized by the government

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 31 / 567

All of the following records and information located in the materials described in Section I that constitute evidence or instrumentalities of the crime of 18 U.S.C. §§ 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices), 1201 (Kidnapping), and 1202(b) (Ransom Money).

a. Basic user information to include when the account was opened, subscriber name, user names, screen names, associated email addresses, physical descriptors, and physical address.

b. The IP addresses for users of the account and the dates/times the account was accessed.

c. Records of user activity for any connections made to or from the account, including date, time, length, and method of connections, data transfer volume, and user name.

d. Any received or sent communications and information related to travel during the time period of October 1, 2011 through March 13, 2012 to include but not limited to: Alaska Airlines flight confirmation, trip reminders, flight changes, cancellation/re-booking records, and online check-in.

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the Northern District of California, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF EMAIL ACCOUNT israelkeyes@yahoo.com THAT IS STORED AT PREMISES CONTROLLED BY YAHOO!, INC.	Case No.

AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I submit this affidavit under Rule 41 of the Federal Rules of Criminal Procedure in support of an application for a search warrant for the email account israelkeyes@yahoo.com that is stored at premises owned, maintained, controlled, or operated by Yahoo!, Inc. ("Yahoo!"), an email provider headquartered at 701 First Avenue, Sunnyvale, CA, 94089. Pursuant to 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A) the search warrant will require Yahoo! to disclose to the government records and other information in its possession pertaining to the email account, including the content of electronic communications.

2. The items to be searched for and seized consist of fruits, evidence and instrumentalities of violations of 18 U.S.C. §§ 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices), 1201 (Kidnapping), and 1202(b) (Ransom Money). These items are specifically described in Attachment B, attached hereto.

3. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been an FBI Special Agent since April, 2004. I am charged with investigating violations of the laws of

FBI Records: The Vault — Israel Keyes LastKnownContact.com

the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnappings, child exploitation, fraud, and other white collar crimes.

4. The facts in this affidavit come from my personal observations, my training and experience, Yahoo!'s Law Enforcement Guide, and information obtained from other agents and witnesses. This affidavit is intended to show merely that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter. Facts not set forth herein are not being relied upon in reaching my conclusion that probable cause exists for the issuance of a search warrant, and nor do I request that this Court rely upon any facts not set forth herein when reviewing this affidavit in support of an application for a search warrant.

RELEVANT STATUTES

5. This investigation concerns the unauthorized use of an access device, specifically, a Credit Union One VISA debit card in the name of a known individual, herein identified as D.T., bearing number XXXXXXXXXXXX2851 and an identifiable security code, in violation of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

Title 18, United States Code, Section 1201 (Kidnapping), which provides that:

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 40 / 567

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:

> Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward.

INVESTIGATION

Abduction of S.K.

6. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on 2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 41 / 567

video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

7. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

8. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K. was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

9. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 42 / 567

park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these items do not appear on the truck in the Home Depot video. In subsequent interviews with multiple neighbors of KEYES, the neighbors consistently related that the toolboxes and ladder rack were recently added, and were not present on KEYES' truck at the time of the kidnapping.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 43 / 567

10. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

11. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling to/from Alaska by ferry,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 44 / 567

commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

12. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

13. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

14. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnapping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 45 / 567

Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away thice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

15. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

16. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM)

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 46 / 567

located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

17. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

18. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 47 / 567

the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who attempted to withdraw the money.

19. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

20. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

21. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 48 / 567

account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

22. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas. Initial review of the surveillance video from the ATM appeared to show that the individual using the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

23. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

24. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, while in the company of FBI Agent Gannoway, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

25. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn and FBI Agent Gannoway responded to the QIS, at which time the FBI Agent conducted a walk-by and visual

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 49 / 567

inspection of the white Ford Focus. The FBI Agent noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. The FBI Agent also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the Ford Focus.

26. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. FBI Agent Deb Gannaway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

27. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on FBI Agent Deb Gannaway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Upon FBI Agent Gannaway's arrival at the car stop location, Corporal Henry provided to FBI Agent Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry. KEYES told

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 50 / 567

Corporal Henry that he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to FBI Agent Gannoway a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES said he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger Rayburn reported that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed to FBI Agent Gannoway that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. FBI Agent Gannoway suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

28. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 51 / 567

03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Corporal Henry and FBI Agent Gannoway placed KEYES under arrest. Ranger Rayburn, in FBI Agent Gannoway's presence, searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made.

Discovery of KEYES' White Chevrolet Truck

29. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

30. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 52 / 567

31. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery of KEYES' Computer Use and Use of Yahoo Account

32. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

33. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 53 / 567

transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using KEYES' credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

34. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the reservation. The notes section of the travel records indicated the email address provided was israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

TECHNICAL BACKGROUND

35. In my training and experience, I have learned that Yahoo! provides a variety of on-line services, including electronic mail ("email") access, to the general public. Yahoo! allows subscribers to obtain email accounts at the Internet domain name yahoo.com. Subscribers obtain an account by registering with Yahoo! During the registration process, Yahoo! asks subscribers to provide basic personal information.

36. In general, an email that is sent to a Yahoo! subscriber is stored in the subscriber's "mail box" on Yahoo! servers until the subscriber deletes the email. If the subscriber does not delete the message, the message can remain on Yahoo! servers indefinitely.

37. When the subscriber sends an email, it is initiated at the user's computer, transferred via the Internet to Yahoo!'s servers, and then transmitted to its end destination.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 54 / 567

Yahoo! often saves a copy of the email sent. Unless the sender of the email specifically deletes the email from the Yahoo! server, the email can remain on the system indefinitely.

38. A sent or received email typically includes the content of the message, source and destination addresses, the date and time at which the email was sent, and the size and length of the email. If an email user writes a draft message but does not send it, that message may also be saved, but it may not include all of these categories of data.

39. A Yahoo! subscriber can also store files, including emails, address books, contact or buddy lists, calendar data, and other files, on servers maintained and/or owned by Yahoo!.

40. Subscribers to Yahoo! might not store on their home computers copies of the emails stored in their Yahoo! account. This is particularly true when they access their Yahoo! account through the web, or if they do not wish to maintain particular emails or files in their residence.

41. In general, email providers like Yahoo! ask each of their subscribers to provide certain personal identifying information when registering for an email account. This information can include the subscriber's full name, physical address, telephone numbers and other identifiers, alternative email addresses, and, for paying subscribers, means and source of payment (including any credit or bank account number).

42. Yahoo! retains certain transactional information about the creation and use of each account on their systems. This information includes the date on which the account was created, records of log-ins, the status of the account (including whether the account is inactive or closed), and other log files that reflect usage of the account. In addition, Yahoo! maintains a

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 55 / 567

record of the Internet Protocol address ("IP address") used to register the account and the IP addresses associated with particular logins to the account. Because every device that connects to the Internet must use an IP address, IP address information can help to identify which computers or other devices were used to access the email account.

43. In some cases, email account users will communicate directly with an email service provider about issues relating to the account, such as technical problems, billing inquiries, or complaints from other users. Email providers typically retain records about such communications, including records of contacts between the user and the provider's support services, as well records of any actions taken by the provider or user as a result of the communications.

44. In my training and experience, evidence of who was using a Yahoo! email account may be found in address books, contact lists, email in the account, and attachments to emails, including pictures and files.

45. I know it to be common for airlines to send out multiple reminders of trips, requests for online check in, cancellation and re-booking information, and other information related to air travel to the email accounts of airline passengers.

INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

46. I anticipate executing this warrant under the Electronic Communications Privacy Act, in particular 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A), by using the warrant to require Yahoo! to disclose to the government the records and other information (including the content of communications) particularly described in Section I of Attachment B. Upon receipt of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 56 / 567

the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

47. This search warrant authorizes the government to retain after its review all of the items described in Section I of Attachment B. This authorization is justified in this case, in part, because:

a. The investigation is not yet complete and accordingly, it is not possible to predict all possible defendants against whom evidence from the e-mail account and associated records might be used. That evidence might be used against persons who have no possessory interest in the account's communications and associated records, or against persons yet unknown. Those defendants might be entitled to a copy of communications and associated records in discovery that are not within the scope of Attachment B, Section II (e.g., written statements made by a defendant and sent to the account). Retention of all of the account's communications and associated information assures that it will be available to all parties, including those known now and those later identified;

b. The government's possession of these materials will not deprive Yahoo! or the owner of the account from possessing the same items;

c. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and the government's forensic methodology may be

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 57 / 567

contested issues. Retaining all of the items produced by Yahoo! can help the Court resolve such claims;

d. Yahoo! is not closing the israelkeyes@yahoo.com account. Accordingly, ongoing access and use of the israelkeyes@yahoo.com account by the account's subscriber may alter or eliminate items stored in the account. Thus, retaining the items produced by Yahoo! assures preservation of these records; and

e. The act of destroying items produced by Yahoo! could create an opportunity for a defendant to claim that the destroyed items contained evidence favorable to him. Maintaining a copy of the items would permit the Court and the government, through an additional warrant if necessary, to investigate such a claim.

CONCLUSION

48. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the computer systems in the control of Yahoo! there exists fruits, evidence and instrumentalities of violations of 18 U.S.C. §§ 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices), 1201 (Kidnapping), and 1202(b) (Ransom Money).

49. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(i).

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 58 / 567

50. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

Respectfully submitted,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 59 / 567

IN THE UNITED STATES DISTRICT COURT

FOR THE DISTRICT OF ALASKA

In the Matter of the Search of:	) Case No. ~~3:12-mj-~~ 3:12-mj-131-JDE
	)
IN THE MATTER OF THE SEARCH OF EMAIL ACCOUNT israelkeyes@yahoo.com THAT IS STORED AT PREMISES CONTROLLED BY YAHOO!, INC.	) **ORDER GRANTING MOTION TO SEAL SEARCH WARRANT, APPLICATION, AFFIDAVIT FOR SEARCH WARRANT, ATTACHMENTS AND RETURN**
	)
	) **FILED UNDER SEAL**

The United States requests that the Search Warrant, Application, Affidavit, Attachments and the Return filed in the above-captioned case be sealed.

This Court finds that the need for secrecy to protect the ongoing investigation and potential witnesses outweighs the public's right to inspect and copy judicial records and documents.

IT IS HEREBY ORDERED that:

The Search Warrant, Application, Affidavit and Attachments filed in the above-captioned case, and the Return to be filed, be sealed until further order of this Court.

Further, the United States Attorney's Office is directed to notify the Court

/

//

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 60 / 567

//

as soon as the need for secrecy passes by filing a motion to unseal records.

DATED this 16th day of March, 2012, at Anchorage, Alaska.

JOHN D. ROBERTS

IN THE UNITED STATES DISTRICT COURT

FOR THE DISTRICT OF ALASKA

In the Matter of the Search of:	)	Case No. 3:12-MJ-13-JDR
	)	
IN THE MATTER OF THE SEARCH OF EMAIL ACCOUNT israelkeyes@yahoo.com THAT IS STORED AT PREMISES CONTROLLED BY YAHOO!, INC.	)	**MOTION TO SEAL SEARCH WARRANT, APPLICATION, AFFIDAVIT FOR SEARCH WARRANT, ATTACHMENTS, AND RETURN**
	)	
	)	**FILED UNDER SEAL**

COMES NOW the United States of America, by and through undersigned counsel and hereby moves for an order sealing the Search Warrant, Application and Affidavit and Returns for the search warrant issued in the above-captioned matter until further order of this Court.

The government makes this motion to protect the investigative integrity of the present case. The investigation of this case is ongoing and disclosure of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 62 / 567

issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety.

Historically, courts have recognized a "general right to inspect and copy public records and documents, including judicial records and documents." Kamakana v. City and County of Honolulu, 447 F.3d 1172, 1178 (9th Cir. 2006) citing Nixon v. Warner Communications, Inc., 435 U.S. 589, 597 & n.7 (1978). Nonetheless, access to judicial records is not absolute. A narrow range of documents is not subject to the right of public access at all because the records have "traditionally been kept secret for important policy reasons." Id. citing Times Mirror Co. V. United States, 873 F.2d 1210, 1219 (9th Cir. 1989). Ninth Circuit case law has identified two categories of documents that fall into this category: grand jury transcripts and warrant materials in the midst of a pre-indictment investigation. Id. Parties seeking to seal a judicial record not traditionally kept secret must provide compelling reasons to the court for doing so. Id. In general, "compelling reasons" are those sufficient to outweigh the public's interest in disclosure. Id. at 1179.

Based on the foregoing, the government respectfully requests this Court enter the attached proposed Order sealing said search warrant, Application and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 63 / 567

Affidavit for Search Warrant, the Returns and this Motion and Order until said time as the government has time to review the information contained therein and act upon.

RESPECTFULLY SUBMITTED this 16th day of March, 2012, in Anchorage, Alaska.

AO 93 (Rev. 12/03) Search Warrant

UNITED STATES DISTRICT COURT

District of Alaska

In the Matter of the Search of
(Name, address or brief description of person or property to be searched)

Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N)

Amended **SEARCH WARRANT**

Case Number: 3:12-MJ-134-JDR

TO: S/A Jolene Goeden, FBI and any Authorized Officer of the United States

Affidavit(s) having been made before me by S/A Jolene Goeden, FBI (Affiant) who has reason to believe

that ☐ on the person of, or ☑ on the premises known as (name, description and/or location)

See Attachment A, which is incorporated by reference,

in the _____ District of Alaska there is now concealed a certain person or property, namely (describe the person or property)

See Attachment B, which is incorporated by reference.

I am satisfied that the affidavit(s) and any record testimony establish probable cause to believe that the person or property so described is now concealed on the person or premises above-described and establish grounds for the issuance of this warrant.

YOU ARE HEREBY COMMANDED to search on or before 3/30/2012 (Date)

(not to exceed 10 days) the person or place named above for the person or property specified, serving this warrant and making the search ☑ in the daytime — 6:00 AM to 10:00 P.M. ☐ at anytime in the day or night as I find reasonable cause has been established and if the person or property be found there to seize same, leaving a copy of this warrant and receipt for the person or property taken, and prepare a written inventory of the person or property seized and promptly return this warrant to J. Roberts as required by law.

Case No. 3:12-MJ-134-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES, including:

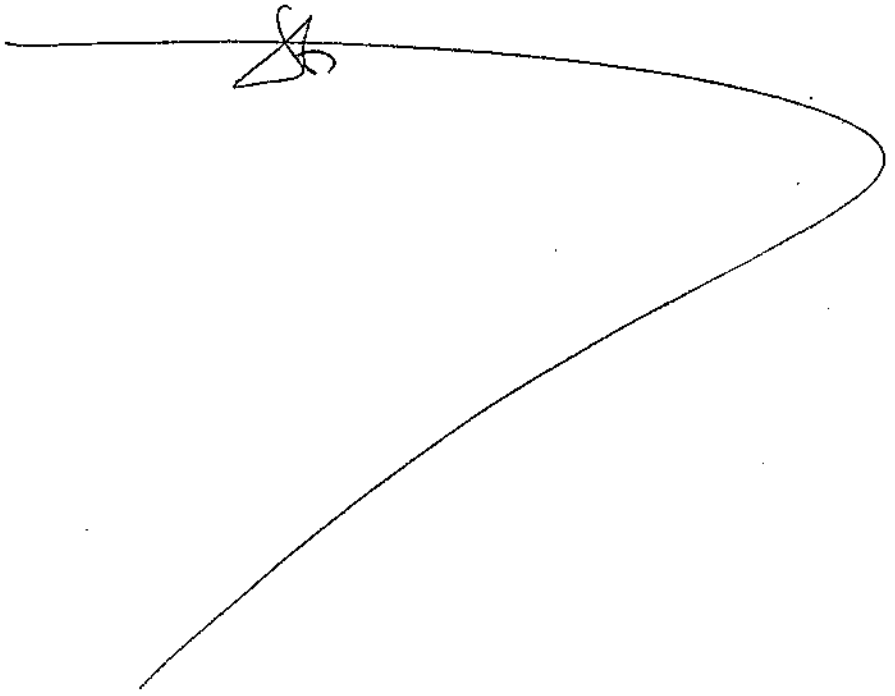
1. Evidence of who used, owned, or controlled the Target Device and evidence of the Target Device contacting or communicating with other cellular phones or electronic devices, including text messages, application data, calender entries, notes, call records, contact or address book entries, photos, location information, and Internet browser history/cache.

2. Evidence of the times the Target Device was used.

3. The substantive content of any text communications to or from the Target Device.

4. Contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.



FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 72 / 567

UNITED STATES DISTRICT COURT
THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF SAMSUNG CELLULAR TELEPHONE, BLACK IN COLOR, SLIDER TYPE, Model# SCH-R631. Possible S/N 80015743, CURRENTLY LOCATED AT FBI ANCHORAGE NON-DRUG EVIDENCE LOCKER	Case No. 3:12-mj-134-JDR **filed under seal**

AMENDED AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnapping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search a Samsung cellphone, black in color, slider type. Model# SCH-R63 1. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), further identified in Attachment A (Target Device), for the information identified in Attachment B.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 73 / 567

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

> Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward.

IDENTIFICATION OF THE DEVICE TO BE EXAMINED

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 74 / 567

5. The property to be searched is identified in Attachment A as a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N) currently located at the FBI Anchorage District Office, Anchorage, Alaska, in a non-drug evidence vault.

6. The applied for warrant would authorize the forensic examination of the device forthe purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 75 / 567

abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on 2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 76 / 567

the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K. was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 77 / 567

truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these items do not appear on the truck in the Home Depot video.

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 78 / 567

case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling to/from Alaska by ferry, commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 79 / 567

$30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 80 / 567

ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 81 / 567

parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who attempted to withdraw the money.

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 82 / 567

debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas. Initial review of the surveillance video from the ATM appeared to show that the individual using the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, while in the company of FBI Agent Deborah Gannaway, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn and Agent Gannoway responded to the QIS, at which time Agent Gannoway conducted a walk-by and visual inspection of the white Ford Focus. Agent Gannoawy noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. Agent

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 83 / 567

Gannoway also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, who was in the company of Agent Gannoway, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. Agent Gannoway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on Agent Gannoway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Upon Agent Gannoway's arrival at the car stop location, Corporal Henry provided to Agent Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry prior to Agent Gannoway's arrival at the scene. Corporal Henry told Agent Gannoway that KEYES informed him he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 84 / 567

Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to Agent Gannoway a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to Agent Gannoway the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told Agent Gannoway he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger Rayburn reported to Agent Gannoway that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by Agent Gannoway and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Agent Gannoway and/or Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed to Agent Gannoway that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Agent Gannoway suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 85 / 567

03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Agent Gannoway instructed Corporal Henry to place KEYES under arrest. Ranger Rayburn, in Agent Gannoway's presence, searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 86 / 567

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 87 / 567

A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the reservation. The notes section of the travel records indicated the email address provided was israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant and Discovery of Cellular Telephone Matching Description of Phone Belonging to S.K.

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), which matched the description of S.K.'s cellular phone provided by S.K.'s boyfriend (per paragraph 9, S.K. is believed to have been carrying the phone when the kidnapping took place), and a laptop computer.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 88 / 567

conduct other personal business related to traveling. I also know that computers and cellular phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

Interview of KEYES

39. In an interview with defense counsel present on March 17, 2012, KEYES admitted to using S.K.'s debit card at locations throughout the southwest United States. He also claimed that he received the debit card and the cellular telephone matching the description of S.K.'s telephone together in a plastic bag from an anonymous person, who left the plastic bag in his vehicle. Based on my training and experience, it appears very likely that the specifics of KEYES' account of the origin of his possession of the phone and debit card is not truthful; however, his admission that the phone and debit card are associated with each other associates both items with S.K., and confirms the identification of the phone as belonging to S.K.

40. The Device is currently in the lawful possession of the FBI. The Device came into the FBI possession as outlined above. Although the FBI might already have the lawful authority to examine the Device, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Device will comply with the Fourth Amendment and other applicable laws.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 89 / 567

41. The Device is currently in storage at FBI Anchorage Station, Anchorage, Alaska. In my training and experience, I know that the Device has been stored in a manner in which its contents are, to the extent material to this investigation, in substantially the same state as they were when the Device first came into the possession of the government.

TECHNICAL TERMS

42. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which data can be stored, including a cellular telephone's flash memory or other data storage components, such as a SIM card.

b. "Wireless telephone": A wireless telephone (or mobile telephone, or cellular telephone) is a handheld wireless device used for voice and data communication through radio signals. These telephones send signals through networks of transmitter/receivers, enabling communication with other wireless telephones or traditional "land line" telephones. A wireless telephone usually contains a "call log," which records the telephone number, date, and time of calls made to and from the phone. In addition to enabling voice communications, wireless telephones offer a broad range of capabilities. These capabilities include: storing names and phone numbers in electronic "address books"; sending, receiving, and storing text messages and e-mail; taking, sending, receiving, and storing still photographs and moving video; storing and playing back audio files; storing dates, appointments, and other information on personal calendars; and accessing and downloading information from the Internet. Wireless telephones may also include global positioning system ("GPS") technology for determining the location of the device.

c. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 90 / 567

functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

d. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255, separated by periods (e.g., 121.56.97.178). Every computer attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic -- that is, frequently changed – IP addresses.

e. Internet: The Internet is a global network of computers and othe electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

43 Based on my training, experience, and research, I know that the Target Device has capabilities that allow it to serve as a wireless telephone and digital camera, and may also function as a computer and internet browser. In my training and experience, examining data stored on devices of this type can uncover, among other things, evidence that reveals or suggests who possessed or used the device.

ELECTRONIC STORAGE AND FORENSIC ANALYSIS

44. The applied-for warrant would authorize the forensic examination of the Target Device for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Device was used, the purpose of its use, who used it, and when. There is probable

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 91 / 567

cause to believe that this forensic electronic evidence more likely than not is stored in the Target Device because:

a. Data on a storage medium can provide evidence of information that was once on the storage medium but has since been deleted or edited, or of a deleted portion of the information.

b. Forensic evidence stored within the Target Device can also indicate who has used or controlled the Target Device. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Device works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a cellular telephone is evidence may depend on other information stored on the cellular telephone and the application of knowledge about how a cellular telephone operates. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Device was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a storage medium.

f. Based on my knowledge, training and experience, I know that electronic devices can store information for long periods of time. Similarly, things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Device

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 92 / 567

consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Device's entire storage medium, that might expose many parts of the device to human inspection in order to determine whether it is evidence described by the warrant.

47. *Manner of execution*: Because this warrant seeks only permission to examine a cellular telephone already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full copy of the cellular telephone's storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use of a cellular telephone may forever change the data it contains or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of the entire content of the storage medium assures that it will be available to all parties, including those known now and those later identified.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 93 / 567

d. The act of destroying or returning a cellular telephone could create an opportunity for a defendant to claim, falsely, that the destroyed or returned cellular telephone contained evidence favorable to him. Maintaining a copy of the cellular telephone's storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the Lenovo B570 laptop, black in color, Model #1068, S/N WB036866 there exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnaping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 94 / 567

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal, I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

PURPOSE OF AMENDED SEARCH WARRANT AND AFFIDAVIT

52. The original affidavit in support of this search warrant contained a series of attribution errors. Due to a scrivener's error, the original affidavit referred in numerous locations to "the affiant" or "your affiant," as observing or taking actions in the first person, when in fact these observations were made and actions taken not by your affiant, but rather by FBI Special Agent Deborah Gannoway. This error was inadvertent, and at the time the original affidavit was executed, your affiant was fully aware and cognizant of all the facts asserted therein. Those substantive facts remain unchanged in this amended affidavit. Rather than personally observing or partaking in these facts, however, your affiant knew of them through information provided by other law enforcement personnel (including FBI Special Agent Gannoway), through research and through review of law enforcement reports. This affidavit reflects accurately the instances in which FBI Special Agent Gannoway (amongst

/

/

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 95 / 567

/

/

/

other law enforcement officers) was physically present during events.

Further your Affiant saveth naught.

The property to be searched is a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639, currently located at the FBI building at 101 E. 6th Ave., Anchorage, Alaska, in the non-drug evidence locker.

JDR
3-22-12

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 100 / 567

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES since October 1, 2011, including:

1. Evidence of who used, owned, or controlled the Target Device, including logs, registry entries, configuration files, saved usernames and passwords, documents – including but not limited to travel records, banking or other financial records, records indicating connection or interactions between KEYES and S.K. or surveillance of S.K, by KEYES, maps, driving or other geographic directions, Internet browser history and cache, user profiles, email, email contacts, chat logs, instant messages, photographs, and correspondence.

2. Evidence of software that would allow others to control the Target Device, such as viruses, Trojan horses, and other forms of malicious software, as well as evidence of the presence or absence of security software designed to detect malicious software.

3. Evidence of the lack of such malicious software.

4. Evidence of the attachment to the Target Device electronic storage devices, such as thumb drives, digital cameras, cellular telephones, or similar containers for electronic evidence.

5. Evidence of counter-forensic programs (and associated data) that are designed to eliminate data from the Target Device .

6. Evidence of the times the Target Device was used.

7. Passwords, encryption keys, and other access devices that may be necessary to access the Target Device .

8. Evidence indicating the use of photoshop software or similar photography computer programs.

9. contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.

Case No. 3:12-MJ-135-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF LENOVO B570 LAPTOP, BLACK IN COLOR, Model #1068 S/N WB03686639, CURRENTLY LOCATED AT FBI ANCHORAGE NON-DRUG EVIDENCE LOCKER	Case No. 3:12-mj-135-JDR **Filed under seal**

AMENDED AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnaping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639, further identified in Attachment A (Target Device), for the information identified in Attachment B.

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 105 / 567

possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

> Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward.

IDENTIFICATION OF THE DEVICE TO BE EXAMINED

5. The property to be searched is identified in Attachment A as a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639, currently located at the FBI'sAnchorage

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 106 / 567

District Office, Anchorage, Alaska, in a non-drug evidence vault.

6. The applied for warrant would authorize the forensic examination of the device for the purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639, I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on 2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 107 / 567

climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K. was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 108 / 567

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these items do not appear on the truck in the Home Depot video.

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 109 / 567

coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling to/from Alaska by ferry, commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 110 / 567

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 111 / 567

must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 112 / 567

pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who attempted to withdraw the money.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 113 / 567

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas. Initial review of the surveillance video from the ATM appeared to show that the individual using

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 114 / 567

the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, while in the company of FBI Agent Deborah Gannoway, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn and FBI Agent Deborah Gannoway responded to the QIS, at which time Agent Gannoway conducted a walk-by and visual inspection of the white Ford Focus. Agent Gannoway noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. Agent Gannoway also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 115 / 567

Antonio, Texas. DPS Criminal Investigative Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, who was in the company of FBI Agent Deborah Gannoway, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. FBI Agent Gannoway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on FBI Agent Gannoway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Upon FBI Agent Gannoway's arrival at the car stop location, Corporal Henry provided to FBI Agent Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry prior to Agent Gannoway's arrival at the scene. Corporal Henry told Agent Gannoway that KEYES informed him he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to Agent Gannoway a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to Agent Gannoway the route he drove from

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 116 / 567

Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told Agent Gannoway he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger Rayburn reported to Agent Gannoway that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by Agent Gannoway and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Agent Gannoway and/or Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed to Agent Gannoway that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Agent Gannoway suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 117 / 567

shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Agent Gannoway instructed Corporal Henry to place KEYES under arrest. Ranger Rayburn, in Agent Gannoway's presence, searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 118 / 567

appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 119 / 567

Airlines. This ticket was booked online and he provided an email address with the reservation. The notes section of the travel records indicated the email address provided was israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant on Ford Focus and Discovery of Laptop Computer

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant, which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a cellular phone believed to belong to S.K. and a Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and conduct other personal business related to traveling. I also know that computers and cellular phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 120 / 567

39. The Device is currently in the lawful possession of the FBI. The Device came into the FBI's possession as outlined above. Although the FBI might already have the lawful authority to examine the Device, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Device will comply with the Fourth Amendment and other applicable laws.

40. The Device is currently in storage at FBI Anchorage District, Anchorage, Alaska. In my training and experience, I know that the Device has been stored in a manner in which its contents are, to the extent material to this investigation, in substantially the same state as they were when the Device first came into the possession of the FBI.

TECHNICAL TERMS

41. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which computer data can be stored. Examples include a laptop computer's internal hard disk drive.

b. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

c. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 121 / 567

separated by periods (e.g., 121.56.97.178). Every computer attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic – that is, frequently changed – IP addresses.

d. Internet: The Internet is a global network of computers and other electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

COMPUTERS, ELECTRONIC STORAGE, AND FORENSIC ANALYSIS

42. The applied-for warrant would authorize the forensic imaging and examination of the Target Device for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

43. *Probable Cause*: Based on my training, experience, and information related to me by agents and others involved in the forensic examination of computers, I submit there is probable cause to believe that information that was once stored on the Target Device may still be stored there, for at least the following reasons:

a. Based on my knowledge, training, and experience, I know that computer files or remnants of such files can be recovered days, months or even years after they have been stored on a storage medium (e.g., laptop computer's hard drive). Even when files have been deleted, they can be recovered using forensic tools. This is so because when a person "deletes" a file on a computer, the data contained in the file does not actually disappear; rather,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 122 / 567

that data remains on the storage medium until it is overwritten by new data.

b. Therefore, deleted files, or remnants of deleted files, may reside in free space or slack space -- that is, in space on the storage medium that is not currently being used by an active file -- for long periods of time before they are overwritten. In addition, a computer's operating system may also keep a record of deleted data in a "swap" or "recovery" file.

c. Wholly apart from user-generated files, computer storage media -- in particular, a laptop computer's internal hard drive -- contain electronic evidence of how a computer has been used, what it has been used for, and who has used it. To give a few examples, this forensic evidence can take the form of operating system configurations, artifacts from operating system or application operation, file system data structures, and virtual memory "swap" or paging files. Computer users typically do not erase or delete this evidence, because special software is typically required for that task. However, it is technically possible to delete this information.

d. Similarly, files that have been viewed via the Internet are sometimes automatically downloaded into a temporary Internet directory or "cache". Things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

e. Based on my knowledge, training, and experience, I know that computer files or remnants of such files can be recovered months or even years after they have been downloaded onto a storage medium, deleted, or viewed via the Internet. Electronic files downloaded to a storage medium can be stored for years at little or no cost. Even when files have been deleted, they can be recovered months or years later using forensic tools. This is so because when a person "deletes" a file on a computer, the data contained in the file does not actually disappear; rather, that data remains on the storage medium until it is overwritten by new data.

f. Therefore, deleted files, or remnants of deleted files, may reside in free space or slack space—that is, in space on the storage medium

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 123 / 567

that is not currently being used by an active file—for long periods of time before they are overwritten. In addition, a computer's operating system may also keep a record of deleted data in a "swap" or "recovery" file.

g. Wholly apart from user-generated files, computer storage media—in particular, computers' internal hard drives—contain electronic evidence of how a computer has been used, what it has been used for, and who has used it. To give a few examples, this forensic evidence can take the form of operating system configurations, artifacts from operating system or application operation, file system data structures, and virtual memory "swap" or paging files. Computer users typically do not erase or delete this evidence, because special software is typically required for that task. However, it is technically possible to delete this information.

44. Based on my training, experience, and research, I know that the Device has capabilities that allow it to serve as a portable media player, internet browser, and digital camera and photoshop, amongst other capabilities.

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Device was used, the purpose of its use, who used it, and when. There is probable cause to believe that this forensic electronic evidence more likely than not is stored in the Target Device because:

a. Data on a storage medium can provide evidence of a file that was once on the storage medium but has since been deleted or edited, or of a deleted portion of a file (such as a paragraph that has been deleted from a word processing file). Virtual memory paging systems can leave traces of information on the storage medium that show what tasks and processes were recently active. Web browser, chat and email programs store configuration information on the storage medium that can reveal information such as online

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 124 / 567

passwords and aliases. Operating systems can record additional information, such as the attachment of peripherals, the attachment of USB flash storage devices or other external storage media, and the times the computer was in use. Computer file systems can record information about the dates files were created and the sequence in which they were created.

b. Forensic evidence stored within the Target Device can also indicate who has used or controlled the Target Device. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Device works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a computer is evidence may depend on other information stored on the computer and the application of knowledge about how a computer behaves. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Device was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a storage medium.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Device consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Device's entire storage medium, that might expose many parts of the device to human inspection in order to determine whether it is evidence described by the warrant.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 125 / 567

47. *Manner of execution*: Because this warrant seeks only permission to examine a laptop computer already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full image copies of seized storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use may forever change the data it contains, alter system access times, or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of a complete image assures that it will be available to all parties, including those known now and those later identified.

d. The act of destroying or returning a storage medium could create an opportunity for a defendant to claim, falsely, that the destroyed or returned storage medium contained evidence favorable to him. Maintaining a copy of the storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 126 / 567

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the Lenovo B570 laptop, black in color, Model #1068, S/N WB03686639 there exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

REQUEST FOR SEALING

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 127 / 567

I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

PURPOSE OF AMENDED SEARCH WARRANT

52. The original affidavit in support of this search warrant contained a series of attribution errors. Due to a scrivener's error, the original affidavit referred in numerous locations to "the affiant" or "your affiant," as observing or taking actions in the first person, when in fact these observations were made and actions taken not by your affiant, but rather by FBI Special Agent Deborah Gannoway. This error was inadvertent, and at the time the original affidavit was executed, your affiant was fully aware and cognizant of all the facts asserted therein. Those substantive facts remain unchanged in this amended affidavit. Rather than personally observing or partaking in these facts, however, your affiant knew of them through information provided by other law enforcement personnel (including FBI Special Agent Gannoway), through research and through review of law enforcement reports. This affidavit reflects accurately the instances in which FBI Special Agent Gannoway (amongst other law enforcement officers) was physically

AO 93 (Rev. 12/03) Search Warrant

UNITED STATES DISTRICT COURT

District of Alaska

In the Matter of the Search of
(Name, address or brief description of person or property to be searched)

Black LG Cellular Telephone, S/N 104CYHE2202705

SEARCH WARRANT

Case Number: 3:12-mj-000136-JDR

TO: S/A Jolene Goeden, FBI and any Authorized Officer of the United States

Affidavit(s) having been made before me by S/A Jolene Goeden, FBI (Affiant) who has reason to believe

that ☐ on the person of, or ☑ on the premises known as (name, description and/or location)

See Attachment A, which is incorporated by reference,

in the _____ District of Alaska there is now concealed a certain person or property, namely (describe the person or property)

See Attachment B, which is incorporated by reference.

I am satisfied that the affidavit(s) and any record testimony establish probable cause to believe that the person or property so described is now concealed on the person or premises above-described and establish grounds for the issuance of this warrant.

YOU ARE HEREBY COMMANDED to search on or before 4/1/2012 (Date)

(not to exceed 10 days) the person or place named above for the person or property specified, serving this warrant and making the search ☑ in the daytime — 6:00 AM to 10:00 P.M. ☐ at anytime in the day or night as I find reasonable cause has been established and if the person or property be found there to seize same, leaving a copy of this warrant and receipt for the person or property taken, and prepare a written inventory of the person or property seized and promptly return this warrant to

J. Roberts
U.S. Magistrate Judge (Rule 41(f)(4)) as required by law.

In the Matter of the Search of
(Briefly describe the property to be searched or identify the person by name and address)
Black LG Cellular Telephone, S/N 104CYHE2202705

Case No. 3:12-mj-000136-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on t' [illegible] sheet.

UNITED STATES DISTRICT COURT
THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF BLACK LG CELLULAR TELEPHONE S/N 104CYHE2202705	Case No. 3:12-mj-00136-JDR

AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnapping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search five electronic items seized during a common set of searches and pursuant to a common set of circumstances, as outlined below :

a) BLACK LG CELLULAR TELEPHONE, s/n 104CYHE2202705, further

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 138 / 567

identified in Attachment A, for the information identified in Attachment B.

This item is currently located at FBI Anchorage at 101 East Sixth Avenue, Anchorage, Alaska, in the secure, non-drug evidence vault.

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

> Whoever receives, possesses, or disposes of any money or other property, or any portion

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 139 / 567

thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward.

6. The applied for warrant would authorize the forensic examination of the devices listed above in paragraph 2, and further identified in Attachment A, for the purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search the Devices listed in paragraph 2 above, I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 140 / 567

2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 141 / 567

was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 142 / 567

items do not appear on the truck in the Home Depot video.

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 143 / 567

to/from Alaska by ferry, commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 144 / 567

soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 145 / 567

video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 146 / 567

attempted to withdraw the money.

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 147 / 567

Initial review of the surveillance video from the ATM appeared to show that the individual using the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn responded to the QIS, at which time FBI Agent Deb Gannoway conducted a walk-by and visual inspection of the white Ford Focus. Gannoway noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. She also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 148 / 567

Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. FBI Agent Deb Gannoway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on FBI Agent Deb Gannoway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Corporal Henry provided to FBI Agent Deb Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry. KEYES informed Corporal Henry he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to law enforcement officers a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to law enforcement officers the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 149 / 567

officers he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger Rayburn observed that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by FBI Agent Gannoway and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Officers suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Corporal

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 150 / 567

Henry placed KEYES under arrest. Ranger Rayburn searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made. The search of KEYES pursuant to his arrest also revealed an AT&T Pantech flip cellular phone, blue and silver in color, Model #P2000, S/N 110301023456.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 151 / 567

above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the reservation. The notes

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 152 / 567

section of the travel records indicated the email address provided was israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant and Discovery of Cellular Telephone Matching Description of Phone Belonging to S.K. and Other Cellular Telephones and Digital Media Devices

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), which matched the description of S.K.'s cellular phone provided by S.K.'s boyfriend (per paragraph 9, S.K. is believed to have been carrying the phone when the kidnapping took place), a laptop computer; a DVD case; a Sony Cybershot Camera, silver in color, Model #DSC-S700, S/N 0522961; and a Sandisk M250 MP3 Player, black in color, 2GB. The laptop computer, Samsung cellular phone, Sony Cybershot Camera, and Sandisk M250 MP3 player were all seized pursuant to the search of the vehicle. The DVD case was initially not seized, but were rather returned to KEYES mother, HEIDI KEYES.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 153 / 567

conduct other personal business related to traveling. I also know that computers and cellular phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

Interview of KEYES

39. In an interview with defense counsel present on March 17, 2012, KEYES admitted to using D.T.'s debit card at locations throughout the southwest United States. He also claimed that he received the debit card and the cellular telephone matching the description of S.K.'s telephone together in a plastic bag from an anonymous person, who left the plastic bag in his vehicle. Based on my training and experience, it appears very likely that the specifics of KEYES' account of the origin of his possession of the phone and debit card is not truthful; however, his admission that the phone and debit card are associated with each other associates both items with S.K., and confirms the identification of the phone as belonging to S.K. During the interview, KEYES also indicated that a Micro SD Card belonging to the phone matching the description of S.K.'s phone was located within the DVD case that had been present in the white Ford Focus and had been returned to KEYES mother, HEIDI KEYES, following the search of that vehicle.

Consensual Seizure of Lexar 4GB Micro SD card and LG Cellular Telephone

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 154 / 567

40. Following the interview with KEYES, law enforcement officers visited KEYES mother, HEIDI KEYES. During this visit, officers were informed that KEYES' daughter, L.K., who had been intermittently traveling with KEYES from March 6, 2012 through March 13, 2012, was in possession of a black flip-out LG Cellular Telephone S/N 104CYHE2202705. L.K. indicated that she had possessed this cellular phone while traveling with KEYES and that he had access to it throughout their intermittent travels. Officers requested that HEIDI KEYES, who was supervising L.K., consent to provide the black flip-out LG Cellular Telephone S/N 104CYHE2202705. HEIDI KEYES consented to provide the phone, and officers subsequently seized it. Officers also requested that she allow officers to examine the DVD case found in the white Ford Focus and released to her, which KEYES had indicated in his interview contained a Micro SD chip for the cellular phone belonging to S.K. HEIDI KEYES consented to allow an examination of the DVD case. Pursuant to that examination, officers discovered a Lexar 4GB Micro SD card that appears to fit the cellular telephone belonging to S.K. HEIDI KEYES then consented to provide the SD Card to officers. Officers subsequently seized the SD card.

40. The Devices listed at paragraph 2, above, are currently in the lawful possession of the FBI. The Devices came into the FBI possession as outlined above. Although the FBI might already have the lawful authority to examine the Devices, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Devices will comply with the Fourth Amendment and other applicable laws.

41. The Devices are currently in storage at FBI Anchorage Station, Anchorage, Alaska. In my training and experience, I know that the Devices have been stored in a manner in which

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 155 / 567

their contents are, to the extent material to this investigation, in substantially the same state as they were when the Devices first came into the possession of the government.

TECHNICAL TERMS

42. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which data can be stored, including a cellular telephone's flash memory or other data storage components, such as a SIM card.

b. "Wireless telephone": A wireless telephone (or mobile telephone, or cellular telephone) is a handheld wireless device used for voice and data communication through radio signals. These telephones send signals through networks of transmitter/receivers, enabling communication with other wireless telephones or traditional "land line" telephones. A wireless telephone usually contains a "call log," which records the telephone number, date, and time of calls made to and from the phone. In addition to enabling voice communications, wireless telephones offer a broad range of capabilities. These capabilities include: storing names and phone numbers in electronic "address books"; sending, receiving, and storing text messages and e-mail; taking, sending, receiving, and storing still photographs and moving video; storing and playing back audio files; storing dates, appointments, and other information on personal calendars; and accessing and downloading information from the Internet. Wireless telephones may also include global positioning system ("GPS") technology for determining the location of the device.

c. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 156 / 567

d. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255, separated by periods (e.g., 121.56.97.178). Every computer attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic – that is, frequently changed – IP addresses.

e. Internet: The Internet is a global network of computers and othe electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

f. Portable media player: A portable media player (or "MP3 Player" or iPod) is a handheld digital storage device designed primarily to store and play audio, video, or photographic files. However, a portable media player can also store other digital data. Some portable media players can use removable storage media. Removable storage media include various types of flash memory cards or miniature hard drives. This removable storage media can also store any digital data. Depending on the model, a portable media player may have the ability to store very large amounts of electronic data and may offer additional features such as a calendar, contact list, clock, or games.

g. Digital camera: A digital camera is a camera that records pictures as digital picture files, rather than by using photographic film. Digital cameras use a variety of fixed and removable storage media to store their recorded images. Images can usually be retrieved by connecting the camera to a computer or by connecting the removable storage medium to a separate reader. Removable storage media include various types of flash memory cards, SD cards or miniature hard drives. Most digital cameras also include a screen for viewing the stored images. This storage media can

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 157 / 567

contain any digital data, including data unrelated to photographs or videos.

h. Secure Digital (SD) Card: A Secure Digital ("SD") Card is a removable computer memory chip for use in portable devices, including cellular phones, MP3 players and digital cameras. SD cards store digital data in a format usable by a particular electronic device.

43 Based on my training, experience, and research, I know that the Target Devices have capabilities that allow them to serve as a wireless telephone, digital camera, memory storage, and may also function as a computer and internet browser. In my training and experience, examining data stored on devices of this type can uncover, among other things, evidence that reveals or suggests who possessed or used the device.

ELECTRONIC STORAGE AND FORENSIC ANALYSIS

44. The applied-for warrant would authorize the forensic examination of the Target Devices for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Devices were used, the purpose of their use, who used them, and when. There is probable cause to believe that this forensic electronic evidence more likely than not is stored in the Target Devices because:

a. Data on a storage medium can provide evidence of information that was once on the storage medium but has since been deleted or

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 158 / 567

edited, or of a deleted portion of the information.

b. Forensic evidence stored within the Target Devices can also indicate who has used or controlled the Target Devices. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Devices works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a cellular telephone is evidence may depend on other information stored on the cellular telephone and the application of knowledge about how a cellular telephone operates. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Devices was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 159 / 567

storage medium.

f. Based on my knowledge, training and experience, I know that electronic devices can store information for long periods of time. Similarly, things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Devices consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Devices' entire storage medium, that might expose many parts of the devices to human inspection in order to determine whether it is evidence described by the warrant.

47. *Manner of execution*: Because this warrant seeks only permission to examine a cellular telephone already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full copy of the Devices' storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 160 / 567

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use of a cellular telephone may forever change the data it contains or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of the entire content of the storage medium assures that it will be available to all parties, including those known now and those later identified.

d. The act of destroying or returning a Device could create an opportunity for a defendant to claim, falsely, that the destroyed or returned Devices contained evidence favorable to him.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 161 / 567

Maintaining a copy of the Devices' storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the following Devices, as set forth in paragraph 2 above:

a) BLACK LG CELLULAR TELEPHONE, s/n 104CYHE2202705,

further identified in Attachment A, for the information identified in Attachment B.

There exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnaping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) &

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 162 / 567

(c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal, I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

Further your Affiant saveth naught.

IN THE UNITED STATES DISTRICT COURT

FOR THE DISTRICT OF ALASKA

In the Matter of the Search of:	) Case No.3:12-mj-00136-JDR
	)
BLACK LG CELLULAR TELEPHONE S/N 104CYHE2202705	) **MOTION TO SEAL SEARCH WARRANT, APPLICATION, AFFIDAVIT FOR SEARCH WARRANT, ATTACHMENTS, AND RETURN**
	)
	) **FILED UNDER SEAL**

COMES NOW the United States of America, by and through undersigned counsel and hereby moves for an order sealing the Search Warrant, Application and Affidavit and Returns for the search warrant issued in the above-captioned matter until further order of this Court.

The government makes this motion to protect the investigative integrity of the present case. The investigation of this case is ongoing and disclosure of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 164 / 567

issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety.

Historically, courts have recognized a "general right to inspect and copy public records and documents, including judicial records and documents." Kamakana v. City and County of Honolulu, 447 F.3d 1172, 1178 (9th Cir. 2006) citing Nixon v. Warner Communications, Inc., 435 U.S. 589, 597 & n.7 (1978). Nonetheless, access to judicial records is not absolute. A narrow range of documents is not subject to the right of public access at all because the records have "traditionally been kept secret for important policy reasons." Id. citing Times Mirror Co. V. United States, 873 F.2d 1210, 1219 (9th Cir. 1989). Ninth Circuit case law has identified two categories of documents that fall into this category: grand jury transcripts and warrant materials in the midst of a pre-indictment investigation. Id. Parties seeking to seal a judicial record not traditionally kept secret must provide compelling reasons to the court for doing so. Id. In general, "compelling reasons" are those sufficient to outweigh the public's interest in disclosure. Id. at 1179.

Based on the foregoing, the government respectfully requests this Court enter the attached proposed Order sealing said search warrant, Application and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 165 / 567

Affidavit for Search Warrant, the Returns and this Motion and Order until said time as the government has time to review the information contained therein and act upon.

RESPECTFULLY SUBMITTED this 22th day of March, 2012, in Anchorage, Alaska.

KAREN L. LOEFFLER

Fax: (907) 271-1500
E-mail: craig.warner@usdoj.gov

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 166 / 567

IN THE UNITED STATES DISTRICT COURT

FOR THE DISTRICT OF ALASKA

In the Matter of the Search of:	) Case No. 3:12-MJ-00136-JDR
BLACK LG CELLULAR TELEPHONE S/N 104CYHE2202705	) **ORDER GRANTING MOTION TO SEAL SEARCH WARRANT, APPLICATION, AFFIDAVIT FOR SEARCH WARRANT, ATTACHMENTS AND RETURN**
	) **FILED UNDER SEAL**

The United States requests that the Search Warrant, Application, Affidavit, Attachments and the Return filed in the above-captioned case be sealed.

This Court finds that the need for secrecy to protect the ongoing investigation and potential witnesses outweighs the public's right to inspect and copy judicial records and documents.

IT IS HEREBY ORDERED that:

The Search Warrant, Application, Affidavit and Attachments filed in the above-captioned case, and the Return to be filed, be sealed until further order of this Court.

Further, the United States Attorney's Office is directed to notify the Court

/

//

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 167 / 567

//

as soon as the need for secrecy passes by filing a motion to unseal records.

DATED this 22nd day of March, 2012, at Anchorage, Alaska.

AO 93 (Rev. 12/03) Search Warrant

UNITED STATES DISTRICT COURT

District of Alaska

In the Matter of the Search of
(Name, address or brief description of person or property to be searched)

Blue and silver AT&T Pantech cellular telephone,
Model #P2000, S/N 110301023456

SEARCH WARRANT

Case Number: 3:12-mj-000137-JDR

TO: S/A Jolene Goeden, FBI and any Authorized Officer of the United States

Affidavit(s) having been made before me by S/A Jolene Goeden, FBI (Affiant) who has reason to believe

that ☐ on the person of, or ☑ on the premises known as (name, description and/or location)

See Attachment A, which is incorporated by reference,

in the _____ District of Alaska there is now concealed a certain person or property, namely (describe the person or property)

See Attachment B, which is incorporated by reference.

I am satisfied that the affidavit(s) and any record testimony establish probable cause to believe that the person or property so described is now concealed on the person or premises above-described and establish grounds for the issuance of this warrant.

YOU ARE HEREBY COMMANDED to search on or before 4/1/2012 (Date)

(not to exceed 10 days) the person or place named above for the person or property specified, serving this warrant and making the search ☑ in the daytime — 6:00 AM to 10:00 P.M. ☐ at anytime in the day or night as I find reasonable cause has been established and if the person or property be found there to seize same, leaving a copy of this warrant and receipt for the person or property taken, and prepare a written inventory of the person or property seized and promptly return this warrant to

J. Roberts as required by law.
U.S. Magistrate Judge (Rule 41(f)(4))

AO 106 (Rev. 04/10) Application for a Search Warrant

UNITED STATES DISTRICT COURT

for the

District of Alaska

In the Matter of the Search of
(Briefly describe the property to be searched or identify the person by name and address)

Blue and silver AT&T Pantech cellular telephone, Model #P2000, S/N 110301023456

Case No. 3:12-mj-000137-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

UNITED STATES DISTRICT COURT
THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF BLUE AND SILVER AT&T PANTECH CELLULAR PHONE, MODEL #P2000, S/N 110301023456	Case No. 3:12-mj-00137-JDR

AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnapping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search five electronic items seized during a common set of searches and pursuant to a common set of circumstances, as outlined below :

a) BLUE AND SILVER AT&T PANTECH CELLULAR PHONE, MODEL

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 177 / 567

#P2000, S/N 110301023456, further identified in Attachment A, for the information identified in Attachment B.

This item is currently located at FBI Anchorage at 101 East Sixth Avenue, Anchorage, Alaska, in the secure, non-drug evidence vault.

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 178 / 567

> Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward.

6. The applied for warrant would authorize the forensic examination of the devices listed above in paragraph 2, and further identified in Attachment A, for the purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search the Devices listed in paragraph 2 above, I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 179 / 567

2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 180 / 567

was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 181 / 567

items do not appear on the truck in the Home Depot video.

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 182 / 567

to/from Alaska by ferry, commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 183 / 567

soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 184 / 567

video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 185 / 567

attempted to withdraw the money.

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 186 / 567

Initial review of the surveillance video from the ATM appeared to show that the individual using the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn responded to the QIS, at which time FBI Agent Deb Gannoway conducted a walk-by and visual inspection of the white Ford Focus. Gannoway noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. She also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 187 / 567

Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. FBI Agent Deb Gannoway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on FBI Agent Deb Gannoway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Corporal Henry provided to FBI Agent Deb Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry. KEYES informed Corporal Henry he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to law enforcement officers a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to law enforcement officers the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 188 / 567

officers he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger Rayburn observed that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by FBI Agent Gannoway and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Officers suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Corporal

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 189 / 567

Henry placed KEYES under arrest. Ranger Rayburn searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made. The search of KEYES pursuant to his arrest also revealed an AT&T Pantech flip cellular phone, blue and silver in color, Model #P2000, S/N 110301023456.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 190 / 567

above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the reservation. The notes

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 191 / 567

section of the travel records indicated the email address provided was israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant and Discovery of Cellular Telephone Matching Description of Phone Belonging to S.K. and Other Cellular Telephones and Digital Media Devices

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), which matched the description of S.K.'s cellular phone provided by S.K.'s boyfriend (per paragraph 9, S.K. is believed to have been carrying the phone when the kidnapping took place), a laptop computer; a DVD case; a Sony Cybershot Camera, silver in color, Model #DSC-S700, S/N 0522961; and a Sandisk M250 MP3 Player, black in color, 2GB. The laptop computer, Samsung cellular phone, Sony Cybershot Camera, and Sandisk M250 MP3 player were all seized pursuant to the search of the vehicle. The DVD case was initially not seized, but were rather returned to KEYES mother, HEIDI KEYES.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 192 / 567

conduct other personal business related to traveling. I also know that computers and cellular phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

Interview of KEYES

39. In an interview with defense counsel present on March 17, 2012, KEYES admitted to using D.T.'s debit card at locations throughout the southwest United States. He also claimed that he received the debit card and the cellular telephone matching the description of S.K.'s telephone together in a plastic bag from an anonymous person, who left the plastic bag in his vehicle. Based on my training and experience, it appears very likely that the specifics of KEYES' account of the origin of his possession of the phone and debit card is not truthful; however, his admission that the phone and debit card are associated with each other associates both items with S.K., and confirms the identification of the phone as belonging to S.K. During the interview, KEYES also indicated that a Micro SD Card belonging to the phone matching the description of S.K.'s phone was located within the DVD case that had been present in the white Ford Focus and had been returned to KEYES mother, HEIDI KEYES, following the search of that vehicle.

Consensual Seizure of Lexar 4GB Micro SD card and LG Cellular Telephone

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 193 / 567

40. Following the interview with KEYES, law enforcement officers visited KEYES mother, HEIDI KEYES. During this visit, officers were informed that KEYES' daughter, L.K., who had been intermittently traveling with KEYES from March 6, 2012 through March 13, 2012, was in possession of a black flip-out LG Cellular Telephone S/N 104CYHE2202705. L.K. indicated that she had possessed this cellular phone while traveling with KEYES and that he had access to it throughout their intermittent travels. Officers requested that HEIDI KEYES, who was supervising L.K., consent to provide the black flip-out LG Cellular Telephone S/N 104CYHE2202705. HEIDI KEYES consented to provide the phone, and officers subsequently seized it. Officers also requested that she allow officers to examine the DVD case found in the white Ford Focus and released to her, which KEYES had indicated in his interview contained a Micro SD chip for the cellular phone belonging to S.K. HEIDI KEYES consented to allow an examination of the DVD case. Pursuant to that examination, officers discovered a Lexar 4GB Micro SD card that appears to fit the cellular telephone belonging to S.K. HEIDI KEYES then consented to provide the SD Card to officers. Officers subsequently seized the SD card.

40. The Devices listed at paragraph 2, above, are currently in the lawful possession of the FBI. The Devices came into the FBI possession as outlined above. Although the FBI might already have the lawful authority to examine the Devices, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Devices will comply with the Fourth Amendment and other applicable laws.

41. The Devices are currently in storage at FBI Anchorage Station, Anchorage, Alaska. In my training and experience, I know that the Devices have been stored in a manner in which

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 194 / 567

their contents are, to the extent material to this investigation, in substantially the same state as they were when the Devices first came into the possession of the government.

TECHNICAL TERMS

42. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which data can be stored, including a cellular telephone's flash memory or other data storage components, such as a SIM card.

b. "Wireless telephone": A wireless telephone (or mobile telephone, or cellular telephone) is a handheld wireless device used for voice and data communication through radio signals. These telephones send signals through networks of transmitter/receivers, enabling communication with other wireless telephones or traditional "land line" telephones. A wireless telephone usually contains a "call log," which records the telephone number, date, and time of calls made to and from the phone. In addition to enabling voice communications, wireless telephones offer a broad range of capabilities. These capabilities include: storing names and phone numbers in electronic "address books"; sending, receiving, and storing text messages and e-mail; taking, sending, receiving, and storing still photographs and moving video; storing and playing back audio files; storing dates, appointments, and other information on personal calendars; and accessing and downloading information from the Internet. Wireless telephones may also include global positioning system ("GPS") technology for determining the location of the device.

c. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 195 / 567

d. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255, separated by periods (e.g., 121.56.97.178). Every computer attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic – that is, frequently changed – IP addresses.

e. Internet: The Internet is a global network of computers and othe electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

f. Portable media player: A portable media player (or "MP3 Player" or iPod) is a handheld digital storage device designed primarily to store and play audio, video, or photographic files. However, a portable media player can also store other digital data. Some portable media players can use removable storage media. Removable storage media include various types of flash memory cards or miniature hard drives. This removable storage media can also store any digital data. Depending on the model, a portable media player may have the ability to store very large amounts of electronic data and may offer additional features such as a calendar, contact list, clock, or games.

g. Digital camera: A digital camera is a camera that records pictures as digital picture files, rather than by using photographic film. Digital cameras use a variety of fixed and removable storage media to store their recorded images. Images can usually be retrieved by connecting the camera to a computer or by connecting the removable storage medium to a separate reader. Removable storage media include various types of flash memory cards, SD cards or miniature hard drives. Most digital cameras also include a screen for viewing the stored images. This storage media can

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 196 / 567

contain any digital data, including data unrelated to photographs or videos.

h. Secure Digital (SD) Card: A Secure Digital ("SD") Card is a removable computer memory chip for use in portable devices, including cellular phones, MP3 players and digital cameras. SD cards store digital data in a format usable by a particular electronic device.

43 Based on my training, experience, and research, I know that the Target Devices have capabilities that allow them to serve as a wireless telephone, digital camera, memory storage, and may also function as a computer and internet browser. In my training and experience, examining data stored on devices of this type can uncover, among other things, evidence that reveals or suggests who possessed or used the device.

ELECTRONIC STORAGE AND FORENSIC ANALYSIS

44. The applied-for warrant would authorize the forensic examination of the Target Devices for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Devices were used, the purpose of their use, who used them, and when. There is probable cause to believe that this forensic electronic evidence more likely than not is stored in the Target Devices because:

a. Data on a storage medium can provide evidence of information that was once on the storage medium but has since been deleted or

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 197 / 567

edited, or of a deleted portion of the information.

b. Forensic evidence stored within the Target Devices can also indicate who has used or controlled the Target Devices. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Devices works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a cellular telephone is evidence may depend on other information stored on the cellular telephone and the application of knowledge about how a cellular telephone operates. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Devices was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 198 / 567

storage medium.

f. Based on my knowledge, training and experience, I know that electronic devices can store information for long periods of time. Similarly, things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Devices consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Devices' entire storage medium, that might expose many parts of the devices to human inspection in order to determine whether it is evidence described by the warrant.

47. *Manner of execution*: Because this warrant seeks only permission to examine a cellular telephone already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full copy of the Devices' storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 199 / 567

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use of a cellular telephone may forever change the data it contains or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of the entire content of the storage medium assures that it will be available to all parties, including those known now and those later identified.

d. The act of destroying or returning a Device could create an opportunity for a defendant to claim, falsely, that the destroyed or returned Devices contained evidence favorable to him.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 200 / 567

Maintaining a copy of the Devices' storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the following Devices, as set forth in paragraph 2 above:

a BLUE AND SILVER AT&T PANTECHCELLULAR PHONE, MODEL #P2000, S/N 110301023456, further identified in Attachment A, for the information identified in Attachment B.

There exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 201 / 567

competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal, I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

Further your Affiant saveth naught.

	)
	) **FILED UNDER SEAL**

COMES NOW the United States of America, by and through undersigned counsel and hereby moves for an order sealing the Search Warrant, Application and Affidavit and Returns for the search warrant issued in the above-captioned matter until further order of this Court.

The government makes this motion to protect the investigative integrity of the present case. The investigation of this case is ongoing and disclosure of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 203 / 567

issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety.

Historically, courts have recognized a "general right to inspect and copy public records and documents, including judicial records and documents." Kamakana v. City and County of Honolulu, 447 F.3d 1172, 1178 (9th Cir. 2006) citing Nixon v. Warner Communications, Inc., 435 U.S. 589, 597 & n.7 (1978). Nonetheless, access to judicial records is not absolute. A narrow range of documents is not subject to the right of public access at all because the records have "traditionally been kept secret for important policy reasons." Id. citing Times Mirror Co. V. United States, 873 F.2d 1210, 1219 (9th Cir. 1989). Ninth Circuit case law has identified two categories of documents that fall into this category: grand jury transcripts and warrant materials in the midst of a pre-indictment investigation. Id. Parties seeking to seal a judicial record not traditionally kept secret must provide compelling reasons to the court for doing so. Id. In general, "compelling reasons" are those sufficient to outweigh the public's interest in disclosure. Id. at 1179.

Based on the foregoing, the government respectfully requests this Court enter the attached proposed Order sealing said search warrant, Application and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 204 / 567

Affidavit for Search Warrant, the Returns and this Motion and Order until said time as the government has time to review the information contained therein and act upon.

RESPECTFULLY SUBMITTED this 22th day of March, 2012, in Anchorage, Alaska.

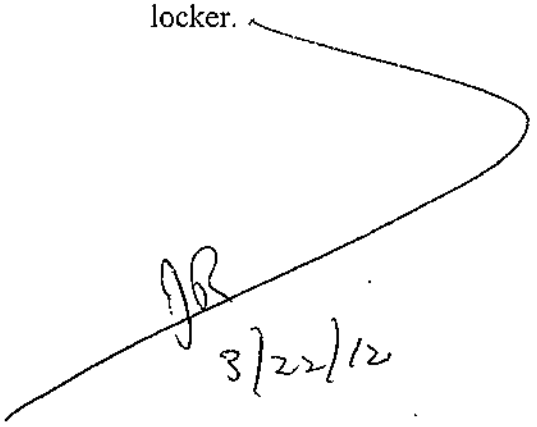
ATTACHMENT A

The property to be searched is a Lexar 4GB Micro Secure Digital (SD) Card, currently located at the FBI building at 101 E. 6th Ave., Anchorage, Alaska, in the non-drug evidence locker.



FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 211 / 567

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES since October 1, 2011, including:

1. Evidence of who used, owned, or controlled the Target Device, including logs, registry entries, configuration files, saved usernames and passwords, documents – including but not limited to travel records, banking or other financial records, records indicating connection or interactions between KEYES and S.K. or surveillance of S.K, by KEYES, maps, driving or other geographic directions, Internet browser history and cache, user profiles, email, email contacts, chat logs, instant messages, photographs, and correspondence.

2. Evidence of the times the Target Device was used.

3. Passwords, encryption keys, and other access devices that may be necessary to access the Target Device .

4. Evidence of the Target Device contacting or communicating with cellular phones or electronic devices, including text messages, application data, calender entries, notes, call records, contact or address book entries, photos, location information, and Internet browser history/cache; or evidence of assisting or recording memory of a cellular telephone conducting these same activities.

5. Evidence of audio or video recordings.

6. Contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.

UNITED STATES DISTRICT COURT

for the

District of Alaska

In the Matter of the Search of
(Briefly describe the property to be searched or identify the person by name and address)
Lexar 4GB Micro Secure Digital (SD) card

Case No. 3:12-mj-000138-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES since October 1, 2011, including:

1. Evidence of who used, owned, or controlled the Target Device, including logs, registry entries, configuration files, saved usernames and passwords, documents – including but not limited to travel records, banking or other financial records, records indicating connection or interactions between KEYES and S.K. or surveillance of S.K, by KEYES, maps, driving or other geographic directions, Internet browser history and cache, user profiles, email, email contacts, chat logs, instant messages, photographs, and correspondence.

2. Evidence of the times the Target Device was used.

3. Passwords, encryption keys, and other access devices that may be necessary to access the Target Device .

4. Evidence of the Target Device contacting or communicating with cellular phones or electronic devices, including text messages, application data, calender entries, notes, call records, contact or address book entries, photos, location information, and Internet browser history/cache; or evidence of assisting or recording memory of a cellular telephone conducting these same activities.

5. Evidence of audio or video recordings.

6. Contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.

UNITED STATES DISTRICT COURT
THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF LEXAR 4GB MICRO SD CARD	Case No. 3:12-mj-00138-JDR

AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnapping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search five electronic items seized during a common set of searches and pursuant to a common set of circumstances, as outlined below :

LEXAR 4GB MICRO SD CARD, further identified in Attachment A, for the information identified in Attachment B.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 216 / 567

This item is currently located at FBI Anchorage at 101 East Sixth Avenue, Anchorage, Alaska, in the secure, non-drug evidence vault.

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

> Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 217 / 567

has been at any time delivered as such ransom or reward.

6. The applied for warrant would authorize the forensic examination of the devices listed above in paragraph 2, and further identified in Attachment A, for the purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search the Devices listed in paragraph 2 above, I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on 2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 218 / 567

raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K. was very strong-willed and would not have complied with a robber or abductor's demands,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 219 / 567

unless she had been threatened with a weapon.

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these items do not appear on the truck in the Home Depot video.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 220 / 567

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling to/from Alaska by ferry, commercial airlines are the most common and popular mode of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 221 / 567

interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving soon I will be using it all over." The note further gave an indication that S.K. had been moved

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 222 / 567

from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 223 / 567

pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who attempted to withdraw the money.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 224 / 567

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas. Initial review of the surveillance video from the ATM appeared to show that the individual using

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 225 / 567

the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn responded to the QIS, at which time FBI Agent Deb Gannoway conducted a walk-by and visual inspection of the white Ford Focus. Gannoway noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. She also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 226 / 567

Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. FBI Agent Deb Gannoway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on FBI Agent Deb Gannoway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Corporal Henry provided to FBI Agent Deb Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry. KEYES informed Corporal Henry he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to law enforcement officers a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to law enforcement officers the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told officers he "probably" paid for fuel throughout his travels from Nevada to Texas with cash.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 227 / 567

Ranger Rayburn observed that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by FBI Agent Gannoway and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Officers suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Corporal Henry placed KEYES under arrest. Ranger Rayburn searched KEYES' wallet, revealing a VISA

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 228 / 567

ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made. The search of KEYES pursuant to his arrest also revealed an AT&T Pantech flip cellular phone, blue and silver in color, Model #P2000, S/N 110301023456.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 229 / 567

drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the reservation. The notes section of the travel records indicated the email address provided was

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 230 / 567

israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant and Discovery of Cellular Telephone Matching Description of Phone Belonging to S.K. and Other Cellular Telephones and Digital Media Devices

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), which matched the description of S.K.'s cellular phone provided by S.K.'s boyfriend (per paragraph 9, S.K. is believed to have been carrying the phone when the kidnapping took place), a laptop computer; a DVD case; a Sony Cybershot Camera, silver in color, Model #DSC-S700, S/N 0522961; and a Sandisk M250 MP3 Player, black in color, 2GB. The laptop computer, Samsung cellular phone, Sony Cybershot Camera, and Sandisk M250 MP3 player were all seized pursuant to the search of the vehicle. The DVD case was initially not seized, but were rather returned to KEYES mother, HEIDI KEYES.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and conduct other personal business related to traveling. I also know that computers and cellular

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 231 / 567

phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

Interview of KEYES

39. In an interview with defense counsel present on March 17, 2012, KEYES admitted to using D.T.'s debit card at locations throughout the southwest United States. He also claimed that he received the debit card and the cellular telephone matching the description of S.K.'s telephone together in a plastic bag from an anonymous person, who left the plastic bag in his vehicle. Based on my training and experience, it appears very likely that the specifics of KEYES' account of the origin of his possession of the phone and debit card is not truthful; however, his admission that the phone and debit card are associated with each other associates both items with S.K., and confirms the identification of the phone as belonging to S.K. During the interview, KEYES also indicated that a Micro SD Card belonging to the phone matching the description of S.K.'s phone was located within the DVD case that had been present in the white Ford Focus and had been returned to KEYES mother, HEIDI KEYES, following the search of that vehicle.

Consensual Seizure of Lexar 4GB Micro SD card and LG Cellular Telephone

40. Following the interview with KEYES, law enforcement officers visited KEYES mother, HEIDI KEYES. During this visit, officers were informed that KEYES' daughter, L.K.,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 232 / 567

who had been intermittently traveling with KEYES from March 6, 2012 through March 13, 2012, was in possession of a black flip-out LG Cellular Telephone S/N 104CYHE2202705. L.K. indicated that she had possessed this cellular phone while traveling with KEYES and that he had access to it throughout their intermittent travels. Officers requested that HEIDI KEYES, who was supervising L.K., consent to provide the black flip-out LG Cellular Telephone S/N 104CYHE2202705. HEIDI KEYES consented to provide the phone, and officers subsequently seized it. Officers also requested that she allow officers to examine the DVD case found in the white Ford Focus and released to her, which KEYES had indicated in his interview contained a Micro SD chip for the cellular phone belonging to S.K. HEIDI KEYES consented to allow an examination of the DVD case. Pursuant to that examination, officers discovered a Lexar 4GB Micro SD card that appears to fit the cellular telephone belonging to S.K. HEIDI KEYES then consented to provide the SD Card to officers. Officers subsequently seized the SD card.

40. The Devices listed at paragraph 2, above, are currently in the lawful possession of the FBI. The Devices came into the FBI possession as outlined above. Although the FBI might already have the lawful authority to examine the Devices, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Devices will comply with the Fourth Amendment and other applicable laws.

41. The Devices are currently in storage at FBI Anchorage Station, Anchorage, Alaska. In my training and experience, I know that the Devices have been stored in a manner in which their contents are, to the extent material to this investigation, in substantially the same state as they were when the Devices first came into the possession of the government.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 233 / 567

TECHNICAL TERMS

42. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which data can be stored, including a cellular telephone's flash memory or other data storage components, such as a SIM card.

b. "Wireless telephone": A wireless telephone (or mobile telephone, or cellular telephone) is a handheld wireless device used for voice and data communication through radio signals. These telephones send signals through networks of transmitter/receivers, enabling communication with other wireless telephones or traditional "land line" telephones. A wireless telephone usually contains a "call log," which records the telephone number, date, and time of calls made to and from the phone. In addition to enabling voice communications, wireless telephones offer a broad range of capabilities. These capabilities include: storing names and phone numbers in electronic "address books"; sending, receiving, and storing text messages and e-mail; taking, sending, receiving, and storing still photographs and moving video; storing and playing back audio files; storing dates, appointments, and other information on personal calendars; and accessing and downloading information from the Internet. Wireless telephones may also include global positioning system ("GPS") technology for determining the location of the device.

c. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

d. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255, separated by periods (e.g., 121.56.97.178). Every computer

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 234 / 567

attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic – that is, frequently changed – IP addresses.

e. Internet: The Internet is a global network of computers and othe electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

f. Portable media player: A portable media player (or "MP3 Player" or iPod) is a handheld digital storage device designed primarily to store and play audio, video, or photographic files. However, a portable media player can also store other digital data. Some portable media players can use removable storage media. Removable storage media include various types of flash memory cards or miniature hard drives. This removable storage media can also store any digital data. Depending on the model, a portable media player may have the ability to store very large amounts of electronic data and may offer additional features such as a calendar, contact list, clock, or games.

g. Digital camera: A digital camera is a camera that records pictures as digital picture files, rather than by using photographic film. Digital cameras use a variety of fixed and removable storage media to store their recorded images. Images can usually be retrieved by connecting the camera to a computer or by connecting the removable storage medium to a separate reader. Removable storage media include various types of flash memory cards, SD cards or miniature hard drives. Most digital cameras also include a screen for viewing the stored images. This storage media can contain any digital data, including data unrelated to photographs or videos.

h. Secure Digital (SD) Card: A Secure Digital ("SD") Card is a removable computer memory chip for use in portable devices, including cellular phones, MP3 players and digital cameras. SD

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 235 / 567

cards store digital data in a format usable by a particular electronic device.

43 Based on my training, experience, and research, I know that the Target Devices have capabilities that allow them to serve as a wireless telephone, digital camera, memory storage, and may also function as a computer and internet browser. In my training and experience, examining data stored on devices of this type can uncover, among other things, evidence that reveals or suggests who possessed or used the device.

ELECTRONIC STORAGE AND FORENSIC ANALYSIS

44. The applied-for warrant would authorize the forensic examination of the Target Devices for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Devices were used, the purpose of their use, who used them, and when. There is probable cause to believe that this forensic electronic evidence more likely than not is stored in the Target Devices because:

a. Data on a storage medium can provide evidence of information that was once on the storage medium but has since been deleted or edited, or of a deleted portion of the information.

b. Forensic evidence stored within the Target Devices can also indicate who has used or controlled the Target Devices. This

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 236 / 567

"user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Devices works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a cellular telephone is evidence may depend on other information stored on the cellular telephone and the application of knowledge about how a cellular telephone operates. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Devices was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a storage medium.

f. Based on my knowledge, training and experience, I know that electronic devices can store information for long periods of time.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 237 / 567

Similarly, things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Devices consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Devices' entire storage medium, that might expose many parts of the devices to human inspection in order to determine whether it is evidence described by the warrant.

47. *Manner of execution*: Because this warrant seeks only permission to examine a cellular telephone already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full copy of the Devices' storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 238 / 567

the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use of a cellular telephone may forever change the data it contains or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of the entire content of the storage medium assures that it will be available to all parties, including those known now and those later identified.

d. The act of destroying or returning a Device could create an opportunity for a defendant to claim, falsely, that the destroyed or returned Devices contained evidence favorable to him. Maintaining a copy of the Devices' storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 239 / 567

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the following Devices, as set forth in paragraph 2 above:

a LEXAR 4GB MICRO SD CARD, further identified in Attachment A, for the information identified in Attachment B.

There exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 240 / 567

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal, I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

h naught.

	) **AND RETURN**
	)
	) **FILED UNDER SEAL**

COMES NOW the United States of America, by and through undersigned counsel and hereby moves for an order sealing the Search Warrant, Application and Affidavit and Returns for the search warrant issued in the above-captioned matter until further order of this Court.

The government makes this motion to protect the investigative integrity of the present case. The investigation of this case is ongoing and disclosure of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 242 / 567

issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety.

Historically, courts have recognized a "general right to inspect and copy public records and documents, including judicial records and documents." Kamakana v. City and County of Honolulu, 447 F.3d 1172, 1178 (9th Cir. 2006) citing Nixon v. Warner Communications, Inc., 435 U.S. 589, 597 & n.7 (1978). Nonetheless, access to judicial records is not absolute. A narrow range of documents is not subject to the right of public access at all because the records have "traditionally been kept secret for important policy reasons." Id. citing Times Mirror Co. V. United States, 873 F.2d 1210, 1219 (9th Cir. 1989). Ninth Circuit case law has identified two categories of documents that fall into this category: grand jury transcripts and warrant materials in the midst of a pre-indictment investigation. Id. Parties seeking to seal a judicial record not traditionally kept secret must provide compelling reasons to the court for doing so. Id. In general, "compelling reasons" are those sufficient to outweigh the public's interest in disclosure. Id. at 1179.

Based on the foregoing, the government respectfully requests this Court enter the attached proposed Order sealing said search warrant, Application and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 243 / 567

Affidavit for Search Warrant, the Returns and this Motion and Order until said time as the government has time to review the information contained therein and act upon.

RESPECTFULLY SUBMITTED this 22th day of March, 2012, in Anchorage, Alaska.

The property to be searched is a Sony Cybershot camera, silver in color, Model #DSC-S700, S/N 0522961, currently located at the FBI building at 101 E. 6th Ave., Anchorage, Alaska, in the non-drug evidence locker.

JR 3/22/12

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 250 / 567

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES since October 1, 2011, including:

1. Evidence of who used, owned, or controlled the Target Device, including logs, registry entries, configuration files, saved usernames and passwords, and documents.

2. Evidence of the times the Target Device was used.

3. Passwords, encryption keys, and other access devices that may be necessary to access the Target Device .

4. Evidence of digital photographs and "metadata" associated with such photos, including geographic and/or Global Positioning System (GPS) data indicating the physical location at which the photograph was taken, date and time stamps indicating the date and time of day the photograph was taken, and data indicating the identity of other electronic devices to which or from which photographs were uploaded, downloaded or otherwise transferred or copied, and when such transfers took place.

5. Evidence of audio or video recordings, and "metadata" associated with such audio and video recordings, including geographic and/or Global Positioning System (GPS) data indicating the physical location at which the photograph was taken, date and time stamps indicating the date and time of day the photograph was taken, and data indicating the identity of other electronic devices to which or from which photographs were uploaded, downloaded or otherwise transferred or copied, and when such transfers took place.

6. Contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.

UNITED STATES DISTRICT COURT

for the

District of Alaska

In the Matter of the Search of
(Briefly describe the property to be searched or identify the person by name and address)
Silver Sony Cybershot Camera, MOdel #DSC-S700, S/N 0522961

Case No. 3:12-mj-000139-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached [illegible].

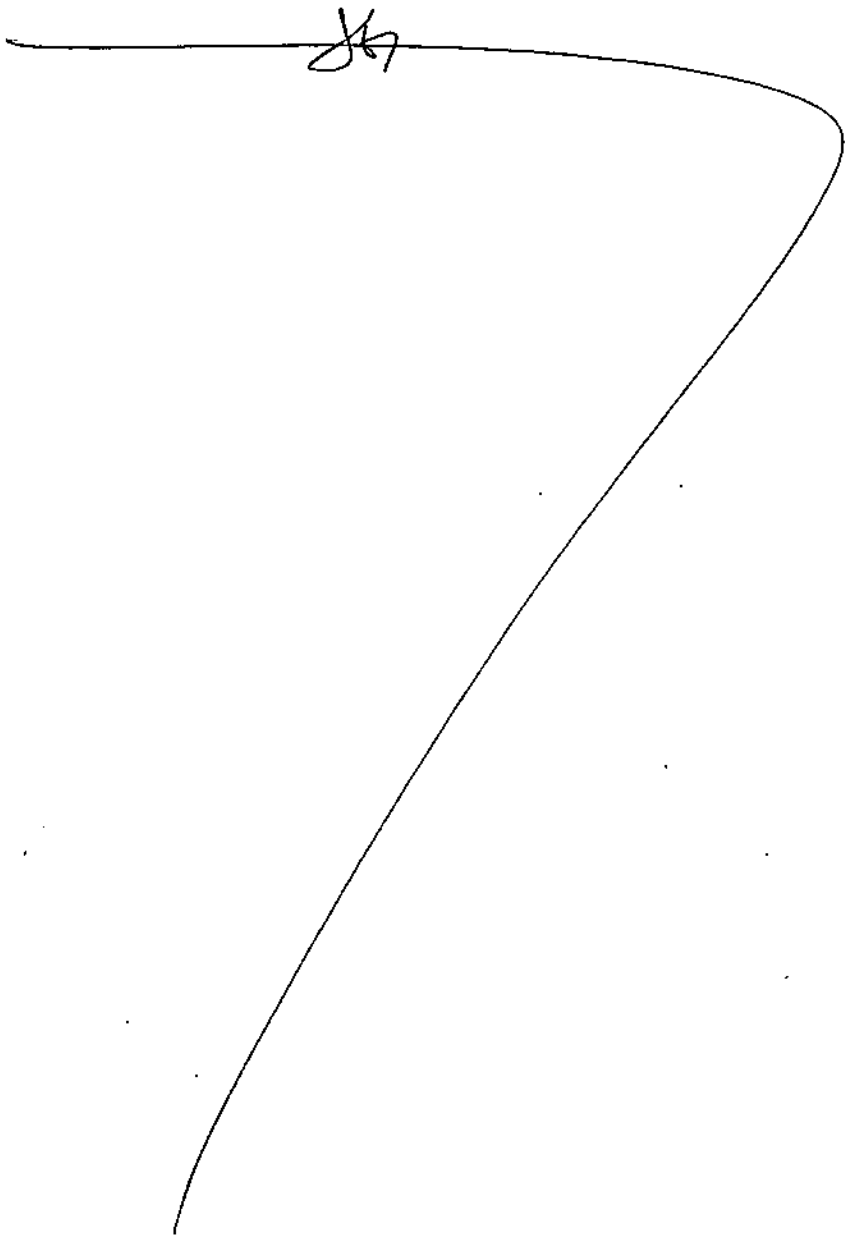
ATTACHMENT A

The property to be searched is a Sony Cybershot camera, silver in color, Model #DSC-S700, S/N 0522961, currently located at the FBI building at 101 E. 6th Ave., Anchorage, Alaska, in the non-drug evidence locker.



FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 253 / 567

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES since October 1, 2011, including:

1. Evidence of who used, owned, or controlled the Target Device, including logs, registry entries, configuration files, saved usernames and passwords, and documents.

2. Evidence of the times the Target Device was used.

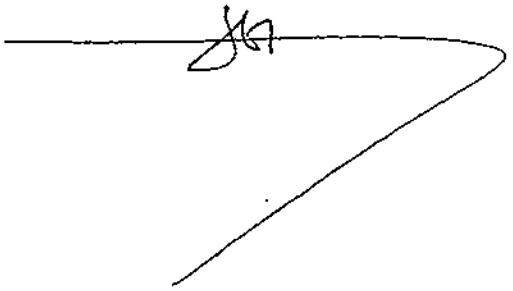
3. Passwords, encryption keys, and other access devices that may be necessary to access the Target Device .

4. Evidence of digital photographs and "metadata" associated with such photos, including geographic and/or Global Positioning System (GPS) data indicating the physical location at which the photograph was taken, date and time stamps indicating the date and time of day the photograph was taken, and data indicating the identity of other electronic devices to which or from which photographs were uploaded, downloaded or otherwise transferred or copied, and when such transfers took place.

5. Evidence of audio or video recordings, and "metadata" associated with such audio and video recordings, including geographic and/or Global Positioning System (GPS) data indicating the physical location at which the photograph was taken, date and time stamps indicating the date and time of day the photograph was taken, and data indicating the identity of other electronic devices to which or from which photographs were uploaded, downloaded or otherwise transferred or copied, and when such transfers took place.

6. Contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.



UNITED STATES DISTRICT COURT
THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF SILVER SONY CYBERSHOT CAMERA, MODEL #DSC-S700, S/N 0522961	Case No. 3:12-mj-00139-JDR

AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnapping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search five electronic items seized during a common set of searches and pursuant to a common set of circumstances, as outlined below :

SILVER SONY CYBERSHOT CAMERA, MODEL #DSC-S700, S/N 0522961,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 255 / 567

further identified in Attachment A, for the information identified in Attachment B.

This item is currently located at FBI Anchorage at 101 East Sixth Avenue, Anchorage, Alaska, in the secure, non-drug evidence vault.

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

> Whoever receives, possesses, or disposes of any money or other property, or any portion

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 256 / 567

thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward.

6. The applied for warrant would authorize the forensic examination of the devices listed above in paragraph 2, and further identified in Attachment A, for the purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search the Devices listed in paragraph 2 above, I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 257 / 567

2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 258 / 567

was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 259 / 567

items do not appear on the truck in the Home Depot video.

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 260 / 567

to/from Alaska by ferry, commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 261 / 567

soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 262 / 567

video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 263 / 567

attempted to withdraw the money.

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 264 / 567

Initial review of the surveillance video from the ATM appeared to show that the individual using the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn responded to the QIS, at which time FBI Agent Deb Gannoway conducted a walk-by and visual inspection of the white Ford Focus. Gannoway noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. She also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 265 / 567

Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. FBI Agent Deb Gannoway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on FBI Agent Deb Gannoway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Corporal Henry provided to FBI Agent Deb Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry. KEYES informed Corporal Henry he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to law enforcement officers a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to law enforcement officers the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 266 / 567

officers he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger Rayburn observed that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by FBI Agent Gannoway and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Officers suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Corporal

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 267 / 567

Henry placed KEYES under arrest. Ranger Rayburn searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made. The search of KEYES pursuant to his arrest also revealed an AT&T Pantech flip cellular phone, blue and silver in color, Model #P2000, S/N 110301023456.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 268 / 567

above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the reservation. The notes

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 269 / 567

section of the travel records indicated the email address provided was israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant and Discovery of Cellular Telephone Matching Description of Phone Belonging to S.K. and Other Cellular Telephones and Digital Media Devices

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), which matched the description of S.K.'s cellular phone provided by S.K.'s boyfriend (per paragraph 9, S.K. is believed to have been carrying the phone when the kidnapping took place), a laptop computer; a DVD case; a Sony Cybershot Camera, silver in color, Model #DSC-S700, S/N 0522961; and a Sandisk M250 MP3 Player, black in color, 2GB. The laptop computer, Samsung cellular phone, Sony Cybershot Camera, and Sandisk M250 MP3 player were all seized pursuant to the search of the vehicle. The DVD case was initially not seized, but were rather returned to KEYES mother, HEIDI KEYES.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 270 / 567

conduct other personal business related to traveling. I also know that computers and cellular phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

Interview of KEYES

39. In an interview with defense counsel present on March 17, 2012, KEYES admitted to using D.T.'s debit card at locations throughout the southwest United States. He also claimed that he received the debit card and the cellular telephone matching the description of S.K.'s telephone together in a plastic bag from an anonymous person, who left the plastic bag in his vehicle. Based on my training and experience, it appears very likely that the specifics of KEYES' account of the origin of his possession of the phone and debit card is not truthful; however, his admission that the phone and debit card are associated with each other associates both items with S.K., and confirms the identification of the phone as belonging to S.K. During the interview, KEYES also indicated that a Micro SD Card belonging to the phone matching the description of S.K.'s phone was located within the DVD case that had been present in the white Ford Focus and had been returned to KEYES mother, HEIDI KEYES, following the search of that vehicle.

Consensual Seizure of Lexar 4GB Micro SD card and LG Cellular Telephone

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 271 / 567

40. Following the interview with KEYES, law enforcement officers visited KEYES mother, HEIDI KEYES. During this visit, officers were informed that KEYES' daughter, L.K., who had been intermittently traveling with KEYES from March 6, 2012 through March 13, 2012, was in possession of a black flip-out LG Cellular Telephone S/N 104CYHE2202705. L.K. indicated that she had possessed this cellular phone while traveling with KEYES and that he had access to it throughout their intermittent travels. Officers requested that HEIDI KEYES, who was supervising L.K., consent to provide the black flip-out LG Cellular Telephone S/N 104CYHE2202705. HEIDI KEYES consented to provide the phone, and officers subsequently seized it. Officers also requested that she allow officers to examine the DVD case found in the white Ford Focus and released to her, which KEYES had indicated in his interview contained a Micro SD chip for the cellular phone belonging to S.K. HEIDI KEYES consented to allow an examination of the DVD case. Pursuant to that examination, officers discovered a Lexar 4GB Micro SD card that appears to fit the cellular telephone belonging to S.K. HEIDI KEYES then consented to provide the SD Card to officers. Officers subsequently seized the SD card.

40. The Devices listed at paragraph 2, above, are currently in the lawful possession of the FBI. The Devices came into the FBI possession as outlined above. Although the FBI might already have the lawful authority to examine the Devices, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Devices will comply with the Fourth Amendment and other applicable laws.

41. The Devices are currently in storage at FBI Anchorage Station, Anchorage, Alaska. In my training and experience, I know that the Devices have been stored in a manner in which

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 272 / 567

their contents are, to the extent material to this investigation, in substantially the same state as they were when the Devices first came into the possession of the government.

TECHNICAL TERMS

42. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which data can be stored, including a cellular telephone's flash memory or other data storage components, such as a SIM card.

b. "Wireless telephone": A wireless telephone (or mobile telephone, or cellular telephone) is a handheld wireless device used for voice and data communication through radio signals. These telephones send signals through networks of transmitter/receivers, enabling communication with other wireless telephones or traditional "land line" telephones. A wireless telephone usually contains a "call log," which records the telephone number, date, and time of calls made to and from the phone. In addition to enabling voice communications, wireless telephones offer a broad range of capabilities. These capabilities include: storing names and phone numbers in electronic "address books"; sending, receiving, and storing text messages and e-mail; taking, sending, receiving, and storing still photographs and moving video; storing and playing back audio files; storing dates, appointments, and other information on personal calendars; and accessing and downloading information from the Internet. Wireless telephones may also include global positioning system ("GPS") technology for determining the location of the device.

c. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 273 / 567

d. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255, separated by periods (e.g., 121.56.97.178). Every computer attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic – that is, frequently changed – IP addresses.

e. Internet: The Internet is a global network of computers and othe electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

f. Portable media player: A portable media player (or "MP3 Player" or iPod) is a handheld digital storage device designed primarily to store and play audio, video, or photographic files. However, a portable media player can also store other digital data. Some portable media players can use removable storage media. Removable storage media include various types of flash memory cards or miniature hard drives. This removable storage media can also store any digital data. Depending on the model, a portable media player may have the ability to store very large amounts of electronic data and may offer additional features such as a calendar, contact list, clock, or games.

g. Digital camera: A digital camera is a camera that records pictures as digital picture files, rather than by using photographic film. Digital cameras use a variety of fixed and removable storage media to store their recorded images. Images can usually be retrieved by connecting the camera to a computer or by connecting the removable storage medium to a separate reader. Removable storage media include various types of flash memory cards, SD cards or miniature hard drives. Most digital cameras also include a screen for viewing the stored images. This storage media can

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 274 / 567

contain any digital data, including data unrelated to photographs or videos.

h. Secure Digital (SD) Card: A Secure Digital ("SD") Card is a removable computer memory chip for use in portable devices, including cellular phones, MP3 players and digital cameras. SD cards store digital data in a format usable by a particular electronic device.

43 Based on my training, experience, and research, I know that the Target Devices have capabilities that allow them to serve as a wireless telephone, digital camera, memory storage, and may also function as a computer and internet browser. In my training and experience, examining data stored on devices of this type can uncover, among other things, evidence that reveals or suggests who possessed or used the device.

ELECTRONIC STORAGE AND FORENSIC ANALYSIS

44. The applied-for warrant would authorize the forensic examination of the Target Devices for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Devices were used, the purpose of their use, who used them, and when. There is probable cause to believe that this forensic electronic evidence more likely than not is stored in the Target Devices because:

a. Data on a storage medium can provide evidence of information that was once on the storage medium but has since been deleted or

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 275 / 567

edited, or of a deleted portion of the information.

b. Forensic evidence stored within the Target Devices can also indicate who has used or controlled the Target Devices. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Devices works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a cellular telephone is evidence may depend on other information stored on the cellular telephone and the application of knowledge about how a cellular telephone operates. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Devices was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 276 / 567

storage medium.

f. Based on my knowledge, training and experience, I know that electronic devices can store information for long periods of time. Similarly, things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Devices consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Devices' entire storage medium, that might expose many parts of the devices to human inspection in order to determine whether it is evidence described by the warrant.

47. *Manner of execution*: Because this warrant seeks only permission to examine a cellular telephone already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full copy of the Devices' storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 277 / 567

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use of a cellular telephone may forever change the data it contains or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of the entire content of the storage medium assures that it will be available to all parties, including those known now and those later identified.

d. The act of destroying or returning a Device could create an opportunity for a defendant to claim, falsely, that the destroyed or returned Devices contained evidence favorable to him.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 278 / 567

Maintaining a copy of the Devices' storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the following Devices, as set forth in paragraph 2 above:

a SILVER SONY CYBERSHOT CAMERA, MODEL #DSC-S700, S/N 0522961, further identified in Attachment A, for the information identified in Attachment B.

There exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) &

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 279 / 567

(c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal, I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

Further your Affiant sayeth naught.

IN THE UNITED STATES DISTRICT COURT

FOR THE DISTRICT OF ALASKA

In the Matter of the Search of:	) Case No.3:12-MJ-00139-JDR
	)
SILVER SONY CYBERSHOT CAMERA, MODEL #DSC-S700, S/N 0522961	) **MOTION TO SEAL SEARCH WARRANT, APPLICATION, AFFIDAVIT FOR SEARCH WARRANT, ATTACHMENTS, AND RETURN**
	)
	) **FILED UNDER SEAL**

COMES NOW the United States of America, by and through undersigned counsel and hereby moves for an order sealing the Search Warrant, Application and Affidavit and Returns for the search warrant issued in the above-captioned matter until further order of this Court.

The government makes this motion to protect the investigative integrity of the present case. The investigation of this case is ongoing and disclosure of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 281 / 567

issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety.

Historically, courts have recognized a "general right to inspect and copy public records and documents, including judicial records and documents." Kamakana v. City and County of Honolulu, 447 F.3d 1172, 1178 (9th Cir. 2006) citing Nixon v. Warner Communications, Inc., 435 U.S. 589, 597 & n.7 (1978). Nonetheless, access to judicial records is not absolute. A narrow range of documents is not subject to the right of public access at all because the records have "traditionally been kept secret for important policy reasons." Id. citing Times Mirror Co. V. United States, 873 F.2d 1210, 1219 (9th Cir. 1989). Ninth Circuit case law has identified two categories of documents that fall into this category: grand jury transcripts and warrant materials in the midst of a pre-indictment investigation. Id. Parties seeking to seal a judicial record not traditionally kept secret must provide compelling reasons to the court for doing so. Id. In general, "compelling reasons" are those sufficient to outweigh the public's interest in disclosure. Id. at 1179.

Based on the foregoing, the government respectfully requests this Court

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 282 / 567

enter the attached proposed Order sealing said search warrant, Application and Affidavit for Search Warrant, the Returns and this Motion and Order until said time as the government has time to review the information contained therein and act upon.

RESPECTFULLY SUBMITTED this 22th day of March, 2012, in Anchorage, Alaska.

3/22/12

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 289 / 567

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES since October 1, 2011, including:

1. Evidence of who used, owned, or controlled the Target Device, including logs, registry entries, configuration files, saved usernames and passwords, and documents.

2. Evidence of the times the Target Device was used.

3. Passwords, encryption keys, and other access devices that may be necessary to access the Target Device .

4. Evidence of digital photographs and "metadata" associated with such photos, including geographic and/or Global Positioning System (GPS) data indicating the physical location at which the photograph was taken, date and time stamps indicating the date and time of day the photograph was taken, and data indicating the identity of other electronic devices to which or from which photographs were uploaded, downloaded or otherwise transferred or copied, and when such transfers took place.

5. Evidence of audio or video recordings, and "metadata" associated with such audio and video recordings, including geographic and/or Global Positioning System (GPS) data indicating the physical location at which the photograph was taken, date and time stamps indicating the date and time of day the photograph was taken, and data indicating the identity of other electronic devices to which or from which photographs were uploaded, downloaded or otherwise transferred or copied, and when such transfers took place.

6. Evidence of documents or other computer files downloaded to the Device from computers, cellular telephones and digital cameras.

7. Contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.

UNITED STATES DISTRICT COURT

for the

District of Alaska

In the Matter of the Search of
(Briefly describe the property to be searched or identify the person by name and address)
Black Sandisk M250 MP3 Player, 2GB

Case No. 3:12-mj-000140-JDR

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property *(identify the person or describe the property to be searched and give its location)*:
See Attachment A, which is incorporated herein by reference

located in the _____ District of Alaska, there is now concealed *(identify the person or describe the property to be seized)*:
See Attachment B, which is incorporated herein by reference

The basis for the search under Fed. R. Crim. P. 41(c) is *(check one or more)*:

- ☑ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☑ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

Code Section	*Offense Description*
18 U.S.C. 1029(a)(5)	Access Device Fraud
18 U.S.C. 1201	Kidnapping
18 U.S.C. 1202(b)	Ransom Money

The application is based on these facts:
See Attached Affidavit, which is incorporated herein by reference

- ☑ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

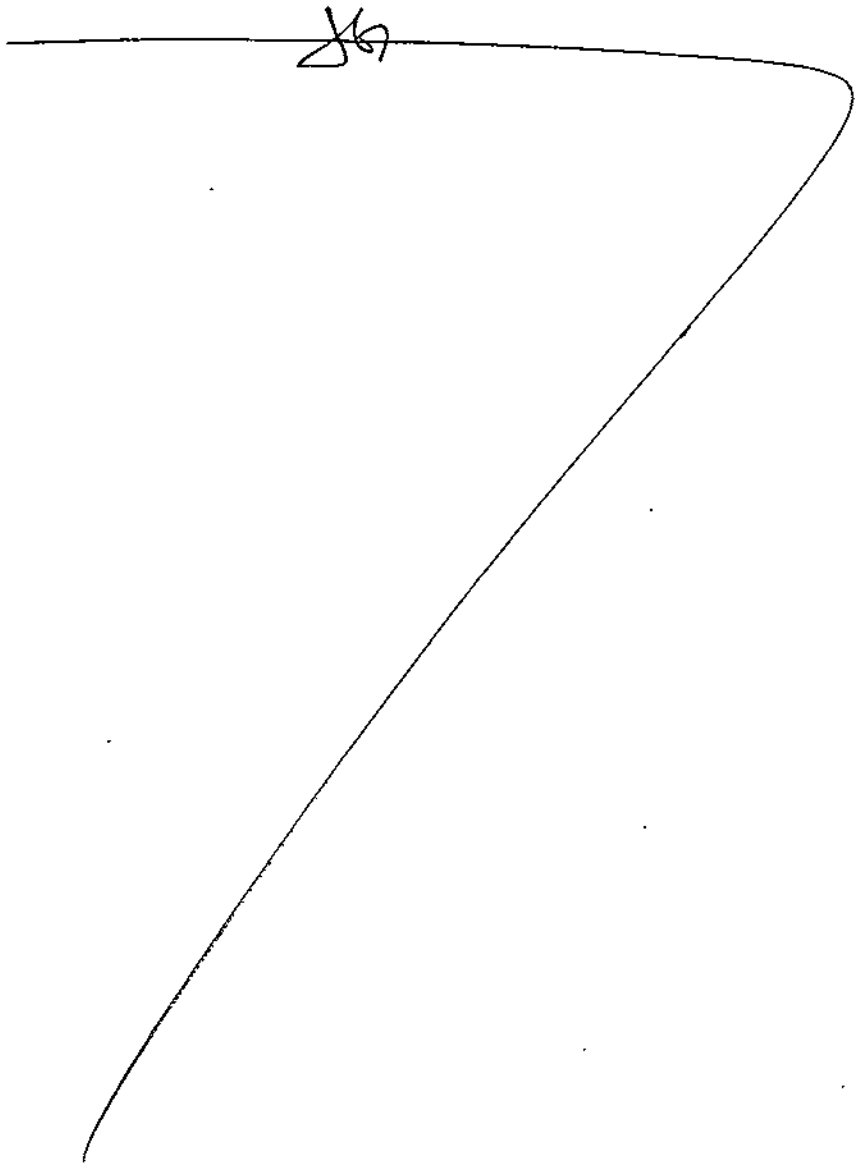
ATTACHMENT A

The property to be searched is a Sandisk M250 MP3 Player, black in color, 2GB, currently located at the FBI building at 101 E. 6th Ave., Anchorage, Alaska, in the non-drug evidence locker.



FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 292 / 567

ATTACHMENT B

All records and information on the Target Device identified in Attachment A that relate to violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), and involve ISRAEL KEYES since October 1, 2011, including:

1. Evidence of who used, owned, or controlled the Target Device, including logs, registry entries, configuration files, saved usernames and passwords, and documents.

2. Evidence of the times the Target Device was used.

3. Passwords, encryption keys, and other access devices that may be necessary to access the Target Device .

4. Evidence of digital photographs and "metadata" associated with such photos, including geographic and/or Global Positioning System (GPS) data indicating the physical location at which the photograph was taken, date and time stamps indicating the date and time of day the photograph was taken, and data indicating the identity of other electronic devices to which or from which photographs were uploaded, downloaded or otherwise transferred or copied, and when such transfers took place.

5. Evidence of audio or video recordings, and "metadata" associated with such audio and video recordings, including geographic and/or Global Positioning System (GPS) data indicating the physical location at which the photograph was taken, date and time stamps indicating the date and time of day the photograph was taken, and data indicating the identity of other electronic devices to which or from which photographs were uploaded, downloaded or otherwise transferred or copied, and when such transfers took place.

6. Evidence of documents or other computer files downloaded to the Device from computers, cellular telephones and digital cameras.

7. Contextual information necessary to understand the evidence described in this attachment.

As used above, the terms "records" and "information" include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 293 / 567

UNITED STATES DISTRICT COURT
THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF BLACK SANDISK M250 MP3 PLAYER, 2GB	Case No. 3:12-mj-00140-JDR

AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnapping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to search five electronic items seized during a common set of searches and pursuant to a common set of circumstances, as outlined below :

BLACK SANDISK M250 MP3 PLAYER, 2GB, further identified in Attachment A, for the information identified in Attachment B.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 294 / 567

This item is currently located at FBI Anchorage at 101 East Sixth Avenue, Anchorage, Alaska, in the secure, non-drug evidence vault.

3. As set forth herein, there is probable cause to believe that in the property to be searched there exists evidence of a crime, contraband, fruits of a crimes, or other items illegally possessed in violation of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money), as further described in Attachment A.

RELEVANT STATUTES

4. The Target Device contains evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

> Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

> Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 295 / 567

has been at any time delivered as such ransom or reward.

6. The applied for warrant would authorize the forensic examination of the devices listed above in paragraph 2, and further identified in Attachment A, for the purpose of identifying electronically stored data particularly described in Attachment B.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking authorization to search the Devices listed in paragraph 2 above, I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of S.K.

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on 2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and

FBI Records: The Vault -- Israel Keyes LastKnownContact.com Part 02: Pg 296 / 567

raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K. was very strong-willed and would not have complied with a robber or abductor's demands,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 297 / 567

unless she had been threatened with a weapon.

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these items do not appear on the truck in the Home Depot video.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 298 / 567

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road through northern Canada in winter, and the lengthy periods generally associated with traveling to/from Alaska by ferry, commercial airlines are the most common and popular mode of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 299 / 567

interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska. Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving soon I will be using it all over." The note further gave an indication that S.K. had been moved

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 300 / 567

from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 301 / 567

pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while later. Both the male's appearance and timing are commensurate with him being the person who attempted to withdraw the money.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 302 / 567

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas. Initial review of the surveillance video from the ATM appeared to show that the individual using

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 303 / 567

the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn responded to the QIS, at which time FBI Agent Deb Gannoway conducted a walk-by and visual inspection of the white Ford Focus. Gannoway noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. She also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 304 / 567

Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. FBI Agent Deb Gannoway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on FBI Agent Deb Gannoway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Corporal Henry provided to FBI Agent Deb Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry. KEYES informed Corporal Henry he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to law enforcement officers a copy of his car rental agreement, which corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to law enforcement officers the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told officers he "probably" paid for fuel throughout his travels from Nevada to Texas with cash.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 305 / 567

Ranger Rayburn observed that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by FBI Agent Gannoway and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Officers suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Corporal Henry placed KEYES under arrest. Ranger Rayburn searched KEYES' wallet, revealing a VISA

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 306 / 567

ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made. The search of KEYES pursuant to his arrest also revealed an AT&T Pantech flip cellular phone, blue and silver in color, Model #P2000, S/N 110301023456.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 307 / 567

drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Discovery OF KEYES' Computer Use and Use of Yahoo Account

34. KEYES' girlfriend, who also lives at his residence, was interviewed on approximately March 14, 2012. She indicated KEYES was out of Alaska. She also indicated that KEYES owned a laptop computer and that his computer was not in the residence.

35. Alaska Airlines provided travel records for KEYES pursuant to a Federal Grand Jury Subpoena that was issued to them on March 14, 2012. In reviewing the returns for this subpoena, travel records were found showing KEYES and his young daughter traveled to Houston on February 2, 2012. KEYES was originally scheduled to return on February 14, 2012 but changed the ticket to return on February 17, 2012. The ticket was booked online October 1, 2011 and an email confirmation was sent on the same date. The return ticket was changed to February 17, 2012 and an email confirmation was sent on 2/15/2012. The notes for this transaction indicate the email confirmation was sent to an email address believed to belong to A.K., the mother of KEYES' daughter. However, the tickets were booked using A.K.'s credit card. A.K.does not reside in the state of Alaska and it is likely she had to forward the email confirmation to KEYES so that he would know the dates/times of travel.

36. In reviewing the returns for this subpoena, travel records were also found showing KEYES and his young daughter traveled to Las Vegas on March 6, 2012 via Alaska Airlines. This ticket was booked online and he provided an email address with the reservation. The notes section of the travel records indicated the email address provided was

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 308 / 567

israelkeyes@yahoo.com. The records also indicated an email confirmation was sent to israelkeyes@yahoo.com on March 1, 2012.

Execution of Search Warrant and Discovery of Cellular Telephone Matching Description of Phone Belonging to S.K. and Other Cellular Telephones and Digital Media Devices

37. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a Samsung cellphone, black in color, slider type. Model# SCH-R631. Possible S/N 80015743 (this number is on the back of the phone but it does not indicate it as a S/N), which matched the description of S.K.'s cellular phone provided by S.K.'s boyfriend (per paragraph 9, S.K. is believed to have been carrying the phone when the kidnapping took place), a laptop computer; a DVD case; a Sony Cybershot Camera, silver in color, Model #DSC-S700, S/N 0522961; and a Sandisk M250 MP3 Player, black in color, 2GB. The laptop computer, Samsung cellular phone, Sony Cybershot Camera, and Sandisk M250 MP3 player were all seized pursuant to the search of the vehicle. The DVD case was initially not seized, but were rather returned to KEYES mother, HEIDI KEYES.

38. In my training and experience, I know that photos from digital cameras and cellular phones are frequently downloaded to computers and electronic tablets, and then printed or stored on media devices. I also know that cellular phones, computers, electronic tablets and similar devices are frequently used to arrange travel and hotel reservations, rent vehicles, and conduct other personal business related to traveling. I also know that computers and cellular

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 309 / 567

phones can be used to connect to the internet, which can be used to locate banks, ATM's, hotels, maps, send email, draft documents, and communicate with others. I also know that storage devices for electronic information, or "thumb" drives, are often used to store such information for later use by computers, cellular phones and other media devices. I know that electronic records of all such uses of computers and similar electronic devices are retained within those devices and may be retrieved by forensic technicians.

Interview of KEYES

39. In an interview with defense counsel present on March 17, 2012, KEYES admitted to using D.T.'s debit card at locations throughout the southwest United States. He also claimed that he received the debit card and the cellular telephone matching the description of S.K.'s telephone together in a plastic bag from an anonymous person, who left the plastic bag in his vehicle. Based on my training and experience, it appears very likely that the specifics of KEYES' account of the origin of his possession of the phone and debit card is not truthful; however, his admission that the phone and debit card are associated with each other associates both items with S.K., and confirms the identification of the phone as belonging to S.K. During the interview, KEYES also indicated that a Micro SD Card belonging to the phone matching the description of S.K.'s phone was located within the DVD case that had been present in the white Ford Focus and had been returned to KEYES mother, HEIDI KEYES, following the search of that vehicle.

Consensual Seizure of Lexar 4GB Micro SD card and LG Cellular Telephone

40. Following the interview with KEYES, law enforcement officers visited KEYES mother, HEIDI KEYES. During this visit, officers were informed that KEYES' daughter, L.K.,

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 310 / 567

who had been intermittently traveling with KEYES from March 6, 2012 through March 13, 2012, was in possession of a black flip-out LG Cellular Telephone S/N 104CYHE2202705. L.K. indicated that she had possessed this cellular phone while traveling with KEYES and that he had access to it throughout their intermittent travels. Officers requested that HEIDI KEYES, who was supervising L.K., consent to provide the black flip-out LG Cellular Telephone S/N 104CYHE2202705. HEIDI KEYES consented to provide the phone, and officers subsequently seized it. Officers also requested that she allow officers to examine the DVD case found in the white Ford Focus and released to her, which KEYES had indicated in his interview contained a Micro SD chip for the cellular phone belonging to S.K. HEIDI KEYES consented to allow an examination of the DVD case. Pursuant to that examination, officers discovered a Lexar 4GB Micro SD card that appears to fit the cellular telephone belonging to S.K. HEIDI KEYES then consented to provide the SD Card to officers. Officers subsequently seized the SD card.

40. The Devices listed at paragraph 2, above, are currently in the lawful possession of the FBI. The Devices came into the FBI possession as outlined above. Although the FBI might already have the lawful authority to examine the Devices, I seek this additional warrant out of an abundance of caution to be certain that an examination of the Devices will comply with the Fourth Amendment and other applicable laws.

41. The Devices are currently in storage at FBI Anchorage Station, Anchorage, Alaska. In my training and experience, I know that the Devices have been stored in a manner in which their contents are, to the extent material to this investigation, in substantially the same state as they were when the Devices first came into the possession of the government.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 311 / 567

TECHNICAL TERMS

42. Based on my training, my experience, and information provided to me by other law enforcement personnel, I use the following technical terms to convey the following meanings:

a. "Storage medium": A storage medium is any physical object upon which data can be stored, including a cellular telephone's flash memory or other data storage components, such as a SIM card.

b. "Wireless telephone": A wireless telephone (or mobile telephone, or cellular telephone) is a handheld wireless device used for voice and data communication through radio signals. These telephones send signals through networks of transmitter/receivers, enabling communication with other wireless telephones or traditional "land line" telephones. A wireless telephone usually contains a "call log," which records the telephone number, date, and time of calls made to and from the phone. In addition to enabling voice communications, wireless telephones offer a broad range of capabilities. These capabilities include: storing names and phone numbers in electronic "address books"; sending, receiving, and storing text messages and e-mail; taking, sending, receiving, and storing still photographs and moving video; storing and playing back audio files; storing dates, appointments, and other information on personal calendars; and accessing and downloading information from the Internet. Wireless telephones may also include global positioning system ("GPS") technology for determining the location of the device.

c. "Computer": Pursuant to 18 U.S.C. § 1030(e)(1), a computer is "an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device."

d. IP Address: An Internet Protocol address (or simply "IP Address") is a unique numeric address used by computers on the Internet. An IP address is a series of four numbers, each in the range 0-255, separated by periods (e.g., 121.56.97.178). Every computer

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 312 / 567

attached to the Internet must be assigned an IP address so that Internet traffic sent from and directed to that compuiter may be directed properly from its source to its destination. Most Internet service providers control a range of IP addresses. Some computers have static- that is, long-term - IP addresses, while other computers have dynamic – that is, frequently changed – IP addresses.

e. Internet: The Internet is a global network of computers and othe electronic devices that communicate with each other. Due to the structure of the internet, connections between devices on the internet often cross state and international borders, even when the devices communicating with each other are in the same state.

f. Portable media player: A portable media player (or "MP3 Player" or iPod) is a handheld digital storage device designed primarily to store and play audio, video, or photographic files. However, a portable media player can also store other digital data. Some portable media players can use removable storage media. Removable storage media include various types of flash memory cards or miniature hard drives. This removable storage media can also store any digital data. Depending on the model, a portable media player may have the ability to store very large amounts of electronic data and may offer additional features such as a calendar, contact list, clock, or games.

g. Digital camera: A digital camera is a camera that records pictures as digital picture files, rather than by using photographic film. Digital cameras use a variety of fixed and removable storage media to store their recorded images. Images can usually be retrieved by connecting the camera to a computer or by connecting the removable storage medium to a separate reader. Removable storage media include various types of flash memory cards, SD cards or miniature hard drives. Most digital cameras also include a screen for viewing the stored images. This storage media can contain any digital data, including data unrelated to photographs or videos.

h. Secure Digital (SD) Card: A Secure Digital ("SD") Card is a removable computer memory chip for use in portable devices, including cellular phones, MP3 players and digital cameras. SD

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 313 / 567

cards store digital data in a format usable by a particular electronic device.

43 Based on my training, experience, and research, I know that the Target Devices have capabilities that allow them to serve as a wireless telephone, digital camera, memory storage, and may also function as a computer and internet browser. In my training and experience, examining data stored on devices of this type can uncover, among other things, evidence that reveals or suggests who possessed or used the device.

ELECTRONIC STORAGE AND FORENSIC ANALYSIS

44. The applied-for warrant would authorize the forensic examination of the Target Devices for the purpose of identifying and seizing the electronically stored information particularly described in Attachment B in accordance with Federal Criminal Procedure Rule 41(e)(2)(B) ("Warrant Seeking Electronically Stored Information").

45. *Forensic evidence*: As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Target Devices were used, the purpose of their use, who used them, and when. There is probable cause to believe that this forensic electronic evidence more likely than not is stored in the Target Devices because:

a. Data on a storage medium can provide evidence of information that was once on the storage medium but has since been deleted or edited, or of a deleted portion of the information.

b. Forensic evidence stored within the Target Devices can also indicate who has used or controlled the Target Devices. This

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 314 / 567

"user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

c. A person with appropriate familiarity with how the Target Devices works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.

d. The process of identifying the exact electronically stored information on a storage medium that are necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a cellular telephone is evidence may depend on other information stored on the cellular telephone and the application of knowledge about how a cellular telephone operates. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.

e. Further, in finding evidence of how the Target Devices was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a storage medium.

f. Based on my knowledge, training and experience, I know that electronic devices can store information for long periods of time.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 315 / 567

Similarly, things that have been viewed via the internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

46. *Nature of examination*: Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the Target Devices consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the Target Devices' entire storage medium, that might expose many parts of the devices to human inspection in order to determine whether it is evidence described by the warrant.

47. *Manner of execution*: Because this warrant seeks only permission to examine a cellular telephone already in law enforcement's possession, the execution of this warrant does not involve the physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

48. *Forensic image retention*: I hereby request judicial authorization to retain full copy of the Devices' storage media after the review is complete (to the extent that this warrant does not already authorize me to retain that storage media as seized forfeitable property) and until further order of the Court. That judicial authorization is justified in this case in part because:

a. Should the execution of the warrant uncover data that may later need to be introduced into evidence during a trial or other proceeding, the authenticity and the integrity of the evidence and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 316 / 567

the government's forensic methodology may be contested issues. Retaining copies of seized storage media can be required to prove these facts.

b. Returning the original storage medium to its owner will not allow for the preservation of that evidence. Even routine use of a cellular telephone may forever change the data it contains or eliminate data stored on it.

c. Because the investigation is not yet complete, it is not possible to predict all possible defendants against whom evidence found on the storage medium might be used. That evidence might be used against persons who have no possessory interest in the storage media, or against persons yet unknown. Those defendants might be entitled to a copy of the complete storage media in discovery. Retention of the entire content of the storage medium assures that it will be available to all parties, including those known now and those later identified.

d. The act of destroying or returning a Device could create an opportunity for a defendant to claim, falsely, that the destroyed or returned Devices contained evidence favorable to him. Maintaining a copy of the Devices' storage medium would permit the government, through an additional warrant if necessary, to investigate such a claim.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 317 / 567

e. Similarly, should a defendant suggest an explanation for the presence of evidence on a storage medium, it may be necessary to investigate such an explanation by, among other things, re-examining the storage medium with that defense in mind. This may require an additional examination of the storage medium for evidence that is described in Attachment B but was not properly identified and segregated previously.

CONCLUSION

49. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the following Devices, as set forth in paragraph 2 above:

a BLACK SANDISK M250 MP3 PLAYER, 2GB, further identified in Attachment A, for the information identified in Attachment B.

There exists fruits, evidence, and instrumentalities of violations of Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); and Title 18, United States Code, Section 1202(b) (Ransom Money).

50. This Court has jurisdiction to issue the requested warrant because it is "a court of competent jurisdiction" as defined by 18 U.S.C. § 2711. 18 U.S.C. §§ 2703(a), (b)(1)(A) & (c)(1)(A). Specifically, the Court is "a district court of the United States . . . that – has jurisdiction over the offense being investigated." 18 U.S.C. § 2711(3)(A)(I).

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 318 / 567

51. The investigation of this case is ongoing and disclosure of the issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety. Accordingly, pursuant to the case law outlined in the government's motion to seal, I respectfully request that the search warrant, search warrant affidavit, attachments, and returns be sealed.

Further your Affiant saveth naught.

IN THE UNITED STATES DISTRICT COURT

FOR THE DISTRICT OF ALASKA

In the Matter of the Search of:	) Case No.3:12-MJ-00140-JDR
	)
BLACK SANDISK M250 MP3 PLAYER, 2GB	) **MOTION TO SEAL SEARCH**
	) **WARRANT, APPLICATION,**
	) **AFFIDAVIT FOR SEARCH**
	) **WARRANT, ATTACHMENTS,**
	) **AND RETURN**
	)
	) **FILED UNDER SEAL**

COMES NOW the United States of America, by and through undersigned counsel and hereby moves for an order sealing the Search Warrant, Application and Affidavit and Returns for the search warrant issued in the above-captioned matter until further order of this Court.

The government makes this motion to protect the investigative integrity of the present case. The investigation of this case is ongoing and disclosure of the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 320 / 567

issuance of the search warrant could result in destruction of evidence and could also impact officer, witness and victim safety.

Historically, courts have recognized a "general right to inspect and copy public records and documents, including judicial records and documents." Kamakana v. City and County of Honolulu, 447 F.3d 1172, 1178 (9th Cir. 2006) citing Nixon v. Warner Communications, Inc., 435 U.S. 589, 597 & n.7 (1978). Nonetheless, access to judicial records is not absolute. A narrow range of documents is not subject to the right of public access at all because the records have "traditionally been kept secret for important policy reasons." Id. citing Times Mirror Co. V. United States, 873 F.2d 1210, 1219 (9th Cir. 1989). Ninth Circuit case law has identified two categories of documents that fall into this category: grand jury transcripts and warrant materials in the midst of a pre-indictment investigation. Id. Parties seeking to seal a judicial record not traditionally kept secret must provide compelling reasons to the court for doing so. Id. In general, "compelling reasons" are those sufficient to outweigh the public's interest in disclosure. Id. at 1179.

Based on the foregoing, the government respectfully requests this Court enter the attached proposed Order sealing said search warrant, Application and

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 321 / 567

Affidavit for Search Warrant, the Returns and this Motion and Order until said time as the government has time to review the information contained therein and act upon.

RESPECTFULLY SUBMITTED this 22th day of March, 2012, in Anchorage, Alaska.

UNITED STATES DISTRICT COURT

for the

District of Alaska

In the Matter of the Search of *(Briefly describe the property to be searched or identify the person by name and address)* ISRAEL KEYES	)	Case No. 3:12-mj-00153-JDR

SEARCH AND SEIZURE WARRANT

To: Any authorized law enforcement officer

An application by a federal law enforcement officer or an attorney for the government requests the search of the following person or property located in the _____ District of Alaska
(identify the person or describe the property to be searched and give its location):
ISRAEL KEYES, at the Anchorage Correctional Center.

The person or property to be searched, described above, is believed to conceal *(identify the person or describe the property to be seized)*:
See Attachment A, which is evidence of violations of 18 U.S.C. Sections 1201, 1202(b), 1029(a)(5), 2119.

I find that the affidavit(s), or any recorded testimony, establish probable cause to search and seize the person or property.

YOU ARE COMMANDED to execute this warrant on or before April 18, 2012
(not to exceed 14 days)

☐ in the daytime 6:00 a.m. to 10 p.m. ☐ at any time in the day or night as I find reasonable cause has been established.

Unless delayed notice is authorized below, you must give a copy of the warrant and a receipt for the property taken to the person from whom, or from whose premises, the property was taken, or leave the copy and receipt at the place where the property was taken.

The officer executing this warrant, or an officer present during the execution of the warrant, must prepare an inventory as required by law and promptly return this warrant and inventory to United States Magistrate Judge JOHN D. ROBERTS
(name)

☐ I find that immediate notification may have an adverse result listed in 18 U.S.C. § 2705 (except for delay of trial), and authorize the officer executing this warrant to delay notice to the person who, or whose property, will be searched or seized *(check the appropriate box)* ☐for _____ days *(not to exceed 30)*
☐until, the facts justifying, the later specific date of _____.

UNITED STATES DISTRICT COURT
THE DISTRICT OF ALASKA

IN THE MATTER OF THE SEARCH OF THE PERSON OF ISRAEL KEYES FOR BUCCAL SWABS	Case No. 3:12-MJ-00153-JDR **Filed under seal**

AFFIDAVIT IN SUPPORT OF AN APPLICATION FOR A SEARCH WARRANT

I, Jolene Goeden, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am a Special Agent of the Federal Bureau of Investigation (FBI). I have been a Special Agent of the FBI since April 2004. I am charged with the duty of investigating violations of the laws of the United States, collecting evidence in cases in which the United States is or may be a party in interest, and performing other duties imposed by law. I have been assigned to investigate most criminal matters within the jurisdiction of the FBI, including kidnaping matters, fraud matters and other white collar crime.

2. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a warrant to seize DNA buccal swabs from Israel KEYES. The items to be seized are described in Attachment A.

3. I believe that there is probable cause that evidence of the following federal crimes will result from the seizure and search of these items: Title 18, United States Code (USC), Section 1029(a)(5) (Fraud and Related Activity in Connection with Access Devices)(FRACAD); Title 18, United States Code, Section 1201 (Kidnapping); Title 18 , United States Code, Section

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 329 / 567

2119 (Carjacking); and Title 18, United States Code, Section 1202(b) (Ransom Money). The evidence to be collected from these seizures are described in Attachment B.

RELEVANT STATUTES

4. There is probable cause to believe that the hair and buccal swabs contain evidence of and is an instrumentality used for violations of Title 18, USC, Section 1029(a)(5), Fraud and Related Activity in Connection with Access Devices, which provides that:

> Whoever, knowingly and with intent to defraud effects transactions with 1 or more access devices issued to another person or persons, to receive payment or any other things of value during any 1-year period that aggregate value of which is equal to or greater than $1,000;

and Title 18, United States Code, Section 1201 (Kidnaping), which provides that:

Whoever unlawfully seizes, confines, inveigles, decoys, kidnaps, abducts, or carries away and holds for ransom or reward or otherwise any person, except in the case of a minor by the parent thereof, when the person is willfully transported in interstate or foreign commerce, regardless of whether the person was alive when transported in interstate or foreign commerce or uses the mail or any means, facility, or instrumentality of interstate or foreign commerce in committing or in furtherance of the commission of the offense;

and Title 18, United States Code, Section 1202(b) (Ransom Money), which provides that:.

Whoever receives, possesses, or disposes of any money or other property, or any portion thereof, which has at any time been delivered as ransom or reward in connection with a violation of section 1201 of this title, knowing the same to be money or property which has been at any time delivered as such ransom or reward;

and Title 18, United States Code, Section 2119 (Carjacking), which provides that:

Whoever, with the intent to cause death or serious bodily harm takes a motor vehicle that has been transported, shipped or received in interstate or foreign commerce from the presence of the person or presence of another by force and violence or by intimidation, or attempts to do so.

IDENTIFICATION OF THE ITEMS SEIZED

5. The property to be seized is identified in Attachment A. Agents would go to the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 330 / 567

Anchorage Correctional Complex where KEYES is currently housed to collect the samples. Agents would collect two buccal swabs from KEYES. Buccal swabs are seized by the gentle rubbing of the buccal cavity (which is the oral cavity formed by the teeth and gums and the interior of the cheeks and lips) with two dry, sterile cotton-tipped swabs. Consecutive swabs are used, one after the other to obtain an adequate sample for testing.

6. The applied for warrant would authorize the extraction of DNA evidence that may be used to possibly link ISRAEL KEYES to the crimes set forth above.

PROBABLE CAUSE

7. The information contained below is from my personal knowledge and experience, information provided to me by other law enforcement personnel, or from those specific sources as set forth. Since this affidavit is being submitted for the limited purpose of seeking DNA samples, I have not included each and every fact known to me regarding this investigation. I have set forth only the facts that I believe are necessary to establish a foundation to support the aforementioned request for a search warrant.

Abduction of Samantha Koenig ("S.K.")

8. On 2-2-12 at about 12:39 Alaska Standard Time (AST), Duncan, the owner of the Common Ground Coffee stand at 630 E. Tudor, Anchorage, Alaska, contacted APD dispatch. Duncan was calling from Oregon, where he was vacationing. He reported that while viewing his internet-based security system he saw one of his employees, 18-year-old S.K., appear to be abducted. Duncan said he was contacted by S.K.'s father (J.K.) and boyfriend (D.T.), who had been unable to locate her. This contact prompted Duncan to review his security

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 331 / 567

video which showed an unknown man climb through the window of the coffee stand at about 20:00 AST on 2-1-12 while S.K. was working. The video appears to show S.K. retreating a short distance and raising her hands in an apparent sign of submission to the man who subsequently climbed into the coffee stand, robbed S.K. and escorted her away from the scene. The abductor climbed through the window into the coffee stand without any significant difficulty. He appeared to be significantly taller than S.K., who is 5'4" tall, but due to the limited lighting and quality of the video, a more accurate estimate of his height has not been made. The robber/abductor appeared to have a medium to large build and athletic movements.

9. At the time of her abduction, S.K. was wearing a dark-colored jacket, a green shirt with light-colored stripes on the sleeves, a thin dark-colored bracelet, dark-colored pants, and dark-colored shoes. At the time of her abduction, S.K. was also believed to be in possession of a carabineer with three keys and possibly a white lanyard, a medium-to-large size leopard print purse, and a black cellular telephone with sliding keyboard. S.K. is a white female adult, approximately 5'4" tall, 150 pounds, 18 years old, with shoulder-length brown hair and brown eyes.

10. Video surveillance appeared to show S.K.'s robber/abductor wearing a dark-colored, possibly hooded, jacket, dark-colored glasses, a dark-colored face mask, dark-colored gloves, dark-colored pants; and dark-colored shoes. He appeared to be carrying a white coffee cup and a dark-colored bag. Although to date no weapon has been conclusively identified in the surveillance videos that captured this robbery/abduction, the scene was generally poorly lit and the robber/abductor was not always fully visible. Furthermore, S.K.'s reaction appeared to be consistent with someone who was confronted or threatened with a weapon. In addition, during

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 332 / 567

separate subsequent interviews, both S.K.'s father and boyfriend adamantly indicated that S.K. was very strong-willed and would not have complied with a robber or abductor's demands, unless she had been threatened with a weapon.

11. Surveillance video from a nearby Home Depot at approximately 19:54 AST on 2-1-12 showed a white Chevrolet extended cab truck roll through the Home Depot parking lot and park just east of an International House of Pancakes. From a distance, the surveillance showed an individual with a black garment and hat get out of the truck and walk westbound through the parking lot towards Denali St., cross it, get on the sidewalk, walk southbound on Denali St. to Tudor Rd., cross Tudor Rd. at the intersection, and, finally, exit the frame. The individual's travel was in the direction of the Common Ground Coffee stand, from which S.K. was abducted. One minute later, the video surveillance footage from Common Ground Coffee stand showed the individual who abducted S.K. approach from the direction of the man in the Home Depot video. Approximately two minutes after S.K. and her abductor exited the frame of the Common Ground Coffee stand video footage, two persons appearing to match S.K. and her abductor again entered the frame of the Home Depot video footage, this time walking back towards the location where the white Chevrolet truck was originally parked. The Home Depot video then showed the two people approach the passenger side door of the Chevrolet truck. It then showed the person who appeared to be S.K. enter the passenger side of truck. The other individual then walked around truck, entered the driver's side, and drove out of the surveillance video's frame. As described below, police have now identified KEYES' residence and located a white Chevrolet truck registered to him at that residence. This white Chevrolet truck belonging to KEYES appears to match the vehicle in the Home Depot surveillance footage, although KEYES' truck

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 333 / 567

has several toolboxes and a ladder rack fastened with removable bolts to the truck bed, and these items do not appear on the truck in the Home Depot video.

12. During an interview on 02-02-2012, D.T. (S.K.'s boyfriend) said he went to the coffee stand on 2-1-12 at about 20:33 AST to give her a ride home but the stand appeared to be closed and she was not there. D.T. further reported to law enforcement that on 02/02/2012, at approximately 03:00 AST, he observed an unknown male adult wearing a ski mask and dark clothing going through the vehicle he shared with S.K. D.T. did not alert authorities to the burglary of the vehicle at that time.

13. When D.T. was asked where his ATM debit card was by APD Detectives several days after the abduction, he indicated he had left it in the vehicle he shared with S.K. This vehicle had been seized by APD on 02-02-2012 and searched pursuant to a State of Alaska search warrant. The debit card referenced above was not located during the search; however law enforcement did not notify D.T. of this fact. D.T. indicated that his debit card was a Credit Union 1 VISA debit card (VISA debit card) bearing XXXXXXXXXXXXX2851, expiration 01/15, and that he did not give his VISA debit card to anyone else or give anyone permission to use it. The card is thus believed to have been stolen from D.T.'s vehicle at the time D.T. observed the vehicle break-in. D.T. further related that S.K.'s driver's license had also been in his vehicle. That driver's license was missing when searched for on 02-02-2012, indicating that it also was stolen at that time. I know that a driver's license is generally necessary to leave the State of Alaska by airplane, road or ferry, due to established interstate (or international in the case of travel to/from Alaska via the Alaska-Canada Highway) travel requirements. Furthermore, due to Alaska's unique geographic location, the difficulty of traveling by road

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 334 / 567

through northern Canada in winter, and the lengthy periods generally associated with traveling to/from Alaska by ferry, commercial airlines are the most common and popular mode of interstate travel to/from Alaska, especially during the winter.

Ransom Note and Transfer of Funds to "Ransom Account"

14. On 02-24-2012, at 19:56 AST, D.T. received the following text on his cell phone 907-231-9835 from S.K.'s cell phone 907-884-8370 - "Conner park sign under pic of albert aint she purty". J.K. (S.K.'s father) contacted law enforcement officers and relayed the information. At the request of APD Detectives, at approximately 20:18 AST, APD Patrol Officers arrived at Conner Park located on the southeast corner of Jewel Lake Road and International Airport Road in Anchorage, Alaska. J.K.and D.T. were already present. Attached to the park sign, below a flyer for a lost dog named "Albert," was a ziploc bag which contained a folded piece of paper.

15. On one side of the piece of paper, there was a photograph of S.K. with silver duct tape around her mouth and chin. She appeared to be wearing eye liner, and a light-colored, latex-gloved hand and lightly complected, muscular arm was holding S.K.'s hair. In the upper part of the photo was an Anchorage Daily Newspaper determined to be the issue released on Monday, February 13, 2012.

16. On the reverse side of the piece of paper was a ransom note which demanded $30,000. The note included the 16-digit card number of the debit card belonging to D.T., which he had reported stolen on the night of the kidnaping, as summarized above. This debit card number is correlated to a bank account number held by D.T. and S.K. The note demanded that $30,000.00 be deposited into that account and indicated that the writer of the note intended to withdraw money at regular intervals over the coming days, and in locations other than Alaska.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 335 / 567

Specifically, it said, "I may not use the card much in ak due to small pop but as I will be leaving soon I will be using it all over." The note further gave an indication that S.K. had been moved from Alaska, stating that "she did almost get away twice. once on tudor and once in the desert. must be losing my touch." I know from research, training, and experience, and discussions with law enforcement officers familiar with Alaska that there are no areas in Alaska commonly referred to and known to be "deserts." Many such areas do exist in Arizona, New Mexico and Texas. Subsequent analysis of the demand note by the FBI Laboratory revealed that it was typed with a typewriter that used a carbon ribbon, and that the aforementioned picture on the back of the demand note was printed with an inkjet printer.

17. On 02-29-2012, at approximately 16:55 AST, J.K. contacted APD Detectives and told them he was withdrawing $5,000.00 from the reward account set up for S.K. at Denali Alaskan Federal Credit Union, and he intended to deposit it in the ransom fund, which was an account held by Credit Union 1. Pursuant to a State search warrant obtained by APD Detective Joseph Barth on 02-25-2012, investigators were informed that $5,000.00 was deposited in the Credit Union 1 account indicated on the ransom note, (the account attached to the Credit Union 1 VISA debit card [VISA debit card] bearing XXXXXXXXXXXXX2851, expiration 01/15 issued to D.T).at 17:45 AST on 02-29-2012).

Unauthorized use of Credit Union 1 VISA debit card

18. On 02-29-2012 at 22:13 AST, an unknown person utilizing D.T.'s Credit Union 1 debit card attempted to withdraw $600.00 in US Currency from the account indicated on the ransom note. The attempted withdrawal took place at the Automatic Teller Machine (ATM) located at the Alaska USA bank at 4000 Credit Union Drive in Anchorage, Alaska. Because the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 336 / 567

attempted amount was over the $500.00 daily limit, the withdrawal was declined. Surveillance video in the area of the ATM revealed a male dressed in a black hooded sweatshirt and black pants, operating a light-colored SUV, arrived in the parking lot of the Sea Galley restaurant across the street. After parking the SUV, the male exited and quickly walked across the street to the area of the Alaska USA ATM. The SUV was later determined by the FBI to be a silver Nissan Xterra of a model between the years 2005 and 2012. As noted below, police have now determined that KEYES' girlfriend owns a silver 2007 Nissan Xterra.

19. On 02-29-2012 at 23:56 AST, $500.00 in US Currency was withdrawn from the ATM at the Denali Alaskan Federal Credit Union located at 3020 Minnesota Drive in Anchorage, Alaska. The debit card utilized to withdraw the money was the same Credit Union 1 debit card issued to D.T. Surveillance video obtained of the area revealed this withdrawal was conducted by an unknown male with a muscular appearance wearing a dark-colored, possibly hooded, jacket with a light-colored design or paint spatter on the left chest and front, and light-colored lettering, including possibly "CORPS" across the back shoulders; clear or light-colored glasses; a gray face mask; gray gloves; dark-colored pants; and light-colored shoes.

20. During the course of the investigation, Detective Blanton and Officer Pierce of APD obtained surveillance footage from businesses surrounding the Alaska USA, which is located on Credit Union Drive in Anchorage, Alaska. Immediately before the withdrawal, a hidden surveillance camera located at the Sea Galley at 4101 Credit Union Drive in Anchorage, Alaska captured a similarly dressed male park in the extreme southwest corner of the Sea Galley parking lot driving a silver Nissan Xterra. From the surveillance video, the male appeared to exit the vehicle and walk westbound across the street to the Alaska USA and return a short while

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 337 / 567

later. Both the male's appearance and timing are commensurate with him being the person who attempted to withdraw the money.

21. On 03-01-2012 at approximately 00:28 AST, $500.00 in US currency was withdrawn from the ATM at the Alaska USA located at 7701 Debarr Road in Anchorage, Alaska. As with the prior two transactions, the debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T.

22. On 03-07-2012 at approximately 21:57 AST, $400.00 in US currency was withdrawn from the ATM at the Western Bank located at 200 West Rex Allen Road in Willcox, Arizona. The debit card utilized to withdraw the money was the Credit Union 1 debit card issued to D.T. Surveillance video on the ATM showed the individual using the debit card for the withdrawal was a white male dressed in a gray hooded jacket or sweatshirt, glasses, a gray face mask, gray gloves, dark-colored pants, and light-colored shoes, and appeared to be driving a late model white Ford Focus sedan.

23. On 03-07-2012 at approximately 23:24 AST, there was an attempted $400.00 withdrawal at the Western Bank located at 711 Main Street in Lordsburg, New Mexico, using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) The withdrawal was declined by the ATM as it would have put the debit card over the daily withdrawal limit. At 23:25 AST, at the same ATM, a balance inquiry was conducted on the account utilizing the debit card. The balance shown was $3,598.91. At 23:26 AST, $80.00 was withdrawn from the account utilizing the debit card. Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona.

24. On 3-9-2012 at approximately 23:23 AST, there was a $483.00 withdrawal made

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 338 / 567

at an ATM at Houston Community Bank, 1515 FM 1960 Bypass East, Humble City, Texas. Initial review of the surveillance video from the ATM appeared to show that the individual using the debit card wore similar clothing to that worn during the two aforementioned ATM withdrawals in Arizona and New Mexico.

25. On 03-11-2012 at approximately 23:47 AST, there was a $480.00 withdrawal at the People's State Bank located at 5850 Hwy 59 South, Shepherd, Texas using D.T.'s Credit Union 1 debit card (the same card referenced in prior paragraphs.) Surveillance video on the ATM showed the individual using the debit card wore similar clothing to the first ATM withdrawal in Arizona, as well as the subsequent withdrawals in New Mexico and Texas.

Stop of the White Ford Focus

26. On 03/13/2012, at approximately 11:00 Central Time (CT), Texas Ranger Steven Rayburn, while in the company of FBI Agent Deborah Gannoway, was notified by Texas Department of Public Safety (DPS) Highway Patrol Corporal Bryan Henry (Corporal Henry) that a white Ford Focus sedan bearing Texas license plate DH4N930 was observed parked at the Quality Inn & Suites (QIS), 4306 South First Street, Lufkin, Texas, which is a short drive from Shepherd, Texas.

27. On 03/13/2012, at approximately 11:15 CT, Ranger Rayburn and FBI Agent Deborah Gannoway responded to the QIS, at which time Agent Gannoway conducted a walk-by and visual inspection of the white Ford Focus. Agent Gannoway noted a bar-code sticker on the driver's side back passenger window consistent with stickers applied to rental vehicles. Agent Gannoway also noted numerous items of clothing, trash and other debris in plain sight within the vehicle, including what appeared to be a girl's or woman's pink item of clothing. Ranger

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 339 / 567

Rayburn caused a Texas license plate database search to be conducted which revealed the white 2012 Ford Focus was registered to PV Holding Corporation, 9603 John Saunders Road, San Antonio, Texas. DPS Criminal Investigative Division (CID) Lieutenant Mickey Hadnot (Lieutenant Hadnot) maintained surveillance on the Ford Focus.

28. On 03/13/2012, at approximately 11:30 CT, Lieutenant Hadnot reported to Ranger Rayburn, who was in the company of FBI Agent Deborah Gannoway, that a white male adult exited room 215 of the QIS, placed some items into the trunk of the aforementioned white Ford Focus, and departed the scene alone, driving the white Ford Focus. FBI Agent Gannoway had previously obtained from the QIS front desk manager an "in house list" of all occupants of the QIS on the night of 03/12/2012, which reflected room 215 was rented by ELIJAH KEYES for the time period 03/09/2012 through 03/13/2012.

29. On 03/13/2012, at approximately 11:45 CT, Corporal Henry conducted a traffic stop on the white Ford Focus sedan based in part on FBI Agent Gannoway's suspicion that the vehicle was the same vehicle used in the Arizona, New Mexico, and Texas ATM withdrawals, as well as Corporal Henry's assessment that the driver of the vehicle was traveling in excess of the posted speed limit. Upon FBI Agent Gannoway's arrival at the car stop location, Corporal Henry provided to FBI Agent Gannoway Alaska Driver's License number 7268639, in the name of ISRAEL KEYES, which KEYES had provided to Corporal Henry prior to Agent Gannoway's arrival at the scene. Corporal Henry told Agent Gannoway that KEYES informed him he flew from Anchorage, Alaska, to Las Vegas, Nevada, on 03/07/2012, and that he rented the white Ford Focus at the Las Vegas airport, driving to his present location over the course of the ensuing week. KEYES provided to Agent Gannoway a copy of his car rental agreement, which

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 340 / 567

corroborated his statement that he had rented the car at the Las Vegas, Nevada, airport on 03/07/2012. KEYES was unable to describe to Agent Gannoway the route he drove from Nevada to Texas, but stated he was in Lufkin, Texas, to attend his sister's wedding in Wells, Texas. KEYES told Agent Gannoway he "probably" paid for fuel throughout his travels from Nevada to Texas with cash. Ranger Rayburn reported to Agent Gannoway that there was a pair of large white tennis shoes partially pushed under the driver's seat of the Ford Focus, which Ranger Rayburn could plainly see through the window. During questioning by Agent Gannoway and Ranger Rayburn, KEYES became increasingly agitated and uncooperative, and he refused to allow Agent Gannoway and/or Ranger Rayburn to inspect his wallet (which was in his pocket) or his vehicle. KEYES became unusually nervous and began to sweat profusely, in spite of the slightly cool weather and the tank top which he was wearing at the time. KEYES expressed to Agent Gannoway that if he was going to be kept in the area for a longer period of time, he desired to call his brother (who has KEYES' daughter in a separate car) and notify him of same. Agent Gannoway suggested KEYES make that call. A short time later, the 2012 Ford Focus was transported to and secured at the Lufkin, Texas, Police Department.

30. Based on the aforementioned observations, including the fact that the rented Ford Focus matched the description of the vehicle utilized in the ATM withdrawals in Arizona, New Mexico and Texas, KEYES' arrival in Las Vegas, Nevada, and his subsequent travel from Nevada to Texas very likely resulting in KEYES traveling through Arizona on or about 03/07/2012 (the date of a $400.00 ATM withdrawal in Arizona) and New Mexico on or about 03/08/2012 (the date of an $80.00 ATM withdrawal in New Mexico), KEYES' appearance closely matching the description of the white male adult observed in videos of the above-

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 341 / 567

described ATM withdrawals, KEYES' own admission that he lived in the Anchorage, Alaska, area, KEYES' Alaska driver's license reflecting an Anchorage, Alaska, address, the white tennis shoes under the driver's seat matching the description of the shoes worn by the white male adult observed in the videos of the above-described ATM, as well as other observations, Agent Gannoway instructed Corporal Henry to place KEYES under arrest. Ranger Rayburn, in Agent Gannoway's presence, searched KEYES' wallet, revealing a VISA ATM/Debit card bearing account number XXXXXXXXXXXX2851, expiration date 01/15, in the name of D.T. This card is linked to the "ransom account" identified above, from which the withdrawals and attempted withdrawals summarized above were made.

Discovery of KEYES' White Chevrolet Truck

31. APD Detectives discovered that ISRAEL KEYES listed a mailing address of 3705 Arctic Blvd. #2891 in Anchorage, Alaska, on 07-18-2011, which is the Mail Cache. APD Detectives also discovered that KEYES listed a residential address of 2456 Spurr Lane in Anchorage, Alaska, as of 07-18-2011.

32. On 03-13-2012 at approximately 10:30 AST, members of the APD Special Assignment Unit went to KEYES' home address at 2456 Spurr Lane in Anchorage, Alaska. No one answered repeated knocks on the door. Per APD Sergeant Redick, there were fresh tire impressions in the snow in the driveway of the address that appeared as if a vehicle had been parked there as recently as the morning of 03-13-2012.

33. There was also a white Chevrolet pickup truck parked in the driveway of the address. The truck had a large toolbox in the bed and a ladder rack on top. The bolts securing those items were removable and appeared to have been recently added. The license plate on the

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 342 / 567

truck was Alaska license plate FTC990, relating to a white 2004 Chevrolet Silverado, registered to ISRAEL KEYES at 2456 Spurr Lane in Anchorage, Alaska. The white Chevrolet truck appeared to match the vehicle appearing in the Home Depot surveillance video, as summarized above. Further, Detectives eventually contacted KEYES' girlfriend and discovered that she drives a 2007 Nissan Xterra, which matched the general description of the vehicle used by an individual who appeared to attempt to use the stolen debit card on 2-29-12, as summarized above.

Execution of Search Warrant on Ford Focus

34. On March 16, 2012, law enforcement agents in Beaumont, Texas obtained a search warrant, which authorized the search of the white Ford Focus driven by KEYES. Execution of that search warrant on March 17, 2012 revealed numerous items, including a cellular phone believed to belong to S.K.

Initial Interviews with Israel Keyes

35. KEYES was transported to Anchorage, Alaska and arraigned on March 27, 2012 on one count of Access Device Fraud. He was provided defense counsel at government expense. Subsequently, KEYES agreed through counsel to be interviewed by law enforcement. On March 30, 2012, two interviews with KEYES took place. In the first interview, investigators presented KEYES with a selection of the evidence and investigative actions summarized above. KEYES then requested some time to speak alone with his attorney. Several hours later, KEYES agreed through counsel to be interviewed by law enforcement. In this second interview, KEYES stated that he had abducted S.K. on 2-1-12, and that she had been dead before he left for a vacation approximately ten hours after the abduction. KEYES indicated that S.K.'s body could be found

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 343 / 567

in Matanuska Lake in Alaska, and identified the precise location at which he had dropped her remains through the ice. KEYES indicated that he raped S.K. before and after murdering her, and that he believed that law enforcement would find his DNA when they found her body. KEYES indicated that he had "lots more stories to tell," and stated that his ex-girlfriend knew nothing of his criminal activities, as he was "two different people." When asked how long he had been "two different people," KEYES immediately and specifically responded, "fourteen years."

36. On April 1, 2012, KEYES agreed through counsel to a third interview with law enforcement. In this third interview, KEYES explicitly stated that he murdered S.K., and gave substantial details about the murder. He further explained how he posed S.K.'s body to appear alive in order to take the ransom photograph noted above, and gave details about the location and manner of his disposal of S.K.'s body.

Discovery of S.K.'s Body

37. On April 2, 2012, investigators discovered S.K.'s remains in Lake Matanuska, at the precise location identified by KEYES. SK's remains were transported to the State of Alaska Medical Examiner's office for a forensic exam and autopsy. During the course of this exam, trace evidence including hairs were removed from S.K.'s. Body.

Fourth interview with KEYES

38. On April 6, 2012, KEYES agreed to a fourth interview, on the explicit terms that the S.K. case would not be discussed. KEYES indicated his willingness to share "other stories"

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 344 / 567

with investigators. In this interview, KEYES implied that he had murdered many persons over the past fourteen years, in many different locations. KEYES stated that he had many "cards to play," and didn't want to give them all away at once. He was asked to give the identity and location of just one body. After thinking silently for about twenty seconds, KEYES stated, "I'll give you two." He then confessed to the kidnapping, carjacking and murder of B.C. and L.C. near Burlington, Vermont in June 2011. After working with an electronic map for approximately thirty minutes, KEYES located the abandoned farmhouse in which he believed he had disposed of their remains. KEYES also indicated that he thought that his DNA might be recovered when they recovered the bodies.

39. A quick records check verified that, indeed, Bill and Lorraine Currier, ages 49 and 55, had inexplicably gone missing on June 8, 2011. KEYES stated that, when he killed the Curriers, he was in Vermont en route to a vacation in Maine, technically visiting family. KEYES identified one hotel at which he stayed, and indicated that Bill and Lorraine Currier had lived in a house several blocks from this hotel; KEYES indicated he had chosen the Curriers randomly.

40. Vermont investigators have been contacted and are working on attempting to corroborate KEYES' confession. Investigators contacted the hotel identified by KEYES and verified that he had indeed been a guest there during the relevant time period. However, the farmhouse where KEYES stated that he disposed of the bodies has been demolished. Investigators plan on excavating the area where the farmhouse stood this week.

41.. During their investigation, which involved the forensic processing of the Curriers'

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 345 / 567

vehicle that had been taken, investigators collected hairs and DNA. Accordingly, comparison of KEYES' DNA to that which has been recovered (as well as DNA that might be recovered should the Curriers' bodies be found), might result in confirming KEYES' confession.

42. On the basis of these facts and my training and experience, I believe that there is probable cause to believe that DNA samples from KEYES will provide evidence to link him to the abductions and murders of S.K., and Bill and Lorraine Currier. I consulted with AUSA Frank Russo about the proper vehicle in which to bring this request to the court. AUSA Russo advised me to apply for a search warrant as the giving of a DNA sample does not constitute a testimonial communication, and therefore does not violate Vongthongdy's Fifth and Sixth Amendment rights. United States v. Lewis, 483 F.3d 871, 873-874 (8th Cir. 2007) (collection of buccal swabs was not a critical stage of the proceeding and did not violate the defendant's Sixth Amendment right to counsel); see also, United States v. Wade, 388 U.S. 218, 227 (1967) (preparatory steps in the gathering of the Government's evidence "such as systematized or scientific analyzing of the accused's fingerprints, blood sample, clothing, hair and the like" do not violate the defendant's Sixth Amendment right to counsel).

Case ID #: 306-AN-15642 (Pending) -153

Title: ISRAEL KEYES
SAMANTHA TESSLA KOENIG - VICTIM;
SERIAL KILLINGS

Synopsis: Request for Laboratory Division ERTU/HMOU assistance.

Details: Albany Division requests the Evidence Response Team Unit (ERTU) provide assistance to Albany Division in coordinating resources from Hazardous Material Operations Unit (HMOU) and additional Evidence Response Team (ERT) personnel in support of the search for human remains at a landfill in Coventry, Vermont.

Background of the Investigation and Intelligence that has led the FBI to the Landfill

Anchorage Division contacted Albany Division at the Burlington RA to report that the subject of captioned matter, Israel Keyes, confessed to killing Bill and Lorraine Currier, of Essex, Vermont, in June, 2011. The Curriers have in fact been missing since June, 2011. Anchorage Division reported that Keyes left the Curriers' bodies [redacted] in the basement of an old abandoned farmhouse in Essex, Vermont. From the description provided by Anchorage Division, Vermont b6 b7C

UNCLASSIFIED

[redacted]

ERTU - Request

306-AN-15642;153

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 350 / 367

authorities determined that the farmhouse was located at 32 Upper Main Street, Essex, Vermont. Further investigation revealed that this abandoned farm house was demolished in October, 2011. While conducting the demolition and excavation, the machinery operator noticed a plastic bag, and smelled a strong odor coming from the house. The smell was similar to the smell of a dead animal. When the basement was cleared of debris the strong smell was gone, and the basement was filled in with the stone walls that were once the first floor walls of the farmhouse. The area was then covered over with dirt.

Anchorage Division reported that Keyes stayed at a motel in Vermont around the time the Curriers went missing. Investigators identified this motel and located Keyes name in the motel guest register where he checked in as a guest around the time the Curriers went missing.

On April 12 and 13, 2012, the basement of the abandoned farmhouse was searched by investigators with the FBI, the Vermont State Police and the Essex Police Department, however, no human remains were recovered. It is presumed that the remains were among the debris carted away from the demolished farmhouse in October, 2011. The debris from the farmhouse was first taken to the All Cycle Transfer Station in Williston, Vermont where it was then reloaded onto trucks and transported to a landfill in Coventry, Vermont.

While the search of the old farmhouse did not yield any human remains, Anchorage Division also provided Albany Division with information as to the location of weapons hidden/disposed of by Keyes in the Adirondack Mountains of New York, specifically in the area of a boat launch at the Blake Falls Reservoir, Parishville, New York. Anchorage Division reported that Keyes hid a Home Depot bucket under a 4' x 6' rock, and that Keyes threw a barrel and bolt from a Ruger 10/22 into the Blake Falls Reservoir. The Home Depot bucket was recovered by Albany ERT on April 18, 2012, and the bolt and barrel were recovered by the USERT on April 24, 2012.

What is the rush to search the landfill?

The Curriers have been missing since June, 2011. The information received from Anchorage Division is one of the first solid leads received concerning the Curriers disappearance. The US Attorney's office in Anchorage intends on charging Keyes with kidnaping of the couriers. Additionally, the FBI and the Essex

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 351 / 567

To: Laboratory From: Albany
Re: 306-AN-15642, 05/01/2012

Police Department would suffer negative press and community relations should an attempt to recover the Currier's bodies at the landfill be declined.

How and when were the bodies transported to the Landfill?

Investigation has determined that the debris from the basement of the abandoned farmhouse most likely arrived at the Coventry, Vermont landfill from All Cycle Transfer Station late in the day on October 26, 2011, or on October 27, 2011. Landfill operators have identified the approximate waste placement area of trash on the day of October 26, 2011, and on the day of October 27, 2011, to encompass an area of approximately 100 feet X 140 feet and approximately 12 feet deep.

Shortly after the trash was deposited at the Coventry Landfill on October, 26, 2011, and October, 27, 2011, this area of the landfill was closed and no further trash was dumped in this area. As a result, the trash to be searched is at or near the top of the landfill. In preparation for the closure of this area of the landfill, Casella Waste Systems took aerial photographs of the landfill on October 28, 2011. The landfill management has provided the FBI with an aerial photograph dated October 28, 2012, along with topographical maps that depict approximate waste placement on the days in 2011 of October 24, 25, 26, 27 and 28.

Where were the bodies placed that resulted in the bodies being placed in the trash?

See above.

What day were the bodies taken to the transfer station and then to the landfill?

The demolition of the old farmhouse occurred between October 25, 2011 and October 27, 2011. Debris was hauled from the site of the old farmhouse to the All Cycle Transfer Station in Williston as follows:

October 25, 2011 -- 10 trips/loads
October 26, 2011 -- 8 trips/loads
October 27, 2011 -- 2 trips/loads

Trash was hauled from the All Cycle Transfer Station to the Coventry Landfill as follows:

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 352 / 567

To: Laboratory From: Albany
Re: 306-AN-15642, 05/01/2012

October 25, 2011 -- 13 tractor trailer loads
October 26, 2011 -- 13 tractor trailer loads
October 27, 2011 -- 12 tractor trailer loads

Based on interviews of the crew that demolished the old farmhouse, it is believed that the debris from the basement was cleared from the area of the old farmhouse in the afternoon of October 26, 2011, and dumped the next day at the Coventry Landfill. It is unlikely that debris cleared on October 25, 2011, included material from the basement inasmuch as the demolition crew demolished the house starting with the second floor of the structure working their way down to the basement.

What carting company hauled the debris from the Old Farmhouse to the All Cycle Transfer Station and from the All Cycle Transfer Station to the Coventry Landfill?

Farmhouse to All Cycle Transfer Station: [redacted] b6 b7C
(independent hauler)
All Cycle Transfer Station to Coventry Landfill: MBI Trucking

Is there a transfer station between the Old Farmhouse and the Coventry Landfill?

Yes, All Cycle Transfer Station. See above.

How many tons of trash does the landfill received daily?

Casella Waste Management personnel at the Coventry Landfill provided topographical maps, each of which identifies the approximate waste placement and the approximate cubic yards of waste placed as follows:

Date	Approximate Cubic Yards Placed
10/24/2011	2,220
10/25/2011	2,220
10/26/2011	1,900
10/27/2011	1,680
10/28/2011	1,720

What exactly are you looking for?

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 353 / 567

To: Laboratory From: Albany
Re: 306-AN-15642, 05/01/2012

The bodies of Bill and Lorraine Currier.

Do you have probable cause for a search warrant?

The authority for the search will be via consent received from Casella Waste Systems Inc. The United States Attorney's office in Vermont is coordinating getting the necessary waivers from regulatory bodies in Vermont.

Where is the trash going to be spread for the search?

The landfill will prepare with gravel a 100' x 200' staging area for trash to be searched by search personnel. The staging area is approximately 150 feet from the excavation site. Albany Evidence Response Team Senior Team Leader believes this area will be sufficient for one and possibly two sifting operations. After the waste has been sifted, a bulldozer will push the waste off to the side where it will be compacted by landfill personnel when appropriate.

The landfill will also prepare with gravel walking areas and an area for a shelter/tents on top of the landfill for workers to take breaks while heavy equipment replaces the searched trash with un-searched trash. Additionally, off the pile, there is a turn around area on the access road on which rented construction trailers can be placed for searchers to have lunch.

What heavy equipment is available to assist with the search?

Casella Waste Systems is not able to provide its landfill equipment for the search and also maintain its normal operations at the landfill. Casella Waste Systems proposed the following equipment and is requesting quotes from Casella Construction: one excavator with grapple, one loader, one bulldozer, and one water truck.

Do you have a realistic timeline?

Based on the estimated, average figures provided by ERTU in their Landfill Search Considerations white paper, specifically that teams of 20 people could search 400 to 500 tons of garbage per day, and that an area 100 feet x 150 feet, by 10 feet deep contains approximately 4200 tons of garbage, Albany estimates its search area, which is similar in size to the area referenced in the white paper, taking between ten and fifteen days to search.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 354 / 567

To: Laboratory From: Albany
Re: 306-AN-15642, 05/01/2012

If nothing is found after ten days, Albany Division will reassess the search operation.

Who is going to pay for the search?

This is a lead on an Anchorage Division case being worked by Albany Division in Albany Division territory. CID has provided an enhancement to Albany Division's budget to begin covering the costs of the landfill search.

Other information concerning the Coventry Landfill received from Casella Waste Management personnel

The landfill receives medical waste, however, the last medical waste received in the area to be searched was on October 10, 2011. The landfill mixes treated solid human waste with the trash it receives at the landfill. The trash to be searched which was dumped in October, 2011, was mixed with treated solid human waste.

Landfill safety personnel recommend the following PPE: Safety boots, double gloves (nitrile gloves under good leather/canvas gloves), four gas meters for FBI safety personnel, half face respirators with P100 filters. Gases at the landfill include methane and hydrogen sulfide. The heat coming off the trash will be approximately 90 - 100 degrees Fahrenheit.

Re: 306-AN-15642, 05/01/2012

Personnel Protective Equipment (PPE), other supplies, HMOU and Specialists needed

Albany requests the following:

1. Request ERTU coordinate approximately 15 field ERT personnel to assist with the landfill search.
2. PPE for approximately 30 search personnel consisting mostly of FBI personnel and a small group of Vermont state and local law enforcement officers who will provide support for the landfill search.
3. Digging, sifting and other tools necessary to appropriately conduct a landfill search.
4. Forensic anthropologists for bone identification.
5. Request support from HMOU
   a. To set up an incident command structure,
   b. To provide a safety officer,
   c. To provide a paramedic,
   d. To provide shelter for lunch and breaks,
   e. To provide porta-johns,
   f. To provide decontamination areas,
   g. To provide command post vehicles that support connectivity--high side, low side, SVTC,
   h. Other items deemed necessary to support the safety of personnel at a landfill search.
6. In preparation for the search, request that HMOU coordinate with
   a. Casella Waste Systems safety personnel
   b. Local EMS and local fire department

and/or Specialists Used (Notes/Observations)	
Crime Scene Conference (Notes/Observations)	
Final Survey (Notes/Observations)	
Narrative (Notes/Observations)	Received consent to search the premises surrounding the southern boat launch at the Blake Falls Reservoir from [redacted] Supervisor, Brookfield Renewable Energy Partners L.P. USERT SA [redacted] was present at the beginning of the search conducting a site survey for a future dive operation. SAs [redacted] searched around large rocks between the boat launch driveway and the area of the creek. Also walked the woods on the south side of the creek approximately 75 yards to the south of the boat launch area driveway. The cleared area between the road and the tree line is covered with a thick growth of tall grass/sticker bushes. There are areas of steep drop offs between the road and the tree line, however, once in the tree line, the incline is not as steep. There is a large rock approximately 6' high by 12' wide located immediately to the south side of the creek near the reservoir (see photos). At approximately 2:15pm, SA [redacted] located a large rock slab that was approximately 4' wide by 6' tall. The rock slab stood approximately 6' tall, and it was leaning against a large boulder which was mostly in the ground, but was partially exposed on the downhill side. The rock slab was in an area of relatively steep terrain. The 4' x 6' rock slab was standing on its end, and it was leaning against the large boulder at about a 70 degree angle, creating a sheltered area between the rock slab and the boulder. On the ground in the sheltered area was a pile of bowling ball sized rocks which were covered by a few broken branches. Among the bowling ball sized rocks were chunks of moss which appeared to have been placed on

b6
b7C

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 371 / 567

ADMINISTRATIVE WORKSHEET

the bowling ball sized rocks rather than growing there naturally. A Home Depot bucket with a lid was concealed beneath these bowling ball sized rocks.

The location of the 4'x6' rock slab was approximately 329' south of the boat ramp driveway. A sketch was prepared for the area of the rock slab. In order to measure the rock slab into the sketch, measurements were taken from a power line pole to the south of the 4'x6' rock slab and from a tree on the Raquette River Road. The location of the tree on Racquette River Road was also approximately 329' from the boat ramp driveway. The tags on the power line pole were noted and photographed. The initials "TKT" were spray painted in red on the tree next to Raquette River Road. In addition, a red line was sprayed on Raquette River Road in the front of the tree with the "TKT" initials. "TKT" was also spray painted in red on the underside of the 4'x6' rock slab. The GPS coordinates of the location of the 4'x6' rock slab were as follows: N 44 degrees 28.067', W 074 degrees 45.813'.

The Home Depot Bucket was carried back to the area of the boat launch where the lid was opened and the contents of the bucket were inventoried, photographed, and packaged.

The Home Depot Bucket and its contents were transported by SA [redacted] and SA [redacted] to FBI Albany. The Home Depot Bucket and its contents were temporarily secured for the evening in the ERT room by engaging the combination lock to the ERT room. On 4/19/2012, the evidence was sealed by SA [redacted] and SA [redacted] and turned over to evidence control.

SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: May 1, 2012

The FBI Laboratory has received your request for examination. The accompanying items of evidence have been inventoried. The provided listing and description of the submitted items may be subject to change when the examination phase begins. If changes are made, they will be reflected in the Report of Examination issued by the examiner making the change.

Specimens:

K1 Taurus revolver, Serial Number CY51304 (1B24, E5123093)

K2 Smith & Wesson pistol, Serial Number PBA6901 (1B25, E5123094)

Each examiner assigned to your request will issue a separate Report of Examination that will address the results of his/her expertise. For technical questions, contact the following unit(s) assigned to your case: Firearms/Toolmarks Unit - [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com

306-AN-15642; 164

If there is a change in the status of your investigation that would have an affect on the prioritization of your request, such as court deadlines, dismissal of charges, or guilty pleas; or if you have questions regarding the status of your case, contact Request Coordinator [redacted]

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Synopsis: Report late filing of Accomplishment Report (FD-515).

Details: An FD-515 containing information regarding the charging of Israel Keyes, [redacted], was submitted after the expiration of the 30-day deadline for filing accomplishment reports. This was due to an oversight by the case agent and his involvement in the extensive exigent investigative follow-up and evidence collection efforts, including the continued search for Koenig, that were required immediately following the apprehension of Keyes. In addition, the U.S. Attorney's Office (USAO) failed to automatically provide [redacted]

Title: Israel Keyes;
Samantha Tessla Koenig - Victim;
Et Al;
Serial Killings-Violent Criminal Threat

Synopsis: Report late filing of Accomplishment Report (FD-515).

Details: A FD-515 containing information regarding the arrest of Israel Keyes was submitted after the expiration of the 30 day deadline for filing accomplishment reports. This was due to OST [redacted] of Dallas' inability to enter this FD-515. She received a message from ISRAA that this case was an invalid file number for the Dallas Division.

Caller says she saw Israel Keyes driving North on the Glenn Highway at about the Ft. Richardson exit on March 2 at 11:30am. She photographed his vehicle because she is in sales and cold calls businesses so she photographs the advertising information on cars as she drives. Caller recalls passing Keyes Construction vehicle on her way to Eagle River and seeing driver, now recognizes him from photograph in newspaper as Israel Keyes. Caller is emailing picture of vehicle to IA [redacted] will forward to SA [redacted] on receipt. b6 b7C

Request:

SA [redacted] of the Anchorage Field Office requested via telephonic communication on April 3, 2012 and electronic communication dated April 6, 2012 that the Forensic Audio, Video and Image Analysis Unit enhance images of the questioned individual and determine the make, model and year of the questioned vehicles. b6 b7C

Opinions and Conclusions:

The questioned SUV type vehicle depicted in the Q2 and Q3 images shares class characteristics with a 2005-2012 NISSAN XTERRA. Due to insufficient image detail, no conclusion could be reached on the make, model and year of the questioned truck image.

Summary of Examination:

Selected images were electronically processed and saved. A comparison was conducted between the questioned SUV depicted in the Q2 and Q3 images and images of 2005-2012 NISSAN XTERRA.

Details of Examination:

The Q2 and Q3 submitted evidence was reviewed to locate images which best depict the questioned vehicles and individual. Selected images were electronically processed and printed.

A search was conducted using the Digital Automotive Image System (DAIS) and resources available to the public on the internet to locate vehicles whose class characteristics correspond to those of the questioned vehicles depicted in the Q2 and Q3 images. The SUV type questioned vehicle shares class characteristics with the 2005-2012 NISSAN XTERRA. Due to insufficient image detail the make and model of the questioned truck depicted in the Q2 and Q3 images could not be determined.

Processed images from Q2 and Q3 were saved to a compact disc which was labeled as DE1.

Disposition of Evidence:

Processed images from Q2 were saved and electronically transferred to SA [redacted] on April 2, 2012.

For Official Use Only

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 475 / 567

The Q2 CD, Q3 CD and DE1 CD produced during these examinations were forwarded to your office on May 8, 2012 via Fed Ex.

[redacted] 10/3/2012

b7E

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 477 / 567

Caller advised that she works at Alaska Healing Arts Chiropractic at the corner of Laurel and East 42nd in the vicinity of the Tudor and Lake Otis intersection. Caller advised Healing Arts has an employee parking lot in the rear of the building that is a cul-de-sac type lot, utilized only by employees. Caller advised that at approximately 5:45 p.m., one January evening shortly before the KOENIG abduction, she was the last employee to leave work. Caller left the building and was walking across the empty parking lot towards her car when a maroon Jeep Cherokee, license number beginning in "G", entered the parking lot, drove the length of the parking lot, backed up the entire way and parked directly next to her vehicle. Caller said the lone male occupant of the vehicle stared at her and watched her get into her vehicle. Caller said she found it odd at the time and reported to her coworkers that a strange man was lurking in their parking lot and to be careful when leaving after hours. Caller said, after seeing a picture of KEYES in the Anchorage Daily News, she believes he was the occupant of the Jeep.

Title: SERIAL KILLING INVESTIGATION
OO: AN

Synopsis: To request Laboratory examination(s).

Administrative: Reference telcal between SA [redacted] of Albany Division and Examiner [redacted] of the Trace Evidence Unit on 05/15/2012.

Package Copy: Being forwarded under separate cover is evidence item 1B187, Barcode E4254807, described as "Hair mass" (Evidence Item #1 on the Evidence Recovery Log)

Details: The Laboratory is requested to conduct hair and, if applicable, DNA examinations, on evidence item 1B 187, Barcode E4254807, described as "Hair mass" (Evidence Item #1 on the Evidence Recovery Log).

Summary of case: In June 2011, William and Lorraine Currier went missing from their home in Essex, Vermont, under suspicious circumstances. In April 2012, the Anchorage Division was investigating a separate kidnaping/murder investigation. During an interview of Anchorage's subject, the subject confessed to murdering the Curriers. Information provided by the subject led investigators to an abandoned farmhouse in Essex, Vermont, where the subject claimed to have left the Curriers' bodies. Investigators determined that the abandoned farmhouse was torn down in October, 2011, and the contents of the farmhouse was tracked to the Coventry landfill, in Newport, Vermont.

To: Laboratory From: Albany
Re: 306-AN-15642, 05/15/2012

Since May 7, 2012, ERT team members from Albany, Boston, New York and Newark, along with members of the Vermont State Police and the Essex, Vermont Police Department, have been searching the Coventry Landfill for the remains of William and Lorraine Currier. The search is being conducted with consent of the landfill owner, New England Waste Services.

On 05/11/2012, a mass of hair was found by the ERT searchers. The mass of hair (evidence item 1B 187, Barcode E4254807) is being sent to the Trace Evidence Unit for hair examinations, specifically to determine if the hair is human.

If the hair is human, it is requested that the Laboratory conduct appropriate DNA examinations to develop a DNA profile for comparison to known DNA profiles of Bill and Lorraine Currier. The Vermont State Laboratory (VSL) has a DNA profile for Lorraine Currier as well as a male DNA profile which is believed to be William Currier's. The male profile was derived from a razor collected from the Curriers residence. The Point of Contact at the VSL is Examiner [redacted] telephone [redacted] b6 b7C

***The identifying information for the Curriers is as follows: WILLIAM S. CURRIER, aka Bill Currier, white male, DOB 04/04/1961, SSN 009-56-3741, FBI# 751667EA3, HGT: 5'11", lka 8 Colbert Street, Essex, Vermont; LORRAINE CURRIER, white female, DOB 07/04/1955, SSN 008-42-5554, HGT: 5'4", lka 8 Colbert Street, Essex, Vermont.

SUMMARY

Synopsis of Complaint:
Complainant advised that an "employee" of Alaska Snow Removal was saying "weird" things about Samantha Koenig a day or two after her disappearance.

SENSITIVE INVESTIGATIVE MATTER

A "Sensitive Investigative Matter" (SIM) relates to investigative activities where the nature of the person or group being assessed should be brought to the attention of FBI Headquarters and other DOJ officials. CDC review and SAC approval is required for all SIMs. Use the checkbox below to signify that this assessment is a SIM. Once the box is checked, follow the prompts on the form to provide additional details regarding the SIM.

☐ Sensitive Investigative Matter

Details of the Complaint:
Complainant advised that he is a heavy equipment operator and as such, performs some work on an on-call basis for Alaska Snow Removal (ASR) located at 2134 E. 88th Avenue. C advised that ASR employs a large transient staff of contract laborers, plow drivers, and heavy equipment operators, such that most of the "employees" don't know each other. C was at the ASR shop preparing for work a day or two after the disappearance of Koenig. On this occasion, C was approached by another ASR "employee" (UM1, NFI) who said he overheard another ASR "employee" (UM2, possibly a laborer, NFI) saying weird things about Koenig. This led C to believe that UM2 may have had some intimate knowledge of Koenig's disappearance. C did not hear or did not recall hearing what UM1 heard UM2 say. C suggested law enforcement attempt to determine who was employed at ASR a day or two after her disappearance.

2. Search warrant for black LG cellular telephone.
3. Search warrant for AT&T Pantech cellular telephone, model #P2000.

Details: On 02/01/2012, the victim, Samantha Koenig, was abducted from her place of employment, Common Grounds coffee stand in Anchorage, Alaska. On 03/13/2012, the subject, Israel Keyes was arrested in Lufkin, Texas. Keyes has been interviewed on multiple occasions and has admitted to killing Koenig and provided details about the abduction and homicide. In addition, Keyes has admitted to killing two other individuals in Vermont and eluded to his involvement in other homicides over the past fourteen years.

The following items of evidence are being sent to Operational Technology for analysis:

1B7 (bar code E5123674) Item 32A: Samsung SCH-R631, Black cellular phone, possible serial number A0000023DD5112 or 80015743, FCC ID#A3LSCJR631, victim's phone.

eyeglasses

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/17/2012

On April 16, 2012, SA [redacted] met Essex Police Department Detective Corporal [redacted] at 32 Upper Main Street, Essex, Vermont, the site of a search/excavation that had taken place on April 12-13, 2012. Shortly before her arrival, Det. Cpl. [redacted] advised SA [redacted] by cell phone that a pair of eyeglasses had been found at 32 Upper Main Street earlier that morning by [redacted] of the excavation company Ormond Bushey and Sons, Inc. had been present at the address for follow-up work related to the excavation.

When SA [redacted] arrived at the address, Det. Cpl. [redacted] advised her about his earlier meeting with [redacted] told Det. Cpl. [redacted] that he found the eyeglasses on the ground and had picked them up. Det. Cpl. [redacted] marked the location where the eyeglasses were found with a small piece of metal pipe. Det. Cpl. [redacted] took the eyeglasses from [redacted] at 9:30 a.m. and secured them in a plastic evidence bag. A person by the name of [redacted] was also present when [redacted] turned the eyeglasses to Det. Cpl. [redacted] Det. Cpl. [redacted] had handled the eyeglasses with their bare hands.

With SA [redacted] present, Det. Cpl. [redacted] further marked the location where the eyeglasses had been found with a wooden stake and yellow tape. SA [redacted] took several photographs of the location with this marker in place.

SA [redacted] and Det. Cpl [redacted] triangulated the location of the eyeglasses. The eyeglasses were located 75'10" from the telephone pole on the western side of the driveway/entrance to the property (from Route 15) (of the two telephone poles at this location the one furthest to the west was used as a marker) and 69'5" from the northeast corner of the concrete top of a drain, which was 9'11" from the aforementioned telephone pole.

SA [redacted] responded to 32 Upper Main Street and accepted custody of the eyeglasses at 12:20 p.m. SA [redacted] then transported the evidence to the Albany/Burlington, Vermont Resident Agency.

At approximately 6:00 p.m. on the same date, SA [redacted] returned to 32 Main Street to take additional photographs. The

Investigation on 4/16/2012 at Essex, Vermont

File # 306-AN-15642-186 Date dictated 5/17/2012

by SA [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

306-AN-15642;186

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 494 / 567

additional photographs were taken to document the location of the eyeglasses in relation to the location of power sifter that was used during the search/excavation between April 12-13, 2012. The former location of the power sifter (it had since been removed) was evident by the impression it had left on the ground. SA [redacted] re-marked the spot where the eyeglasses had been found with an orange flag. The former marker had been removed but the spot was identifiable by the impression left by the metal pipe which had been used originally to mark the location by Det. Cpl. [redacted]

b6
b7C

On April 27, 2012, SA [redacted] while using gloves, repackaged the eyeglasses in a paper envelope. The original packaging was preserved with the eyeglasses within the paper envelope.

Enclosed in the 1A Section of the file are the following:

(1) Essex Police Department Evidence/Property/Receipt Log for the collection of the eyeglasses at 32 Upper Main Street, Essex, VT.

(2) FD-597 documenting receipt of the evidence from Det. Cpl. [redacted]

(3) Notes and sketch of SA [redacted]

(4) CD containing photographs of the location of eyeglasses at 32 Upper Main Street. The CD contains a set photographs taken at approximately 11:30 a.m. and a set of additional photographs taken at approximately 6 p.m.

Title: ISRAEL KEYES
SERIAL MURDER INVESTIGATION

Synopsis: To set forth lead to the Seattle Division.

Details: On 05/22/2012 the Anchorage Division interviewed KEYES in reference to ongoing criminal activity that he conducted through out the United States.

As a result of this interview KEYES indicated the FBI should seize his boat that he utilized in 2005-2006 in Washington State. KEYES stated there could be DNA evidence to include blood inside the boat. KEYES also indicated that there may be blood evidence in or on the motor of the boat.

Investigators believe KEYES utilized this boat to dispose of at least two bodies in Washington State area lakes. Further investigation to identify these bodies of water is ongoing at this time.

The above interview was recorded both by video and audio in the Anchorage Division. During this interview KEYES gave verbal consent for the FBI to seize his boat.

The boat should be located at the residence of [redacted] who SA [redacted] has previously interviewed.

The boat is described as a 15 to 16 foot Bayliner on a trailer with an 80 horsepower outboard motor. The boat may also have a cover.

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM,
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Synopsis: Set leads for logical investigation and evidence collection/recovery of a revolver stolen from the home of murder victims William and Lorraine Currier of Essex, Vermont, by subject Israel Keyes, in captioned matter.

Administrative: Reference recent Bureau telcalls between Special Agent (SA) [redacted] (Anchorage Division), SA [redacted] (Albany Division) and Supervisory Special Agent (SSA) [redacted] (Laboratory Division).

Details: Israel Keyes recently confessed to the armed kidnapping, carjacking, aggravated assault and murder of William and Lorraine Currier of Essex, Vermont, on 06/08-09/2011. During these confessions, Keyes provided extremely accurate information, which led to the recovery of the murder weapon and associated items at the Blake Falls Reservoir in upstate New York. The boat launch near where these items were recovered is located just north of the bend where River Road becomes Raquette River Road, and the coordinates are approximately 44 degrees 28'07.17" north by 74 degrees 45'47.07" west. The barrel and bolt of the murder weapon, which was a Ruger 10-22, were recovered by members of the FBI Underwater Search and Evidence Recovery Team (USERT) in shallow water approximately 50-70' due south from the southeast corner of the aforementioned boat launch. Other associated evidence was located nearby on land.

SA [redacted] and SSA [redacted] are familiar with the aforementioned area and operations, and they participated in the site survey and/or evidence recovery operation which occurred on or about 04/18/2012. In addition, SA [redacted] USERT Team Leader (TL), New York Division, conducted a survey and participated in this evidence recovery operation.

UNCLASSIFIED

306-AN-15642-191

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 501 / 567

To: Albany From: Anchorage
Re: 306-AN-15642, 05/23/2012

Additional information provided by Keyes indicated that he disposed of the .38 caliber snub-nosed revolver that he stole from the Currier's home during their abduction, in the same area of the Blake Falls Reservoir that he tossed the barrel and bolt from the murder weapon. Keyes believed that the revolver should be within several feet of the location of the barrel and bolt. The revolver had a blued finish. Recipient(s) are referred to the audio recordings dated 04/12/2012 and 05/08/2012 on the Sharepoint site [redacted] for additional details. b7E

Much of the known physical evidence that could tie Keyes to the Curriers was destroyed by Keyes or others, has been degraded by the elements, or has yet to be recovered. Therefore, the revolver he stole from their home and disposed of in the Blake Falls Reservoir in upstate New York is an important item of evidence, which could be used to corroborate Keyes' confession and substantially strengthen this case. Consequently, it is requested that SA [redacted] coordinate with SSA [redacted] to deploy appropriate elements of the USERT to conduct logical investigation and evidence collection/recovery of a revolver stolen from the home of murder victims William and Lorraine Currier of Essex, Vermont, by subject Israel Keyes, in captioned matter. b6 b7C

Complainant claims to have seen missing person, Samantha KOEING, along with [redacted] and an unidentified male, on 02/08/2012 at mile marker 122, Richardson Hwy.

SENSITIVE INVESTIGATIVE MATTER

A "Sensitive Investigative Matter" (SIM) relates to investigative activities where the nature of the person or group being assessed should be brought to the attention of FBI Headquarters and other DOJ officials. CDC review and SAC approval is required for all SIMs. Use the checkbox below to signify that this assessment is a SIM. Once the box is checked, follow the prompts on the form to provide additional details regarding the SIM.

Reference: Communication dated May 15, 2012

Your No.:

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: May 17, 2012

The following specimen was examined in the Trace Evidence Unit (Hair and Fiber):

Q4 Debris (1B187, E4254807)

The results of the trace evidence examinations (hair) are included in this report.

Methods:

Microscopic examination of hairs is accomplished by using stereomicroscopy and comparison microscopy. The presence or absence, appearance, arrangement and distribution of the characteristics within the cuticle, cortex, and medulla of the hairs are examined and may be compared during a hair examination.

1 - Rutland RA
SA [redacted]

306-AN-15642;193

FBI Records: The Vault — Israel Keyes LastKnownContact.com Page 27 of 508 / 567

Results of examinations:

The specimen Q1 debris is comprised of human hairs. Two (2) hairs were found with roots which do not contain tissue.

Per telephone call with SA [redacted] no hairs are being submitted for mitochondrial DNA analysis at this time. b6 b7C

No further trace evidence examinations were conducted at this time.

The submitted specimen was examined visually using stereomicroscopy and comparison microscopy.

Interpretation:

Characteristics of hairs can be used to determine whether the hair is human or non-human, body area, racial characteristics, artificial treatment and whether a hair has been forcibly removed or naturally shed. The characteristics exhibited in the hair(s) are used as the comparison criteria. When the presence or absence, appearance, arrangement, and distribution of macroscopic and microscopic characteristics exhibited in a recovered hair(s) are the same as in a potential source, the possibility that the compared hair(s) originated from the same source cannot be excluded. Consequently, the source of the known sample can be included as a possible source of the recovered hair(s), although the association of hairs using macroscopic and microscopic characteristics does not constitute a basis for absolute personal identification.

The inability to associate specimens through a microscopic hair/fiber examination does not preclude that the persons/items of interest had contact with each other. A number of factors can produce this result, including: 1) Hair/fiber evidence may not have transferred. 2) Hairs/fibers that did transfer may have been lost prior to submission to the laboratory. 3) The hairs/fibers transferred or the known comparison specimen submitted may not be representative of the source. 4) The hairs/fibers may be from a different source.

Remarks:

The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

SAMANTHA TESSLA KOENIG - VICTIM (DECEASED);
ET AL;
SERIAL KILLINGS

Synopsis: Lead covered.

Reference: 306-AN-15642 Serial 7

Details: As outlined in the referenced Electronic Communication (EC), the National Center for the Analysis of Violent Crime (NCAVC) was asked to provide assistance with regard to the captioned victim's abduction.

Since the time of the initial request, the offender has been identified and charged, the victim's body has been recovered, and the offender has been determined to be a serial killer. Current efforts are focused on identifying additional victims.

The NCAVC has participated in a number of discussions related to investigative and interview strategies. The NCAVC will continue to assist the Anchorage Division as it proceeds with its serial killings investigation.

In light of the above information, the NCAVC considers the lead set forth in the referenced EC to be covered.

04/26/2012

On 4/24/2012 an underwater search of a section of the Blake Falls Reservoir was conducted by the Underwater Search Evidence Response Team. The following USERT personnel participated: SSA [redacted] b6 b7C [redacted] SA [redacted] SA [redacted] SA [redacted] SA [redacted] and SA [redacted] Evidence Response Team personnel SA [redacted] and SA [redacted] participated. HMRU Physical Security Specialists [redacted] acted as medics. Essex, Vermont Police Department Lt. [redacted] and Cpl. [redacted] observed. The objects of the search were described as a barrel and bolt of a Ruger 10/22 target pistol.

The dive side was assembled on a boat ramp at approximately the following GPS coordinates: 44 degrees 28 minutes 6.07 seconds north, 74 degrees 45 minutes 47.26 seconds west. The site is a fresh water reservoir, and at the time of the dive operation water temperature was approximately 46 degrees Feranheight. Altitude was approximately 1264 feet above sea level.

The search area itself was approximately fifty to seventy feet directly south of the boat ramp. The shoreline was irregular due to a small stream flowing into the reservoir at the site. Parallel seventy five foot jackstays were utilized approximately eighty feet apart rigged to move together as the search progressed. The jackstays were set perpendicular to shore, approximately twenty feet from the shoreline, which, at the point of jackstay deployment, was somewhat further west as compared to the shoreline at the boat ramp, as the stream formed a small, shallow bay at the point it entered the reservoir.

SA [redacted] acted as dive supervisor. The XLDS surface supplied air system was utilized with underwater metal detectors. At approximately 9:15 am SA [redacted] entered the water in a drysuit without SCUBA gear with a metal detector on a wand to search the shallow bay area formed by the stream delta. At approximately 9:51 SA [redacted] entered the water as red diver and was deployed to the southernmost (far) jackstay. At approximately 9:53 SA [redacted] entered the water as green diver and was deployed to the northernmost (near) jackstay. The bottom consisted of muck and mud with occasional large rocks protruding through bottom surface.

At approximately 10:50 am SA [redacted] located an object matching the description of the barrel in approximately four feet of water at the approximate GPS coordinates of 44 degrees 28.106 minutes

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02 of 513 / 567

FD-302 (Rev. 10-6-95)

north by 74 degrees 45.777 minutes south. At approximately 11:22 am SA [redacted] located an object matching the description of the bolt in approximately four feet of water at the approximate GPS coordinates of 44 degrees 28.106 minutes north by 74 degrees 45.775 west. Dive operations were terminated shortly thereafter. b6 b7C

SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Synopsis: Late submission of evidence exhibit(s) for storage in captioned matter.

Details: On 04/23/2012, bulky evidence item 1B183 in captioned matter was submitted to the Evidence Control Room (ECR), on what was believed to have been the tenth day after it was acquired. However, it was determined that the aforementioned item was actually submitted on the eleventh day after it was obtained (dates were correct, but day count was mistaken). Consequently, this communication memorializes the fact that the aforementioned item was inadvertently submitted after the expiration of the ten-day deadline for evidence submission, due to an oversight by the case agent(s). However, this bulky evidence was maintained in the case agents' presence or secure space within the Anchorage Division, until its entry into the Anchorage Division ECR.

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM,
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Synopsis: Authorization for New York USERT to conduct an underwater search near Potsdam, New York.

Details: Israel Keyes recently confessed to the armed kidnapping, carjacking, aggravated assault and murder of William and Lorraine Currier of Essex, Vermont, on 06/08-09/2011. During these confessions, Keyes provided extremely accurate information, which led to the recovery of the murder weapon and associated items at the Blake Falls Reservoir in upstate New York. The boat

UNCLASSIFIED

[redacted]

306-AN-15642-198

FBI Records: The Vault — Israel Keyes LastKnownContact.com

launch near where these items were recovered is located just north of the bend where River Road becomes Raquette River Road, and the coordinates are approximately 44 degrees 28'07.17" north by 74 degrees 45'47.07" west. The barrel and bolt of the murder weapon, which was a Ruger 10-22, were recovered by members of the FBI Underwater Search and Evidence Recovery Team (USERT) in shallow water approximately 50-70' due south from the southeast corner of the aforementioned boat launch. Other associated evidence was located nearby on land.

SA [redacted] and the writer are familiar with the aforementioned area and operations, and they participated in the site survey and/or evidence recovery operation which occurred on or about 04/18/2012. In addition, SA [redacted] USERT Team Leader (TL), New York Division, conducted a survey and participated in this evidence recovery operation. b6 b7C

Additional information provided by Keyes indicated that he disposed of the .38 caliber snub-nosed revolver that he stole from the Currier's home during their abduction, in the same area of the Blake Falls Reservoir that he tossed the barrel and bolt from the murder weapon. Keyes believed that the revolver should be within several feet of the location of the barrel and bolt. The revolver had a blued finish. Recipient(s) are referred to the audio recordings dated 04/12/2012 and 05/08/2012 on the Sharepoint site [redacted] for additional details. b7E

Much of the known physical evidence that could tie Keyes to the Curriers was destroyed by Keyes or others, has been degraded by the elements, or has yet to be recovered. Therefore, the revolver he stole from their home and disposed of in the Blake Falls Reservoir in upstate New York is an important item of evidence, which could be used to corroborate Keyes' confession and substantially strengthen this case. Consequently, it is requested that SA [redacted] coordinate with SSA [redacted] to deploy appropriate elements of the USERT to conduct logical investigation and evidence collection/recovery of a revolver stolen from the home of murder victims William and Lorraine Currier of Essex, Vermont, by subject Israel Keyes, in captioned matter. b6 b7C

ERTU has approved the Albany Division's request. The previous site survey was satisfactorily completed on 04/18/2012.

06/11/2012

On 6/05/2012 an underwater search of a section of the Blake Falls Reservoir was conducted by the Underwater Search Evidence Response Team. The following USERT personnel participated: SA [redacted] SA [redacted] SA [redacted] SA [redacted] SA [redacted] and SA [redacted] Evidence Response Team member [redacted] participated. HMRU Physical Security Specialist [redacted] acted as a medic. Essex, Vermont Police Department Lt. [redacted] observed. The object of the search was described as small Ruger revolver.

b6
b7C

The dive side was assembled on a boat ramp at approximately the following GPS coordinates: 44 degrees 28 minutes 6.07 seconds north, 74 degrees 45 minutes 47.26 seconds west. The site is a fresh water reservoir, and at the time of the dive operation water temperature was approximately 50 degrees Feranheight. Altitude was approximately 1264 feet above sea level.

The search area itself was approximately fifty to seventy feet directly south of the boat ramp. The shoreline was irregular due to a small stream flowing into the reservoir at the site. Parallel seventy five foot jackstays were utilized approximately eighty feet apart rigged to move together as the search progressed. The jackstays were set perpendicular to shore, approximately twenty feet from the shoreline, which, at the point of jackstay deployment, was somewhat further west as compared to the shoreline at the boat ramp, as the stream formed a small, shallow bay at the point it entered the reservoir.

SA [redacted] initially acted as dive supervisor. The XLDS surface supplied air system was utilized with underwater metal detectors. At approximately 9:49 SA [redacted] entered the water as red diver and was deployed to the southernmost (far) jackstay. At approximately 9:50 SA [redacted] entered the water as green diver and was deployed to the northernmost (near) jackstay. The bottom consisted of muck and mud with occasional large rocks protruding through the bottom surface.

At approximately 10:35 am SA [redacted] located an object matching the description of the search object in approximately four feet of water at the approximate GPS coordinates of 44 degrees 28.109 minutes north by 74 degrees 45.779 minutes south.

05/24/2012

On Wednesday, May 23, 2012, at approximately 10:38 AM, the following investigation was conducted on the Makah Indian Reservation located in Neah Bay, Washington:

Pursuant to verbal consent to seize, provided by ISRAEL KEYES on May 22, 2012 during a video and audio recorded interview with Anchorage Division Agents, a 1992 Bayliner series POGPR15 boat [Vessel Registration Number WN7470GB] and trailer [Washington trailer license plate number 3408-MU] was released to SAs [redacted] by [redacted] of [redacted] Neah Bay, Washington. According to [redacted] the boat had been sitting idle in his yard since KEYES moved to Alaska approximately five years prior. [redacted] confirmed that the boat and trailer belonged to KEYES and that he had been looking after it since KEYES's departure to Alaska. b6 b7C

Upon arrival at the residence located at [redacted] Neah Bay, Washington, Agents observed the previously described boat and trailer parked in the front yard of the residence. The boat was covered with a worn and soiled canvass boat cover. [redacted] pointed out that the upper unit of the outboard engine had been dis-assembled with many of the parts contained within the boat. [redacted] removed the drain plug from the back transom area, releasing a large amount of water from inside of the boat. The drain plug remained out of the transom for the duration of the trip to Seattle, Washington.

Agents found that the right side trailer tire was intact but low on air, while the left side trailer tire was flat.

With the assistance of [redacted] Agents pulled the boat and trailer off the lawn and replaced the left side trailer tire with a spare tire which was located and mounted near the trailer hitch. The old tire was re-mounted onto the trailer by SA [redacted] after it had been removed from the trailer axle.

After the boat was hooked up to SA [redacted] official Bureau vehicle, two digital photographs were taken of the boat and trailer using SA [redacted] Blackberry cellular phone. One of these digital photographs was emailed to IA [redacted] Anchorage Division, at 10:56 AM (Pacific Time). These digital images were later burned to a CD-R and placed into a 1A envelope in the case file along with a copy of the printed email message.

May 23, 2012 Neah Bay, Washington

b6
b7C

While trying to hook up the trailer lights for transport of the boat to Seattle, Washington, the male connector for the trailer's lights was found to be non-compatible with the female connector located on SA [redacted] vehicle. at [redacted] located and provided an adapter for Agents to borrow. However, when the adapter was used to connect the trailer lights to SA [redacted] vehicle, the trailer lights failed to operate. To determine if it was a wiring issue or a lightbulb issue, [redacted] removed the left side trailer light bulb and found that it appeared intact with no obvious signs of defect or damage. The lightbulb was placed back into the trailer's light housing as originally found.

Agents then followed [redacted] and another Tribal employee to two separate tribal facilities in search of air compressor with which to further fill the two trailer tires. At the Tribe's Vehicle Maintenance Facility, an air compressor was located. After inflating both tires on the trailer and the flat tire which had been removed from the left side, Agents departed for the FBI's Evidence Response Team (ERT) facility located in Seattle, Washington.

Due to the deteriorating condition of the boat cover, Agents stopped in Clallam Bay, Washington to inspect the condition of the boat and the items located within. SA [redacted] observed that the boat cover had torn in at least two places and was no longer providing any protection from the rain and risked being completely torn off. SA [redacted] gathered up the torn boat cover and using a water ski tow line, which had been hooked to the outside of the transom area, secured the cover for the remaining portion of the trip. SA [redacted] also relocated a number of engine components which had been sitting freely on the transom area, to a lower portion of the boat where they would be more secure.

The boat and trailer was transported to the ERT Facility without further incident. The boat and motor were secured within the facility at 5:10 PM.

05/24/2012

On Wednesday, May 23, 2012, [redacted] DOB [redacted] b6 b7C cellular telephone number [redacted] Neah Bay Public Works Manager, was interviewed at the Neah Bay Tribal Center Administration Building. After being advised of the identity of the interviewing agents and the nature of the interview, [redacted] provided the following information:

SA [redacted] showed [redacted] a copy of the Washington State Department of Licensing Vessel Title Application/Registration Certificate for a 1992 Bayliner POGPR15 series boat, Hull Identification Number (HIN) PL3B11CR10823, registered to ISRAEL KEYES, and asked [redacted] if he was familiar with this particular boat. [redacted] stated that he was and that it was located in the front yard of his residence. SA [redacted] asked [redacted] who the legal owner of the boat was. [redacted] stated that it belonged to KEYES but was being stored at [redacted] residence. SA [redacted] advised [redacted] that Agents had been requested to secure the vessel and transport it back to Seattle, Washington for further examination. [redacted] complied and never asked about the boat's significance to the KEYES investigation.

[redacted] further stated that KEYES purchased his boat in Sequim, Washington from an unknown person. KEYES used the boat for approximately two years before asking [redacted] if he could store it at his residence when he moved to Alaska. The motor on the boat was "shot" and the boat had not been used or moved since KEYES initially backed it in to [redacted] yard. Two years ago, when KEYES was visiting, he gave [redacted] a hard time because he had not gotten the boat in working order.

KEYES used the boat for recreation. [redacted] and KEYES went tubing and skiing together with it on Lake Ozette, WA. KEYES used a smaller boat [redacted] has photos of himself and KEYES in the boat on Lake Ozette.

[redacted] brought the interviewing agents to his residence located at [redacted] Neah Bay, WA, and assisted with hooking up KEYES' boat and trailer for towing back to the FBI's Evidence Response Team (ERT) facility, located in Seattle, Washington. [redacted] signed, and was provided a copy of, an FD-597 Receipt for Property. The FD-597 was placed into an FD-340 envelope to the file.

Title: ISRAEL KEYES;
SERIAL MURDER INVESTIGATION

Synopsis: Response to lead set by Anchorage to locate and seize Keyes' Bayliner boat in Neah Bay, Washington.

Reference: 306-AN-15642 Serial 190

Enclosure(s):

1) One original and one copy of the FD-302 documenting the 05/23/2012 interview of [redacted]

2) One original and one copy of the FD-302 documenting the seizure of Keyes' Bayliner boat.

3) One FD-340, 1-A envelope containing the FD-597 documenting the receipt of Keyes' Bayliner boat.

Details: On 5/23/2012, pursuant to a lead set by Anchorage, SAs [redacted] located [redacted] in Neah Bay, Washington and interviewed him about the whereabouts of Israel Keyes' Bayliner boat. [redacted] maintained possession of Keyes' boat since Keyes stored it at his house prior to moving to Alaska. [redacted] turned over possession of the boat which was towed to Seattle for storage and further processing.

Seattle considers this lead covered.

SAMANTHA TESSLA KOENIG - VICTIM;
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Synopsis: To request the assistance of the Dallas Division / Lufkin RA in follow up investigation of Texas Missing Persons and Arson in Aledo, Tx.

Details: On February 2, 2012 Samantha Koenig was kidnaped from her place of employment by Israel Keyes. Keyes confessed to the kidnaping and murder of Koenig and has since been charged federally with kidnaping which resulted in the death of Koenig. Koenig's remains were recovered in Matanuska Lake, Ak. On March 13, 2012 Israel Keyes was arrested in Lufkin,Tx after using an ATM card associated with Samantha Koenig. Since being transported back to Anchorage Keyes has been cooperating with law enforcement, providing additional information about other crimes including kidnaping and murder. Keyes confessed to the kidnap and murder of William and Lorraine Currier in Essex, VT on June 8,2011. Currently the FBI and Essex, VT authorities are conducting a search of a landfill in Coventry, NY where the Currier bodies are believed to be. Israel Keyes confessed to an Arson in Aledo, TX and a bank robbery in Azle, TX both occurred on February 16, 2012. Keyes has told Law Enforcement that he is responsible for other victims in several states. Law enforcement believes it's possible that Keyes may be responsible for additional crimes in Texas, potentially a missing person. Law Enforcement has followed Keyes' travel in Texas through his cell

Synopsis: To report results from requested Violent Criminal Apprehension Program (ViCAP) Assistance to query missing persons from April 7, 2009 - April 14, 2009

Enclosure(s): ViCap information request results

Details: On May 22, 2012, Staff Operations Specialist [redacted] coordinated with Crime Analyst [redacted] of ViCAP, to disseminate an information request from ViCAP. The information request was sent to the following states: Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New York, Ohio, Pennsylvania, and Vermont. It asked these states to provide information on missing persons last seen between April 7, 2009 to April 14, 2009.

The request was product of information received during an interview with subject Israel KEYES. KEYES provided information that he killed someone during a trip to the northeastern part of the United States during April 7, 2009 - April 14, 2009. The remains of the individual are in New York, however, the individual is not from New York. No further information on the identify of the missing person was given. Attached are the results of the ViCap query.

ARMED AND DANGEROUS

Synopsis: Document participation of Special Weapons And Tactics (SWAT) Team member(s) in the execution of a security detail and [redacted] operation on frozen Matanuska Lake near Palmer, Alaska, on 04/02/2012, in captioned case(s).

Details: On 04/02/2012, the following Special Weapons And Tactics (SWAT) Team member(s) participated in the execution of a security detail and [redacted] operation on frozen Matanuska Lake near Palmer, Alaska, in captioned case(s): Special Agents (SAs) [redacted] (non-operator SWAT Medic). Anchorage Division Executive Management authorized the limited deployment of SWAT personnel in support of this operation, due to the need to have tactically-trained agents establish and maintain a secure perimeter around the crime scene during [redacted] operations, which garnered extensive public and media attention shortly after they were initiated.

These activities involved the establishment and patrolling of a 360 degree secure perimeter around the scene, which was near the middle of a large frozen lake approximately 40 miles from Anchorage. SWAT personnel repeatedly identified and thwarted media and/or public efforts to breach the perimeter of the scene, without injury to anyone. These security efforts were performed for over 12 hours in arctic conditions, before and during the evidence recovery operation. SWAT personnel assisted the forensic dive team in cutting through approximately 30-inch

UNCLASSIFIED

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 545 / 567

thick ice, clearing multi-hundred pound ice blocks from the dive site using snow machines, and then returning these ice blocks to the hole, to mitigate the public safety threat after the site was vacated. SWAT personnel also assisted in the set-up and dismantlement of the evidence collection stations.

Due to the joint nature of captioned investigation, Anchorage FBI SWAT personnel performed the aforementioned duties cooperatively with approximately five members of the Anchorage Police Department (APD) SWAT Team. [redacted] recovered without injury to any participants or bystanders, and without any interference or evidence tampering issues from members of the media and/or the public who were present nearby, during most of this operation.

attempt to escape from federal court in the middle of a crowded status hearing in captioned matter. Multiple members of the Anchorage SWAT Team assisted the U.S. Marshals Service (USMS) in preventing the subject's escape.

SWAT personnel conducted many of these operations after this crime had garnered extensive public and media attention, and the subject was aware of the FBI presence, location and/or activities. SWAT personnel performed all of these activities without injury to anyone (except for minor injuries to the subject during the prevention of his escape attempt), and provided a measured force protection presence, in support of FBI and other agency (i.e. U.S. Attorney's Office) personnel. Due to the joint nature of captioned investigation, Anchorage FBI SWAT personnel performed the aforementioned duties cooperatively with a senior member of the Anchorage Police Department (APD) SWAT Team, who is also one of the co-case agents on captioned matter.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 549 / 567

To: Dallas From: Anchorage
Re: 306-AN-15642, 06/21/2012

On 03/13/2012, Israel Keyes was arrested in Lufkin,Tx after using an ATM card associated with Samantha Koenig. Since being transported back to Anchorage Keyes has been cooperating with law enforcement, providing additional information about other crimes including kidnaping and murder. Keyes confessed to the kidnap and murder of William and Lorraine Currier in Essex, VT on 06/08/2011. Currently the FBI and Vermont authorities are conducting a search of a landfill in Coventry, VT where the Currier bodies are believed to be.

Israel Keyes confessed to a residential arson in Aledo, Texas (believed by law enforcement to be in the 100 block of Terrace Court) and a bank robbery in Azle, Texas (previously identified and investigated in 91A-DL-111234). Both of these incidents occurred on 02/16/2012. Keyes has told law enforcement that he is responsible for other victims in several states. Law enforcement believes it is possible that Keyes may be responsible for additional crimes in Texas, potentially a missing person. Law enforcement has followed Keyes' travel in Texas through his cell phone records, as well as, his credit card purchases. There are at least three reported missing persons in Texas during the time frame Keyes was visiting. Law enforcement believes [redacted] who was reported missing in or near Mount Enterprise/Rusk County, Texas, best fits Keyes' modus operandi.

On 06/15/2012, referenced serial set a lead to the Lufkin RA to conduct logical follow-up investigation regarding the aforementioned missing person in Rusk, Texas and the arson in Aledo, Texas. On 06/21/2012, during referenced telephone call, SSRA [redacted] advised SA [redacted] that Aledo, Texas was in Fort Worth RA territory, rather than Lufkin RA territory, and requested that a lead be set to the Fort Worth RA to follow-up on the arson in Aledo, Texas. SA [redacted] apologized for this inadvertent oversight, and drafted this communication to re-distribute the lead requests recently sent to Dallas and memorialize the aforementioned information. b6 b7C

*See 1A(71)

306-AN-15642; 227

FBI Records: The Vault — Israel Keyes LastKnownContact.com 22-72: Pg 554 / 567

Methods:

The determination of whether skeletal remains are human or non-human in origin is typically based on examination of gross bone morphology, looking for features or landmarks that are consistent with human or non-human species. In some cases, additional techniques such as quantitative assessment (measurement), microscopic examination, or comparison to published literature or exemplars may be employed.

In this case, the item was examined visually.

Results of Examinations:

Item Q8 is a bone fragment (cranial) of non-human origin. No further anthropological examinations were conducted.

Limitations

The conclusions that can be reached regarding human or non-human origin are dependent on the condition and completeness of the skeletal material. Results based on fragmentary or poorly preserved material may be inconclusive.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 555 / 567

Remarks:

This report concludes the anthropological examinations conducted by the FBI Laboratory. The item will be returned under separate cover at the completion of the laboratory examinations. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

For questions about the content of this report, please contact Forensic Examiner/Anthropologist [redacted] For questions about the status of your submission, including any remaining forensic examinations, please contact Request Coordinator [redacted] b6 b7C

KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: To report results of query made by Violent Criminal Apprehension Program (ViCAP) to Enfield Police Department

Details: On June 18, 2012, Staff Operations Specialist [redacted] asked ViCAP Crime Analyst [redacted] to request more information from the Enfield Police Department on missing person [redacted]

[redacted] went missing in Enfield, Connecticut on 04/06/2009, last seen by her family on 04/05/2009. Keyes arrived in New Hampshire on 04/07/2009, however, ViCAP asked Enfield Police Department to verify her dates of disappearance, as well as if foul play is suspected.

Crime Analyst [redacted] spoke with Detective [redacted] of Enfield Police Department who reported that foul play is not suspected in [redacted] disappearance and the dates listed in National Missing and Unidentified Persons System (NAMUS) are correct. The NAMUS report also indicates that [redacted] Due to this information, [redacted] is not being considered as a victim of Keyes at this time.

KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: To report results of National Crime Information Center (NCIC) off-line search on Israel KEYES and rental car vehicles associated with KEYES, provided by Violent Criminal Apprehension Program (ViCAP) Assistance

Enclosure(s): ViCap email and NCIC off-line results

Details: On June 13, 2012, Staff Operations Specialist [redacted] received results of an NCIC off-line search on Israel KEYES and his associated rental car vehicles from ViCAP Crime Analyst [redacted]

Crime Analyst [redacted] made note of a query that occurred on 01/28/2008 of KEYES' rental car vehicle, license plate number 95B9427. According to KEYES' travel records, he flew into Mobile, Alabama on 01/28/2008. Since his license plate number was only run and not his name, it was determined that no physical contact was actually made with KEYES and it is not necessary to contact the Mobile County Sheriff's Office at this time.

The queries conducted of KEYES will assist in giving additional dates and locations of his whereabouts and will be added to his timeline.

Date specimens received: July 12, 2012

The following specimen was received in the Trace Evidence Unit (Anthropology):

Q9 Bone (1B199, E4824644)

The results of the anthropological examinations are contained in this report.

1- Albany
Rutland RA
SA [redacted]

*See 1A(76)

306-AN-15642; 240

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 562 / 567

Methods:

The determination of whether skeletal remains are human or non-human in origin is typically based on examination of gross bone morphology, looking for features or landmarks that are consistent with human or non-human species. In some cases, additional techniques such as quantitative assessment (measurement), microscopic examination, or comparison to published literature or exemplars may be employed.

In this case, the item was examined visually.

Results of Examinations:

Item Q9 is a bone (rib) of non-human origin. No further anthropological examinations were conducted.

Limitations

The conclusions that can be reached regarding human or non-human origin are dependent on the condition and completeness of the skeletal material. Results based on fragmentary or poorly preserved material may be inconclusive.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 02: Pg 563 / 567

Remarks:

This report concludes the anthropological examinations conducted by the FBI Laboratory. The item will be returned under separate cover at the completion of the laboratory examinations. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

[redacted] b7E

Administrative Notes: (U) Reference telcal between SA [redacted] and [redacted] on 07/16/2012. b6 b7C

Package Copy: (U) Forwarded under separate cover is evidence item 1B203, Barcode E4254810, described as "Long bone fragment (QB 79)."

Details:

The Laboratory is requested to conduct appropriate examinations on evidence item 1B203, Barcode E4254810, described as "Long bone fragment (QB 79)" (Evidence item #4 on the evidence recovery log).

Case Summary: In June 2011, William and Lorraine Currier went missing from their home in Essex, Vermont, under suspicious circumstances. In April 2012, the Anchorage Division was investigating a separate kidnapping/murder investigation. During an interview of Anchorage's subject, the subject confessed to murdering the Curriers. Information provided by the subject led investigators to an abandoned farmhouse in

UNCLASSIFIED

Title: (U) Lead to FBI Laboratory
Re: 306-AN-15642, 07/16/2012

Essex, Vermont, where the subject claimed to have left the Curriers' bodies. Investigators determined that the abandoned farmhouse was torn down in October, 2011, and the contents of the farmhouse was tracked to having been sent to the Coventry Landfill, in Newport, Vermont.

Since May 7, 2012, ERT team members from numerous divisions across the FBI, along with members of the Vermont State Police and the Essex, Vermont Police Department, have been searching the Coventry Landfill for the remains of William and Lorraine Currier. The search is being conducted with consent of the landfill owner, New England Waste Services.

On 07/16/2012, a long bone fragment was found by the ERT searchers. The long bone fragment is being forwarded to the Trace Evidence Unit's Forensic Anthropology Program for analysis, specifically to determine if the long bone fragment is human.

If the long bone fragment is human, it is requested that the Laboratory conduct appropriate DNA examinations to develop a DNA profile for comparison to known DNA profiles of Bill and Lorraine Currier. DNA profiles were developed, by the Vermont Forensic Laboratory (VFL), from alternate reference samples for Bill and Lorraine Currier, during the Essex Police Department's Missing Persons investigation. These profiles are available for comparisons. All VFL reports for their DNA examinations are available for review, if needed. (NOTE: The victim DNA profiles available for comparison were discussed between Albany/Burlington RA's SA [redacted] of the FBI Laboratory, in mid-June 2012.)

b6
b7C

***The identifying information for the Curriers is as follows: WILLIAM S. CURRIER, aka Bill Currier, white male, DOB 04/04/1961, SSN 009-56-3741, FBI# 751667EA3, HGT: 5'11", lka 8 Colbert Street, Essex, Vermont; LORRAINE CURRIER, white female, DOB 07/04/1955, SSN 008-42-5554, HGT: 5'4", lka 8 Colbert Street, Essex, Vermont.

Electronic Communication

Title: (U) EC to Seattle - boat search **Date:** 07/16/2012

From: ANCHORAGE
AN-C-1
Contact: [redacted] b6 b7C

Approved By: SSA [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: (U) Anchorage is requesting the assistance of the Seattle Division Evidence Response Team (ERT) to search a boat belonging to subject Israel Keyes.

[redacted] b7E

Details:

For background, Samantha Koenig was kidnapped from her place of employment by Israel Keyes on 02/01/2012. Keyes confessed to the kidnapping and murder of Koenig and has since been charged federally with kidnapping which resulted in the death of Koenig. Koenig's remains were recovered in Matanuska Lake, Alaska.

On 03/13/2012, Israel Keyes was arrested in Lufkin,TX after using an ATM card associated with Samantha Koenig. Since being transported back to Anchorage Keyes has been cooperating with law enforcement, providing additional information about other crimes including kidnapping and murder. Keyes confessed to the kidnap and murder of William and Lorraine Currier in Essex, VT on 06/08/2011. Currently the FBI and Vermont authorities are conducting a search of a landfill in Coventry, NY where the Currier bodies are believed to be.

In subsequent interviews, Keyes indicated he was responsible for two homicides in the state of Washington. Keyes told agents about a

UNCLASSIFIED

Title: (U) EC to Seattle - boat search
Re: 306-AN-15642, 07/16/2012

fishing boat he owned that was used in the crime and that it may still have blood/DNA evidence on it. Keyes owned and used this boat in 2005 and 2006. Keyes gave agents permission to seize the boat. Immediately after that interview, Anchorage agents talked with SA [redacted] from the Poulsbo RA and he seized the boat which is currently maintained in indoor storage in Seattle. b6 b7C

During several follow-up emails and telephone calls, SA [redacted] advised ERT Senior Team Leader [redacted] of the pending search. Information was provided about the areas of the boat that Keyes believed there was likely to be blood evidence. Keyes also provided information about other pieces of evidence that may be in the boat and of interest to law enforcement.

The search of the boat will occur via consent from Keyes. The Anchorage Division intends to adhere to State of Washington law as it applies to consent searches in the event these homicides are prosecuted by the state. Subsequently, Keyes will be at the Anchorage Division for the entirity of the consent search of the boat. Keyes will be advised of the search and provided the opportunity to limit the scope of the search and withdraw his consent at any time during the duration of the search.

Anchorage is requesting Seattle ERT conduct a search of Keyes' boat. A number of items to search for have been discussed with SA [redacted] to include blood, bone fragments, knives, tools, cement blocks, and ropes.

SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: July 12, 2012

The following specimen was received in the Trace Evidence Unit (Anthropology):

Q9 Bone (1B199, E4824644)

The results of the anthropological examinations are contained in this report.

1- Albany
Rutland RA
SA [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 17 / 489

Methods:

The determination of whether skeletal remains are human or non-human in origin is typically based on examination of gross bone morphology, looking for features or landmarks that are consistent with human or non-human species. In some cases, additional techniques such as quantitative assessment (measurement), microscopic examination, or comparison to published literature or exemplars may be employed.

In this case, the item was examined visually.

Results of Examinations:

Item Q9 is a bone (rib) of non-human origin. No further anthropological examinations were conducted.

Limitations

The conclusions that can be reached regarding human or non-human origin are dependent on the condition and completeness of the skeletal material. Results based on fragmentary or poorly preserved material may be inconclusive.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 18 / 489

Remarks:

This report concludes the anthropological examinations conducted by the FBI Laboratory. The item will be returned under separate cover at the completion of the laboratory examinations. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

For questions about the content of this report, please contact Forensic Examiner/Anthropologist [redacted] b6 b7C

Details:

On 4/16/2012 and 4/17/2012, the writer made contact with employees of Casella Waste Services, Inc. for the purpose of determining the current location of demolition waste removed from 32 Upper Main Street, Essex, Vermont. This demolition waste was brought to All Cycle Waste, Inc., a waste transfer station, at 220 Avenue B, Williston, Vermont (owned by Casella), on the dates of 10/25-27/2011.

The demolition waste is believed to have included the bodies of William and Lorraine Currier. According to information developed to date, the Curriers were murdered at 32 Upper Main Street and their [redacted] in the basement of the house.

On 4/16/2012, the writer spoke to [redacted] a Casella Customer Service representative, at the All Cycle transfer station. [redacted] advised that the transfer station intakes waste that is then shipped in tractor trailer loads to a landfill located in Coventry, VT. Incoming waste haulers are first weighed on a scale and then dump their waste on a floor at the station. The waste is then loaded from the floor with a

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 23 / 489

back hoe into a tractor trailer. Tractor trailers loaded with waste are then brought to Casella's landfill located in Coventry, Vermont. According to [redacted] on 10/25/2011, 13 tractor trailer loads (395 tons) of trash were filled; on 10/26/2011, 13 tractor trailer loads (400 tons) were filled; on 10/27/2011, 13 tractor trailer loads (356 tons) were filled. b6 b7C

[redacted] referenced "Tickets" in Casella's database which showed [redacted] haul truck (i.e., the hauler used to haul waste from the demolition of 32 Upper Main Street) bringing loads to the transfer station. [redacted] truck was identified by its plate number (BEK509). [redacted] account is a cash account in Casella's system (distinguishing it from belonging to a customer that has a billed account).

[redacted] review of the transfer station's records for [redacted] haul truck showed 10 incoming trash hauls on Tuesday, 10/25/11 (this was later determined to be 9 trips upon further examination of Casella records by the writer); 8 on Wednesday, 10/26/11 and 2 on Thursday, 10/27/2011 (this was later determined to be 4 trips in total upon further examination of Casella records by the writer).

On the same date, the writer made contact at the Scale House of New England Waste Services of Vermont, Inc., 21 Landfill Lane, Coventry, Vermont (aka the Coventry, VT landfill owned by Casella) and met with Scale House employee [redacted] the landfill Operations Manager. The writer was advised that waste that came to the landfill at the end of October 2011 would be at the top of a cell that was closed at the end of October 2011. Nothing was put on top of that cell after it was closed. A cell is about 3x5 acres at its base and about 80-100 feet deep.

The area of the landfill related to the date range in question is approximately 10-12 feet deep, 300 feet long and about 150 feet wide. A new cell was started at the beginning of November 2011.

The Coventry landfill takes in approximately 1400-1600 tons of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 24 / 489

waste per day. Waste is delivered from many other areas of Vermont besides the All Cycle transfer station in Williston, VT, to include waste from Bennington, Manchester, Sunderland, Highgate, Middlebury, Hyde Park, Bethel, and Stowe. Waste is also brought in from Gobins, NH.

When a shipment of waste arrives at the landfill, it is weighed on scales and the truck and the trailer numbers are written down. The trailer's contents are then tipped into the landfill. A bulldozer pushes in the pile in levels 2-3 feet deep. Sewage/sludge is put over the waste which is then rolled into the waste with a Caterpillar. A compactor with a blade (a 121,000 lb. vehicle with 6 inch spikes on its wheels) levels and compacts the waste. Batcheleer or another landfill operator is on watch during this process. The writer was advised that its is unlikely that the landfill employees would not have seen human remains going into the landfill since they are always alert for items that should not go into the landfill, such as tires.

During this meeting, the writer was contacted by [redacted] Associate General Counsel for Casella, who advised that he wished to be present during any contact with Casella employees regarding this matter. A meeting was scheduled at the Coventry landfill for the following morning. b6 b7C

On 4/17/2011, the writer met with [redacted] Casella Regional Safety Manager, and [redacted] the Coventry landfill manager. The following information was obtained during this meeting:

The landfill is open Monday through Friday, 6:30 am to 4:00 pm, and Saturdays 6:30 to 11:30 (though most Saturdays the landfill is not open). The landfill is closed on Sundays. If waste leaves the All Cycle transfer station after 1:30 pm, it likely will not be tipped into the landfill until the next day.

The landfill has two different "tipping fees." Municipal Solid Waste (MSW) is less than Construction and Demolition waste (C&D). If the waste comes separated as such, it will be charged accordingly.

Title: (U) Israel Keyes (Subject); Samantha Koenig (Victim); Serial Killer
Re: 306-AN-15642, 07/17/2012

During the period in question, no pure C&D loads were taken in the landfill. Pure C&D loads are dumped separately and used to build roads. It would be extremely difficult to pin down the location of anything that came in with a pure C&D load.

Once a year a new cell is built. Tipping in the new cell began around November 1, 2011.

Once a year, a fly-over of the landfill is conducted by an aerial mapping company. The landfill then gets a plan with topographical detail based on the date the fly-over photos were taken. This helps the landfill with data regarding tonnage and airspace being used. The yearly fly-over was conducted on 10/28/2011.

The State of Vermont Agency of Natural Resources is the regulatory agency overseeing the landfill. [redacted] are points of contact at this agency. b6 b7C

The writer was provided with a topographical map of the landfill showing a rough estimate of the area in question: an area 100 x 400 feet and 12 feet deep (40,000 square feet; 18,000 cubic yards/Areas shown on the map as 2A or 2B - Area 2C was the new cell started in November 2011). During the dates of 10/25 - 10/27/2011, waste was being dumped in the same area.

On the same date, the writer, along with Casella employees [redacted] met at the All Cycle transfer station in Williston, Vermont. At this location, a meeting was held which also included [redacted] an Environmental Compliance Manager for Casella. [redacted] also stepped into the meeting to provided information at times.

The writer learned that MSW and C&D waste are not separated at the All Cycle transfer station. Both types of waste are mixed together in the same tractor trailer loads that are then shipped to the Coventry landfill.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 26 / 489

Title: (U) Israel Keyes (Subject); Samantha Koenig (Victim); Serial Killer
Re: 306-AN-15642, 07/17/2012

C&D material suitable for recycling, such as clean wood and metal, is removed from the waste at the All Cycle transfer station and is shipped separately to a C&D recycling plant in Epping, NH by the name or Errco. It is highly unlikely human remains (or bags containing them) would go to Errco.

Certain materials that should not go into the landfill, such as hazardous materials, are pulled out of the waste at All Cycle, if they are seen.

[redacted] truck delivered 55 tons of waste to All Cycle during the date in question, at $119.00 a ton, for a total cost of $6,545. b6 b7C

C&D waste can stay overnight on the floor of the transfer station. All MSW must be off the floor. The last tractor trailer load leaves the transfer station around 1 - 2 pm. A tractor trailer load may leave the transfer station and be brought to the landfill after the landfill is closed. Under such circumstances the load will be left there and tipped into the landfill the following day. A tractor trailer load can also be filled and stay overnight at the transfer station.

The writer was taken to the area of the transfer station where the waste is dumped, sorted and loaded for shipment to the Coventry landfill. The writer observed the operations of this facility for approximately 10 minutes while details were explained by the aforementioned Casella employees.

The transfer area is a large covered/partially enclosed structure. The front of the structure is open to allow for the dumping of waste onto the floor of the structure. Facing the structure, a tractor trailer was observed, parked long-wise along on the left side. Piles of waste were observed along the back of the structure. A backhoe was constantly loading the aforementioned tractor trailer from the piles of waste.

Waste was being delivered and dumped onto the floor of the covered area. After a load was dumped, a small group of workers hand-picked

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 27 / 489

clean C&D recyclable material from the load and placed these materials into a pile in the back on the far right side of the covered area. This material was suitable for shipment to Errco, the C&D recycling plant in NH. After being picked, the dumped waste was then pushed back into the back piles by a small bulldozer. MSW material went into one pile and C&D material went into a separate pile. As previously noted, the Errco material went into a pile on the far right.

As a tractor trailer is being filled, MSW waste goes in first and C&D waste is put on top. Waste is not necessarily first in/first out in terms of being loaded into the tractor trailer after it arrives. Since the tractor trailers are first loaded with MSW, followed by C&D waste, the transfer station may wait until it has enough of one or the other type of waste to balance the tractor trailer load.

The writer observed a group of items set to the side that had been removed by All Cycle workers because they were prohibited from going into the landfill.

The writer was advised that waste that had a particularly strong odor would not draw attention since the workers are accustomed to the strong odors of waste.

The writer observed a load of C&D material brought into the transfer station and dumped on the floor. The load contained filled plastic garbage bags among other waste material. The plastic bags were not opened or examined. The workers quickly sorted through the material for clean recycling for Errco and then the load, including the bags, was pushed to the back.

Based on the writers observations and discussions with Casella employees, the demolition debris brought to All Cycle from 32 Upper Main Street most likely would have all been tipped into the Coventry landfill by 10/28/2011. [redacted] advised that the possibility remains that the waste did not get there until 10/31/2011. b6 b7C

The writer had additional contact with Casella telephonically and

Here is a map of the landfill site. It was prepared by the landfill's engineers to show where they were dumping on the relevant dates: Oct. 25, 26, 27 and 28. I'm heading off to the USAO to see if they can print it out in the correct dimensions.

I know will talk to you more about Tuesday, but just as a heads up - the landfill is arranging for you to meet with the landfill manager, at the landfill on Tues. for your site survey.

Call me if you have any questions in the meantime.

H[redacted]
Here is [redacted]ell number: [redacted]

Casella is collecting the data regarding All Cycle. I will have it Monday and will make sure you have it by Tuesday.

[redacted]called the excavator, this is what he told her about what he observed:
-Two mattresses (full/queen and a twin) and an older three-seater couch (doesn't remember color).
-Walls were not sheet rock – he used the word "stucco." He may have meant plaster - I came across a lot of horse-hair plaster during the first search.
He did remember much more.

Subject: All Cycle Transfer Inbound Tons by customer

Good Morning [redacted]

Attached are the inbound tons for All Cycle Transfer for the period requested. I can give you the tons by customer, but unfortunately, we don't have by town for Chittenden County. All the towns in Chittenden County are in district towns, so there isn't a need to track by town. I did the pivot table by customer and origin as far as which district it is for. Let me know if you have any questions or need anything else.

Thanks.

Title: (U) Operational Projects Unit Request **Date:** 07/23/2012

To: [redacted] b6 b7C

From: BOSTON
BS-C3
Contact: [redacted]

Approved By: SSA [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: (U) Request for the Operational Projects Unit to review ERT collected survey data and provide a completed diagram of the scene.

[redacted] b7E

Package Copy: (U) Being forwarded under separate cover is the ERT survey data collected by Boston. A lead is being set to FBI Albany ERT to furnish OPU under separate cover search notes, search photographs,and photo log.

Enclosure(s): Enclosed are the following items:
1. (U) (1) compact disc containing total station survey data

Details:

On May 7, 2012, FBI Albany ERT initiated a search for human remains in connection with the captioned matter. The human remains were thought to be concealed in a landfill operated by Casella Waste Systems at 21 Landfill Lane, Coventry, VT. The search was terminated on July 18, 2012.

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/20/2012

On Thursday, July 19, 2012, [redacted] date of birth (DOB) [redacted] SSAN [redacted] residence at [redacted] Edmonds, Washington, cellular telephone number [redacted] was interviewed at a coffee shop located in Edmonds, Washington. After being advised of the identity of the interviewing Agents and the nature of the interview, [redacted] provided the following information:

b6
b7C

[redacted] currently works for the Lynnwood Waste Water Treatment Plant and has been working there since January 2008. Prior to this position, [redacted] worked for the Makah Tribe at their Waste Water Treatment plant in Neah Bay, Washington from February 2002 until he departed Neah Bay for his current position.

Davisson met Israel Keyes on his first day of work for the Makah Tribe. [redacted] recalled that both he and Keyes were sitting together in the Tribe's Administrative building, waiting to meet with [redacted] their new supervisor. [redacted] advised that they held different positions but were both supervised by [redacted] noted that [redacted] was the Supervisor of the Waste Water Treatment plant for some time.

[redacted] advised that his position was one where he had a lot of down time if things at the treatment plant were running smoothly. During those times, [redacted] would assist Keyes, noting that Keyes spent his first two years on the job "building stuff." [redacted] also advised that their work desks were positioned next to each other so they saw each other almost every day.

[redacted] recalled that Keyes was in a relationship with [redacted] when they first met. [redacted] thought they were a "good couple" until [redacted]

[redacted] identified himself and [redacted] as Keyes' closest friends. Keyes enjoyed boating, camping, and even went zip-lining in Belize one time.

After his relationship with [redacted] fell apart, Keyes dated a few different women before settling into a relationship with [redacted] identified one of those in-between girlfriends as [redacted] recalled that when Keyes began dating [redacted] he "broke-up" with the other women and was devoted to [redacted]

[redacted] stated that when Keyes and [redacted] first moved to the reservation, [redacted] After [redacted] was in a vehicle accident and their relationship broke down, Keyes rented a home located just down the road from the Tribal Police Department.

[redacted]

Keyes did not talk about his Army "buddies" specifically by name but sometimes shared stories about them. [redacted] recalled that Keyes had talked about the Ranger "flunkies" who would be assigned to his unit and how they were not very good soldiers. Keyes appeared to like the Army and only intended to serve for four (4) years.

[redacted] was asked about what he knew about Keyes' brands. [redacted] recalled that during a barbeque, there was some banter between Keyes and [redacted] about Keyes' brands. Keyes was teasing [redacted] that he was going to get him drunk and brand him. In the end, Keyes got drunk and branded himself. [redacted] believed that this was the smiley face brand on Keyes' arm. Keyes used a coat hanger to make the branding iron. [redacted] understood that some of Keyes' other brands were obtained when he was in the Army.

When asked about what he knew about Keyes' family life and upbringing, [redacted] advised that Keyes was born "off the grid" noting that Keyes did not have a social security number when he was child and that his parents were "Pilgrims" who bounced from one extreme religious sect to another, eventually settling down in an Amish community in Maine.

[redacted] advised that Keyes' father passed away some years ago and recalled that Keyes' seemed to be emotionally upset and took some time off from work to cope with the loss. Keyes would tell stories about his father and upbringing but did not seem to show any emotional attachment to them. [redacted] did not know Keyes to have been abused by his parents but did know that they were reportedly "strict discipliners."

When asked about other emotional or physical stress or trauma that Keyes may have experienced, [redacted] pointed out that Keyes' Army Unit

b6
b7C

served a tour in Egypt. [redacted] an Army veteran himself, pointed out the high mental stress that a deployment in a country like Egypt would have on an individual.

Keyes purchased his boat in the Spring of 2005. During this time he was dating [redacted] recalled that Keyes had to do some work on the boat initially but did not recall it being a big project. [redacted] recalled that Keyes did some tubing on Lake Ozette and Beaver Lake. [redacted] speculated that Keyes could have visited Lake Crescent as well, but had no first hand knowledge of this.

In regards to vacations, [redacted] recalled that Keyes had gone on some wine tours in Central Washington. [redacted] did not recall Keyes making visits to the East side of Washington and did not believe that Keyes had any family or land there. [redacted] did recall that Keyes had some land in the State of New York.

Keyes came from a large family but only seemed close to his two younger sisters. [redacted] recalled that one of them wanted to run away and Keyes told her "No", and indicated that he would come and get her if it came to that. [redacted] did not recall any of Keyes' family ever coming to Neah Bay to visit.

[redacted] did not recall Keyes ever displaying or discussing any deviant or criminal behavior and stated that he was not aware of Keyes' arrest and indictment in Alaska.

[redacted] last spoke with Keyes in June of 2008 when he bumped into Keyes on the Kingston/Edmonds ferry. [redacted] checked his cell phone and provided the following telephone number as the last number that he had for Keyes: 907-301-3412. [redacted] stated that after Agents initially reached out to him, he tried to call Keyes at this number but advised that the number had been changed.

[redacted] stated that Keyes did not have a personal cellular phone when he worked in Neah Bay but noted that they both had Tribe issued cellular phones which they would make personal phone calls from.

[redacted] described Keyes as a "fun" drunk which he noted was why he liked to hang out with him. In light of his upbringing [redacted] commented that Keyes seemed "well adjusted for everything going on in his life" and seemed to handle stress well.

[redacted] did recall a domestic violence incident between Keyes and [redacted] did not know any of the details and advised that he had heard about it from [redacted] who had overheard Keyes' and

[redacted] names on the police scanner. [redacted] noted that [redacted] currently works in Port Angeles, Washington.

[redacted] recalled that Keyes use to be a hunter growing up, recalling that Keyes once told him that fifty percent of his family's meat came from wild game. However, [redacted] did not know Keyes to be a hunter in recent years. [redacted] recalled that Keyes had a few firearms, recalling a Ruger 10/22 rifle, a "nice" air rifle, and a .32 caliber Iver Johnson handgun, which he further described as a "Saturday night special." [redacted] stated that when Keyes moved to Alaska, he left the .32 caliber handgun with [redacted] because could not travel through Canada with handguns. [redacted] is around [redacted] years old and is [redacted]

[redacted] further described Keyes as a very good butcher, noting that Keyes would help him slaughter lambs which [redacted] use to raise on the Reservation.

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/17/2012

On Friday, July 6, 2012, [redacted] date of birth [redacted] [redacted] cellular telephone number [redacted] was interviewed at the Makah Tribal Center Administrative Building in Neah Bay, Washington. After being advised of the identity of the interviewing Agent and the nature of the interview, [redacted] provided the following information:

b6
b7C

[redacted] was asked about historical time and attendance records for Israel Keyes. [redacted] was not sure if those records still existed, but advised that time sheets would have been kept by the tribe's accounting office. [redacted] was asked if he recalled specific vacations which Keyes took while working for the tribe. [redacted] recalled that Keyes went "back east" at least once, noting that Keyes reportedly owned land in New York State.

During a discussion of Keyes' work history with the tribe, [redacted] advised that after working for the Tribe's Parks and Recreation department, Keyes worked for the Tribe's Business Enterprise department. [redacted] advised that Keyes' personal file would have further information regarding his employment with that particular department.

[redacted] was asked about Keyes' visit to Neah Bay on a return trip from California. [redacted] recalled two trips to California. In July 2010, Keyes stopped in Neah Bay on his way back from California. It was during this visit that Keyes' retrieved a handgun which [redacted] had been keeping for him.

On another trip, Keyes stayed at the Best Western which was located South of SeaTac. [redacted] understood that Keyes had been on a wildlife and winery tour in California. [redacted] recalled that [redacted] was with him during this visit. [redacted] believed that [redacted] was also with Keyes also, but [redacted] was not completely sure.

[redacted] clarified that [redacted] had rented a house in Sequim, Washington, then left for Alaska, and that Keyes followed her up to Alaska approximately one year later.

In Neah Bay, Keyes and his [redacted] rented a house from [redacted] currently lives in this same house which is located just down

b7C

the street from the Tribal Police Station.

[redacted] did not recall Keyes having ever owned a mountain bike.

[redacted] further identified [redacted] as [redacted] cellular telephone number [redacted] was asked if he had spoken with [redacted] since learning of Keyes' involvement with the kidnapping of the Alaska barista earlier this Spring. [redacted] stated that he had not been in contact with [redacted] but saw an online news article where a [redacted] had posted comments to a story about the case. [redacted] would not say what [redacted] comments entailed, but indicated his disapproval of what [redacted] had written.

[redacted] was asked about some photographs that he had mentioned during a prior interview. [redacted] stated that he did not have the photographs, but indicated that [redacted] had taken them. These photographs were taken during a boating trip with Keyes.

[redacted] was not familiar with Keyes' Army buddies and did not know Keyes to have kept in contact with them.

[redacted] stated that he thought he had seen [redacted] walking downtown yesterday. [redacted] has not had any recent contact with her.

[redacted] stated that when they would visit Lake Ozette, Keyes would usually use the boat launch which was located next to the Tribe's fish counter and the Park Office. Keyes would sometimes camp in the park and would set up a tent or rent one of the cabins. The only other lake that [redacted] knew Keyes to have been on was Beaver Lake, which is located off of Highway 113 on the way back to Forks or Port Angeles, Washington. [redacted] recalled that once, while fishing Beaver Lake, he saw Keyes [redacted] fishing the lake from their boat.

[redacted] was asked if, knowing what he knows now, if he recalled any comments or actions by Keyes which may have been indications of odd behavior or criminal activity. [redacted] joked that they were all a bit "odd" but did not recall anything in particular.

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: (U) To request assistance of Bend RA in contacting local police department to identify sexual assault victim.

[redacted] b7E

Details:

For background, Samantha Koenig was kidnapped from her place of employment in Anchorage, Alaska by Israel Keyes on 02/01/2012. Keyes confessed to the kidnapping and murder of Koenig and has since been charged federally with kidnapping which resulted in the death of Koenig. Koenig's remains were recovered in Matanuska Lake, Alaska.

On 03/13/2012, Israel Keyes was arrested in Lufkin,TX after using an ATM card associated with Samantha Koenig. Since being transported back to Anchorage Keyes has been cooperating with law enforcement, providing additional information about other crimes including kidnapping and murder. Keyes confessed to the kidnap and murder of William and Lorraine Currier in Essex, VT on 06/08/2011.

In subsequent interviews, Keyes indicated he was responsible for additional homicides in multiple states. The Anchorage Division is

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 72 / 489

UNCLASSIFIED

Title: (U) Lead to Bend RA re: first sexual assault
Re: 306-AN-15642, 07/23/2012

currently attempting to identify additional victims and locate their remains.

Keyes reported the first violent sexual assault he committed occurred in approximately 1996 or 1997. Keyes was 18 or 19 years old at the time. Keyes was doing construction on a house his parents purchased in Maupin, Oregon. The home was near the Deschutes River and he spent a significant amount of time at the river. Keyes staked out a remote area on the Deschutes River in Wasco County that served as a stop over or rest area for people tubing down the river. The area had a permanent outhouse structure a short distance from the river. Keyes stated he sexually assaulted a female who was between [redacted] years old in the outhouse. The female was part of a small group of girls tubing and Keyes grabbed her after the other girls in her group went around a bend in the river. The sexual assault took approximately one hour. Afterwards, he put the victim on her tube and sent her down river. Keyes thought the victims first name was [redacted] He did not know if the incident was ever reported to law enforcement. b6 b7C

Anchorage is requesting assistance in contacting the local authorities in this area to determine if the sexual assault was reported and the identity of the victim. Anchorage is requesting discretion when contacting the local authorities and that agents not disclose the identity of Israel Keyes at this time. Anchorage is also requesting the assigned agent contact SA [redacted] cell [redacted] prior to making contact with local authorities for additional information/updates.

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/12/2012

On 5-16-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was interviewed at the FBI Building 101 E. 6th Ave, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] Assistant United States Attorney (AUSA) [redacted] and AUSA [redacted] KEYES provided the following information:

b6
b7C

AUSA's [redacted] present KEYES with a "plan" to keep moving forward with receiving information from KEYES. KEYES expresses concern about the media attention that could be attached to the information he provides law enforcement about "other" things and jurisdictions he provides. KEYES told law enforcement that the scale of search that may be required to find others could be larger than that occurring in Vermont.

KEYES tells law enforcement that he is responsible for a bank robbery in Tupper Lake, New York on April 10th, 2009 and that he buried another body in the state of New York. KEYES tells law enforcement the weapons cache he had in Vermont was also somehow involved in the earlier "trip" as well. KEYES tells law enforcement that remains "should be" able to be found. KEYES first mentions he owned a boat in Washington, KEYES mentions that Washington State may be a good "back up" plan for him to get what he wants. KEYES does not identify the victim buried in New York.

Investigation on 05/16/2012 at Anchorage, Alaska, United States (In Person)

Title: (U) EC to FAVIU for facial recognition with NamUs **Date:** 07/25/2012

To: [redacted] b6 b7C

From: ANCHORAGE
AN-C-1
Contact: [redacted]

Approved By: [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: (U) Anchorage is requesting FAVIU assistance comparing faces in enclosed evidence with NamUs missing person database.

[redacted] b7E

Details:

For background, Samantha Koenig was kidnapped from her place of employment in Anchorage, Alaska by Israel Keyes on 02/01/2012. Keyes confessed to the kidnapping and murder of Koenig and has since been charged federally with kidnapping which resulted in the death of Koenig. Koenig's remains were recovered in Matanuska Lake, Alaska.

On 03/13/2012, Israel Keyes was arrested in Lufkin,TX after using an ATM card associated with Samantha Koenig. Since being transported back to Anchorage Keyes has been cooperating with law enforcement, providing additional information about other crimes including kidnapping and murder. Keyes confessed to the kidnap and murder of William and Lorraine Currier in Essex, VT on 06/08/2011.

In subsequent interviews, Keyes indicated he was responsible for

General Records

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/12/2012

On 4-17-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was interviewed at U.S. Attorney's Office, 222 W. 7th Ave, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] FBI Special Agent [redacted] Assistant United States Attorney (AUSA) [redacted] and AUSA [redacted] KEYES provided the following information:

b6
b7C

KEYES told law enforcement about an arson and bank robbery he committed in Texas. KEYES burglarized and burned a home in Aledo, Texas the morning of February 16th. Keyes told law enforcement that after searching through the home for several hours he took some jewelry and other items before setting it on fire. Keyes had been in Aledo looking for a bank to rob, after the fire he decided to rob a bank in another town several miles away. Keyes then conducted a takeover armed robbery of a bank in Azle, Texas where he got away with almost $10,000 which he described as not all that much money for a robbery. KEYES described himself as being "out of control" for several days in Texas.

Keyes also told law enforcement more details about his "plan"in Vermont with the Curriers. Keyes told law enforcement that he originally planned on car jacking someone, someone with a decent vehicle so he could rob several banks the next day. Keyes described a male who he had almost taken that had pulled in to an apartment building near-by driving a yellow Volkswagon bug. Keyes told law enforcement that he was actually looking for a male to take this trip. Keyes gave more details of the Currier abduction and the time leading up to his entry in to their home.

Keyes provided law enforcement the names of several people he served in the Army with who law enforcement may eventually want to talk to. Keyes also told law enforcement about a cat he shot when he was a teenager, he realized at that time he was somewhat different then others. Captioned interview was audio recorded.

Investigation on 04/17/2012 at Anchorage, Alaska, United States (In Person)

Date of entry 07/12/2012

On 4-12-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was interviewed at U.S. Attorney's Office, 222 W. 7th Ave, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] FBI Special Agent [redacted] Assistant United States Attorney (AUSA) [redacted] and AUSA [redacted] KEYES provided the following information: b6 b7C

KEYES was informed by law enforcement the location where he left the Curriers bodies on Route 15 in Vermont was demolished and investigators planned to search the site. Keyes provides law enforcement with a detailed description about where in the home he left the bodies.

KEYES told law enforcement where the weapons cache is buried in New York which contains the weapon used to kill Mr. Currier. Using Google Maps, KEYES directed law enforcement to the reservoir where he disposed of the barrel of the murder weapon and the gun stolen form the Currier home.

Keyes told law enforcement that Bill Currier died as a result of gun shots, Keyes did not disclose how he killed Lorraine Currier. Keyes told law enforcement that he burned a suit case full of items he took from the Curriers home in a campground in New Hampshire. Keyes described cell phones, identification cards, credit cards and some jewelry as some of the items that may have been inside the suit case.

Keyes discussed in detail his buried caches and how he prepares them so that his weapons remain operable while buried. The captioned interview was audio recorded.

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/31/2012

On Friday, 07/27/2012, at approximately 12:00 PM, the following evidence items were obtained by SA [redacted] from Detective Lieutenant [redacted] of the Essex, Vermont Police Department: b6 b7C

1. Hairs - from the drivers side seat back (collected from the Currier vehicle, on 6/11/2011; Essex PD item 7560-125);

2. Piece of hair - from the ceiling of the trunk (collected from the Currier vehicle, on 8/11/2011; Essex PD item 7560-179);

3. One Hard Drive containing surveillance video from the following locations: Rite Aid-Essex video, Cumberland Farms-Burlington video, and Car Wash-Burlington video, for unknown dates (Essex PD item 7560-81); and

4. CD-Rs (6ea) of video surveillance from the Lowes store, in Essex, Vermont: main entrance, exit and lot video for 6/8/11 to 6/10/11 (Essex PD item 7560-84).

It is important to note that the above listed items were originally seized, by the Essex, Vermont Police Department, during their Missing Persons investigation regarding the disappearance of William and Lorraine Currier. The original FD-597 (Receipt for Property Received) and a copy of the Essex PD's Property Receipt were placed into a 1A envelope (FD-340).

Investigation on 07/27/2012 at Essex, Vermont, United States (In Person)

Title: (U) Shed Search Warrant 7/19/2012
Re: 306-AN-15642, 07/25/2012

conducted a search of a shed maintained at the FBI Building at 101 E. 6th Avenue, Anchorage, Alaska. The search was conducted pursuant to a search warrant signed by Magistrate Judge Roberts. The shed was originally seized from 2456 SPURR LANE, ANCHORAGE, ALASKA. At approximately 9:46 am the shed was unlocked to begin the search.

The following personnel were present for all or portions of the search, to include members of the Anchorage Police Department (APD)Bomb Squad :

	Team Lead/Seizing Agent	FBI
	Case Agent	FBI
	Photo Log	FBI
	Photographer	FBI
	Searcher/Finder	FBI

	Law Enforcement	APD Bomb Squad	b6 b7C
	Law Enforcement	APD Bomb Squad	
	Law Enforcement	Co-Case Agent in the investigation	
	Attorney	AUSA for case	
	Law Enforcement	Head of APD Crime Scene Unit	
	Law Enforcement	Airport PD Bomb Squad	
	Law Enforcement	APD Bomb Squad	

The search was conducted over a span of three business days. Additionally, an inventory was conducted of the remaining items in the shed. At the end of each day's search, the shed was locked and secured. SA served as evidence custodian and took custody of all evidence items at the conclusion of the search. The shed was locked and secured. The search concluded at approximately 2:58 pm on 7/23/2012. Administrative note: the photograph sequencing on the camera displayed #1-126. Due to an unknown reason, after downloading the photographs from the compact flash card onto a DVD, the photograph sequencing is displayed as #4-129. The original CD was placed in a 1A and submitted to the case file.

FD-302 (Rev. 5-8-10)

General Records

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/23/2012

On July 18, 2012, Special Agent (SA) [redacted] and SA [redacted] placed a bilge pump (Item 17, 1B225) and a bag of rope (Item 18, 1B226) in the drying cabinet in the temporary evidence storage room within the Evidence Response Team's (ERT) off site facility. These items were collected from a 1982 Bayliner boat which Seattle ERT searched on July 18, 2012.

b6
b7C

The plastic bag containing the rope was unopened, in its original sealed condition, but tears in the bag allowed the rope inside to become saturated with water. SA [redacted] opened the bag and spread the rope out on a shelf in the drying cabinet to expedite its drying. The room containing the drying cabinet was locked at approximately 4:36 p.m. A room entry log was placed on the door.

On July 19, 2012 at approximately 1:40 p.m., SA [redacted] and Field Photographer [redacted] opened the drying cabinet. The bilge pump and the bag of rope were placed in individually labeled bags. The drying cabinet filters and the butcher paper placed on its floor to capture trace evidence were placed in a new bag (Item 1, 1B228 - the first and only item collected on July 19, 2012).

SA [redacted] delivered these three items to the Evidence Control Center in the Federal Bureau of Investigation Seattle office. The room entry log was enclosed in a FD-340 envelope.

Investigation on 07/19/2012 at Seattle, Washington, United States (In Person)

Title: (U) EC to multiple Divisions re: military interviews **Date:** 08/06/2012

From: ANCHORAGE
Contact: [redacted] b6 b7C

Approved By: SSA [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: (U) To request receiving divisions' assistance in locating and interviewing individuals who served in the military with Keyes.

[redacted] b7E

Details:

For background, Samantha Koenig was kidnapped from her place of employment in Anchorage, Alaska by Israel Keyes on 02/01/2012. Keyes confessed to the kidnapping and murder of Koenig and has since been charged federally with kidnapping which resulted in the death of Koenig. Koenig's remains were recovered in Matanuska Lake, Alaska.

On 03/13/2012, Israel Keyes was arrested in Lufkin,TX after using an ATM card associated with Samantha Koenig. Since being transported back to Anchorage Keyes has been cooperating with law enforcement, providing additional information about other crimes including kidnapping and murder. Keyes confessed to the kidnap and murder of William and Lorraine Currier in Essex, VT on 06/08/2011.

In subsequent interviews, Keyes indicated he was responsible for additional homicides in multiple states. The Anchorage Division is currently attempting to identify additional victims and locate their remains.

UNCLASSIFIED

UNCLASSIFIED

Title: (U) EC to multiple Divisions re: military interviews
Re: 306-AN-15642, 08/01/2012

Keyes served in the U.S. Army and identified several individuals he served with both in the U.S. and in Egypt. Keyes acknowledged his homicidal acts began around the time he joined the military. Agents have also learned that he a pentagram was branded on Keyes chest by someone serving with him in Egypt. Anchorage is requesting receiving offices to interview the below individuals regarding their knowledge of Keyes while he was in the military. The following are a list of individuals Keyes reported serving with:

- [redacted] born [redacted] SSAN [redacted] Last known address: [redacted] b6 b7C
- [redacted] born [redacted] SSAN [redacted] Last known address: [redacted]
- [redacted] born [redacted] SSAN [redacted] Last known address [redacted]
- [redacted] born [redacted] SSAN [redacted] Last known address [redacted]
- [redacted] born [redacted] SSAN [redacted] Last known address [redacted]

Once the lead is assigned, please contact SA [redacted] at [redacted] for updated information and interview questions.

FD-302 (Rev. 5-8-10)

General Records

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/06/2012

On August 2, 2012, a search of the Woodside Natural Area, Essex, Vermont, a public natural area which is part of the Winooski Valley Park District, was conducted by FBI Albany Division personnel and Essex Police Department Detectives. The search was conducted to locate a shovel and a wooden box left in the area by Israel Keyes.

The area where these items were left was described by Keyes in an interview conducted by law enforcement in Alaska. The details, to include GPS coordinates (Latitude 44.501900; Longitude -73.137951) were provided in an e-mail messages sent from SA [redacted] of the Anchorage Division to SA [redacted] of the Albany Division/Rutland, Vermont Resident Agency. b6 b7C

The e-mail, dated July 20, 2012, stated that Keyes "parked on Woodside Valley Drive and walked down a trail to Winooski [phonetic spelling corrected in this FD-302] Park. The shovel is above ground by lying on an indentation because that is where he pulled his cache from. The box that the cache was in might also be there. He wasn't happy with it because it wasn't as water proof as he wanted it to be."

Prior to the August 2, 2012 search, a site survey of the Woodside Natural Area was conducted by SAs [redacted] on July 31, 2012, based on the above information. During the site survey, SAs [redacted] located the general search area with a Google Maps satellite image of the GPS points.

Following the site-survey, SA [redacted] requested SA [redacted] provide any additional details regarding the location of these item. In an e-mail message, dated July 31, 2012, from SA [redacted] to SA [redacted] additional details were forwarded, to include:

"As you drive on Winooski Road towards the detention center on the right hand side there is a gated road that goes to the river/boat launch. But you can't park there. Walk down that road and take first walking trail on the left. Straight ahead "the trail turns to that junction." There will be several 90's (degree turns?) Lots of leafy trees. Hole where the box was. Metal detector should find the shovel."

Investigation on 08/02/2012 at Essex, Vermont, United States (, Other (Search report))

File # 306-AN-15642 Date drafted 08/06/2012

by [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

FD-302a (Rev. 05-08-10)

306-AN-15642

Continuation of FD-302 of Search of Woodside Natural Area , On 08/02/2012 , Page 2 of 3

Utilizing the information from the aforementioned e-mail messages, the August 2, 2012 search was conducted.

The search team met, at approximately 8:30 a.m., on Woodside Drive at the gated entrance to the river/boat launch access road of the Woodside Natural Area.

The search team included the following personnel/roles:

SA [redacted] (FBI Albany) - Team Leader/Search b6 b7C

SA [redacted] (FBI Albany) - Photographer/Search

OST [redacted] (FBI Albany) - Photo log/Sketch/Search

Intern [redacted] (FBI Albany) - Search

Detective [redacted] (Essex PD) - Search

Detective [redacted] (Essex PD) - Search

At 8:37 a.m., the search team entered the park from the gated entrance and walked in a southeast direction down the river/boat launch road. The team turned left in a northwest direction onto a marked trail called Woodside Loop. Woodside Loop is wooded trail that is about 1 mile in length. The trail was followed for approximately 15 minutes at which point the trail curved south and was covered by wooden planks. The wooden planked trail led south to a junction (i.e. a "T" intersection), where 90 degree turns, either to the east or west, were observed.

Followed west, the trail eventually leads back to the aforementioned marked entrance (i.e., completing the loop). The western direction was clear and well-maintained, whereas the eastern direction was less distinct and not clearly maintained. However, a trail map of the the Woodside Natural Area, located online, shows the trail leading both east and west from this junction. Just south of the junction is a slope that leads to the Winooksi River.

In the area of the junction a handheld GPS device was used by SA Emmons, which showed the location as having a match to the coordinates identified by Keyes. Photos of this location were taken from all perspectives, turning 360 degrees. Additional photographs of the general vicinity were taken to show the general condition of the immediate area, which had numerous downed trees and piles of natural debris, possibly the result of Hurricane Irene, which struck Vermont in late August 2011.

The search team conducted a line search starting from the wooden planks

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 196 / 489

and heading from west to east across a level area and then up an incline to a slightly higher elevation. The search team then searched the general area of the GPS points. No shovel or box was located nor was an obvious indentation located which fitted the description provided by Keyes.

Detective [redacted] used a metal detector during the search which alerted on several areas. Many of these areas were ruled out as nails or remnants of wire fencing. In one particular area, just west of the trail junction, the metal detector indicated that a metal object might be underground. This area was not fully examined since the search team did not have a shovel. However, this spot was near the base of a tree which would have made digging difficult, and the spot was relatively close to the trail (hence, easily observable from the trail). b6 b7C

The search team also searched an area west of the junction based on an observation that the Google map satellite image appeared to place the location slightly more west. The area searched was in the vicinity of latitude 44.50094 and -73.13649 longitude. Photographs were taken of this location (Photos 28-37). Neither the shovel or box were located in this area nor where any obvious indentations or 90 degree angles in the trail located.

Following the search of the above two areas, a series of photographs were taken (Photos 38 - 58) to show the path of the trail leading to the junction and west beyond the junction. The series begins at the point in which Woodside Loop trail curves to the south (where a sign is posted to the left of the trail stating, "Park Ends Here.") Photos were taken along the southern direction of the trail, along the wooden boards to the junction, and then along the western path of the trail to the point where Fern Loop trail splits off Woodside Loop trail (as indicated on a posted sign).

At the conclusion of the search, photos were taken of the entrance to Woodside Loop trail, of the trailhead/gate area and of a posted map of the trail.

The search was concluded at 11:07 a.m.

To: [redacted] (AL) (FBI); [redacted] (AL) (FBI)
Subject: Shovel information

Classification: UNCLASSIFIED

Hi [redacted]
We went through all of the notes from the May 22nd interview and this is what we came up with other than the coordinates. I hope this makes more sense to you guys than it does to us. We also double checked and the coordinates that I sent you were what we had written down in notes.

As you drive on Winooski Road towards the detention center on the right hand side there is a gated road that goes to the river/boat launch. But you can't park there. Walk down that road and take first walking trail on the left. Straight ahead "the trail turns to that junction". There will be several 90's (degree turns?).
Lots of leafy trees. Hole where the box was. Metal detector should find the shovel.

Good luck!

Thanks [redacted] I will work on getting the shovel thing going sometime next week. Do you recall which interview it was that he spoke about the shovel?

By the way, re Curriers stuff:

1. I have the hairs from the Currier car in my possession. From the packaging, they don't appear to have been sent to the Vermont lab for any purpose, but I want to verify that before we send them down to the FBI lab. I will work on following up on that early next week as well. (NOTE: Vermont lan does not do any trace analysis but it is possible they looked at the hairs for DNA purposes.)

2. I also have, in my possession, video surveillance (previously obtained by the Essex PD during the missing persons case last summer) for Loews (it was a Loews not Home Depot) and Rite Aid (the pharmacy Keyes mentions). It appears the surveillance videos cover the full day of 6/9/11. The fun part now is for me to see if I can get the video recordings to work on a computer in the RA so that I can view them.

I hope you are doing well. Hang in there and don't forget to take care of yourself. ☺
Have a great weekend,
[redacted]

Subject: Shovel coordinates

Classification: UNCLASSIFIED

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 199 / 489

Hey [redacted] b6
Here is what we found reference the shovel.... b7C
GPS coordinates: lat 44.501900 and long -73.137951

Keyes said he parked on Woodside Valley Drive and walked down a trail to Woonooski (sorry probably spelled wrong) Park. The shovel is above ground by lying on an indentation because that is where he pulled his cache from. The box that the cache was in might also be there. He wasn't happy with it because it wasn't as water proof as he wanted it to be.

I hope this helps.
Thanks

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/03/2012

On Thursday, August 2, 2012, [redacted] date of birth (DOB) [redacted] b6 b7C [redacted] cellular telephone number [redacted] was interviewed at the Makah Administration building in Neah Bay, Washington. After being advised of the identity of the interviewing Agents and the nature of the interview, [redacted] provided the following information:

[redacted] was asked if he would like Israel Keyes' Bayliner boat returned to him if Keyes approved. [redacted] indicated that he would.

[redacted] stated that he did not recall Keyes ever using the boat in saltwater, stating that he was only aware of freshwater use.

[redacted] did not have specific memories of Keyes constructing a number of cement style anchors for the boat. When asked where Keyes would have most likely acquired the cement for such a project, [redacted] stated that Keyes probably used some left over cement from the various Parks and Recreation projects.

[redacted] was asked about Home Depot purchases by employees of the Parks and Recreation Department. [redacted] stated that some purchases are conducted through the Tribal office while others are conducted on an employee's personal credit/debit card which are later reimbursed to the employee. [redacted] acknowledged that the latter method was often practiced and was easier in many ways.

[redacted] had no information concerning any re-carpeting projects on Keyes' boat. [redacted] did not believe that Keyes had done much to fix up the boat after initially purchasing it.

Investigation on 08/02/2012 at Neah Bay, Washington, United States (In Person)

Title: (U) Albany lead re: shovel, hair, HD video, Tupper Lake BR, etc **Date:** 08/07/2012

From: ANCHORAGE
AN-C-1
Contact: [redacted] b6 b7C

Approved By: [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: (U) Anchorage is requesting assistance from the Albany Division with follow-up investigation in the Currier murder case.

[redacted] b7E

Details:

For background, Samantha Koenig was kidnapped from her place of employment in Anchorage, Alaska by Israel Keyes on 02/01/2012. Keyes confessed to the kidnapping and murder of Koenig and has since been charged federally with kidnapping which resulted in the death of Koenig. Koenig's remains were recovered in Matanuska Lake, Alaska.

On 03/13/2012, Israel Keyes was arrested in Lufkin,TX after using an ATM card associated with Samantha Koenig. Since being transported back to Anchorage Keyes has been cooperating with law enforcement, providing additional information about other crimes including kidnapping and murder. Keyes confessed to the kidnap and murder of William and Lorraine Currier in Essex, VT on 06/08/2011.

In subsequent interviews, Keyes indicated he was responsible for additional homicides in multiple states. The Anchorage Division is

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 208 / 489

currently attempting to identify additional victims and locate their remains.

Keyes provided details about the murder of Bill and Lorraine Currier in Burlington, Vermont. The information provided by Keyes has generated additional investigative leads. Keyes stated he took a number of items from the Currier residence including cellphones, identification cards, jewelry and clothing. Many of these items he burned at a campground in New Hampshire and others he disposed of in a dumpster near his hotel in Burlington. After the murder of the Currier's, Keyes drove the Currier's car to a Lowe's or Rite Aid parking lot near his hotel. He parked the car there while he went to the hotel to clean up. He then returned to the car, attempted to drive it north out of Burlington before deciding to turn around and abandon the car in an apartment complex parking lot. Keyes also described a shovel he used to dig up a cache of guns in Burlington. The shovel was also used in the disposal of another victim in New York. Keyes left the shovel at the cache location in Winooski Park. Keyes used Google Maps to identify the location of the shovel and the GPS coordinates and description of the location were provided to SA [redacted] Anchorage is requesting assistance from the Albany Division in looking for the above mentioned shovel and reviewing the security video at Lowe's and Rite Aid to determine if Keyes story can be corroborated. b6 b7C

A search warrant was obtained to seize hairs from Keyes for comparison with hairs found in the Currier's vehicle. Anchorage is requesting assistance with obtaining the hairs seized from the Currier's vehicle which are in the possession of the Essex Police Department. Once these hairs are obtained, they can be sent to the FBI Laboratory at the same time Anchorage sends the known hairs seized from Keyes pursuant to the search warrant.

Anchorage appreciates the assistance the Albany Division has provided in captioned case to date. Please direct questions to SA [redacted] (cell).

General Records

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/31/2012

On Monday, July 30, 2012, [redacted] DOB [redacted] cellular telephone number [redacted] self-employed IT consultant, was interviewed at the Olympia Resident Agency of the FBI. After being advised of the identity of the interviewing agents and the nature of the interview, [redacted] provided the following information:

b6
b7C

[redacted] served in the U.S. Army from July 11, 1988 through July 3, 2001. [redacted] was stationed at Ft. Lewis, Washington from 1998 until he was discharged, and has lived in Olympia since that time. [redacted] resides at [redacted] Olympia, WA, 98512. His business, [redacted] has an office space located at [redacted] Olympia, WA 98502, telephone [redacted]

ISRAEL KEYES (KEYES) was under [redacted] command from some time in 1999 through April of 2000. At that time, [redacted] was the Mortar Section Leader for A company, 1st Battalion, 5th Infantry, and was the Headquarters Platoon Sergeant. KEYES was an 11 Charlie 10, which meant that he was an Infantry Mortar-man, skill level 1. KEYES was an excellent soldier. Of the approximately 30 underlings in [redacted] command, KEYES was the only soldier who could be counted on to do his job. At the time [redacted] left the Army, KEYES' rank was an E-4.

During the time KEYES was under [redacted] command, their platoon served 6 months overseas near the resort town of Sharm el-Sheikh, Egypt as part of MFO-OP39, a group of Multinational Force Observers. After the first 3 months of their deployment, [redacted] was medevaced out of Egypt due to a serious illness, and he was later moved to another command. [redacted] has not seen or heard from KEYES since he [redacted] discharged out of the Army.

KEYES did not have a car and spent most of his free time in the barracks playing video games with his fellow soldiers, most of whom also did not have cars. KEYES was not an introvert, nor an extrovert, but was well liked, and [redacted] has fond memories of working with him. [redacted] did not know KEYES to be a homosexual. KEYES may have had a girlfriend, but [redacted] never saw her. To [redacted] knowledge, KEYES did not use drugs, but he drank heavily and he and the other soldiers sometimes got "hammered."

Investigation on 07/30/2012 at Olympia, Washington, United States (In Person)

File # 306-AN-15642 Date drafted 07/31/2012

by [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

b6
b7C

[redacted] remembered KEYES talking about his parents whom he (KEYES) referred to as "nomadic hippies," who moved from "cult to cult to cult." [redacted] recalled that, at the time, KEYES' parents were living in Idaho as Amish. KEYES did not like this lifestyle, and left as soon as he was old enough to join the Army. KEYES did not dislike his parents, but did not care for their beliefs. KEYES was close to his younger sisters and was trying to save money to get them out of the lifestyle too. It was never spoken, but [redacted] impression was that KEYES or his sisters were abused by their father.

When asked if he knew KEYES' religious beliefs, [redacted] noted that KEYES did not go to church, but he thought that he was non-denominational, maybe Protestant, not agnostic or atheist.

The other soldiers KEYES was closest to were [redacted] (later identified as [redacted] SSAN [redacted] aka [redacted] (later identified as [redacted] SSAN [redacted] and First Name Unknown (FNU) [redacted] (later identified as [redacted] SSAN [redacted]. If they had any free time to spend outside of the base in Egypt, KEYES would have gone out with [redacted]

FNU [redacted] (later identified as [redacted] SSAN [redacted], an older guy under [redacted] command, also knew and spent some time with KEYES. Specialist [redacted] (later identified as [redacted] SSAN [redacted] was also in their platoon, but was not well liked. [redacted] relieved [redacted] of one of his duties and replaced him with KEYES, who also did not like [redacted] recalled [redacted] reading a book on serial killers, and when [redacted] inquired about it, [redacted] told him he was studying criminology, so [redacted] was not alarmed. [redacted] regularly conducted health and welfare checks on his men, and KEYES never raised any flags.

When asked, [redacted] did not recall a soldier named [redacted] as being in his platoon. [redacted] was not aware of KEYES having any personally owned guns, nor had he ever known KEYES to commit any crimes. [redacted] was not aware of KEYES having any brands on his body, but noted the Army would have had a record because all soldiers were searched and photographed for tattoos and body markings.

Until the interview, [redacted] was unaware of KEYES' arrest or incarceration for the kidnapping and murder of a barista in Alaska. He thought he was being interviewed as part of a background check so that KEYES could get a clearance to work for the government.

During the interview, [redacted] informed the interviewing agents that he had retained a copy of the roster of all of the soldiers from Alpha Company.

b6
b7C

[redacted] offered to provide this roster to assist with identifying other Army acquaintances of KEYES for interview purposes. Shortly after the interview, [redacted] sent the attached rosters via email to SA [redacted]

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/01/2012

On 7-26-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was interviewed at the FBI Building 101 E. 6th Ave, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted], [redacted], FBI Special Agent [redacted] Assistant United States Attorney (AUSA) [redacted] KEYES provided the following information: b6 b7C

Law enforcement showed KEYES a list of evidence that was seized from his boat in Washington state. KEYES expressed that he was not happy about how things played out in Vermont. He was upset that the "locals" got involved with the investigation. KEYES told law enforcement that he didn't want all the details of his crimes to go public, however, he understood that the jury would have to hear them. KEYES mentioned that he was getting "bored" with the whole process. KEYES told law enforcement that he didn't want to be charged with the Currier's murder multiple times and felt no pressure to continue to give us information. KEYES told law enforcement that he wants to talk to us about "everything" and knows he has to have his lawyer present for that. Agents offered to call [redacted] KEYES lawyer, and Keyes agreed so the interview was stopped. AUSA [redacted] contacted [redacted] and advised him of the situation.

Law enforcement returned to resume interviewing KEYES with [redacted] his attorney is present. KEYES immediately asked about the status of the Koenig case. KEYES stated that he is concerned about the details he gave regarding the Koenig crime getting out to the media. KEYES, [redacted] and [redacted] discussed a number of legal issues regarding control and dissemination of information in an agreement. KEYES stated he did not want his attorney's to appear on his behalf at the mitigation hearing with Capital Crimes Unit. KEYES signed the letter from the U.S. Attorney's office regarding negating the original agreement made for the Koenig case. [redacted] told law enforcement that he would be discussing the "Global Settlement" option with KEYES.

Captioned interview was audio recorded.

Investigation on 07/26/2012 at Anchorage, Alaska, United States (In Person)

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/03/2012

On 8-01-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was contacted at the Anchorage Jail, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] and FBI Special Agent [redacted] This contact with KEYES provided the following information: b6 b7C

Law enforcement contacted KEYES at the Anchorage Jail to enquire if he wanted to come to the FBI for an interview. KEYES appeared to be very agitated. TFO [redacted] told KEYES that law enforcement was aware that he had been having a difficult time over the past few days in jail and offered to bring him to the FBI to talked about it. KEYES responded very negatively, telling law enforcement to "fuck off, I know what you guys are trying to do!" KEYES mumbled " I told you guys early on that I had nothing but time, now I have three attorney's and nothing but time". TFO [redacted] could see that KEYES was very upset and just left KEYES telling him we would check back with him later.

On 7-20-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was interviewed at the FBI Building 101 E. 6th Ave, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] [redacted] FBI Special Agent [redacted] Assistant United States Attorney (AUSA) [redacted]. KEYES provided the following information:

b6
b7C

Law enforcement provided KEYES with a copy of the press release from Vermont. KEYES was also told that it was very likely the media in Vermont was going to run a story identifying him as the suspect. KEYES was provided a letter drafted by AUSA [redacted] outlining the "global" type agreement where law enforcement would get the names and locations of the other victims he has murdered. KEYES told law enforcement that he was going to take the letter and research it and agreed that he would met with law enforcement again early the following week. Captioned interview was audio recorded.

FD-302 (Rev. 5-8-10)

General Records

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/09/2012

On 06/21/2012, the property located at 8 Colbert Street, Essex, Vermont, further described as a white, single-family residence, was searched, via written consent obtained from [redacted] the court-appointed guardian of the property. 8 Colbert Street, Essex, Vermont is the residence of WILLIAM and LORRAINE CURRIER. [redacted] provided her consent by signing the Essex Police Department's Consent Search Form on 06/20/2012. The purpose of the search was to seize evidence that could be used to corroborate and/or refute statements made by ISAIAH KEYES regarding the abduction and murders of WILLIAM and LORRAINE CURRIER.

b6
b7C

It is important to note that this was not the first search conducted of the CURRIER residence. During the Essex Police Department's (EPD) investigation into the disappearance of the CURRIERS, a number of searches were conducted of the residence. However, this was the first and only search conducted of the residence since statements were made by KEYES. It should also be noted that the CURRIER residence remained locked and under the control of the EPD, since 06/09/2011. EPD has escorted CURRIER family members who have needed access to the CURRIER residence, since June 2011, on a few occasions.

Individuals participating in the search were:

1. SA [redacted] FBI
2. SA [redacted] FBI
3. Detective Lieutenant [redacted] EPD
4. Detective [redacted] EPD

At approximately 10:40 AM, the individuals mentioned above, along with Deputy States Attorney (DSA) [redacted] of the Chittenden County States

FD-302a (Rev. 05-08-10)

306-AN-15642

Continuation of FD-302 of Consent search - 8 Colbert Street, Essex, VT on 06/21/2012 . On 06/21/2012 . Page 2 of 4

Attorneys Office, located in Burlington, Vermont, arrived outside of 8 Colbert Street, Essex, Vermont. Upon arrival, Detective [redacted] with the assistance of SA [redacted] began taking photographs of the neighborhood and the outside of the Currier residence. b6 b7C

At approximately 10:49 AM, entry was made into the residence, via the rear door to the garage, using a key. Only three individuals, DET. [redacted] DSA [redacted] and SA [redacted] entered the residence for the sole purpose of allowing DSA [redacted] an opportunity to walk through the garage and residence of the CURRIERS. It is important to note that DSA [redacted] was escorted at all times by DET [redacted] and SA [redacted] and did not touch or disturb anything while conducting her walk through of the residence and garage.

At approximately 10:59 AM, all three individuals, DET. [redacted] DSA [redacted] and SA [redacted] exited the CURRIER residence via the rear door to the garage. After exiting the residence. DSA [redacted] left the location to return to her office in Burlington, Vermont.

At approximately 11:00 AM, DET [redacted] DET [redacted] SA [redacted] and SA [redacted] entered the garage via the rear door to the garage. After searching the garage, entry was made into the residence, via the door between the garage and the kitchen, at approximately 11:13 AM. The residence area was then searched.

While in the residence, DET [redacted] was timed to see how long it would take a person walking in a hurried, "blitz attack" manner, from the door between the garage and kitchen, to the door to the Master bedroom. DET [redacted] timed [redacted] using the watch on his wrist, which revealed it took approximately 6 seconds.

Miscellaneous information noted while nside the residence include the following:

1. An older prescription bottle for one of the CURRIERS identified another

FD-302a (Rev. 05-08-10)

306-AN-15642

Continuation of FD-302 of Consent search - 8 Colbert Street, Essex, VT on 06/21/2012 . On 06/21/2012 . Page 3 of 4

pharmacy used by the CURRIERS not previously known by investigators: BROOKS PHARMACY, located on Main Street, in Winooski, Vermont.

2. Female shoes, believed to be LORRAINE's, were observed on the floor of the Master bedroom. The shoes were size 6-1/2. Also, the right shoe in each of two different pairs of female shoes had been modified with some sort of lift.

At approximately 12:07 PM, all search personnel exited the residence via the rear door to the garage and the search concluded. The rear door to the garage was locked by DET. [redacted] DET. [redacted] advised that he would return the key, as well as turn over the custody and control of the CURRIER residence to [redacted] b6 b7C

The following items were seized during the search of the residence and were, subsequently, entered into evidence:

1. Latch from storm door

2. (Eye) Glasses - from kitchen counter

3. (Eye) Glasses - from Living room/coffee table

4. (Eye) Glasses - from computer room

5. Military patch

6. Fist military booklet

7. Cookie tin of military items

8. (Eye) Glasses - from bathroom

9. Crowbar

The following items are located in a 1A envelope in the file: (1) Notes/log for the search; (2) Original Evidence Recovery Log; (3) Original FD-597 (Receipt For Property Seized); (4) A copy of the Essex Police Department's Consent Search Form which was signed by [redacted] on 06/20/2012; (5) Original Photo log; and (6) one CD-R of the photographs taken during the search.

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: (U) Request for FBI Laboratory Forensic Anthropology Program to examine submitted photographs.

[redacted] b7E

Administrative Notes: (U) Reference emails sent to [redacted] b6 b7C which contained digital photographs of questioned bones recovered from the Coventry Landfill, Newport, Vermont; reference telephone conversations between SA [redacted] of Albany Division [redacted]

Details:

At the request of Anchorage Division, Albany Division conducted a consent search of the Coventry Landfill located in Newport, Vermont, from May 7, 2012, through July 19, 2012. The purpose of the search was to locate the remains of William S. Currier and Lorraine Currier who were reported missing from Essex, Vermont on June 9, 2011.

This communication is in reference to photographs labeled QB73 through QB81 that were previously submitted by e-mail to the Forensic Anthropology Program for analysis. Anthropological examinations are requested on the submitted photographs to include determination of

Date specimens received: July 17, 2012

The following specimen was received in the Trace Evidence Unit (Anthropology):

Q10 Bone (1B203, E4254810)

The results of the anthropological examinations are contained in this report.

1- Albany
Rutland RA
SA [redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 245 / 489

Methods:

The determination of whether skeletal remains are human or non-human in origin is typically based on examination of gross bone morphology, looking for features or landmarks that are consistent with human or non-human species. In some cases, additional techniques such as quantitative assessment (measurement), microscopic examination, or comparison to published literature or exemplars may be employed.

In this case, the item was examined visually and microscopically/histologically.

Results of Examinations:

Item Q10 is a bone (tibia) of non-human origin. No further anthropological examinations were conducted.

Limitations

The conclusions that can be reached regarding human or non-human origin are dependent on the condition and completeness of the skeletal material. Results based on fragmentary or poorly preserved material may be inconclusive.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 246 / 489

Remarks:

This report concludes the anthropological examinations conducted by the FBI Laboratory. The item will be returned under separate cover at the completion of the laboratory examinations. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

The results of the anthropological examinations are contained in this report.

Methods:

The determination of whether skeletal material is human or non-human in origin is typically based on examination of gross bone morphology, looking for features or landmarks that are consistent with human or non-human species. In some cases, additional techniques such as quantitative assessment (measurement), microscopic examination, or comparison to published literature or exemplars may be employed.

In this case, the items were examined visually.

Results of Examinations:

Item Q11 is an image depicting a photo log. No anthropological examinations were conducted on this item.

Items Q12-Q176 are images depicting bones. In some cases a single image depicts a single bone, in some cases a single image depicts multiple bones, and in some cases multiple images depict the same bone or bones. In some cases, the images include apparent soft tissue or other debris adhering to the bones. The bones pictured in the images are non-human in origin. No further anthropological examinations were conducted.

Limitations

The conclusions that can be reached regarding human or non-human origin are dependent on the condition and completeness of the skeletal material. Results based on fragmentary or poorly preserved material may inconclusive.

The conclusions that can be reached based on the examination of images are dependent on the condition and completeness of the skeletal material as well as the quality of the images. Results may be limited or inconclusive.

From: ANCHORAGE
Contact: [redacted]

Approved By: SSA [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL KOENIG, SAMANTHA, TESSLA ET AL

Synopsis: (U) Anchorage Division is requesting Oklahoma City Division, Tulsa RA, to interview [redacted]

[redacted] b7E

Details:

For background, Samantha Koenig was kidnapped from her place of employment in Anchorage, Alaska by Israel Keyes on 02/01/2012. Keyes confessed to the kidnapping and murder of Koenig and has since been charged federally with kidnapping which resulted in the death of Koenig. Koenig's remains were recovered in Matanuska Lake, Alaska.

On 03/13/2012, Israel Keyes was arrested in Lufkin,TX after using an ATM card associated with Samantha Koenig. Since being transported back to Anchorage Keyes has been cooperating with law enforcement, providing additional information about other crimes including kidnapping and murder. Keyes confessed to the kidnap and murder of William and Lorraine Currier in Essex, VT on 06/08/2011.

In subsequent interviews, Keyes indicated he was responsible for additional homicides in multiple states. The Anchorage Division is currently attempting to identify additional victims and locate their remains.

Title: (U) Debra Feldman lead
Re: 306-AN-15642, 08/14/2012

Keyes traveled to New Hampshire on 4/7/2009 and remained on the east coast until 4/17/2009. Keyes admitted to committing a murder durnig this time frame. Further investigation and review of his financial records, telephone records, etc. suggest the homicide likely occurred within the first few days he was in the area. Anchorage has been working with VICAP to identify all missing persons reported during this time frame. [redacted] was reported missing on 4/8/2009. Public source information indicated her body has not been recovered and no one has been arrested in connection with her disappearance. Public source records also list the local police contact as Detective [redacted] with the Hackensack Police Department. A review of Keyes computer revealed a search for [redacted] with a slight misspelling of her name.

b6
b7C

Anchorage is requesting assistance in contacting the Hackensack Police Department to learn more about the [redacted] case. Information that would be helpful includes details about her disappearance, where she disappeared from, suspects, cellphone/GPS information, and any other facts that may be helpful in connecting her with Keyes or a specific location that Keyes was known to be in. Anchorage is requesting discretion when contacting the local authorities and that agents not disclose the identity of Israel Keyes or an Alaskan interest at this time. Keyes is currently cooperative with the FBI and his continued cooperation is dependent on his name not being connected to other cases in the media. Anchorage is also requesting the assigned agent contact SA [redacted] cell [redacted] prior to making contact with local authorities for additional information/updates.

Title: (U) ISRAEL KEYES (SUBJECT); SAMANTHA KOENIG (VICTIM); SERIAL KILLER
Re: 306-AN-15642, 07/20/2012

Department (PD) conducted a search at 32 Upper Main Street, Essex, Vermont, the site of a house that was demolished on 10/25 - 10/27/2011.

The search, which was led by the VSP Crime Scene Search Team, involved the excavation of the former basement of the dwelling.

Enclosed in the 1A section of the file are documents, reports, logs, photos, and video collected from the Vermont State Police and from the Essex PD regarding this search, to include the following:

(1) Copy of e-mail from Detective Sergeant [redacted] of VSP forwarding his report, and a copy of the photograph logs he completed for the search (see items 2-3 below). b6 b7C

(2) Report of Detective Sergeant [redacted]

(3) Photography Logs (2 separate attachments to the above email).

(4) Folder containing hard copies of search scene photographs, CD of photographic stills and CD of video. These items were provided in person to the writer by Lieutenant [redacted] of VSP on or about 6/1/2012.

(5) Vermont State Police Property Sheet documenting items of evidence turned over from VSP to FBI on 4/13/2012.

(6) CD containing copies of Vermont State Police Crime Scene Search Team reports, Evidence forms, Photo Log and Scene Diagram.

(7) Copy of crime scene log for search maintained by Essex PD (Original at Essex PD).

VERMONT STATE POLICE

Department of Public Safety

CRIME SCENE SEARCH TEAM – MEMBER'S REPORT

CSST Member: Detective Sergeant [redacted] b6 b7C

Case Number: 7A-AN-15642

Location: 32 Upper Main Street Essex, Vermont

Narrative: On April 12, 2012 at approximately 0830hrs I arrived at Williston barracks for a briefing. The Vermont State Police Crime Scene Search Team (CSST) had been assigned to assist Essex Police Department (and FBI) in an ongoing investigation into the suspicious disappearance of a husband and wife (Bill and Lorraine Currier) from their home in Essex last year. To date, the Curriers have not been located.

During the briefing we were advised that we would be going to 32 Upper Main Street in Essex where a basement was going to be excavated. Investigation revealed that evidence of the Curriers remains may be located in this basement. Since it was reported the Curriers may be there the house had been torn down and the basement filled in. Our assignment was to document the excavation and search for any possible evidence.

Upon arrival (approximately 0930hrs) I was assigned to maintain our photographic log. Detective [redacted] was assigned to take photographs. On this date 108 photographs of the excavation process were obtained. While not maintaining the photographic log I sifted through debris using a screen looking for any potential evidence. I did not locate anything remarkable.

On April 13, 2012 we returned to 32 Upper Main Street. Again, I maintained the photographic log and sifted through debris. 41 photographs were obtained this day and were continued from the previous day's card. I located two small bones while sifting that were identified as rodent bones.

On April 17, 2012 I prepared this report and a finished photographic log. This ends my involvement.

So, handler of dog was not sure whether or not dog would/could hit at leveled lot. Dog seemed to show interest, but did not hit.

Two other abandoned farm properties nearby were physically searched and ruled out.

The leveled lot is only possibility at this point, so there is no other option than to excavate depending on what guy who did demo tells us. We are not able to interview demo guy til Monday am.

If we excavate, I am seeking approval for our ERT's expertise, to work alongside VSP. There is a meeting at Essex pd at 11am on mon. Vsp will be there. They have asked for to attend. I told them I wasn't sure he was available.

I am done up here and headed home.

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/16/2012

In preparation for, and during the search conducted at the Coventry Landfill, located at 21 Landfill Lane, Newport, Vermont, SA [redacted] telephonically contacted [redacted] a white male, DOB 12/09/1967, cellular phone number [redacted] home phone number [redacted] residing at [redacted] Milton, Vermont, on three different occasions. [redacted] ORMOND BUSHEY & SON, INC., located at 2 Bushey Lane, Essex Junction, Vermont. [redacted] did the demolition of the farmhouse located at 32 Upper Main Street (Route 15), Essex, Vermont, in October 2011. [redacted] who was already familiar with the identity of the interviewing agent, provided the following information on the following dates of contacts:

b6
b7C

On 05/04/2012, [redacted] was contacted and asked if he recalled anything in particular about the aforementioned farmhouse that would assist investigators in identifying the farmhouse debris during a search of the landfill. [redacted] advised that, at the time of demolition, there was one full-size couch, with three seats, further described as "not a modern couch," of unknown color or pattern, inside the farmhouse. Also inside the farmhouse at the time of demolition were two sets of mattresses. [redacted] thought that one of the mattresses was a full or queen size and the other may have been a twin size. [redacted] recalled seeing "a lot of weird wall paper" in the farmhouse. Also, [redacted] recalled that the walls were not made of sheet rock. The walls were some sort of cement board, like stucco or plaster.

On 05/11/2012, [redacted] was contacted and asked about the roofing of the main part of the farmhouse and of the outbuildings on the property. [redacted] advised that the main farmhouse had tin or steel roofing. The metal roofing did not go to the transfer station in Williston, Vermont, but went to a scrap metal place instead. [redacted] thought there were shingles on the outbuildings. [redacted] also advised that he was unable to get all of the stones from the stone walls of the farmhouse separated from the demolition debris taken to the transfer station. [redacted] thought that the demolition

b6
b7C

debris from the farmhouse would contain some of those stones. [redacted] advised that he would call [redacted] the caretaker of properties owned by [redacted] who owns the property where the farmhouse was located, to see if [redacted] recalled the various types of roofing of the farmhouse and it's outbuildings. [redacted] then called the interviewing agent back and advised that [redacted] recalled that the main part of the farmhouse had a tin roof which was very rusted. According to [redacted] thought the additions to the farmhouse, including the outbuildings, had shingles of unknown color.

On 05/14/2012, [redacted] was contacted and asked what he recalled about the wiring inside the farmhouse. [redacted] advised that [redacted] took most of the electrical wiring, along with the electrical panel, which means it would not have been in the demolition debris of the farmhouse. [redacted] recalled that the farmhouse's electrical wiring was white household regular 12-2 gauge wiring.

Subject: Demo/roof follow up

b6
b7C

Hi [redacted]

I tried to get additional intel for Route 15 location. Per [redacted] (demo guys) roofing over main part of house was tin roofing which was NOT brought to transfer station but went to a metal place. HOWEVER, both recall that there were shingles on out buildings but of unknown color. [redacted] also thought there may be rocks/stone from house mixed in with the house debris as he would not have been able to separate them out during demo. Not certain that would help. I think the plaster walls is only possible helpful info. If you have any other questions you want me to ask, please let me know.

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: June 22, 2012; June 27, 2012; July 9, 2012; July 10, 2012; July 11, 2012; July 16, 2012; July 18, 2012

The following specimens were received in the Trace Evidence Unit (Anthropology):

Specimens received June 22, 2012:

Q178-Q181 Images depicting bone (QB73)

Specimens received June 27, 2012:

Q182-Q190 Images depicting bone (QB74)

Specimens received July 9, 2012:

Q191-Q194 Images depicting bones and debris (QB75)

Q195-Q200 Images depicting bones and debris (QB76)

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 291 / 489

Specimens received July 10, 2012:

Q201-Q203 Images depicting bones (QB77)

Specimens received July 11, 2012:

Q204-Q205 Images depicting bone (QB78)

Specimens received July 16, 2012:

Q206-Q207 Images depicting bone (QB79)

Q208-Q210 Images depicting bone (QB80)

Specimens received July 18, 2012:

Q211-Q213 Images depicting bone (QB81)

The results of the anthropological examinations are contained in this report.

Methods:

The determination of whether skeletal material is human or non-human in origin is typically based on examination of gross bone morphology, looking for features or landmarks that are consistent with human or non-human species. In some cases, additional techniques such as quantitative assessment (measurement), microscopic examination, or comparison to published literature or exemplars may be employed.

In this case, the items were examined visually.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 292 / 489

Results of Examinations:

Items Q178-Q213 are images depicting bones. In some cases a single image depicts multiple bones, and in some cases multiple images depict the same bone or bones. In some cases, the images include apparent soft tissue or other debris adhering to the bones.

The bones pictured in the images Q178-Q181, Q191-Q200, Q204-Q205 and Q208-Q213 are non-human in origin. No further anthropological examinations were conducted.

The origin of the bones pictured in images Q182-Q190, Q201-Q203 and Q206-Q207 is undetermined based on examination of the images. Direct examination of these bones is recommended to possibly determine human or non-human origin.

Limitations

The conclusions that can be reached regarding human or non-human origin are dependent on the condition and completeness of the skeletal material. Results based on fragmentary or poorly preserved material may inconclusive.

The conclusions that can be reached based on the examination of images are dependent on the condition and completeness of the skeletal material as well as the quality of the images. Results may be limited or inconclusive.

Remarks:

This report concludes the anthropological examinations conducted by the FBI Laboratory. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files. The images are being retained in the FBI Laboratory. Activity in Connection with Access Devices (FRACAD); and Title 18, USC, Section(s) 2119 - Motor Vehicles/Carjacking (MVC), which was believed to be located on the person of ISRAEL KEYES.

SA [redacted] TFO [redacted] and DET [redacted] contacted ISRAEL KEYES, date of birth (DOB) 01/07/1978, at the Anchorage Correctional Complex (ACC) West, 1300 East 4th Avenue, Anchorage, Alaska. KEYES was aware of the identities of SA [redacted] and TFO [redacted] and he was introduced to DET [redacted] SA [redacted] and TFO [redacted] presented KEYES with a signed copy of the aforementioned federal search warrant and explained the list of items sought, namely, approximately forty (40) hairs plucked from KEYES' head and a similar number plucked from his pubic region, for hair and/or DNA collection and/or analysis purposes. KEYES indicated that he understood, and did not object to the execution of this search warrant. DET [redacted] who has been trained and conducted numerous similar searches, subsequently collected approximately forty (40) hairs from KEYES' head and a similar number from his pubic region, using the appropriate materials. These samples were packaged separately. SA [redacted] TFO [redacted] and DET [redacted] did not have any substantive conversation with KEYES during this process, and departed the premises upon completion of the evidence collection process. KEYES remained in the custody of ACC West personnel.

b6
b7C

At approximately 2:15pm, DET [redacted] provided the aforementioned evidence to SA [redacted]. SA [redacted] and TFO [redacted] processed and entered these items into bulky evidence for secure storage.

AO 93 (Rev. 12/09) Search and Seizure Warrant

UNITED STATES DISTRICT COURT

for the

District of Alaska

In the Matter of the Search of *(Briefly describe the property to be searched or identify the person by name and address)* ISRAEL KEYES	)	Case No. 3:12-mj-00153-JDR

SEARCH AND SEIZURE WARRANT

To: Any authorized law enforcement officer

An application by a federal law enforcement officer or an attorney for the government requests the search of the following person or property located in the District of Alaska

(identify the person or describe the property to be searched and give its location):
ISRAEL KEYES, at the Anchorage Correctional Center.

The person or property to be searched, described above, is believed to conceal *(identify the person or describe the property to be seized):*
See Attachment A, which is evidence of violations of 18 U.S.C. Sections 1201, 1202(b), 1023(a)(5), 2119.

I find that the affidavit(s), or any recorded testimony, establish probable cause to search and seize the person or property.

YOU ARE COMMANDED to execute this warrant on or before April 18, 2012
(not to exceed 14 days)

☐ in the daytime 6:00 a.m. to 10 p.m. ☐ at any time in the day or night as I find reasonable cause has been established.

Unless delayed notice is authorized below, you must give a copy of the warrant and a receipt for the property taken to the person from whom, or from whose premises, the property was taken, or leave the copy and receipt at the place where the property was taken.

The officer executing this warrant, or an officer present during the execution of the warrant, must prepare an inventory as required by law and promptly return this warrant and inventory to United States Magistrate Judge JOHN D. ROBERTS
(name)

☐ I find that immediate notification may have an adverse result listed in 18 U.S.C. § 2705 (except for delay of trial), and authorize the officer executing this warrant to delay notice to the person who, or whose property, will be searched or seized *(check the appropriate box)* ☐ for days *(not to exceed 30)*.

☐ until, the facts justifying, the later specific date of

Narrative

INFORMATION:

On 6-28-12 I was requested to assist the FBI in serving a search warrant upon the person of ISRAEL KEYS. This was to obtain known reference samples from KEYS's person consistent with that collected in Sexual Assault Kits. On 6-29-12 at about 1200hrs I was advised by OFC [redacted] And SGT [redacted] that the Federal Search Warrant had been obtained and I then met with OFC [redacted] (SAFE STREETS TASK FORCE) at the FBI building. We then went to CIPT where KEYS's is currently housed.

OFC [redacted] and the FBI spoke with KEYS and advised KEYS's of this search. KEYS's was reportedly "OK" with this search. DOC personnel then placed us into a video monitored contact room, and I collected the needed known hair sample and pubic hair sample from KEYS.

I advised KEYS's of how we would do the collection of hairs, and he confirmed he had no questions and KEYES was cooperative to the process. For the head hairs I noted that when combed no loose hairs fell from KEYS's head and I then pulled the required amount. I also pulled the required sample of pubic hairs. While collecting the pubic hair sample I noted that KEYS had a reddened area in his right groin, at the scrotum-thigh juncture area, but I could not tell if this was due to some skin condition or a birth mark or other skin anomalie.

After sealing the evidence I provided it to OFC [redacted] and the FBI for their evidence in this case. I reqeusted them to send me a copy of the Search Warrant for inclusion with this supplement.

A copy of the video from the room where this collection process was done was also requested for the FBI file in this case, and was to be provided by DOC.

Details:

Case Background

Samantha Koenig was kidnapped from her place of employment by Israel Keyes on February 1, 2012. Keyes confessed to kidnapping and murdering her. He was charged federally with kidnapping which resulted in her death. Koenig's dismembered remains were recovered in Matanuska Lake, Alaska.

On March 13, 2012, Keyes was arrested in Lufkin, TX after using an ATM card associated with Koenig. Since his return to Anchorage, Keyes is cooperating with law enforcement, providing additional information about other crimes, including kidnapping and murder. He indicated he was responsible for two homicides in the state of Washington.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 305 / 489

UNCLASSIFIED

Title: (U) Lab Request
Re: 306-AN-15642, 07/30/2012

Keyes allowed Seattle agents to seize a fishing boat he used in the murders. He owned and used this boat in 2005 and 2006 but said it may still have the victim's blood/DNA on it. Although Keyes indicated he killed two people, dismembered their bodies in this boat, and then dumped the remains in a body of water in Washington State, he did not identify the victims. The gender, age and ethnicity of the victims is unknown. The boat was stored outside for years and was full of water when it was seized. Keyes used this boat for fishing so any blood or bones found may be from fish.

Boat Search

Seattle ERT searched the boat on July 18, 2012. Keyes identified where items of evidentiary interest might be found in the boat, including where blood may be found. The items sought included blood, bone fragments, knives, tools, cement blocks, and rope. Seattle ERT inventoried the boat, examined it with an alternate light source, conducted Phenolphthalein tests, and employed Blue Star blood detection reagent.

Requested Exams

A variety of items, including unknown material, were collected since they fluoresced under an alternate light source, tested positive with Phenolphthalein, or were otherwise thought to potentially be or contain organic material (1B-209, 210, 211, 212, 213, 218, 219, 220, 221, 222, 223, 224, 225). It is requested these items be tested for DNA and trace evidence which may identify the victims.

Keyes specifically noted the rope from within the glove box (1B215) is important, although he did not say why. It is therefore requested this item also be tested for DNA and trace evidence.

FD-302 (Rev. 5-8-10)

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/23/2012

Pursuant to written consent provided to Federal Bureau of Investigation (FBI) Special Agent (SA) [redacted] from Israel Keyes on July 10, 2012, members of the FBI Seattle Division Evidence Response Team (ERT) searched a boat registered to Keyes. The boat was a 1982 Bayliner, model POGPR15, bearing WA registration WN7470G. The boat was delivered to and secured in the ERT off site facility by SA [redacted] and SA [redacted] on May 23, 2012 at 5:10 p.m. The details of the boat's seizure and transport were noted in a separate report by SA [redacted] The ERT facility remained secured and the boat was not touched since May 23, 2012. The following ERT members participated in the search:

b6
b7C

SA [redacted]
SA
SA
SA
Field Photographer (FP) [redacted]
Evidence Control Technician (ECT) [redacted]

SA [redacted] arrived at approximately 11:00 a.m. and observed the remainder of the search. The boat was on a trailer bearing Washington license plate 3408-MU. The trailer registration expired in April 2012. The trailer was very rusty. The boat license, WN7470GB, expired in June 2007. Per conversations with SA [redacted] and SA [redacted] ERT was asked to photograph the boat, inventory its contents, and look for evidence of kidnapping and murder, including blood, bone fragments, weapons, ligatures (ropes, zip/cable ties, etc.), human hair, carpet samples, weights/anchors, tools (saws, box knives, etc.), anything with a date on it (receipts, etc.), any identification items (driver licenses, etc.), maps and global positioning satellite devices.

SA [redacted] was the team leader. ECT [redacted] was the photographer. SA [redacted] completed a photo log. FP [redacted] completed a sketch. SA [redacted] was the Anchorage case agent but SA [redacted] and SA [redacted] were essentially the local case agents, familiar with the investigation. SA [redacted] and SA [redacted] were searchers/collectors.

Investigation on 07/18/2012 at Seattle, Washington, United States (In Person)

File # 306-AN-15642 Date drafted 07/23/2012

by [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

At approximately 8:35 a.m., SA [redacted] called SA [redacted] and advised she was with Keyes at the FBI Field Office in Anchorage, Alaska. To comply with Washington State law regarding consent searches, SA [redacted] remained with Keyes while the search was underway, providing him updates and enabling him to stop the search or limit its scope at any time. Keyes' permission was sought before the team disassembled the boat or did something that might damage the boat. At the request of SA [redacted] SA [redacted] took some photographs with his Blackberry cell phone throughout the search and emailed them to SA [redacted]. She planned to show them to Keyes in the hopes they would help his memory and enable him to help ERT focus its search on important areas or items. The photos SA [redacted] took will be saved to a compact disc and included with this search paperwork. b6 b7C

After donning Tyvek suits, team members entered the boat and methodically removed all unattached items from the boat to inventory its contents. Items from logical areas of the boat were segregated on butcher paper on the floor outside the boat. Entry photographs captured the location of the items prior to removal. Interior photographs were also taken after items were removed and of the items on the butcher paper.

The open bow had three seat cushions. Under each cushion was a storage compartment. There was a storage compartment, described as a pocket in the search documentation, on the starboard and port sides. The driver and passenger seats each had a forward and rear-facing seat. There was a stern corner seat on both the starboard and port side. A storage compartment was underneath each seat in the boat. A long compartment was in the deck of the boat. Each compartment was assigned an alpha designator, noted on the sketch.

The outboard motor was found disassembled when the boat was seized. Pieces of it were located throughout the boat. Other items removed from the boat included, but were not limited to, two waterskis, a portable seat cushion, two "water noodle" flotation devices, rope/line, a ladder, two plastic oars, two homemade anchors (one gallon plastic milk-style jugs filled with cement), three plastic water/soda bottles, a blue plastic 45-gallon Sterilite wheeled container (containing water, a life vest and a recreational inner tube), two plastic 6-gallon gasoline containers, eight empty beer bottles and zip/cable ties.

A Humminbird LCR 400ID depth/fish finder was mounted on the dash before the front passenger seat beside the driver seat. SA [redacted] researched the Internet and located what appeared to be the instruction manual for this device. SA [redacted] reviewed the manual and it did not appear this device has global positioning satellite or memory storage capabilities. Therefore the device was not collected.

The glove box on the dashboard before the front passenger seat, beside the driver seat, was locked. Via SA [redacted] Keyes' consent was sought and obtained to force entry into the glove box. SA [redacted] forced entry into the glove box without causing damage. It contained a plastic Safeway grocery bag, a cell phone charger, a bungee cord, a box of fuses, a floating key chain, vessel registration and a rope. SA [redacted] told SA [redacted] that Keyes said the rope from the glove box (Item 7, 1B215) is important. b6 b7C

Four metal poles were found in the middle of the deck. Two of the poles had lights on the end of them. The other two appeared to be supports for the boat's cover. A dark hair, approximately six inches long, was on one of the cover support poles. The hair was collected (Item 13, 1B221).

An alternate light source (ALS) was used to examine the entire interior of the boat. Multiple tiny items of unknown material fluoresced under the ALS so were collected since they may be organic (Item1, 1B209; Item 2, 1B210; Item 3, 1B211; and Item 4, 1B212). Item 5 (1B213) included what appeared to be a bone fragment.

Multiple stains were located on the carpet throughout the boat. After conducting a control test which indicated the Phenolphthalein presumptive blood test was working, FP Read used Phenolphthalein on samples collected from the stains. Every test was negative.

SA [redacted] sprayed Blue Star blood detection reagent throughout the interior of the boat. Multiple areas fluoresced so were swabbed and tested with Phenolphthalein. These Phenolphthalein tests were negative. All the padding inside the boat was then unscrewed and removed. Blue Star was reapplied inside the boat and on the removed padding. Areas which fluoresced were swabbed and tested with Phenolphthalein. Only two areas tested positive with Phenolphthalein: the top of the starboard side seat cushion in the bow and a screw from the floor between the gunnel and compartment H. The screw (Item 11, 1B219) and a swab of the cushion (Item10, 1B218) were collected. Additionally, four screws located near the screw which tested positive with Phenolphthalein were also collected due to their location (Item 12, 1B220). These screws were not tested with Phenolphthalein prior to their collection.

An area of the gunnel frame, underneath a carpeted wood trim piece which was removed, faintly fluoresced after BlueStar was applied. The area was then tested with Phenolphthalein, with a weak positive result. Thus, two swabs were collected from this area of the gunnel (Item 14, 1B222). The carpeted wood trim piece which covered this area was also collected (Item 16, 1B224).

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 310 / 489

FD-302a (Rev. 05-08-10)

306-AN-15642

Continuation of FD-302 of Search of Bayliner , On 07/18/2012 , Page 4 of 4

Several documents were found of potential investigative interest. They were photographed and SA [redacted] photocopied them. The first document was a Wilderness Camping Permit, number 84145, from the Olympic National Park, dated May 27, 2006, for visitor [redacted] of Neah Bay, Washington. It was for one night at the Garden Island campsite at Lake Ozette. The second document was the State of Washington Department of Licensing Vessel Registration Certificate for the boat. It was registered to Keyes but expired in June 2007. Also photocopied were Washington Department of Fish and Wildlife Recreational Licenses for [redacted] and Keyes, issued on June 4, 2005 and March 10, 2005, respectively. b6 b7C

All the padding was reapplied to the boat after the search was completed. The search was complete at approximately 5:15 p.m. SA [redacted] accepted initial custody of every item collected. Collected items 17 (bilge pump; 1B225)) and 18 (bag of rope; 1B226) were wet so were stored overnight in a drying cabinet in the temporary evidence storage room in the ERT facility. SA [redacted] transported the remainder of the items directly to the Seattle Field Office Evidence Control Center.

The following items were scanned and attached to this electronic document (excepting the CD of photos) and physically enclosed in a FD-340 envelope:

- ERT Casebook, including the Administrative Worksheet and Evidence Recovery Log
- Photo log
- Sketch
- Consent to Search form
- CD of photos taken by SA [redacted] on his Blackberry phone.
- Receipt for Property Seized form
- Photocopies of the documentation from the boat.

Wilderness Protection Checklist

___ Pets, weapons, bicycles and vehicles are prohibited on park trails and beaches.

___ All food (including canned and dehydrated food), garbage and scented items must be secured from bears and other wildlife *24 hours a day* by storing them in park approved bear canisters or suspended at least 12 feet high and 10 out from the nearest tree trunk. On the Coast, hard-sided food containers such as bear canisters are required for all food storage.

___ Campfires are prohibited above 3,500 feet. Stoves only! Wood fires are also prohibited in the coastal area from the headland at Wedding Rocks to the headland north of Yellow Banks, 1/4 mile north of Elk Lake (Hoh River Trail), and all areas within 1 mile of Three Lakes (Big Creek Trail). In other areas, use existing fire rings. On the coast, please burn only driftwood for campfires. Never cut live trees for any purpose. This can help prevent campfire closures.

___ Within quota areas (Grand Valley, Royal Basin, Sol Duc/7 Lakes Basin, Hoh Lake, Flapjack Lakes, Lake Constance, and the Ozette Coast) changes to your itinerary are not allowed unless you check with a ranger. Each camping area has a limited amount of space. If you are not following your itinerary, you may be occupying someone else's site.

___ Please do not approach marine wildlife, especially marine mammal babies. They are not abandoned. Look but don't touch or pickup tide pool life.

___ Group size is limited to 12 individuals for overnight trips. Larger groups are not permitted. Groups larger than 12 people must split up into distinct groups and must camp and travel at least 1 mile apart. Parties may not come together in groups larger than 12 at any time.

___ Use pit toilets when available. Otherwise, bury human waste 6"-8" deep at least 200 feet from campsites or water sources. Consider packing out toilet paper in a ziplock bag.

Title: (U) Lab EC - Keyes and Currier hair **Date:** 08/20/2012

To: [redacted] b6 b7C

From: ANCHORAGE
AN-C-1
Contact: [redacted]

Approved By: SSA [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL
KOENIG, SAMANTHA, TESSLA
ET AL

Synopsis: (U) Anchorage Division is requesting laboratory examinations of evidence.

[redacted] b7E

Package Copy: (U) Being forwarded under separate cover are items 1B260 and 1B261 - sent from the Anchorage Division and items 1B239 and 1B240 - sent from the Albany Division.

Details:

On 02/01/2012, the victim, Samantha Koenig, was abducted from her place of employment, Common Grounds coffee stand in Anchorage, Alaska. On 03/13/2012, the subject, Israel Keyes (dob 1/07/1978), was arrested in Lufkin, Texas. Keyes has been interviewed on multiple occasions and has admitted to killing Koenig and provided details about the abduction and homicide. In addition, Keyes admitted to killing Bill and Loraine Currier in Burlington, Vermont in June 2009. Keyes transported the Curriers in their vehicle to the location where he murdered them. He then drove their vehicle after the murder and abandoned it in an apartment complex parking lot. The Albany Division assisted with the

Re: 306-AN-15642, 08/09/2012

Currier investigation and recently obtained hairs that were recovered from the Currier's vehicle by local authorities.

Despite Keyes' confession in both cases, these cases will likely be death penalty cases that will be litigated. Subsequently, Anchorage is requesting assistance form the Laboratory in performing all logical examinations to determine if Keyes' hair was found in the Currier vehicle.

The following items of evidence are being sent to the FBI Laboratory for analysis:

1B239 Hairs - from drivers side seat back (collected from the Currier's vehicle on 6/11/11; Essex PD item #7560-125).

Bar code# E4824690

1B240 Piece of hair - from the ceiling of trunk (collected from Currier vehicle on 08/11/11; Essex PD item 7560-179)

Bar code# E4824691

1B260 Approximately 40 head hairs collected from Israel Keyes

Bar code#E5123826

1B261 Approximately 40 pubic hairs collected from Israel Keyes

Bar code#E5123827

Questions regarding captioned request and/or results from the requested exams can be sent to SA [redacted] Anchorage Division. SA [redacted] can be reached at cell phone [redacted] b6 b7C

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/08/2012

On Thursday, August 2, 2012, [redacted] work telephone number [redacted] cellular telephone number [redacted] was interviewed at her office in Neah Bay, Washington (WA). After being advised of the identity of the interviewing agents and the nature of the interview, [redacted] provided the following information:

b6
b7C

[redacted] met ISRAEL KEYES (KEYES) some time in 2002, after she had resigned from her position as clerk. KEYES put up a post at WASHBURNS GENERAL STORE in Neah Bay, looking for [redacted]

[redacted] did not notice anything out of the ordinary about KEYES, whom she and her family referred to as "IZZY." She recalled he had recently gotten out of the military, and thought he seemed "military-like," noting he was orderly, timely and kept the house in order. KEYES was the boss of the family and took care of cooking, cleaning [redacted]

At the time, KEYES had a pick-up truck. In addition to working for the MAKAH TRIBE, he did handyman work and did some woodworking jobs for [redacted] and her husband. KEYES had tools at his home, but was able to use the tribal shop for some projects.

Aside from discussing information about [redacted] at the end of the day, KEYES was not very communicative with [redacted] learned about KEYES' upbringing from [redacted] including that his family was Amish and that they were very disciplined. [redacted] felt that KEYES and [redacted] had a good relationship, but is aware it deteriorated after [redacted] After their breakup, [redacted] called [redacted] asking for advice because KEYES [redacted] Around this same time, [redacted] asked [redacted]

People in Neah Bay were in disbelief over the news surrounding KEYES' arrest in Alaska. [redacted] had previously provided agents contact information for [redacted] who dated KEYES after

On Wednesday, August 8, 2012, and Thursday, August 9, 2012, [redacted] formerly [redacted] DOB [redacted] cellular telephone number [redacted] was telephonically contacted to follow up on a previous interview which took place on August 6, 2012. After being advised of the identity of the interviewing agent and the nature of the interview, [redacted] provided the following information:

[redacted] was asked if ISRAEL KEYES ever used any props or scarves when they were intimate or during sexual intercourse. [redacted] recalled that KEYES used a scarf to tie her up by her wrists on one or two occasions during sex. She recalled the scarf as being a red, purple or burgundy hue, and surmised that he must have had two scarves, given he tied both of her wrists. He never used rope. They never discussed doing this ahead of time, KEYES just surprised her with it. They also never discussed it afterwards, and [redacted] never questioned him as to where he got the scarves or anything about it. [redacted] was not fearful during the experience and KEYES never threatened her in any way.

[redacted] did not recall KEYES ever discussing any sexual fantasies with her. They engaged in role playing during sex on a couple of occasions, but [redacted] initiated it, not KEYES.

252F-AN-10426 (U) SWAT ADMIN ANCHORAGE FIELD OFFICE

Synopsis: (U) Document participation of Special Weapons And Tactics (SWAT) Team member(s) in the execution of high risk prisoner transports from the Anchorage Jail to and from the Anchorage Office of the FBI on the following dates: 07/12/2012, 07/18/2012 and 07/20/2012, in captioned case(s).

[redacted] b7E

Details:

On 07/12/2012, 07/18/2012 and 07/20/2012, the following Special Weapons And Tactics (SWAT) Team member(s) participated in the execution of high risk prisoner transports from the Anchorage Jail to and from the Anchorage Office of the FBI, in captioned case(s): Special Agents (SAs) [redacted] b6 b7C b7E Anchorage Division Executive Management authorized the [redacted] deployment of SWAT personnel [redacted] in support of these operations, due to the need to have tactically-trained agents conduct high risk prisoner transports of serial murder subject Israel Keyes.

These activities involved [redacted]

UNCLASSIFIED

Title: (U) SWAT PARTICIPATION IN HIGH RISK PRISONER TRANSPORT(S) - JULY 2012
Re: 306-AN-15642, 09/04/2012

between secure facilities, to mitigate the danger the subject posed to the public and investigating personnel, as well as, to minimize the potential for the successful execution of the death threat(s) that were made against the subject, following his identification and apprehension. The value of these SWAT transport operations was highlighted by the subject's failed attempt to escape from federal court in the middle of a crowded status hearing in late May 2012, in captioned matter. Multiple members of the Anchorage SWAT Team assisted the U.S. Marshals Service (USMS) in preventing the subject's escape.

SWAT personnel conducted these operations after this crime had garnered extensive public and media attention, and the subject was aware of the FBI presence, location and/or activities. SWAT personnel performed all of these activities without injury to anyone, and provided a measured force protection presence, in support of FBI and other agency (i.e. U.S. Attorney's Office) personnel. Due to the joint nature of captioned investigation, Anchorage FBI SWAT personnel performed the aforementioned duties cooperatively with a senior member of the Anchorage Police Department (APD) SWAT Team, who is also one of the co-case agents on captioned matter.

2. (U) WA missing persons report

Details:

As per referenced EC, Seattle Poulsbo RA was requested to locate and interview [redacted] to discuss their military service with Israel Keyes. On Thursday, July 19, 2012, Seattle contacted and interviewed [redacted] date of birth (DOB) [redacted], SSAN [redacted] but it was determined during the interview that [redacted] did not know Keyes. b6 b7C

UNCLASSIFIED

UNCLASSIFIED

Title: (U) Lead Covered
Re: 306-AN-15642, 08/24/2012

[redacted] was located and interviewed on 7/30/2012, and a report was documented to the file (serial 291). Following the interview, [redacted] provided a roster of all of the soldiers from Alpha Company and was able to provide the true name of [redacted] as [redacted] SSAN [redacted] Thereafter, Anchorage (AN) located [redacted] in another field division and sent a lead. b6 b7C

Poulsbo RA has followed-up with several local departments on missing person cases identified through public source data base searches and others identified by VICAP as they may relate to Keyes. Most notable to date are the following:

On 6/18/2012, SA [redacted] sent Anchorage a list of missing persons from Washington state compiled during an Internet search of open source information. That document is attached to the file. One individual on that list who seemed to be a potential victim of Keyes was [redacted] DOB [redacted] last seen on [redacted] On 6/21/2012, SA's [redacted] participated in a conference call with Lewis County Sheriff's Office Detective [redacted] regarding their [redacted] case(# [redacted] provided a summary of their investigation which included information that [redacted] told friends he intended to travel to Tillamook, Oregon that weekend, but that follow-up investigation verified through video surveillance footage showed that [redacted] was last seen north of his home in Onalaska, WA along I-5 purchasing fuel. (If [redacted] had been heading to Tillamook, OR, he should have traveled southbound on I-5.) [redacted] further advised that [redacted] vehicle was later located by Park Rangers 2.7 miles into Jefferson County on the [redacted]

On Tuesday, July 24 and Friday, July 27, 2012, reports were received from the Jefferson County Sheriff's office Deputy [redacted] related to their portion of the investigation of [redacted] disappearance. Searches found it odd that [redacted] car was located 1/4 mile from the nearest trail head. Tire tracks and shoe prints were photographed.

Since initially looking in to the [redacted] case, a more detailed time

Title: (U) Lead Covered
Re: 306-AN-15642, 08/24/2012

line of Keyes' whereabouts has been created which make the [redacted] disappearance difficult to attribute to Keyes at this time. Keyes' cell tower records seem to indicate that he was heading east on the evening of March 4th and not south. Those same records suggest that Keyes may have been seeing a female companion that weekend in Sequim, WA. It is still possible for Keyes to have been involved in [redacted] disappearance, however, he would have had a very narrow window to kidnap, murder and dispose of the body as well as to transport his vehicle to the location it was found. If this case is later attributed to Keyes, it should be noted that a Dr. Pepper can with a latent print was located in [redacted] vehicle.

b6
b7C

On approximately Monday, 6/25/2012, SA [redacted] contacted SPD regarding missing person [redacted] missing since [redacted] Whatcom County transferred the case to Seattle Police because [redacted] was reported to be living in Seattle most of the time and was an IV drug user and prostitute. There was a rumor she was killed by her boyfriend. If this case is later related to Keyes, and a body is located, DNA for the victim is available from [redacted]

Seattle, Poulsbo RA is continuing to look at these and other missing persons to determine if Keyes could be involved. Seattle considered the above lead covered and will follow up with any further developments in a separate communication.

FD-302 (Rev. 5-8-10)

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/21/2012

On Tuesday, August 21, 2012, [redacted] date of birth (DOB) [redacted] SSAN [redacted] residence at [redacted] Kent, Washington, telephone number [redacted] was interviewed at the Tacoma Resident Agency. After being advised of the identity of the interviewing Agents and the nature of the interview, [redacted] provided the following information:

b6
b7C

ISRAEL KEYES was stationed in the same Army unit as [redacted] [redacted] was in the Army from approximately 1997 to September 2000. [redacted] and KEYES both traveled to Panama to attend the one month training at the Jungle Operations Training Center (JOTC). They also completed a six month tour in Egypt from approximately January to June 2000.

[redacted] stated that he was outside the "clicky nature" of his Army squad and was not friends with KEYES. [redacted] stated that some of the guys in his squad, including KEYES, drank heavily and used marijuana and possibly harder drugs. [redacted] remembered KEYES to be a heavy drinker and suspects that he also used marijuana although he could not recall any specific incidents. [redacted] described KEYES as a "happy" drunk but also recalled that KEYES had a few violent outbursts but clarified that this was not that unusual with the guys who drank heavily.

When asked to identify the guys in the squad who were closest to KEYES, [redacted] identified [redacted] (last name, phonetic); [redacted]; [redacted] Later in the interview, [redacted] identified [redacted] as the person who probably knew KEYES best.

[redacted] was asked about their tour in Egypt and whether he knew of any incidents (drinking, prostitutes etc.) involving KEYES. [redacted] stated that he was not aware of anything.

[redacted] recalled that KEYES' family was Amish and described him as an "oddball" pointing to the fact that most Amish do not join the Armed Services. [redacted] recalled that KEYES' father was not happy about KEYES joining the Army. [redacted] recalled that KEYES had some siblings but had no further information.

Investigation on 08/21/2012 at Tacoma, Washington, United States (In Person)

File # 306-AN-15642 Date drafted 08/21/2012

by [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

306-AN-15642

Continuation of FD-302 of Interview of [redacted], On 08/21/2012, Page 2 of 2

b6
b7C

KEYES lived in the barracks at Fort Lewis and did not have a vehicle. [redacted] recalled that [redacted] owned a vehicle. When asked about hobbies, [redacted] recalled that KEYES seemed to be interested in hunting and gun magazines. [redacted] was not aware if KEYES owned any personal firearms when he was in the Army.

[redacted] did not know if KEYES had any girlfriends but may have had someone over (at the barracks) once or twice.

[redacted] had no information regarding KEYES interest in books, movies, music, or pornography.

[redacted] recalled something about KEYES and a branding but had no further information and believed it was just guys being stupid. [redacted] described KEYES as a "follower" and someone who could be "goaded" into doing something.

[redacted] believed that KEYES had some religious affiliation in him when he was in the Army but was clearly not a practicing Amish. [redacted] did not remember KEYES being hostile toward religion but stated that religion was not a commonly discussed topic in the squad.

[redacted] stated that there were some women who hung around the barracks who were nicknamed "Barrack Rats." These women hung around with the guys and had sex with them. [redacted] could not recall any of the names of these women and whether or not KEYERS had slept with any of them.

KEYES was described as a good soldier and hard worker. KEYES was supervised by Staff Sergeant [redacted] and Corporal [redacted] (phonetic).

[redacted] stated that prior to meeting with Agents, he googled KEYES and saw the news articles about KEYES' arrest in the Anchorage kidnapping case. When asked about what he thought after seeing the news articles, [redacted] stated the allegations against KEYES "shock me."

Your No.:

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: August 22, 2012

The following specimens were received in the Trace Evidence Unit (Hair and Fiber):

Q214 Debris from driver side seat back (1B239, E4824690; Essex PD Item 7560-125)

Q215 Debris from trunk ceiling (1B240, E4824691; Essex PD Item 7560-179)

K3 Head hair sample from ISRAEL KEYES (1B260, E5123826)

K4 Pubic hair sample from ISRAEL KEYES (1B261, E5123827)

The results of the trace evidence examinations (hair and fiber) are included in this report.

Methods:

Microscopic examination of hairs is accomplished by using stereomicroscopy and comparison microscopy. The presence or absence, appearance, arrangement and distribution of

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 370 / 489

the characteristics within the cuticle, cortex, and medulla of the hairs are examined and may be compared during a hair examination.

Microscopic examination of fibers is accomplished by using one or more analytical techniques including stereomicroscopy, comparison microscopy, polarized light microscopy, fluorescence microscopy, and instrumentally using microspectrophotometry and Fourier transform-infrared spectroscopy. The microscopic characteristics and optical properties determined by these techniques are used for the examination and comparison of fibers.

Results of Examinations:

Several artificially treated Caucasian head hairs and a head hair portion were found in specimen Q214. One (1) Caucasian head hair was found in specimen Q215. These hairs are microscopically dissimilar to the K3 known head hair sample from ISRAEL KEYES. Accordingly, ISRAEL KEYES cannot be included as a possible source of these hairs. It should be noted that hairs can change over time; approximately three (3) years elapsed between the incident and the collection of the known head hair sample.

Blue manufactured textile fibers were found in specimen Q214. No fibers were found in specimen Q215.

No examinations were performed on specimen K4.

The submitted specimens were examined using stereomicroscopy and comparison microscopy.

Interpretation:

Characteristics of hairs can be used to determine whether the hair is human or non-human, body area, racial characteristics, artificial treatment and whether a hair has been forcibly removed or naturally shed. The characteristics exhibited in the hair(s) are used as the comparison criteria. When the presence or absence, appearance, arrangement, and distribution of macroscopic and microscopic characteristics exhibited in a recovered hair(s) are the same as in a potential source, the possibility that the compared hair(s) originated from the same source cannot be excluded. Consequently, the source of the known sample can be included as a possible source of the recovered hair(s), although the association of hairs using macroscopic and microscopic characteristics does not constitute a basis for absolute personal identification.

Fibers can differ as to type (e.g., rayon, cotton), color, shape, size, microscopic features (e.g. presence of delustering agents, voids) and optical properties (e.g., refractive index, sign of elongation). These are characteristics that may associate fibers with a group of items, but

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 371 / 489

never to a single item to the exclusion of all others. However, even fibers with many similar properties may be excluded as originating from the same source by using the identified analytical methods.

The characteristics present in the fibers are used as comparison criteria. When all of the characteristics present in a recovered fiber are the same as in a potential source, the possibility that the compared fibers originated from the same source cannot be excluded. Consequently, the recovered fibers are consistent with originating from the known source, or from another source comprised of fibers that exhibit the same microscopic characteristics and optical properties.

The inability to associate specimens through a microscopic hair/fiber examination does not preclude that the persons/items of interest had contact with each other. A number of factors can produce this result, including: 1) Hair/fiber evidence may not have transferred. 2) Hairs/fibers that did transfer may have been lost prior to submission to the laboratory. 3) The hairs/fibers transferred or the known comparison specimen submitted may not be representative of the source. 4) The hairs/fibers may be from a different source.

Remarks:

The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

For questions about the content of this report, please contact Forensic Examiner [redacted] b6 b7C

For questions about the status of your submission, including any remaining forensic examinations, please contact Request Coordinator [redacted]

The specimens will be returned under separate cover upon completion of the laboratory examinations.

Q225	Debris (1B210, E5098223, Item 2)
Q226	Rope (1B215, E5098228, Item 7)
Q227	Debris (1B212, E5098225, Item 4)

1 - Seattle
Ryan W. Bruett

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 375 / 489

Q228	Debris (1B223, E5098236, Item 15)
Q229-Q232	Four screws (1B220, E5098233, Item 12)
Q233	Screw (1B219, E5098232, Item 11)

The results of the trace evidence examinations (hair and fiber) are included in this report.

Methods:

Microscopic examination of hairs is accomplished by using stereomicroscopy and comparison microscopy. The presence or absence, appearance, arrangement and distribution of the characteristics within the cuticle, cortex, and medulla of the hairs are examined and may be compared during a hair examination.

Microscopic examination of fibers is accomplished by using one or more analytical techniques including stereomicroscopy, comparison microscopy, polarized light microscopy, fluorescence microscopy, and instrumentally using microspectrophotometry and Fourier transform-infrared spectroscopy. The microscopic characteristics and optical properties determined by these techniques are used for the examination and comparison of fibers.

Results of Examinations:

A Caucasian head hair was found on specimen Q222. This hair is microscopically dissimilar to the K3 known head hair sample (FBI Laboratory number 120822003 PF ABE) identified as coming from ISRAEL KEYES; accordingly, ISRAEL KEYES cannot be included as a possible source of this hair. It should be noted that hairs can change over time.

Numerous dog hairs were found on specimens Q221 and Q222.

No other hairs suitable for significant comparison purposes and microscopically dissimilar to the K3 known head hair sample (FBI Laboratory number 120822003 PF ABE) were found on or in the submitted specimens.

Textile fibers of various types and colors were found on or in specimens Q221 through Q223 and Q225 through Q233. No fibers were found in specimen Q224.

Examinations were conducted using microscopy including stereomicroscopy and comparison microscopy.

Interpretation:

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 376 / 489

Characteristics of hairs can be used to determine whether the hair is human or non-human, body area, racial characteristics, artificial treatment and whether a hair has been forcibly removed or naturally shed. The characteristics exhibited in the hair(s) are used as the comparison criteria. When the presence or absence, appearance, arrangement, and distribution of macroscopic and microscopic characteristics exhibited in a recovered hair(s) are the same as in a potential source, the possibility that the compared hair(s) originated from the same source cannot be excluded. Consequently, the source of the known sample can be included as a possible source of the recovered hair(s), although the association of hairs using macroscopic and microscopic characteristics does not constitute a basis for absolute personal identification.

Fibers can differ as to type (e.g., rayon, cotton), color, shape, size, microscopic features (e.g. presence of delustering agents, voids) and optical properties (e.g., refractive index, sign of elongation). These are characteristics that may associate fibers with a group of items, but never to a single item to the exclusion of all others. However, even fibers with many similar properties may be excluded as originating from the same source by using the identified analytical methods.

The characteristics present in the fibers are used as comparison criteria. General Records

FEDERAL BUREAU OF INVESTIGATION

Date of entry 09/04/2012

On September 4, 2012 at approximately 1:30 p.m., [redacted] b6 b7C [redacted] date of birth (DOB) [redacted] social security number 056-66-7932, telephone number [redacted] was interviewed at his home of [redacted] New York. Also present at the interview was Special Agent (SA) [redacted] SA [redacted] attorney, [redacted] telephone number [redacted] Veterans Affairs Advocate [redacted] After being advised of the identity of the interviewing Agents and the nature of the interview, [redacted] provided the following information about ISRAEL KEYES:

[redacted] served in the United States Army with KEYES from 1998 until the time that [redacted] was discharged from the military in January 2002. They were stationed together in Fort Lewis Washington and both were 11C, the Military Occupational Speciality (MOS) number for indirect fire infantrymen, commonly referred to as mortar men. They were also deployed together on two separate occasions, once to Panama in 1999 and the other was to the Saudi Arabia/Israel border in 2000 through 2001. Their mission while in Saudi Arabia/Israel was to ensure no army crossed the border and avoid the possible war that would follow.

The last time that [redacted] and KEYES spoke or had any type of contact with one another was when [redacted] was discharged from the Army. [redacted] has tried to look for KEYES and other members of his platoon on Facebook but was not able to locate any of them, except for [redacted] [redacted] described KEYES as a good soldier, someone who was "squared away". KEYES was a large individual who had broad shoulders and a big nose. He was someone who was very quiet when he first checked into the platoon. KEYES kept to himself a lot of the time and did not begin to really drink until KEYES was assigned a roommate, First Name Unknown (FNU) [redacted] KEYES and [redacted] were always together. They would not go out of the local area to drink, but instead stayed around base, would go to the Non-Commissioned Officer (NCO) club on base or would just get a lot of beer and drink at the barracks.

Investigation on 09/04/2012 at [redacted], New York, United States (In Person)

File # 306-AN-15642 Date drafted 09/04/2012

by [redacted]

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

b6
b7C

KEYES claimed to be Amish but never spoke about his religion, family or upbringing. The only thing about KEYES' family that [redacted] remembered is that [redacted] thinks KEYES has one brother and one sister, but [redacted] does not remember any other details besides that. KEYES did not have any pictures at his boot camp graduation or any other significant event with his family displayed in his barracks room.

KEYES talked about going hunting on occasion, but [redacted] is not sure if KEYES ever actually went hunting. KEYES had a few hunting magazines that he subscribed to. KEYES was familiar with animals but [redacted] attributed that knowledge to KEYES having an Amish upbringing. KEYES had a severe dislike for all animals. While most people who do not like animals would try to avoid them, KEYES would approach animals for the purpose of hurting them. KEYES told a story of the best way to kill a goat was to hit it in the head with a baseball bat. The events that would happen after someone "brained" the goat was the brains would come out of the goats nose. The goat would be dead but still standing up. There was a time when KEYES tied a cat to a tree and then shot the cat in the stomach area with a .22 caliber bullet. The cat would try to run away, but would only go in circles around the tree it was tied to. While in the middle east, KEYES would put two scorpions into an ammo can so that one would kill the other. This would happen from time to time with a large group of people around but KEYES did this on occasion by himself. Most of the time when KEYES would tell stories about doing these things to animals, KEYES would tell the stories in a proud and humorous way.

[redacted] does not know about any tattoos or markings that KEYES has besides the branding that [redacted] gave to KEYES at KEYES' request while they were deployed in the middle east. [redacted] said that KEYES wanted a pentagram branded into his arm. Despite thinking it was a stupid idea, [redacted] heated up a cloths hanger and made a single brand on the left arm of KEYES, above the elbow. At this point KEYES decided that he would not go through with the rest of the pentagram due to the pain of the single line branded into him by [redacted] was actually the person who suggested the idea of branding a pentagram into KEYES' arm. Many other members of the platoon were present while this was happening, and while [redacted] said they all thought it was a dumb idea, they all cheered it.

KEYES closest friend in the military was without a doubt [redacted] They were roommates and did just about everything together. More than anything else, they lifted weights together but they did other things together also. Some of those other things included drink alcohol, they tried Acid together once and scheduled a trip to Idaho for a weekend to attend a White Supremacist meeting. [redacted] is not sure if KEYES and [redacted] actually went to this meeting, but does remember the desire to go expressed by both KEYES and [redacted] was artistic and when he heard a story from KEYES about how KEYES liked to chase squirrels and try to kill them with a chainsaw, [redacted] showed interest in making a cartoon drawing of the event.

KEYES never had, nor did he display any desire to have a girlfriend but [redacted] does not think the KEYES was homosexual, despite making jokes about KEYES and [redacted] being in a homosexual relationship.

KEYES was never seen by [redacted] committing a crime nor did KEYES talk about any crime he had committed.

KEYES did not have a vehicle and never spent any of his money on anything besides military gear. When KEYES would spend some of his money, it would be at the "TACTICAL TAYLOR" near the base to improve his vest. KEYES also made gear of his own, possibly a skill he learned while growing up. The most elaborate thing that KEYES made for himself was his own "guile" suit.

KEYES was typically even keeled, and often spoke in a monotone voice, but on two separate occasions that [redacted] could remember, KEYES got very angry. One time was after a 15 mile "ruck march" lead by the Company Executive Officer, the second in command of the company. KEYES, being one of the largest soldiers in the company, was one of the men who were assigned to carry the mortar tube and plate. The mortar tube and plate probably weighted approximately 60 pounds or more. Including the rest of KEYES' equipment, his total weight load was probably over 110 lbs for he entire 15 miles march. Upon returning to the barracks, KEYES threw the mortar tube and plate across his barracks room at the television, breaking it. The other time where KEYES lost his temper in the presence of [redacted] was during a "payback" operation. This is when a soldier has the opportunity to address any problems that he or she might have with another

soldier. Both soldiers would be in the middle of a circle made up of other soldiers with boxing gloves. The soldiers in the middle would box and the problem that did exist was then resolved, and a paper trail was never started. Some soldier, that [redacted] does not remember, had a problem with KEYES so they both entered the circle. This other soldier punched KEYES in the nose pretty hard while they were boxing and this is what angered KEYES. KEYES lost his temper at this point and beat this other soldier to the point where [redacted] and some other soldiers had to intervene to pull KEYES off of the soldier being beaten up.

In retrospect, some of the things that [redacted] found strange about KEYES was the animal cruelty, the lack of family connection and the lack of interest in women. KEYES also did not have any ambitions for when he would eventually leave the Army. KEYES did not mention going to school or a particular job he wanted, all KEYES spoke of was going back to the home that KEYES had built when he was a teenager. This home in New York or Pennsylvania also apparently had approximately 9,000 Black Talon pistol rounds buried throughout the property grounds. When KEYES went on leave, he would go back to his home in New York or Pennsylvania, but never had any stories about his family when KEYES returned from leave.

1B197, Barcode E4824598

Details:

The Laboratory is requested to conduct appropriate examinations on evidence items as described below.

Case Summary: On 02/01/2012, victim Samantha Koenig was abducted from her place of employment, Common Grounds coffee stand in Anchorage, Alaska. The subject, Israel Keyes, has been interviewed on multiple occasions and has admitted to killing Koenig, providing details about the abduction and homicide. In addition, Keyes admitted to abducting and killing two other individuals, William and Lorraine Currier, in Vermont, the previous year (June 2011).

During interviews with Keyes, Keyes has advised agents that he has weapons caches in various parts of the United States, including the state of New York. Keyes also claimed to have used one of the weapons from the New York cache during the murders of the Curriers. Keyes claimed to have tossed the bolt and barrel of the gun into a nearby reservoir, after murdering the Curriers. The Albany Division recovered the New York weapons cache at the location provided by Keyes. The bolt and barrel were recovered from the reservoir by an FBI USERT team.

Keyes has also eluded to his involvement in other homicides over the past fourteen years. Investigators believe these weapons were likely used in other homicides. At this time, it is unknown if evidence from other unsolved homicides has been recovered and possibly entered into NIBIN.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 396 / 489

UNCLASSIFIED

Title: (U) Lead to FBI Laboratory
Re: 306-AN-15642, 09/06/2012

Firearms examinations: Per a conversation between Anchorage case agent SA [redacted] and Firearms Examiner [redacted] on 09/06/2012, the following items of evidence collected from the New York weapons cache and reservoir are being sent to the FBI laboratory for the following examinations: b6 b7C

1B184, Barcode E04038587: Gun Barrel (submerged in container of water taken from Blake reservoir);

1B185, Barcode E04038588: One Gun "Bolt" (submerged in container of water taken from Blake reservoir)

**For items 1B184 & 1B185, determine the caliber and type of gun these items came from. Once that is determined, it is requested that the barrel be test fired and entered into NIBIN

.

1B171, Barcode E4824539: Plastic stock with sling

1B172, Barcode E4824540: Wood stock with sling

**For items 1B171 & 1B172, attempt to identify what types of guns these could belong to.

1B169, Barcode E4824537: Ruger 22 Charger serial number 490-36145 trigger mechanism and Truglo scope attached and gun part with sling

1B170, Barcode E4824538: Ruger model 10/22 carbine 22 L.R. caliber serial number 111-23612 minus stock, also includes Simmons scope attached.

**For items 1B169 and 1B170, it is requested that these items be examined for biological evidence, test fired, and then entered into NIBIN.

Title: (U) Lead to FBI Laboratory
Re: 306-AN-15642, 09/06/2012

1B168, Barcode E4824536: Black plastic tube/silencer

**For item 1B168, it is requested that all logical examinations be conducted on this item (i.e. is it a silencer? Does it fit on any of the enclosed guns, etc...)

Additional examinations for other items from the New York weapons cache: In addition to the above listed Firearms evidence, the following items located/recovered from the New York weapons cache are being sent to the FBI Laboratory for all logical examinations (trace, latents, and/or biological evidence) for the purpose of connecting subject Keyes to these items:

1B166, Barcode E4824534: Home Depot bucket

1B167, Barcode E4824535: Black Dog machine LLC AR15 .22 conversion 50rd magazine

1B173, Barcode E4824541: Wire with black cloth

1B174, Barcode E4824542: Bipod

1B176, Barcode E4824544: 4 empty magazines

1B177, Barcode E4824545: 3 Loaded .22 caliber magazines

1B178, Barcode E4824546: Box of Griprite fasteners, 2-1/2 inch screws

1B179, Barcode E4824547: One (1) box of Remington subsonic .22 caliber long rifle hollow point ammunition and two (2) boxes of Federal Champion .22 caliber long rifle ammunition

FEDERAL BUREAU OF INVESTIGATION

Date of entry 09/10/2012

On 04/02/2012, ISRAEL KEYES, date of birth (DOB) 01/07/1978, was contacted at the Anchorage Correctional Complex (ACC), 1300 East 4th Avenue, Anchorage, Alaska, by Special Agent (SA) [redacted] and Detective (DET) [redacted] Anchorage Police Department (APD). KEYES was reminded of the identities of the contacting personnel, and thereafter, he provided the following information: b6 b7C

DET [redacted] advised KEYES of his Miranda Rights. KEYES indicated that he understood these rights and agreed to waive them. DET [redacted] advised KEYES that law enforcement would be following-up on the information that he recently provided regarding SAMANTHA KOENIG (DOB 08/30/1993), but DET [redacted] did not ask any questions regarding KOENIG, and explained that interviews regarding KOENIG could not be conducted without the presence of KEYES' defense attorney. KEYES acknowledged this information, and generally advised that he was willing to continue to cooperate with law enforcement in this matter, and may represent himself on other matters that he chose to discuss with law enforcement, because this case "is not the end," and there are other "serious issues" that he will discuss with someone. KEYES will have "terms" that will have to be met, to obtain his continued cooperation, and repeatedly indicated that he wanted to expedite these matters. Recipient(s) are referred to the audio recording(s) and/or transcript(s) for additional details regarding this contact with KEYES.

FEDERAL BUREAU OF INVESTIGATION

Date of entry 09/10/2012

On 04/05/2012, ISRAEL KEYES, date of birth (DOB) 01/07/1978, was contacted at the Anchorage Correctional Complex (ACC), 1300 East 4th Avenue, Anchorage, Alaska, by Special Agent (SA) [redacted] and Detective (DET) [redacted] Anchorage Police Department (APD). KEYES was reminded of the identities of the contacting personnel, and thereafter, he provided the following information:

b6
b7C

DET [redacted] advised KEYES of his Miranda Rights. KEYES indicated that he understood these rights and agreed to waive them. DET [redacted] also advised KEYES that law enforcement personnel could not discuss the SAMANTHA KOENIG (DOB 08/30/1993) case with him, unless the attorney who represented him in that matter was present. KEYES acknowledged this information, and generally advised that he believed that he needed to speak with the prosecutor regarding his (KEYES') conditions for his (KEYES') continued cooperation. DET [redacted] provided KEYES with her contact information, and this meeting was terminated. Recipient(s) are referred to the audio recording(s) and/or transcript(s) for additional details regarding this contact with KEYES.

1B182, Barcode E4824550: Black flashlight Maglite

DNA examinations: Information provided by subject Keyes regarding the murders of the Curriers in Vermont led investigators to a basement of an abandoned farmhouse in Essex, Vermont, where the subject claimed to have left the Curriers' bodies. Investigators determined that the abandoned farmhouse was torn down, in October 2011, and the contents of the farmhouse was tracked to having been sent to the Coventry Landfill, in Newport, Vermont. In April 2012, with consent from the property owner, the basement of the farmhouse was excavated and searched in hopes of finding the remains of William and Lorraine Currier, with negative results. From early May 2012 until late July 2012, the Coventry Landfill was searched for the remains of William and Lorraine Currier, with negative results. Although the searches did not lead to the recovery of the Curriers' remains, a few pieces of cloth, found in the debris during the excavation of the farmhouse, were collected as evidence due to cadaver dogs showing "interest" in the cloth items. After clearing out the debris from the farmhouse basement, a blood reagent (Tinks) and alternative light sources were utilized to illuminate potential areas of biological evidence on the floor and walls of the basement. An area of interest was located and swabbed samples were taken. A tape lift was also taken from a basement wall of an area that illuminated under the alternative light source. Also, eye glasses, similar in appearance to eye glasses seen being worn by victim William Currier in a photograph, were found on the ground near the area of the property that was excavated.

The following items are being sent to the Laboratory for appropriate DNA examinations:

b6
b7C

If DNA evidence is found on the above farmhouse evidence items, it is requested that the Laboratory conduct appropriate DNA examinations to develop a DNA profile for comparison to known DNA profiles of William and Lorraine Currier. DNA profiles were developed, by the Vermont Forensic Laboratory (VFL), from alternate reference samples for Bill and Lorraine Currier, during the Essex Police Department's Missing Persons investigation. These profiles are available for comparisons. All VFL reports for their DNA examinations are available for review, if needed. (NOTE: The victim DNA profiles available for comparison were discussed between Albany/Burlington RA's SA [redacted] of the FBI Laboratory, in mid-June 2012.) Also, a DNA sample was collected from William Currier's [redacted] (1B197) and is being submitted for comparison if needed.

**Questions regarding this request and/or results from the requested exams can be sent to Anchorage case agent SA [redacted] and Albany Division's POC SA [redacted] SA [redacted] can be reached at [redacted]. SA [redacted] can be reached at [redacted]

FEDERAL BUREAU OF INVESTIGATION

Date of entry 09/07/2012

[redacted] white male, date of birth (DOB): [redacted] b6 b7C Social Security Number: [redacted] Wisconsin, cellular telephone number [redacted] was interviewed at the [redacted] Wisconsin office of the Federal Bureau of Investigation (FBI). After being advised of the identity of the interviewing Agent and the nature of the interview, [redacted] provided the following information:

[redacted] said he was currently employed at [redacted] Wisconsin. He worked Security in the lumberyard at that location. [redacted] has worked for [redacted] for almost 10 years.

[redacted] stated he served in the United States Army from approximately June of 1998 until about December of 2001. He was in the First Battalion, Fifth Infantry/Mortars. He was stationed at Fort Lewis, Washington for about three years, and then finished his tour serving about six months in Korea. [redacted] thought he was sent to Korea in the Summer of 2001. [redacted] said he was never deployed in combat. However, he did spend 7 months in or around 2000 in Egypt. He was on an "MFO" Mission, observing the peace treaty between Israel and Egypt.

[redacted] said he served with ISRAEL KEYES and remembered him. KEYES arrived at their unit shortly after [redacted] had arrived. KEYES served with [redacted] at Fort Lewis and on the "MFO" Mission to Egypt.

[redacted] described KEYES as a big guy. He was a white male who was approximately 22 or 23 years old when they served together. He was between 6'2" and 6'4" tall and weighed approximately 230 pounds. KEYES was a big guy who was powerfully built. He was muscular back then and he had a huge nose.

[redacted] said KEYES had lived in Pennsylvania. His parents were Amish converts. KEYES told him he had either lived in Wisconsin or had come through Wisconsin. KEYES may have also lived in Maine for a little while. [redacted] did not know from where KEYES had come when he entered military service.

[redacted] said he was good friends with KEYES when he was in the Army. He

b6
b7C

spoke with KEYES one time when he [redacted] was out of the service. This would have been either in late 2001 or early 2002. [redacted] recalled he was still living with his parents in [redacted] Wisconsin at that time. When [redacted] spoke with KEYES, he (KEYES) was living in Washington State. KEYES said he was still with his girlfriend [redacted] That was the last time [redacted] had spoken with KEYES.

[redacted] stated that he and KEYES were in the same squad together. KEYES was also in the Infantry/Mortars. [redacted] said KEYES was not a mean guy, ever. He described him as a good guy. [redacted] had paid KEYES to polish his boots, and to iron and sew some of his military clothing. KEYES was very intelligent and was like a "jack of all trades." When [redacted] first met KEYES, [redacted] did not think KEYES had ever consumed alcohol before or had been with a woman before. KEYES began to drink when he was in the Army. KEYES was also cited for a DUI when he was in the Army. However, it would be rare that KEYES was drunk and irresponsible. He was not an alcoholic or a drunk. KEYES was a quiet guy who would just have a few beers. [redacted] described KEYES as a responsible person.

[redacted] said that KEYES did tell some stories about killing and torturing cats when he was a kid. The guys in the unit used to razz him about that. [redacted] said KEYES was not a violent guy then at all. [redacted] recalled an incident where one guy in their unit had punched KEYES in the nose one time. [redacted] thought the soldier had broken KEYES' nose. However, KEYES did not retaliate.

[redacted] stated that as far as he knew, KEYES did not use drugs when he was in the Army. The only woman KEYES dated was a black woman whom he met at a bar. [redacted] did not remember much about her, other than the woman was more heavyset. [redacted] had the impression that the woman KEYES was living with in Washington state was the same woman he met in the bar. KEYES lived on Post the whole time he was at Fort Lewis. For a period of time closer to his last year at Fort Lewis, [redacted] lived off Post, then moved back on Post.

[redacted] said he did not recall KEYES being involved with prostitutes while he was at Fort Lewis. He did not recall KEYES being into pornography. KEYES really did not have many interests and there was not that much to do at Fort Lewis, besides drinking. KEYES worked out a lot. Another soldier by the name of [redacted] and KEYES worked out quite a bit together. Usually, when [redacted] hung out with KEYES, they would have a few beers in KEYES' room and watch TV. KEYES liked to watch BILL O'REILLY. [redacted] said the picture that he had in his head of KEYES growing up was like "Little House On The Prairie."

[redacted] stated when he last spoke with KEYES, he just asked him if he

b6
b7C

had kept in touch with any of the other guys. KEYES said he was working on an Indian Reservation, doing some kind of maintenance work. [redacted] thought KEYES mentioned something about [redacted] said he had called KEYES, but he did not recall how he obtained KEYES' telephone number, or if it was a cell phone or land line. He only spoke with KEYES that one time. [redacted] did not think KEYES kept in touch with the other guys in their unit. [redacted] never had an e-mail address for KEYES.

[redacted] said that KEYES did not talk to him about any of his sexual exploits. However, there was one occasion when they were deployed in Egypt where KEYES became involved with a prostitute. [redacted] stated they were on "R and R" in Israel. The bus had dropped them off at a hotel. [redacted] could not recall how it came about, but they ended up renting a suite on the 6th floor of this hotel. A man by the name of [redacted] (phonetic), who was an Israeli guy, had approached them and said he owned the 6th floor of the building. The 6th floor consisted of all suites. [redacted] said he, KEYES, [redacted] were staying in one suite together. [redacted] was drinking with them and he talked about sending up a girl to the room. The girl was a prostitute. As [redacted] recalled, the girl went into one of the rooms in the suite with KEYES. They were in the room together for maybe a half hour and then the woman came out of the room. It was like the woman was storming out of the room. She was trying to leave the suite and close the door behind her. KEYES was trying to keep the door open and [redacted] thought that he was trying to pay the woman. The woman kicked at KEYES and he let go of the door. The woman then left. All of the guys asked KEYES what had happened to make her leave without taking any money. KEYES would not say anything about it or he said nothing happened. KEYES never talked about any sexual exploits.

[redacted] said KEYES was raised as a religious person and he could quote the Bible, but as far as [redacted] knew, KEYES was an atheist. He did not recall KEYES going to church when they were in the Army. KEYES was friendly and shy, and more soft spoken. [redacted] thought KEYES had hunted and fished in the past, but he did not remember him doing that while they were stationed at Fort Lewis. [redacted] did not do those things at Fort Lewis either.

[redacted] did not recall any road trips taken with KEYES. However, they did go into Seattle a few times together. One time, they went to a concert at the Key Arena in Seattle. They saw the "Stone Temple Pilots" and the "Red-Hot Chili Peppers." [redacted] thought it was his idea to go to the concert. [redacted] said KEYES had not listened to modern music while he was growing up, so KEYES liked what [redacted] liked. [redacted] said he was also a fan of the Minnesota Vikings football team. KEYES was really not a fan of anything before the military, but the two of them watched the Vikings

b6
b7C

together and KEYES became a Vikings fan. At times, they would go out to a sports bar to watch the Viking games. [redacted] said he went to Seattle with KEYES once or twice. They went there to stay at a hotel, drink in some bars and would then go back to Fort Lewis. It was more or less just a change of scenery for them. [redacted] said KEYES was not much for picking up women. He was kind of "an awkward dude."

[redacted] said KEYES did not have any tattoos on his body as far as he knew. However, [redacted] had burned a pentagram on KEYES' neck while they were in Egypt. [redacted] said they were all really drunk and he thought it was KEYES' idea to have the pentagram burned onto his body. [redacted] said he thought someone else had wanted a cross burned on their body and so to go the opposite way, KEYES wanted a pentagram burned on the back of his neck. As [redacted] recalled, [redacted] used a pop can for the circle and used a wire for the star. [redacted] said the pentagram that was burned on KEYES' neck looked bad the next day and for the few following days. The pentagram brand was just the result of being drunk. There was no ritual associated with it.

[redacted] stated KEYES did not talk about his childhood. Aside from torturing and killing cats, KEYES childhood consisted more of what he didn't do. [redacted] could not recall if KEYES' parents were Amish before he was born or converted after his birth. Regarding the things KEYES had not done, [redacted] said he really didn't watch much TV or listen to music. [redacted] could not recall if KEYES said he had attended a public school or if he was home-schooled. KEYES did know how to drive when he came into the military. KEYES had a computer when he was on the base at Fort Lewis. [redacted] did not recall KEYES going to any pornography sites at all. [redacted] said although KEYES grew up Amish, once he was in the military, he did not believe in God. [redacted] thought KEYES had some animosity towards the Bible. KEYES thought that the Bible was ridiculous and he said so. KEYES would debate others who did believe in God. He would take the position against religion.

[redacted] said KEYES was a smart guy who could figure things out. He bought a truck while he was at Fort Lewis and he could fix the truck when it needed fixing. [redacted] said he [redacted] was the type of guy who could barely change oil.

[redacted] stated he did not know if KEYES had any fully formed political views. KEYES listened to BILL O'REILLY and thought O'REILLY made sense. Based upon that, [redacted] concluded that KEYES may have been politically to the right.

[redacted] said the closest person to KEYES in the Army was [redacted] When everyone else would go out, KEYES and [redacted] would stay behind.

b6
b7C

However, [redacted] said he was close to KEYES as well.

[redacted] stated KEYES was heterosexual. [redacted] did not recall KEYES having a lot of girlfriends or anything like that. [redacted] thought he recalled KEYES showing him a picture of a girl he was interested in. [redacted] thought the girl was from KEYES' home town. The girl was Amish, but [redacted] did not recall anything about her. [redacted] could not recall what KEYES said about the girl. The Amish girl may have been his girlfriend when they were younger or it was a girl in whom KEYES had an interest. [redacted] thought KEYES called the girl on the phone once or twice while they were at Fort Lewis. [redacted] did not recall KEYES talking about any of the male friends he had while he was growing up.

As far as crimes were concerned, [redacted] said he thought he was with KEYES when KEYES was cited for DUI on the Post. That was the only crime KEYES had committed of which [redacted] was aware. [redacted] said KEYES was not an aggressive person. They used to box on the base and KEYES was not even aggressive then. He was kind of clumsy and lumbering. Other than his talk of torturing and killing cats when he was young, KEYES did not talk about other crimes.

[redacted] said he was not in touch with the guys in his unit anymore. He had been in touch with [redacted] on Facebook, but that was about 4 or 5 years ago.

[redacted] said he thought KEYES had a couple of sisters. He did not think KEYES had a brother. As [redacted] recalled, one sister's name may have been [redacted] thought KEYES was kind of shunned by his family for having joined the military. He did not think KEYES kept in touch with his family that much.

[redacted] stated KEYES had a pickup truck when he was at Fort Lewis. He bought it while he was there. It was a small pickup truck that was like and 1980s model. It was blue. KEYES took care of it while he was there. [redacted] was sure KEYES had registered the vehicle.

[redacted] said KEYES was helpful to him and was a good guy. [redacted] stated KEYES was an awesome soldier and he was hard-working. [redacted] described him as a "super-soldier." However, KEYES just had no empathy. KEYES did not care if something bad happened someone else. When asked for an example of what he meant, [redacted] recalled a time when a guy that they had served with named [redacted] had gotten into a motorcycle accident just days after getting out of the Army. As a result of the motorcycle accident, [redacted] had broken his neck. When they learned about it, KEYES just did not care. However, [redacted] said that [redacted] was kind of an "asshole" and no one really liked him.

FD-302 (Rev. 5-8-10)

FEDERAL BUREAU OF INVESTIGATION

Date of entry 09/10/2012

On 04/06/2012, ISRAEL KEYES, date of birth (DOB) 01/07/1978, was interviewed at the U.S. Attorney's Office (USAO), 222 West 7th Avenue, Room 253, Anchorage, Alaska. The following individuals were present for this interview: Special Agent (SA) [redacted] Detective (DET) [redacted] Anchorage Police Department (APD); Assistant U.S. Attorneys (AUSAs) [redacted] KEYES was reminded of the identities of the interviewing personnel, and thereafter, he provided the following information:

b6
b7C

AUSAs [redacted] explained a federal court order that was recently issued, which determined that the government could discuss crimes unrelated to SAMANTHA KOENIG with KEYES. During the ensuing discussion, KEYES indicated that he did not want an attorney present during these discussions, and that one of the conditions of his cooperation was that he receive an execution date within a year. After some discussion about the aforementioned order and KEYES situation/conditions for his continued cooperation with the government, KEYES agreed to cooperate with the government in the investigation of other crimes.

KEYES then provided substantial information regarding his kidnapping, assault and murder of the CURRIERS (subsequently identified as WILLIAM and LORRAINE CURRIER) in Burlington, Vermont in June 2011. These details included describing the victims, identifying a photograph of them, describing the area where he abducted them and the area he transported them to, as well as, the weapons he used during the commission of this crime. Investigators used Google maps, at KEYES direction, to identify the coordinates of these scenes/crimes. Recipient(s) are referred to the audio recording(s) and/or transcript(s) for additional details regarding this contact with KEYES.

Re: 306-AN-15642, 09/12/2012

During interviews with Keyes, Keyes advised agents that, during the kidnapping/murders of the Curriers, Keyes took the Curriers' gun from their residence and later disposed of it in a reservoir in New York. The Curriers' gun (a revolver) was recovered from the reservoir by an FBI USERT team. (NOTE: The gun was rendered safe prior to being placed into evidence storage in Albany.)

The Laboratory is requested to examine the revolver (submitted evidence item 1B195, barcode E4824586) for latent prints for the purpose of determining if Keyes' prints are on the weapon.

drives shuttle bus He works [redacted]

[redacted] America's Most Wanted looking into case now

6:30-6:45 night Feb 18th talked w/ daughter on phone She was cooking getting ready 8pm

works Suite 100 [redacted] getting ready. work - late - called 15 min prior to 8:15 she gone

Comment - call [redacted] to pick up

7:55 she texted [redacted] to pick up - never got msg

Message - for Ride to pick up truck @ [redacted] work.

(884-8370 Samantha's cell 6C1 in his name)

[redacted] called from coffee shop when she wasn't There. - Dad called [redacted] & her phone all night. & Day 18 shift next day - waited not There

Owners of Coffe shop in Oregon - called him next day. Re. Video - her taken - Then Rep'ted her missing.

[redacted] offered to allow download phone

[redacted] home 11:55 pm. "Fuck you asshole. I know what you did. Going to spend couple days w/ friend" - text rec'd - not her language - all was ok at 7:45 phone call w/ [redacted]

Rumors [redacted]

[redacted] aka [redacted]

Owners of coffee shop texted her sometime (drinks that night) responded "bad day" - not like her They live in oregon - not sure if because alarm not set

2/

Samantha - permanent position @ Tudor - few weeks there - had only worked there ~1 month [redacted] trained her @ Dimond location. b6 b7C

Black hoodie him
Lt brown jacket - her

They secured lawyer prior to Rtn. to Alaska

Text/call phone all thru night. @ work noon -

In the morning when girls arrived - shop mess - cash gone. Believes Sam's purse still there

will provide card / ID → Rev & wife said saw her being dragged down road (Tudor) between Eagle & Gamble - saw her trying to break hold.

Sam normally took cell phone, jacket, purse id to work
Harley Davidson tiger print purse - larger purse

(Common Grounds shop) (2/2)
Call - 12-1 pm from [redacted] - looks like someone came thru window - Reported her kidnapped to APD Then. Owners were calling also (?? Did they) to Rpt.
↳ Days later b/4 video available.

[redacted] started calling to try to locate her
[redacted]
[redacted] called few days later liked Samantha befriended. Said there @ coffee stand Jan 31st ~4 pm - Son saw 2 guys parked near light pole - watching Mom. - when Mom looked - They drove around parking lot, then parked again

Silver pick up truck

When she left they left lot also

2 dark haired guys w/ dark hair - description similar to guys [redacted] (one w/ unibrow / Silver Dodge) saw near friends house - trying to steal plow

3/

girlfriend

Lives in Runamuk

Interaction w/ toons - Sam would help w/ toons. - on face book

Sam 1-15 yrs w/ Dad

minimal contact w/ for ~ 6 months

New Years 2010

Feb 18, 2011

- then back w/ Dad, but visited younger siblings and be near

divorced 1997

Began using drugs ~ Feb 2010

took Sam. moved in w/

Lives

Sure if not on drugs now

Feb 18th 2011 - She asked for help. - told of drugs etc - clean since then - gave ultimatum - quit mj. or gone - he quit

4/

[redacted] – [redacted] – Autumn 2011 – moved go to his house – met thru [redacted] – to drive him around to sell weed. – $ for gas. b6 b7C

One day [redacted] ~~tried to sleep~~ raped her – police Rpt. told Dad – afraid of him – didn't complete case. She didn't tell him b/c Rape. He was mad.

[redacted] is only one (Other Than [redacted]) who knows of [redacted] alleged cheating on Samantha.

[redacted] asked to date Sam. early Spring 2011 – explained to both about [redacted] & how to take care of. Cheating came up 1-2 months after began dating. Sam & [redacted] working Thru She found text msg. on his phone – [redacted]

[redacted]

Whoever took Sam – knows [redacted] due to text

[redacted]

Thinks [redacted] Stole drugs That got daughter Kidnapped.

[redacted] told.

[redacted]

[redacted]

[redacted]

under $53K now.

no Response from text wont prove daughter alive

5/

* $5,000 in Samantha's debit card account ~1 wk ago - Tues~~day~~ last week - let know deposited $ .D[redacted] wanted to ~~B~~ wait 24 hours 6/4 sending text. $ Deposited $5K into a/c. will not deposit more until I know daughter alive. Need more than 2week old paper" b6 b7C

while at Golden Corral Mtg - Sam stalk - [redacted] received text "Ain't she purdy - look at Albert - Connor's Lake."

went to [redacted] driving around - looking around - Everyone from (12-15 people) meeting there. - ADD called. - [redacted] called to rpt - bag ziplock ~~attached~~ to missing dog "Albert" poster. - waited for ADD - didn't touch

older S10, Toyota 4Runner - small SUV@ Lake when arrived.

Didn't see note/photo until few days later.

Felt verbage in note indicated person foreign - "thrice" instead of "3"

[redacted] won't talk w/ [redacted] [redacted] in Same click. [redacted] knows, but doesn't hang w/

"Almost got away twice - once on Tudor, once in desert"

* 3:00 AM next day 2/2 - [redacted] saw tall guy in Dr's side door - truck was locked she had key guy in Alice mask in truck. Her DL and his wallet gone. He ran out w/ dog - couldn't find anyone.

b6
b7C

6/ [redacted]

[redacted] ran out - challenged from porch "can I help you" - No response. [redacted] ran back in to get Sam always kept DL in console. Assumes [redacted] Kept Wallet There too. said guy 6'2", 6'3" - [redacted] That face too

He went up Iowa - no one.

Told [redacted] also about Ransom note

Deposit # - told [redacted] - Told them after sent text Lt. [redacted] 614 $ after, told [redacted] 1-2 days after. Not sure if told his Mom. Possibly Dad. and sister [redacted]

* Did NOT tell [redacted] about Randsome note or the deposit

Told family only after sent text message

[redacted]

Red Robin - Tomond Blvd 1-1½ weeks after

Tall Polynesian girl took out "know too much about girl" tall, blond skinny [redacted] "Sissy I gotta go dont want to go back house on 41 ST

[redacted] was in custody APD contact ??

Thursday March 1, 2012

I deposited $5000.00 into that account u requested, in good faith. I need confirmation that Samantha is still alive, and in Alaska. I will do any u want after I get confirmation, please don't harm her any further, let her come home. Thank you [redacted]

7/

Ransom note 2/24/12

Mon Feb 27TH msg sent:

This is Samantha's dad, I received ur demands, I need to have more confirmation that she is OK the paper is from 2 weeks ago. I just cannot her back with me, I will do whatever it takes. I cannot go another day, let alone 6 months or a year. I give u my word I will act alone, put the cash somewhere of ur choosing, I will not involve the police or anything, take the money and go, just bring Samantha back to me. Whoever fucked with us, my family, espicially Samantha, has nothing to do with it, she is not related to whoever stole from u. Tell me what to do

b6

INFORMATION RELEASE RECEIPT AND AGREEMENT

Absent a valid subpoena or other court order, it is the policy of Love's Travel Stops & Country Stores, Inc.'s, through its Loss Prevention Department ("Love's"), to require that any law enforcement agency or other person or entity (the "Requesting Party") requesting access to or a copy of all pertinent documentation and statements gathered at any Love's location (whether one or more, the "Information") complete this Information Release Receipt and Agreement (the "Agreement") and comply with its terms. Questions related to this Agreement may be directed to:

Love's Travel Stops & Country Stores
Attn: [redacted]
10601 N. Pennsylvania Avenue
Oklahoma City, Oklahoma 73120
Telephone: 405.302.6539
Facsimile: 405.463.3539

b6
b7C

Representative of Requesting Party: SA [redacted]

Badge No., PI Credentials, SSN: [redacted] / FBI

Requesting Party Company or Agency Name: FBI

Telephone No.: 505 988-8797

Company or Agency Address: 505 South Main Suite 165, Las Cruces, NM 88001

Date of Incident: 3/8/12 Time of Incident: 2AM - 3AM Type of Incident: Kidnapping

Store Number or Location: Lordsburg, NM Camera Number(s): Main entrance

Police Case Number: 7A-AN-15642

Media Type Requested: Audio: Video: X Information:

Specific Reason(s) for Requesting Information (e.g., case, claim or incident no.):
Video of possible suspect(s) entering and exiting store

In consideration of Love's providing access to or a copy of the referenced Information to the Requesting Party and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Requesting Party hereby acknowledges and agrees as follows:

1. The Information is the sole property of Love's and contains confidential and/or proprietary information which is protected by copyright and other applicable laws.
2. The Requesting Party will not use or in any way duplicate the Information for any purpose other than in an investigation or prosecution of a civil, criminal, administrative or arbitral proceeding, as more particularly specified above, without first obtaining the written consent of Love's.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 445 / 489

3. The Requesting Party will not disclose the Information to any third party, including but not limited to the media, absent a subpoena or court order or without first obtaining the written consent of Love's. Upon permitting such access, the Requesting Party agrees to promptly notify Love's in writing of the name, address and telephone number of such third party.
4. The Requesting Party shall return the Information to Love's at the conclusion of its investigation, prosecution, or other authorized reason for use, unless this requirement is waived in writing by Love's. In the alternative, the Requesting Party may destroy or store the Information, upon completion and return of the Destruction/Storage Receipt below, as indicated.
5. To the extent permitted by law, the Requesting Party agrees to release, discharge, indemnify and hold Love's, its affiliates, directors, officers, agents, employees, successors, and assigns harmless from and against any and all claims, damages, liabilities, costs and expenses, including reasonable attorney's fees, arising out of or resulting from the Requesting Party's use or disclosure of the Information or its failure to abide by the terms of this Agreement.
6. LOVE'S MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, WITH RESPECT TO THE INFORMATION AND, TO THE EXTENT PERMITTED BY LAW, SPECIFICALLY DISCLAIMS ALL WARRANTIES, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING THE CONTENTS OR ACCURACY THEREOF.

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: August 23, 2012

The following specimens were received by the Trace Evidence Unit (Anthropology):

Q219-Q219.1	Debris (1B213, E5098226, Item 5)
Q220-Q220.3	Debris (1B211, E5098224, Item 3)

The results of the anthropological examinations are contained in this report.

1 - Seattle
[redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 455 / 489

Methods:

The determination of whether skeletal material is human or non-human in origin is typically based on examination of gross bone morphology, looking for features or landmarks that are consistent with human or non-human species. In some cases, additional techniques such as quantitative assessment (measurement), microscopic examination, or comparison to published literature or exemplars may be employed.

In this case, the items were examined visually and using elemental analysis (x-ray fluorescence spectrometry).

Results of Examinations:

Items Q219-Q219.1 and Q220-Q220.3 consist of material that is non-skeletal in origin. No further anthropological examinations were conducted.

Limitations

The conclusions that can be reached from anthropological examination of skeletal (or potentially skeletal) material are dependent on the completeness and condition of the material. Results based on fragmentary or poorly preserved material may be inconclusive.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 456 / 489

Remarks:

This report concludes the anthropological examinations conducted by the FBI Laboratory. The items will be returned under separate cover at the completion of the laboratory examinations. The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

For questions about the content of this report, please contact Forensic Examiner/Anthropologist [redacted] b6 b7C

Approved By: SSA [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL
KOENIG, SAMANTHA, TESSLA
ET AL

Synopsis: (U) Anchorage is requesting assistance from receiving divisions in identifying individuals who have been reported missing from Indian Country AOR.

[redacted] b7E

Details:

On 02/01/2012, victim Samantha Koenig was abducted from her place of employment, Common Grounds coffee stand in Anchorage, Alaska. The subject, Israel Keyes, has been interviewed on multiple occasions and has admitted to killing Koenig, providing details about the abduction and homicide. In addition, Keyes admitted to abducting and killing two other individuals, William and Lorraine Currier, in Vermont, the previous year (June 2011).

In addition to Koenig and the Currier's, Keyes indicated he committed other homicides over the past fourteen years. In some cases, Keyes provided general information about the location of the homicide. Keyes incorporated these homicides into his travel across the United States. He often flew into a city, rented a car, and drove through several states before reaching his final destination. It was during these trips that Keyes committed the homicides. Keyes resided in Neah

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 458 / 489

Title: (U) Lead to IC RA's to identify missing people.
Re: 306-AN-15642, 09/12/2012

Bay, Washington from 2001 to 2006, at which point he moved to Alaska. Keyes admitted to committing homicides while living in Washington also. While living in Neah Bay, he worked for the Makah Tribe and was in a relationship with an Native American woman. As a result, Keyes is very comfortable on reservations and familiar with life on a reservation.

The Anchorage Division has reviewed thousands of missing person reports found in NCIC, NameUs, and other online databases in an attempt to connect someone that is missing to a location that Keyes was in. Anchorage recently learned that many tribal police agencies or organizations do not report missing people to NCIC or other government databases. As a result, Anchorage is requesting that receiving offices/RA's query contacts on the reservations in their territory to obtain the names of missing people during the time frames noted below. It would be very helpful to have other information about the missing person to include the circumstances of his/her disappearance, location at time of disappearance, suspects in the case, etc. Anchorage is requesting queries about all missing people - male and female, adults and children.

Due to the nature of the case, Anchorage is requesting that receiving offices not mention Keyes or Alaska when contacting tribal police/organizations. Anchorage is currently in plea negotiations with Keyes and any information that gets out to the public about his past homicides could impede the negotiations.

Captioned case is restricted. All of the known SSA/SSRA's receiving this lead will be added as case participants to facilitate assignment of the lead. Anchorage is requesting the assigned agent contact SA [redacted] to facilitate their access to the case.

Please contact SA [redacted] if you have questions via e-mail or cell at [redacted]

b6
b7C

Below are dates that Keyes was known to be in or near each divisions AOR. Anchorage is requesting assigned agent query IC contacts on the relevant dates. However, it may easier for the IC authorities to

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/24/2012

On 7-23-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was contacted at the Anchorage Jail, , Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] and FBI Special Agent [redacted] This contact with KEYES provided the following information: b6 b7C

Law enforcement went to the jail to see if Keyes had had an opportunity to review the documents presented to him by AUSA [redacted] on 07/20/2012. When law enforcement last met with KEYES on 07/20/2012 he advised he would be ready to discuss the agreement at this time. KEYES told TFO [redacted] that he had a meeting planned with his stand-by council for today and said that they (his council) would be in touch with AUSA [redacted] as early as 07/24/2012 to discuss further the agreement. KEYES advise TFO [redacted] that "you guys won't be happy". TFO [redacted] told KEYES that law enforcement looked forward to a meeting with him and his stand-by council. Law enforcement then left the jail and KEYES was returned to his cell.

Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;
ET AL;
SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: August 23, 2012

The following specimens were examined in the Trace Evidence Unit (Hair and Fiber):

Q221	Piece of gunnel (1B244, E5098237, Item 26)
Q222	Bilge pump (1B225, E5098238, Item 17)
Q223	Debris (1B209, E5098222, Item 1)
Q224	Debris (1B221, E5098234, Item 13)
Q225	Debris (1B210, E5098223, Item 2)
Q226	Rope (1B215, E5098228, Item 7)
Q227	Debris (1B212, E5098225, Item 4)

1 - Seattle
[redacted]

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 473 / 489

Q228	Debris (1B223, E5098236, Item 15)
Q229-Q232	Four screws (1B220, E5098233, Item 12)
Q233	Screw (1B219, E5098232, Item 11)

The results of the trace evidence examinations (hair and fiber) are included in this report.

Methods:

Microscopic examination of hairs is accomplished by using stereomicroscopy and comparison microscopy. The presence or absence, appearance, arrangement and distribution of the characteristics within the cuticle, cortex, and medulla of the hairs are examined and may be compared during a hair examination.

Microscopic examination of fibers is accomplished by using one or more analytical techniques including stereomicroscopy, comparison microscopy, polarized light microscopy, fluorescence microscopy, and instrumentally using microspectrophotometry and Fourier transform-infrared spectroscopy. The microscopic characteristics and optical properties determined by these techniques are used for the examination and comparison of fibers.

Results of Examinations:

A Caucasian head hair was found on specimen Q222. This hair is microscopically dissimilar to the K3 known head hair sample (FBI Laboratory number 120822003 PF ABE) identified as coming from ISRAEL KEYES; accordingly, ISRAEL KEYES cannot be included as a possible source of this hair. It should be noted that hairs can change over time.

Numerous dog hairs were found on specimens Q221 and Q222.

No other hairs suitable for significant comparison purposes and microscopically dissimilar to the K3 known head hair sample (FBI Laboratory number 120822003 PF ABE) were found on or in the submitted specimens.

Textile fibers of various types and colors were found on or in specimens Q221 through Q223 and Q225 through Q233. No fibers were found in specimen Q224.

Examinations were conducted using microscopy including stereomicroscopy and comparison microscopy.

Interpretation:

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 474 / 489

Characteristics of hairs can be used to determine whether the hair is human or non-human, body area, racial characteristics, artificial treatment and whether a hair has been forcibly removed or naturally shed. The characteristics exhibited in the hair(s) are used as the comparison criteria. When the presence or absence, appearance, arrangement, and distribution of macroscopic and microscopic characteristics exhibited in a recovered hair(s) are the same as in a potential source, the possibility that the compared hair(s) originated from the same source cannot be excluded. Consequently, the source of the known sample can be included as a possible source of the recovered hair(s), although the association of hairs using macroscopic and microscopic characteristics does not constitute a basis for absolute personal identification.

Fibers can differ as to type (e.g., rayon, cotton), color, shape, size, microscopic features (e.g. presence of delustering agents, voids) and optical properties (e.g., refractive index, sign of elongation). These are characteristics that may associate fibers with a group of items, but never to a single item to the exclusion of all others. However, even fibers with many similar properties may be excluded as originating from the same source by using the identified analytical methods.

The characteristics present in the fibers are used as comparison criteria. When all of the characteristics present in a recovered fiber are the same as in a potential source, the possibility that the compared fibers originated from the same source cannot be excluded. Consequently, the recovered fibers are consistent with originating from the known source, or from another source comprised of fibers that exhibit the same microscopic characteristics and optical properties.

The inability to associate specimens through a microscopic hair/fiber examination does not preclude that the persons/items of interest had contact with each other. A number of factors can produce this result, including: 1) Hair/fiber evidence may not have transferred. 2) Hairs/fibers that did transfer may have been lost prior to submission to the laboratory. 3) The hairs/fibers transferred or the known comparison specimen submitted may not be representative of the source. 4) The hairs/fibers may be from a different source.

Remarks:

The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files.

FD-302 (Rev. 5-8-10)

FEDERAL BUREAU OF INVESTIGATION

Date of entry 09/21/2012

[redacted] white male, born [redacted] Social Security Account Number [redacted] residing at [redacted] Tulsa, Oklahoma 74114, cellular telephone number [redacted] employed as [redacted] Tulsa, Oklahoma, was interviewed at the office of the FEDERAL BUREAU OF INVESTIGATION, 8023 East 63rd Place, Suite 400, Tulsa, Oklahoma. After being advised of the identities of the interviewing Agents and the nature of the interview, [redacted] provided the following information:

b6
b7C

[redacted] advised that since learning of the nature of the interview he had researched ISRAEL KEYES on the Internet to see what kind of trouble KEYES was in. [redacted] informed the interviewing agents he [redacted] was aware of what people were alleging against KEYES regarding the kidnapping and killing of "some people" in Vermont. [redacted] considered himself a close friend of KEYES. [redacted] had not spoken with KEYES for approximately eight years. [redacted] recalled an occasion, within the past eight years, when KEYES called late at night and [redacted] girlfriend answered the telephone. KEYES was extremely intoxicated and [redacted] girlfriend hung up on KEYES.

[redacted] served with KEYES in the UNITED STATES ARMY while stationed in Egypt and at Fort Lewis, Washington. [redacted] and KEYES were on the same Infantry Squad and lived in the same barracks while serving in the Army. [redacted] and KEYES were very close friends during their service in the Army. [redacted] and KEYES were stationed at Fort Lewis for approximately three years. Their Squad spent approximately nine months in Egypt on a multi-national peacekeeping mission. [redacted] advised he had several photographs of himself and KEYES while they served in the Army together.

While serving in Egypt, [redacted] and KEYES would frequently cross the border into Israel. [redacted] did not believe KEYES had any prejudices against anyone of race, religion, nationality or sexual orientation. While in Egypt, KEYES asked [redacted] to brand a pentagram on the back of his (KEYES') neck. [redacted] used a heated coat hanger to brand KEYES neck. Since [redacted] could not bend the hanger into a pentagram with straight lines, he used a single straight strand of the hanger and branded KEYES several times to create the pentagram. [redacted] believed the pentagram was KEYES' way of revolting against his (KEYES') family.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 477 / 489

b6
b7C

[redacted] recalled an occasion while off duty in Seattle when he and KEYES accidentally went into a gay bar. Once KEYES recognized they were in a gay bar, KEYES wanted to immediately leave and said he hated homosexuals. [redacted] believed KEYES was heterosexual and had no reason or observations to believe otherwise.

[redacted] believed KEYES was married and had a child. KEYES married a [redacted] did not know the woman's name, but believed they lived on an Indian reservation together in Washington. [redacted] believed KEYES may have worked as a forest ranger on the reservation. [redacted] was unaware of any other relationships or girlfriends that KEYES may have had. KEYES was not the type to date lots of women.

To [redacted] knowledge, KEYES was not a criminal. KEYES had discussed a few burglaries he had committed before he entered the military. KEYES' family became "ultra religious" after KEYES joined the military. [redacted] believed KEYES' family was either an extreme Amish group or part of a religious cult. KEYES' family disowned him for joining the military and having a relationship [redacted] with a non-white person.

[redacted] and KEYES had "normal Army talk" about crime and "good ways to make money." KEYES had a plan to rob several banks along a rural stretch of highway. KEYES believed he could get away with the bank robberies if he struck at the right time and place. KEYES also talked about his plans to kidnap people and hold them for ransom on a mass scale. KEYES told [redacted] he would have to ask for a "reasonable" amount of money that people could actually come up with. KEYES advised [redacted] that he could never give the kidnap victims back to their families because they would recognize him and be able to tie him to the crime. [redacted] assumed KEYES meant he would have to kill them and/or dispose of them when he said "he could never give them back."

When asked if he was surprised KEYES was arrested for kidnapping and murder, [redacted] advised, "I'm surprised he went through with the murders and got caught...he was smarter than that."

KEYES and all the soldiers on the Squad drank frequently as soldiers do to pass time. [redacted] described KEYES as, "a mean drunk." [redacted] knew KEYES to occasionally use cocaine while serving in the Army. PERKINS was not worried about KEYES' use of cocaine because "everyone in the Infantry used a little cocaine now and then." [redacted] never saw KEYES use any other illegal drugs.

According to [redacted], KEYES was an avid outdoorsman that enjoyed

 b6 b7C

hunting, fishing, backpacking, hiking and camping. KEYES loved the state of Washington and would have done these activities at any forest areas near Fort Lewis. [redacted] was unaware of other locations KEYES may have enjoyed his outdoor activities. KEYES loved video games, particularly military games and games of violence such as Call of Duty.

[redacted] advised [redacted] (phonetic) and [redacted] were the other members of his and KEYES' Army Infantry Squad. [redacted] believed [redacted] resided in Wisconsin, [redacted] was married and worked for the United States Postal Service, [redacted] resided in Florida, [redacted] resided in Seattle, Washington and [redacted] whom was of [redacted] dissent, resided in New York. Although the entire Squad was very close, [redacted] was probably the closest to KEYES. [redacted] felt [redacted] was also close to KEYES.

At the conclusion of the interview, [redacted] informed the interviewing agents he was available for follow-up interviews as needed. b6 b7C b7E

Title: (U) List of missing persons in Whatcom County, WA.
Re: 306-AN-15642, 09/25/2012

09/25/2012, writer telephonically contacted Lieutenant [redacted] of the Nooksack Tribal Police Department (NTPD) to determine if any missing persons investigations conducted between 2001 and the present date remained unresolved. Lt. [redacted] stated that the NTPD does not have any unresolved missing persons cases. b6 b7C

On the same date, writer telephonically contacted Lummi Nation Tribal Police Department (LNPD) Detective Sergeant [redacted] to determine if any missing persons investigations conducted between 2001 and the present date remain unresolved. Sergeant [redacted] responded that the only unresolved missing persons case at LNPD is that of [redacted] who was reported missing in November of 2011. Although it was not discussed in this telephone call, writer is aware that [redacted] was wanted by police when he disappeared, and that several witnesses have reported seeing him in recent months.

Although not specifically addressed in the referenced lead, writer would like to bring two unsolved homicide investigations to the attention of Agents investigating Israel Keyes:

Information pertinent to the first case is contained in file number 198A-SE-94754. The victim, Shannon Paulene Lathrop, date of birth 09/25/1977, SSAN 538-78-3694, was a 5'7" tall female with dark brown or black hair who weighed approximately 150-180 pounds. Lathrop was allegedly a prostitute, and she had a history of mental illness. She died on an unknown date in June or July 2000, and her partially decomposed body was found on 07/24/2000 on the Lummi Indian Reservation in Bellingham, WA. The manner of her death is currently unknown.

Information pertinent to the second case is contained in file number [redacted] The victim, Leah Toby Roberts, date of birth 07/23/1976, was a 5'5" tall female who weighed approximately 130 pounds. Roberts was last seen in Bellingham, WA on 03/13/2000, and her vehicle was found off the side of a road in the Mt. Baker National Forest on 03/18/2000. Roberts is presumed dead, but her body has not been found. b7E

Lead covered.

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL
KOENIG, SAMANTHA, TESSLA
ET AL

Synopsis: (U) Anchorage is requesting assistance from Albuquerque Division in identifying individuals who have been reported missing from Indian Country AOR.

[redacted] b7E

Details:

On 02/01/2012, victim Samantha Koenig was abducted from her place of employment, Common Grounds coffee stand in Anchorage, Alaska. The subject, Israel Keyes, has been interviewed on multiple occasions and has admitted to killing Koenig, providing details about the abduction and homicide. In addition, Keyes admitted to abducting and killing two other individuals, William and Lorraine Currier, in Vermont, the previous year (June 2011).

In addition to Koenig and the Currier's, Keyes indicated he committed other homicides over the past fourteen years. In some cases, Keyes provided general information about the location of the homicide. Keyes incorporated these homicides into his travel across the United States. He often flew into a city, rented a car, and drove through several states before reaching his final destination. It was during these trips that Keyes committed the homicides. Keyes resided in Neah

FBI Records: The Vault — Israel Keyes LastKnownContact.com Part 03: Pg 484 / 489

Title: (U) Re-sending lead to AQ squad 7 - IC missing people
Re: 306-AN-15642, 09/27/2012

Bay, Washington from 2001 to 2006, at which point he moved to Alaska. Keyes admitted to committing homicides while living in Washington also. While living in Neah Bay, he worked for the Makah Tribe and was in a relationship with an Native American woman. As a result, Keyes is very comfortable on reservations and familiar with life on a reservation.

The Anchorage Division has reviewed thousands of missing person reports found in NCIC, NameUs, and other online databases in an attempt to connect someone that is missing to a location that Keyes was in. Anchorage recently learned that many tribal police agencies or organizations do not report missing people to NCIC or other government databases. As a result, Anchorage is requesting that receiving offices/RA's query contacts on the reservations in their territory to obtain the names of missing people during the time frames noted below. It would be very helpful to have other information about the missing person to include the circumstances of his/her disappearance, location at time of disappearance, suspects in the case, etc. Anchorage is requesting queries about all missing people - male and female, adults and children.

Due to the nature of the case, Anchorage is requesting that receiving offices not mention Keyes or Alaska when contacting tribal police/organizations. Anchorage is currently in plea negotiations with Keyes and any information that gets out to the public about his past homicides could impede the negotiations.

Captioned case is restricted. Anchorage is requesting the assigned agent contact SA [redacted] to facilitate their access to the case. b6 b7C

Below are dates that Keyes was known to be in or near Albuquerque Divisions AOR. Anchorage is requesting assigned agent query IC contacts on the relevant dates. However, it may easier for the IC authorities to provide a comprehensive list of all missing people from 2001 to 2012. If so, Anchorage will review and pull out the relevant dates.

Keyes traveled in Albuquerque territory:

FD-302 (Rev. 5-8-10)

General Records

FEDERAL BUREAU OF INVESTIGATION

Date of entry 09/19/2012

On 09/06/2012, SA [redacted] telephonically contacted [redacted] b6 b7C an Optometrist whose business is located at 33 Blair Park Road, Williston, Vermont 05495, office telephone number [redacted] name had previously been provided by WILLIAM CURRIER's mother, [redacted] as WILLIAM CURRIER's Optometrist. [redacted] was advised of the interviewing agent's identity and the purpose of the interview. [redacted] provided the following information:

[redacted] was both WILLIAM CURRIER and LORRAINE CURRIER's Optometrist. [redacted] mainly saw LORRAINE CURRIER who saw [redacted] once a year. After a review of his files, [redacted] advised that [redacted] last saw WILLIAM CURRIER four years ago (in 2008) at which time [redacted] dispensed custom frame prescription glasses to WILLIAM CURRIER. [redacted] described the custom frames as being CHARMOT frames with the following writing on the frames of the glasses: "CHARMOT CFX; CX7422 (model); DO (on temple area of glasses) and 55/19 (eye size/bridge size)."

[redacted] advised that he could use a machine in his office to read the prescription of the eye glasses in question, to compare to his records for WILLIAM CURRIER, if necessary. [redacted] further advised that he maintains his files for 6 to 7 years.

Investigation on 09/06/2012 at Rutland, Vermont, United States (Phone)

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/24/2012

On 6-29-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was contacted at the Anchorage Jail, 1300 East 4th Avenue, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] and FBI Special Agent (SA) [redacted] KEYES was aware of the identities of the contacting personnel, and he provided the following information:

b6
b7C

TFO [redacted] and SA [redacted] visited KEYES at the Anchorage Jail to ask KEYES if he wanted to discuss the Currier case further. KEYES indicated that he had nothing new to discuss that day, including the location of the victim he mentioned in New York, and he did not see any reason to meet with law enforcement. KEYES also noted that things seemed like they were stalled, and he didn't see anything "in it for him" to talk to law enforcement at that time. KEYES was advised that the investigation into his other crimes would continue along "normal" law enforcement guidelines, and that law enforcement would check with him later, to see if he wanted to continue his discussions with law enforcement. KEYES indicated that was acceptable and that he was amenable to future meetings.

Investigation on 06/29/2012 at Anchorage, Alaska, United States (In Person)

FD-302 (Rev. 5-8-10)

FEDERAL BUREAU OF INVESTIGATION

Date of entry 07/19/2012

On 5-29-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was interviewed at the FBI Building, 101 E. 6th Ave, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] [redacted] FBI Special Agent (SA) [redacted] and Assistant United State Attorney (AUSA) [redacted] KEYES was aware of the identities of the interviewing personnel, and he provided the following information: b6 b7C

AUSA [redacted] presented KEYES with the letter from Vermont, in which Vermont pledged to KEYES that they would not seek state charges against him, if he continued to cooperate with Alaska investigators regarding "other" crimes, specifically naming the victim that KEYES buried in the state of New York. KEYES expressed his desire to continue to cooperate, and that his main focus was to shelter his daughter from ever learning about his crimes.

KEYES was questioned about his crimes in New York and Washington State. KEYES was asked for more details, but he was unwilling to provide more details at that time. KEYES indicated that both federal districts of Washington State were likely to be involved, and suggested that his two murders there were on both ends of the state. KEYES was also unsure whether his murders in Washington State would meet federal guidelines, and he wanted to hold those crimes to himself, in case he needed to "play those cards" later, to get what he wanted (KEYES repeatedly indicated that he wanted a death sentence during previous contacts with the government). KEYES also agreed to speak with the local Essex, Vermont investigators in the next few days. Recipient(s) are referred to the audio recording(s) and/or transcript(s) for additional details regarding this interview with KEYES.

Investigation on 05/29/2012 at Anchorage, Alaska, United States (In Person)

Title: (U) Travel Timeline for Israel Keyes **Date:** 09/24/2012

To: [redacted] b6 b7C

From: ANCHORAGE
AN-FIG
Contact: [redacted]

Approved By: [redacted]

Drafted By: [redacted]

Case ID #: 306-AN-15642 (U) KEYES, ISRAEL
KOENIG, SAMANTHA, TESSLA
ET AL

Synopsis: (U) Travel timeline for Israel Keyes, to include, but not limited to, airlines, rental car, and hotel records

[redacted] b7E

Enclosure(s): Enclosed are the following items:
1. (U) Excel Spreadsheet of Israel Keyes' Travel

Details:

SOS [redacted] compiled Israel Keyes' airline, rental car, hotel, ferry, and other pertinent travel records into an Excel spreadsheet. The spreadsheet spans Keyes' travels from 1999 to March 2012. The spreadsheet also includes some travels of [redacted] due to the fact that they may have been traveling together and/or she funded a portion of the trip. Information will be added to the spreadsheet as more records are obtained through subpoenas. b6 b7C

FEDERAL BUREAU OF INVESTIGATION

Date of entry 10/03/2012

On 9-27-2012, ISRAEL KEYES, date of birth (DOB) 1-7-1978, was interviewed at the Anchorage Jail Complex, 1300 E. 4th Ave, Anchorage, Alaska. Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] and FBI Special Agent [redacted] KEYES provided the following information: b6 b7C

Law enforcement visited KEYES to enquire if he would be interested in once again speaking to agents regarding his "other" crimes. KEYES told law enforcement that he would be amenable to returning to the FBI and speaking with agents. KEYES appeared to be in good spirts and agreed to met with law enforcement the following day. KEYES told law enforcement that meeting with agents the following day would not interfere with his "other" meetings.

Present were Federal Bureau of Investigation (FBI) Task Force Officer (TFO) [redacted] and FBI Special Agent [redacted] KEYES provided the following information: b6 b7C

Law enforcement contacted KEYES at the Anchorage Jail on 10-03-2012 as had been arranged with KEYES on 09-28-2012. KEYES had told law enforcement that he was wanting to continue talks with agents regarding his other crimes, KEYES was going to take the weekend to think about some demands he might have before beginning these talks. KEYES told law enforcement that he didn't wish to come with us at this time and he didn't know when he would be, he said he was "debating" some things. KEYES told law enforcement that we could continue to come over and check with him about continuing our talks.

FEDERAL BUREAU OF INVESTIGATION

Date of entry 08/29/2012

Between May 7, 2012, at approximately 10:15am and July 20, 2012, at approximately 3:40pm, pursuant to consent received from New England Waste Services of Vermont Inc, aka, the Coventry Landfill, a search was conducted at the Coventry Landfill, 21 Landfill Lane, Newport, Vermont by the below referenced personnel. The search was focused on an area of trash placement on October 26, 2011, and October 27, 2011. The purpose of the search was to attempt to locate and recover the human remains of William and Lorraine Currier of Essex, Vermont. The remains of the Curriers were not recovered as a result of this search.

The following personnel participated in the search:

At different points during the period of the search, Special Agents each assumed the incident commander role. The incident commander role handled duties which included among others entering search intelligence received from operations command into the Evidence Response Team administrative log.

At different points during the period of the search, Special Agent Special Agent Special Agent and Lieutenant assumed the operations command role.

The following personnel from the FBI Evidence Response Team Unit were on scene for portions of the search and provided assistance to operations command:

Personnel from the Hazardous Materials Operations Unit (HMOU) provided a daily safety plan which included HMOU personnel working with searchers during the search of trash. The following HMOU personnel were deployed at the landfill:

Digital photographs of the search were taken at the beginning and end of each day and in some instances during the above consent search which included photographing items of evidence collected. Photo logs were completed to correspond with each photograph taken. The digital images captured were archived by SA [redacted] and by SA [redacted] from the camera storage media to either a CD or DVD and were placed into 1A envelopes which are maintained with the case file. b6 b7C

[redacted] Anthropologist with the Smithsonian Institution National Museum of Natural History, was present for several days during the search. During the time he was present, [redacted] reviewed questioned bones located by searchers for determination about whether the bones were human or non-human.

When [redacted] was not present, questioned bones were assigned a questioned bone (QB) number, digitally photographed and sent via email to FBI Anthropologist [redacted] at the FBI Laboratory for determination about whether the bones depicted were human or non-human. Photo logs were completed to correspond with each photograph taken. The digital images captured were archived by SA [redacted] and SA [redacted] from the camera storage media to either a CD or DVD and were placed into 1A envelopes which are maintained with the case file.

Video photography was taken during the setup day on 05/07/2012 and periodically thereafter during the period of the landfill search. With the exception of approximately one day in which video was taken during the search, on days video was taken, video was taken after the conclusion of searching for the day. The video was captured on MiniDV video tapes. The video tapes were placed into 1A envelopes which are maintained with the case file.

Prior to the start of the search, landfill representatives provided topographical maps and aerial photographs which contained outlines of the approximate area of trash placement at the landfill on October 26, 2011, and October 27, 2011. Hand written sketches reflecting the approximate surface area searched at various points during the search were prepared by SA [redacted]

During business hours, FBI Albany Division personnel maintained a sign-in/sign-out log. Scene security was provided by the Vermont State Police during non-business hours, weekends and holidays.

At the conclusion of the search, on 07/18/2012 and 07/19/2012, a total station system was used to map out the total area excavated. On 07/20/2012 aerial photographs were taken of the entire landfill which included the

Subject: American Flag

Classification: UNCLASSIFIED
==========

[redacted]

Based on our conversation, the facts as I understand it are as follows:

1) Casella Waste Systems owns/operates the Coventry Landfill

2) As part of the ERT's investigative function, an American Flag was uncovered at the landfill (on Flag Day)

3) The flag has been flying at the landfill since that time

4) [redacted] Associate General Counsel for Casella Waste Systems (CWS), indicated that CWS has no objection to the FBI keeping the flag

5) Your intention is to display the flag at the FBI Albany Division

Please advise if any of the facts are not as I understand them.

I discussed this with AD Patrick Kelley. As the flag will be utilized as a display in FBI space, was found abandoned in a landfill, and CWS has no objection, there is no problem with the FBI keeping the flag and utilizing it as a display on FBI premises.

Thanks for all your efforts during the search – I realize it was very difficult on many levels.

Paul

[redacted] it was, likewise, a pleasure working with you, [redacted] and your whole team. You all operated with skill, professionalism and courtesy, in difficult conditions and in pursuit of an elusive goal. I am sorry that those efforts were not met with the success you (and we) were hoping for. We were glad to do what we could to assist, and from a purely personal perspective, watching you guys work made me proud of our country.

By this e-mail I am confirming agreement with your points stated below, and wish you and your colleagues all the best in solving this case.

Regards,

[redacted]

FBI Records: The Vault — LastKnownContact.com

Dear [redacted]

b6
b7C

It has been a pleasure working with you.

The purpose of this email is to confirm and memorialize our telephone conversations occurring on Sunday, July 8, 2012, and on Wednesday, July 18, 2012. The topic of the conversations were regarding non-evidentiary items recovered from the landfill.

During our telephone conversation on July 8, 2012, you approved of the following:

- the removal of American flags located in the landfill during the search so that the flags can be properly destroyed
- the return by the Vermont State Police of a wallet containing identification and money to its owner
- loose U.S. currency and coins will be turned over to the scale house personnel at the Coventry landfill.

During our telephone conversation on July 18, 2012, you granted approval for the FBI to remove an American flag which was recovered from the landfill on Flag day and which has been flown at the landfill since that time. It is my intention to have the flag displayed at the Albany field office of the FBI.

Please confirm your receipt and agreement with this email.

Very truly yours,

[redacted]
Special Agent - FBI

Details:

In June, 2011, Bill and Lorraine Currier of Essex, Vermont, went missing. Investigation by Federal, State and local law enforcement agencies did not generate any solid leads with respect to the Curriers disappearance.

UNCLASSIFIED

UNCLASSIFIED

Title: (U) Cover lead from Boston
Re: 306-AN-15642, 10/09/2012

In April, 2012, Albany Division received information from Anchorage Division that Bill and Lorraine Currier were murdered in June 2011, and their bodies were left in an abandoned farmhouse in Essex, Vermont. Investigation revealed that the abandoned farmhouse was demolished at the end of October, 2011. Investigation further determined that the demolition debris was taken to the All Cycle transfer station in Williston, Vermont, where it was then transported to the Coventry Landfill in Newport, Vermont.

When the farmhouse was demolished, the basement of the farmhouse was filled in with the stone walls of the house. In April, 2012, investigators dug out the basement and sifted the contents, however, the Curriers remains were not recovered. Investigation at this point led to the Coventry Landfill.

Referenced serial documents the consent search conducted at the Coventry Landfill from 05/07/2012 to 07/20/2012 for the remains of Bill and Lorraine Currier. The search focused on an area of trash placement on 10/26/2011 and 10/27/2011. At the conclusion of searching at the Coventry Landfill on 7/18/2012, Investigators were unable to locate the remains of Bill and Lorraine Currier.

At the conclusion of the search at the Coventry Landfill, on 07/18/2012 and 07/19/2012, a Total Station team from Boston Division ERT surveyed the search site with its Total Station surveying equipment. Additionally, on 07/20/2012, aerial photographs were taken by an FBI photo plane.

At the request of Boston Division Total Station operator SA [redacted] Albany Division was instructed to provide the Operational Projects Unit with copies of search notes, search photographs and photo logs. Based on this request, Albany is providing the following to the Operational Projects Unit: 1) Copies of landfill sketches prepared on multiple days during the Coventry Landfill search of the area being dug (trash placement on 10/26/2012 and 10/27/2012); 2) A work copy CD containing the ERT Final Casebook and the narrative continuation sheet
